I hate to say the virus was much to do about nothing but comparing it to the flu or some other recent viruses it wasn't as the Government played it. If one was suspicious, it could be said it was a power play and overbearing fear mongering. Oh and the double standard... you must stay home if you're ill...while throwing out the welcome mat to the folks at the southern border that have COVID.

The trauma in the schools was caused by the government/school boards with their restrictions. Continuing to use Covid as a divider is ridiculous. If a kid has mental problems get them help but don't create the problem then claim you want to fix it.

There as been enough information about Covid out there....let the citizens determine their own health assessments and handle it between them and their doctor. If they want to test and track folks, start with the border crossers first and leave us alone.

Let's get past all this Covid nonsense and get back to making our community prosper and letting folks feel safe in their neighborhoods.

What is the status of Teresa Cullen? We the People, since she was rejected by the State Senate, do not want her back in Pima County so she can control our lives with false narratives.

Please appoint Thomas Berezny to the Pima County Election Commission. I have met him and know that he will do an outstanding job.

Vote NO for Agenda Procurement Item #21. Please do not provide federal funds for more illegals to cross our border. Instead send the money back to the Federal government to either send illegals back to their countries or request the Federal government to use the money to secure the Arizona border.

Also, vote NO for agenda grant #28 so We the People can finally and completely go back to normal. The vaccines kill people and no one seems to care. The COVID tests are not accurate. People died with COVID not from it so why throw more money at it. The illegal immigrants crossing the border did not get vaccinated or tested. This tells me that COVID wasn't as life threatening as it was portrayed to be. That is what most of the people on the Board of Supervisors wanted us to believe so they could control us.

And finally, the United States of America is a Republic, not a Democracy. Please read the State Constitution and Federal Constitution so you can understand the rights of We the People who pay your salary. There should be more respect for your constituents. However, in 2024 we can always get rid of the board members who have their own agenda instead of the agenda of their constituents.

Thank you for listening.

Respectfully Shirley Zanotti

I am Sharon Fickes, Pima County resident contact [REDACTED]  
Following are my comments for Board of Supervisors Meeting 03-07-2023

**Agenda Grant Item #28 Dept Health (CDC) Amendment #1 Extension 5/3/24**  
Extending existing and/or developing new mitigation and prevention resources only means you are pursuing more contact tracing, more testing kits, more data collection, the list goes on. Has the Health Department not yet understood COVID is here to stay and is typically another form of the flu? To embrace that idea and science would mean your objectives are defunct. It is time to scale back on all this funding and "research", Pima County has already received \$6,510,503 on this grant. It appears you are asking for more time because you haven't figured out yet how to spend all the funds. Let's work to remove the fear you have already instilled in Pima County by your excessive control. Three years of working hard to keep us under your thumb. We can hardly remember what life is like when we are not waiting for your next mandate. **VOTE NO**

**God Bless America**
