Subject: PACC Support from Raytheon Animal House

To Whom It May Concern

I wanted to reach out to express how important authorized funding for PACC is. PACC is a rescue which is built on the hearts and souls of volunteers who have the truest intention in their heart. Too often, politics, funding, and red tape cause many lives to be wasted and volunteers to become over burned by sadness causing them to leave a rescue to save their sanity. It is so easy to loose the focus that each animal saved makes a difference when you look at the numbers of deaths due to over crowding and lack of treatment. Each of these souls is a chance for a family or child to find a best friend. The ability of the state to provide funding that allows an extra day makes a difference.

I am unable to make the meeting at the Board of Supervisor's Hearing Room due as I am on travel. However, as President of Raytheon Missile System's Animal House Club, I wanted to reach out and express the hope that the message will be heard and Mr. Huckleberry's request will be passed. I know that most everyone has had or currently has an animal in their life or has been impacted at some time (good or bad) by a furry, scaled, or feathered soul, we have an opportunity to impact a life other than our own.

Many stories come out of PACC (Good and bad), but PACC is a movement and four walls based on such pure intentions of making a life which will probably end shortly as comfortable and peaceful as it can be. I am sure that in your heart, you see the same struggle and understand from a different point of view. I think that together a difference can be made. Please Please Please listen with your heart and decide with a mind not boxed in by budgets and numbers. Anything can make a difference.

Thank you
