

Board of Supervisors Memorandum

May 15, 2018

Sales Tax Implementation Plan Ordinance and Public Hearing

Background

At the Board's May 1, 2018 meeting, the Board again discussed a draft version of the Sales Tax Implementation Ordinance, which included a draft 10 year plan for improving the condition of every paved County-maintained road, and a draft Resolution Levying a General Excise (Sales) Tax. As no changes were requested at that last meeting, the final version of the Sales Tax Implementation Plan Ordinance is now attached for your approval or disapproval on May 15, 2018. If a majority of the Board approve the ordinance, it will not become effective if or until all five members of the Board approve the Resolution Levying a General Excise (Sales) Tax. The resolution will be placed on the Board's June 19, 2018 agenda for approval or disapproval. Per state law, the Board can only consider ordinances after holding a public hearing that has been noticed at least 15 days prior. Notices were published in the Daily Territorial on April 25, 2018 and Arizona Daily Star on April 29, 2018.

Also as directed by the Board, staff have notified homeowner associations within unincorporated Pima County, chambers of commerce, individuals that submitted comments to the Sales Tax Advisory Committee and Transportation Advisory Committee, those that submitted road repair requests to the Department of Transportation, and other organizations and stakeholders. These notifications included a link to a new web page: www.pima.gov/roadrepairplan.

Recommendation

I recommend the Board approve the Sales Tax Implementation Plan Ordinance after the necessary public hearing.

Sincerely,

A handwritten signature in black ink, appearing to read "C.H. Huckelberry".

C.H. Huckelberry
County Administrator

Sales Tax Implementation Plan Ordinance

ORDINANCE NO. 2018 - ____

**AN ORDINANCE OF THE BOARD OF SUPERVISORS OF PIMA COUNTY, ARIZONA,
ADOPTING THE PIMA COUNTY GENERAL SALES TAX IMPLEMENTATION PLAN**

The Board of Supervisors of Pima County (the “Board”) finds that:

- A. Pima County, beginning in fiscal year 2017/18, levied and has collected a local road repair property tax under A.R.S. § 28-6712 at the rate of 25-cents per \$100 of taxable net assessed value (the “Road Repair Property Tax”), the revenues of which are insufficient to repair the County’s roads in a reasonable time period.
- B. Pima County has authority, under A.R.S. § 42-6103, to adopt a general excise tax (the “Sales Tax”) by a unanimous vote of the Board.¹ The tax rate specified in the statute equates to one-half percent for most transactions and would apply to the same transactions subject to the State of Arizona’s sales tax. It would apply to transactions within cities and towns as well as those in unincorporated areas of Pima County.
- C. The Board has discussed the possibility of adopting such a Sales Tax in order to provide additional funds for road repair.
- D. Table 1 shows projected revenues from the Sales Tax in Pima County, assuming the tax levy becomes effective January 1, 2019 and is levied for 10 Years.
- E. The Board is concerned about the disproportionate impact a Sales Tax would have on low-income households.
- F. The Board wishes to enact an implementation plan for use of the Sales Tax revenues, and mitigation of the impact of the Sales Tax on low-income households, subject to budgeting and appropriation laws, that would apply if and when the Board does in fact adopt a resolution levying the Sales Tax.

2028/29 (7 months)				2.9%	106,021,318	-41.951%	0.000%	61,544,315
TOTAL								\$910,410,015

Notes:

1/ Assumes current weighted average tax rate for combined state, RTA and municipal retail sales is 8.037%. Additional half-cent sales tax is equivalent to a price increase of 0.463%.

2/ Annual growth rates for half-cent County General Excise Tax assumed to be same as baseline forecast growth rates for RTA revenues as presented in University of Arizona, Economic & Business Research Center's, "A Revenue Forecasting Model for the Pima RTA: Updated to 2016," February 15, 2017, page 22.

3/ County General Excise Tax effective on January 1, 2019, resulting in 5 months of accrued tax revenue for Fiscal Year 2018/19 (February 2019 through June 2019). Subsequent years are full 12 months of revenue until Excise Tax terminates on December 31, 2028. Amount shown for Fiscal Year 2028/29 reflects 7 months of accrued tax revenue from July 2028 through January 2029.

