Item #15 is clearly intended to stifle public exposure and discussion about the growing Crime, Drug Addiction and Homelessness problem in the greater Tucson metroplex. Differences of opinion are healthy and should be expressed in the public sessions when different members of the Board desire to bring matters to the public discussion. The new Board Chair was elected to facilitate the business of the Board of Supervisors. Not to block healthy public discussion. Support for Item #15 clearly indicates a desire on the part of the Board members to join in the effort to limit public discussion by limiting the ability to add important subjects to the public agenda.

I urge each Board member to vote NO on Item #15. Please respect the ability for members to add items to the agenda which the Board may reject, item by item, if a particular subject is held to be not of interest to the public by a majority of the Supervisors. There is no basis for establishing beuracratc roadblocks to agenda items in addition to the current system other than to hide from public view difficult discussions that may be placed into the public discussion limelight.

To the Board of Supervisors,
Your proposed Agenda Policy and Addendum process and form slated for the Feb 7 meeting discussion seems unnecessary and only adding time and steps to what should be a simple process. The advance form required is extremely bureaucratic. If there is an item of community interest and benefiting from discussion it may not initially have a specific fiscal or legal impact. Why are you requiring this prior to any discussion? But open discussion at a meeting can uncover and generate important next steps to take if a matter is worthy of pursuit. **At that point** fiscal and legal impacts might need to be explored. Your proposed form seems to add major restrictions to open discussion by County official and the constituents they represent.

Please drop this item. Yes, you might need to define your process and timeframes more. Please then, focus on process to bring items to the table in a timely manner, discuss them in a factual manner, determine next steps and move on. The proposed form as defined is truly the least helpful way to do this.

Thank you.

The adoption of the proposed new Administrative Procedure is a dual edged sword. If you vote "Yes" you will be limiting YOUR ability to provide for your constituents ability to quickly bring important issues to the floor. Another aspect of this which is troublesome is that the proposed procedure interferes with the public's ability to freely engage in the protections afforded under the 1st Amendment to the US Constitution - this is a slippery slope and a tactic which is frequently used by Authoritarian rulers.

Ted Herman
