Re: P17RZ00004 North La Cholla Boulevard Rezoning

Pima Trails worked with Pima County DOT and Flood Control when La Cholla was to be widened to make sure that equestrians on the east side of La Cholla could cross at McCarty and travel north to the Metro water tank and then access the shared path to the CDO. In fact work was done to enable horses to cross over the drainage ditch at the water tank area so they would not have to walk in the motorized travel lane. Both departments did a great job.

Anything that impedes the safety of the equestrian crossing at McCarty would in effect nullify all of the prior planning to ensure that equestrians in this area can ride to the CDO.

Thank you for your consideration.

Sincerely,

Sue Clark, President