4/ State statute exempts pre-existing contracts from any new or increased excise taxes. Discount factors shown in the table reflect impact of pre-existing contracts on revenues collected by the State's temporary 1% transaction privilege tax from June 1, 2010, through May 31, 2013.

BE IT ORDAINED BY THE BOARD OF SUPERVISORS OF PIMA COUNTY, ARIZONA:

Section 1. Effective Date

This Ordinance will become effective, subject to budgeting and appropriation laws, upon the Board's unanimous approval of a resolution adopting a Sales Tax.

Section 2. Sales Tax Revenues to be Allocated to Road Repair Only

The Sales Tax revenues will be allocated over 10 Years for the purposes of repairing roads throughout the County, subject to the conditions stated in the resolution levying the Sales Tax. Authorized uses include the maintenance, repair, and rebuilding of roads within the County, and for the payment of debt service and financing costs on any debt obligations issued by the County for such purposes. Qualifying repair and preservation treatment activities include fog sealing, chip sealing, micro-surfacing, mill and overlay, and reconstruction, including repair, reconstruction, or installation of associated shoulders and headers, edge protection, curbing, and any Americans with Disabilities Act (ADA) infrastructure improvements required by the application of a particular repair or preservation treatment.

Section 3. Distribution of Road Repair Sales Tax Revenues among Municipalities and Pima County; and 10 Year Road Repair Plans

The County will share the Sales Tax revenues with its incorporated cities and towns ("municipalities"). The distribution will be based on the municipality's population expressed as a percentage of the County's total population, plus the municipality's Taxable Net Assessed Valuation expressed as a percentage of the County's total Taxable Net Assessed Value, divided by two. Municipality population estimates will be based on the U.S. Census Bureau population estimates for July 1, 2016 for Fiscal Years 2018/19, 2019/20, and 2020/21. The April 1, 2020 U.S. Census Bureau population count should be available in time to use for the Fiscal Year 2021/22 and will continue to be the basis for municipal population estimates through the end of Fiscal Year 2027/28. Taxable Net Assessed Valuation for each year will be determined by the Assessor's Levy Limit Worksheet Taxable Net Assessed Valuations for Pima County overall and the Cities of South Tucson and Tucson, and the Clerk of the Board of Supervisors Abstract of Values by Legislative Class of Property Taxable Net Assessed Valuations for the Towns of Marana, Oro Valley, and Sahuarita. Pima County will enter into intergovernmental agreements with the municipalities, which will memorialize expectations and commitments for eligible expenses, annual budgeting, transfer of funds, reporting and auditing. Each participating municipality will be required to develop a 10 year road repair plan prior to the distribution of Year 1 funding. Each participating municipality will be responsible for contracting or performing work within its jurisdictional boundaries. Each participating municipality will be required annually to report updated roadway condition ratings to the Regional Transportation Authority (RTA). RTA will then have the ability to maintain a regional inventory of roadway conditions, such that the general conditions of roadways across Pima County and the associated costs to repair such roadways can be communicated effectively for the region as a whole.

Section 4. 10-Year Road Repair Plan for Unincorporated Pima County

Exhibit A includes a 10-year road repair plan for unincorporated Pima County, including a list of each road segment by treatment type and schedule, such that all paved County-maintained roads will be improved to at least a fair condition within 10 years. This plan will be updated annually by the County's Department of Transportation, and reviewed by the Pima County Transportation Advisory Committee, to account for revised revenue estimates and changing road conditions.

Section 5. Role of RTA

The County will pursue an intergovernmental agreement with the RTA whereby the County will reimburse the RTA for costs associated with the RTA carrying out the following activities:

- A. Coordinate development of a regional 10-year road repair and pavement preservation plan based on the individual plans provided by each municipality and Pima County.
- B. Include performance standards and best practices for road repair and pavement preservation in the regional plan.
- C. Obtain public input on the regional plan.
- D. Coordinate approval from the governing bodies of the County and the municipalities for their portions of the regional plan.
- E. Annually review the performance of the County and the municipalities' management of their portion of the road repair plans, recommend alternative project management if necessary, and recommend forfeiture of funding if necessary.
- F. Develop and maintain a database of updated road conditions across the region.

