Subject: Mask Resolution and Vaccine Policy

[REDACTED]

To whom it may concern,

Mandating masks and the COVID shot is in VIOLATION OF STATE LAW. There are those who feel this is the appropriate way to protect themselves and their families, and the Pima County Republican Party agrees with their right to do so!! **HOWEVER!!** There are those who feel that NOT wearing a mask and NOT receiving the vaccine is the most appropriate way to protect themselves and their families. These families have the right to protect their families, too! The COVID shot was approved for emergency use and is STILL IN TRIAL. Myself, my husband, and my son have medical conditions that make it extremely risky to get the COVID shot. Our chances of surviving the COVID virus are better than the permanent damage the COVID shot would cause to our bodies. Even if this wasn't the case, the government should not be allowed to mandate a shot that is still in trial! I am supportive of vaccinations, and a patient's right to accept or refuse treatments. I believe vaccinations are among the greatest contributions to modern medicine. I know that if individuals wear the right kind of mask that has been properly fitted and used as directed by a medical professional, it will reduce the likelihood of receiving and transmitting certain diseases. That being the case, I am very opposed to the government directly requiring or indirectly coercing anyone to receive a vaccine (especially one they are not comfortable receiving) or wearing a mask. We are each responsible for our own health and well being. It is the responsibility of an individual's trusted health provider to provide them with current and accurate information so the PATIENT MAY DECIDE FOR THEMSELVES WHICH COURSE OF ACTION TO TAKE. This is NOT the responsibility of the government.

If we are to preserve the democratic republic form of government that we enjoy now, then there is no longer a place for the government to dictate or intervene in our individual lives when it comes to COVID-19.

Thank you,