- G. Conduct or contract for annual audits of the County's deposits into and expenditures from the Road Repair Fund, as required by the resolution levying a Sales Tax subject to this Ordinance.

The RTA, as established by State Statute, ceases to exist after 2026. It is the County's intent to enter into a similar intergovernmental agreement with the Pima Association of Governments if and when RTA ceases to exist.

Section 6. Eliminate Existing Road Repair Property Tax

After adoption of a resolution levying a Sales Tax subject to this Ordinance, the County will cease levying the Road Repair Property Tax as of the Fiscal Year that commences after Sales Tax collections begins.

Section 7. Funding for Programs and Services that Improve Financial Stability and Health of Low-income Households

After adoption of a resolution levying a Sales Tax subject to this Ordinance, and for the first year the Sales Tax is levied, the County shall, subject to budgeting and appropriation laws, budget an additional \$3,000,000 for programs and services that have the purpose of improving the financial stability and health of low-income households. Eligible programs and services include, but are not limited to, employment and job training, financial counseling, affordable housing, food and housing assistance, preventive health services, and improving awareness of existing benefits and services via benefit eligibility screenings. As the designated Local Workforce Development Agency for the geographic area of Pima County, the County will place a strong emphasis on employment and job training to increase employee incomes, with a focus on (1) the underemployed; (2) displaced employees; (3) career ladder for wage growth; (4) vocational educational opportunities including construction, aerospace and automotive trades, and medical fields.

For the remainder of the 10 year period for which the Sales Tax is levied, the Commission for Economic Diversity and Prosperity shall make recommendations to the Board of Supervisors regarding the funding amount to be budgeted for these eligible programs in order to maintain and increase the availability of these services. It is the current intent of the Board to increase funding for this purpose by an additional \$500,000 each year the sales tax is in effect, subject to annual budget appropriation by the Board and Board consideration of Commission funding recommendations. Funding will be allocated from the County's General Fund and not from the Sales Tax revenues.

Section 8. Commission for Economic Diversity and Prosperity

- A. After adoption of a resolution levying a Sales Tax subject to this Ordinance, a Commission for Economic Diversity and Prosperity will be formed. The Commission will have a total of 13 members, appointed as follows:

- 5 members, 1 appointed by each member of the Board of Supervisors

- 1 member appointed by the County Administrator

- 7 members from organizations representing or providing services to low-income families and the elderly, to include:

- (1) member from an organization focused on food security

- (1) member from an the designated Area Agency on Aging
- (1) member appointed by Pima County's Housing Commission
- (1) member appointed by Pima County's Board of Health
- (1) member from an organization focused on women's economic and social empowerment
- (1) member from an organization that provides job training and employment services to individuals with economic, physical or emotional barriers
- (1) member from a non-profit organization or individual that provides personal financial counseling services

B. The Commission members will serve a term of six years. The Commission will be decommissioned when the Sales Tax stops being collected.

C. The Commission will:

1. Develop a Plan, for approval by the Board of Supervisors, for allocating funding to eligible programs, including how to work with the existing Pima County Outside Agency Commission to increase the availability and effectiveness of eligible programs. The Plan should include metrics to measure the effectiveness of this spending.
2. Make recommendations annually to the Board of Supervisors for the funding amount to be budgeted for the eligible programs; except that the amount for the first year that the Sales Tax is collected will not be less than the baseline plus the \$3,000,000 set forth in Section 7 above.
3. Annually review the effectiveness of the funded programs and make recommendations to the Board of Supervisors for allocating available funding, consistent with the Plan.

PASSED, ADOPTED AND APPROVED by the Pima County Board of Supervisors this ___ day of _____, 2018.

 Richard Elias
 Chairman, Pima County Board of Supervisors

ATTEST:

 Julie Castañeda
 Clerk of the Board

APPROVED AS TO FORM:

 Deputy Pima County Attorney

**Draft Pima County Roadway Pavement Repair and Preservation 10-Year Plan for
Unincorporated Pima County**

(Based on April 23, 2018 Draft Road List Plan and May 15, 2018 Sales Tax Implementation Plan Ordinance)

I. Purpose

The purpose of the Pima County Roadway Pavement Repair and Preservation Plan (“Plan”) is to fully repair and preserve all paved Pima County maintained roadways in unincorporated Pima County within 10 years. To illustrate the scale of the problem, approximately 70 percent of the 1,891 miles of unincorporated Pima County maintained roadways are in poor or failed condition.

It should be noted that asphaltic roadways require extensive preventative maintenance (“pavement preservation”) due to degradation by multiple factors including solar radiation, wheel loading, drainage and subbase erosion, such that a treatment is required every four to five years. Reconstructing roadways without subsequent application of regularly scheduled maintenance results in rapid loss of the asset investment as regularly scheduled pavement preservation costs approximately 28 percent of reconstruction costs. In order to maximize return on investment and save taxpayer costs, this plan includes the necessary annual pavement preservation budget.

II. Roadway Pavement Repair and Preservation Definition

The Plan constitutes activities solely related to the repair and maintenance of public flexible and rigid paved roadways to maximize Pavement Surface Evaluation and Rating (PASER) during the plan period. The PASER scale runs from 1 to 10, with 1 being a road in failed condition and 10 being a road in very good condition. Qualifying repair and preservation treatment activities include fog sealing, chip sealing, micro-surfacing, mill and overlay, and reconstruction. Under this definition, reconstruction of roadways is only applicable to the pavement section and associated edge protection on uncurbed roadways to include shoulders or headers, with the exception of Americans with Disabilities Act (ADA) infrastructure improvements required by the application of a particular repair or preservation treatment.

III. Road Selection Treatments and Schedule

Attachment A provides a repair and preservation treatment schedule for all unincorporated Pima County maintained roadways by PASER level, over the 10 years starting July 1, 2019. The following criteria were used in developing this schedule:

Roadway Repair and Preservation Selection Criteria

- Determine PASER for all paved public roadway segments
- Aggregate segments requiring similar treatment grouped by Township, Section & Range, subdivision, street name and address range to create grouped work zones
- Enable logic based on functional class, zoning and construction year to determine the number and location of ADA curb ramps to be constructed
- Rank roads based on PASER level
- Create routine roadway pavement preservation schedule
- Allocate treatment types based on available annual repair and preservation budgets (Table 3), adjusted to maximize cost/benefit

- PASER 1-4 roadways are scheduled for repair with priority from 1-4 (i.e., repair worst first)
- PASER 5-10 roadways are scheduled for preservation with priority from 10-5 (i.e., preserve best first)
- Work is scheduled based on PASER degradation curve (gaps indicate no treatments were scheduled for that year or no budget was available for that treatment)
- Initial PASER of roadways is adjusted as anticipated for FY2019/20

**Table 1
Roadway Miles Treated per PASER per Year**

7	164.74	102.17	47.33	20.12
8	136.55	50.66	55.11	152.42
9	71.95	267.93	83.26	87.82
10	51.44	312.70	22.10	108.45
TOTAL	1113.99	1095.54	489.58	648.36

IV. Cost Estimates

The total cost over 10 years to bring the unincorporated Pima County roadways that are in poor and failing condition into good condition is estimated at \$454 million, including inflation and financing costs¹. The total cost to preserve roads that are in fair and good condition over this 10 year time period, is estimated at \$170 million, also including inflation and financing costs. Table 3 shows these cost estimates on an annual basis over the 10 year plan.

**Table 3
Cost Estimates**

Year	Road Repair Cost Estimates For Road in Poor & Failing Condition	Pavement Preservation Cost Estimates for Roads in Fair & Good Condition	Total
1	\$ 43,845,146	\$ 8,903,118	\$ 52,748,264
2	\$ 31,964,957	\$ 10,866,996	\$ 41,062,915
3	\$ 34,207,799	\$ 12,933,488	\$ 45,330,579

¹ Road repair and pavement preservation costs indexed for inflation by Chained Price Index for State & Local Investment in Highways and Streets” reported by the U.S. Bureau of Economic Analysis.

4	\$ 42,239,423	\$ 15,040,530	\$ 55,432,881
5	\$ 44,397,989	\$ 17,216,445	\$ 59,731,395
6	\$ 50,565,634	\$ 19,496,660	\$ 68,140,067
7	\$ 52,636,104	\$ 21,863,501	\$ 72,537,507
8	\$ 54,629,953	\$ 24,304,990	\$ 76,933,366
9	\$ 57,241,643	\$ 26,828,200	\$ 82,028,545
10	\$ 42,523,748	\$ 27,349,799	\$ 69,873,548
Total	\$ 454,252,396	\$ 169,566,671	\$ 623,819,067

Table 3 assumes that the present annual cost to preserve all Pima County maintained roadways, if all roads were in fair to good condition, is estimated at \$28,963,268 a year. Currently only 30 percent of the roads are in fair or good condition, and therefore the cost estimate assumes 30 percent of \$28,963,268 for year 1. Table 4 shows the percent that was used for each year to arrive at the pavement preservation cost.

**Table 4
Pavement Preservation Cost Estimates for Roads in Fair and Good Condition**

Year	Annual Cost Estimate for Full Pavement Preservation if All Roads in Fair to Good Condition	% Preservation allocation	Inflation rate	Pavement Preservation Cost Estimates for Roads in Fair & Good Condition

10	\$ 28,963,268	77%	23.16%	\$ 27,349,799
TOTAL				\$ 169,566,671

V. Funding Sources

Funding sources for this 10-year plan include:

1. Revenue from a possible County Sales Tax, to be allocated per the Pima County General Sales Tax Implementation Plan Ordinance (Table 5).

2. HURF and Transportation VLT revenues, including additional Transportation HURF revenues that become available as HURF bond debt decreases (Table 6, column 3), additional growth in HURF and Transportation VLT revenues based on three percent annual rate (Table 6, column 4), and \$6 million surplus revenue from the 1997 HURF bond program (Board approved on April 17, 2018, Table 6, column 5).
3. Department of Transportation operational savings, based on a December 28, 2017 improvement plan developed by the Department, which include HURF and Transportation VLT revenues (Table 6, column 6).

Table 5 shows the allocation of revenue from a possible County Sales Tax for unincorporated Pima County Roads, according to the draft Pima County Sales Tax Implementation Plan Ordinance. The draft ordinance includes allocations for road repair for 10 years (120 months). The draft ordinance also specifies how the County Sales Tax road repair allocations will be distributed to unincorporated Pima County versus municipalities.

Table 5
County Sales Tax Revenue Allocated to Unincorporated Pima County Roads Per

Year 11 Pavement Preservation Budget ²	\$0	\$ 11,772,139	\$ 25,736,721	\$0	\$ 11,000,000	\$ 48,508,860

¹Column 3 contains HURF currently budgeted in the Transportation Department revenues which will be redirected to road repair/preservation as debt is retired from the 1997 Bond program. Column 4 contains projected growth increases in Transportation VLT/HURF. Column 5 contains reallocation of HURF bond funds approved by the Board on April 17, 2018. Column 6 contains projected Transportation Department efficiency gains allowing for the reassignment of currently allocated Transportation VLT/HURF revenues to road repair/preservation.

² Upon termination of sales tax, projected Transportation Department VLT/HURF revenues dedicated to pavement preservation are sufficient to keep roadways at fair to good condition for subsequent years.

VI. Eligible Expenses

Expenses associated with management, design and delivery of work conforming to the definitions contained in this Plan and costs associated with financing, interest, and securities issuance are eligible expenses under this Plan.

VII. Role of the Pima County Transportation Advisory Committee (TAC)

Review and recommend changes to the annual road repair and pavement preservation schedule and treatments for unincorporated Pima County prior to submitting to the Regional Transportation Authority.

VIII. Role of Regional Transportation Authority (RTA)

1. Provide performance standards and best practices for road repair and pavement preservation in the County plan.
2. Coordinate public unincorporated-County plan input and approval through the County Board of Supervisors.
3. Annually review the performance of the County's road repair plan, recommend alternative project management if necessary, and recommend forfeiture of funding if necessary.
4. Develop and maintain a database of updated road conditions.
5. Conduct or contract for annual audits of the County's deposits into and expenditures from the Road Repair Fund, as required by the resolution levying a Sales Tax subject to this Ordinance.

The RTA, as established by State Statute, ceases to exist after 2026. It is the County's intent to enter into a similar intergovernmental agreement with the Pima Association of Governments if and when RTA ceases to exist.

IX. Communicating Status of the Program to the Public

For unincorporated Pima County roadways, the Department of Transportation will coordinate with the RTA to provide a webpage that shows the schedule and treatment type for repairing and preserving every paved Pima County-maintained roadway in unincorporated Pima County.

X. Annual Reporting and Program Evaluation

It will be the responsibility of the Pima County Department of Transportation to provide documentation detailing work conducted in the prior fiscal year by September 1 of each year. The report will contain sufficient detail to allow for full auditing against plan criteria and eligible costs, compare progress to baseline, and provide updated cost estimates and associated impact to schedule. Reports will be provided to the Transportation Advisory Committee for review and acceptance, and will then be transmitted to the Regional Transportation Authority for auditing purposes.

Resolution Levying a General Excise Tax

RESOLUTION NO. 2018 - ____

A RESOLUTION OF THE PIMA COUNTY BOARD OF SUPERVISORS LEVYING A GENERAL EXCISE TAX

The Board of Supervisors of Pima County, Arizona, finds:

- A. Pima County has authority, under A.R.S. § 42-6103, to adopt a general excise tax by a unanimous vote of the Board of Supervisors. The tax rate specified in the statute equates to one-half percent for most transactions and applies to the same transactions subject to the State of Arizona's sales tax. It applies to transactions within cities and towns as well as those in unincorporated areas of the county levying the tax.
- B. Pima County is the only County that has not levied a sales tax.
- C. The State Legislature has not raised the gas tax in over 27 years, and the amount of Highway User Revenue Funds distributed to Pima County is inadequate to pay for needed road repair and maintenance as well as important capital projects.
- D. Approximately 70 percent of the 1,891 miles of paved County-maintained roadways in unincorporated Pima County are in poor or failed condition. It would cost over \$600 million, over a ten year period, to bring all paved and maintained roads within unincorporated Pima County up to a fair or better condition based on the Pavement Surface Evaluation and Rating ("PASER") system.
- E. Imposition of a general excise tax under A.R.S. § 42-6103, in order to provide funding for road repair and maintenance for County maintained roadways and those maintained by its incorporated municipalities, would support and enhance countywide services.
- F. The Board of Supervisors adopted the Sales Tax Implementation Plan Ordinance No. ____2018 on ____, 2018, which becomes effective upon the Board's approval of this resolution adopting a county sales tax.

NOW, THEREFORE, BE IT RESOLVED as follows:

- 1. Tax Levy; Temporary. The Board of Supervisors of Pima County hereby orders the levy of a county general excise tax under A.R.S. § 42-6103, at a rate that is ten percent of the rates prescribed by A.R.S. § 42-5010(A) on each class of business subject to the tax imposed by Title 42, Chapter 5, Article 1 of the Arizona Revised Statutes and A.R.S. § 42-5352(A) (the "County Sales Tax"). This levy is for a period of ten years, as provided below.
- 2. Allocation of Revenue and Termination. The Arizona Department of Revenue will collect the County Sales Tax revenue beginning on January 1, 2019 and the State Treasurer will transmit the revenue to the Pima County Treasurer, as provided by A.R.S. § 42-6103. The Pima County Treasurer will deposit the revenue in the "Road Repair Fund". The County Administrator or their designee will cause the appropriate notices terminating the collection of the Sales Tax to be delivered to the Arizona Department of Revenue so that collection ceases as of December 31, 2028.

3. Use of Revenue in Road Repair Fund.

- a. Authorized Uses. The County Sales Tax revenue deposited in the Road Repair Fund may be used only for the maintenance, repair, and rebuilding of roads within the County, and for the payment of debt service and financing costs on any debt obligations issued by the County for such purposes. Qualifying repair and preservation treatment activities include fog sealing, chip sealing, micro-surfacing, mill and overlay, and reconstruction, including repair, reconstruction, or installation of associated shoulders and headers, edge protection, curbing, and any Americans with Disabilities Act (ADA) infrastructure improvements required by the application of a particular repair or preservation treatment.
- b. Distribution of Road Repair Sales Tax Revenues among Municipalities and Pima County. The County Administrator is directed to develop and implement a program for distributing a share of the revenues in the Road Repair Fund to each incorporated municipality within the County. The distribution will be based on the municipality's population expressed as a percentage of the County's total population, plus the municipality's Taxable Net Assessed Valuation expressed as a percentage of the County's total Taxable Net Assessed Value, divided by two, and the County Administrator is further directed to develop, with the assistance of the County Attorney's Office, appropriate intergovernmental agreements between the County and each municipality, as stated in the Sales Tax Implementation Plan Ordinance.
- c. Role of Regional Transportation Authority. The County Administrator is directed to work with the Regional Transportation Authority (the "RTA") to develop an intergovernmental agreement under which the RTA will (1) oversee the County's and municipalities' road repair and pavement preservation programs that receive funding from the Road Repair Fund; (2) cause the Road Repair Fund to be audited annually by a certified public accountant as described in paragraph 3(d) below; and (3) be reimbursed by the County for costs it incurs in the course of carrying out its activities set forth in this Resolution and in the Sales Tax Implementation Plan Ordinance. The RTA, as established by State Statute, ceases to exist after 2026. It is the County's intent to enter into a similar intergovernmental agreement with the Pima Association of Governments if and when RTA ceases to exist. The refusal of the RTA or PAG to enter into such an agreement will not invalidate the County Sales Tax; in that event the County will order an independent audit.
- d. Reporting and Auditing. The County Administrator or their designee will track and report the amount of revenue received from the County Sales Tax, the amounts deposited to the Road Repair Fund, and all expenditures of monies in the Road Repair Fund, as well as all expenditures of the proceeds of any obligations issued by the County, the debt service on which is to be paid from the Road Repair Fund, in the County's financial statements that are audited annually by the Arizona Auditor General's Office. The County Administrator or their designee will also report this information in separate financial schedules, and will cause those schedules to be audited annually by an independent certified public accountant retained by the RTA per paragraph 3(c), who will attest that the schedules fairly represent Pima County's deposits to and expenditures of the monies in the Road Repair Fund; and that the use of the monies in the Road Repair Fund complied with the restrictions in paragraph 3(a) above.
- e. Cure. If an audit report issued by the Auditor General or by an independent certified public accountant under paragraph 3(d) above indicates that the deposits to the Road Repair Fund were less than they should have been, or that any expenditure of monies in the

Road Repair Fund by the County was improper, and if this finding is not reversed after consultation with the County, the County will, during the then-current fiscal year, deposit additional monies into the Road Repair Fund to cure any shortfall in the deposits and reimburse the Road Repair Fund the amount of any improper County expenditure, provided that sufficient funds are legally available to the County to be used for that purpose. The first annual independent audit that is conducted after this reimbursement will certify that the prior violation was cured.

- f. Automatic Repeal. If either of the two following events occurs, the levy of the County Sales Tax will lapse and cease as of the end of the fiscal year in which it occurs, except that the levy will continue so long as any obligations that are secured by a pledge of the County Sales Tax revenue, or for which the County Sales Tax revenue is the identified debt-service funding source, are outstanding: (1) an improper use of the monies in the Road Repair Fund is reported as provided in paragraph 3(d) above, and the following annual independent audit does not certify that the monies have been replaced as provided in paragraph 3(e) above; and (2) the County levies a property tax for roads under A.R.S. § 28-6712 for a fiscal year that commences after collection of the Sales Tax begins. If that occurs, the County Administrator or their designee will cause the appropriate notices terminating the collection of the Sales Tax to be delivered to the Arizona Department of Revenue.

PASSED, ADOPTED AND APPROVED by the Pima County Board of Supervisors this ____ day of _____, 2018.

Richard Elias
Chairman, Pima County Board of Supervisors
