Meeting Minutes

July 13, 2017

Present: T-Mobile Representatives: Nancy Smith, Stephanie Oswald
Residents: Landlord (Jon Weeks)

Next meeting: N/A

I. Arrival & Invite info

Arrived at 5:00 p.m. and waited for residents or concerned citizens to show up. Letters had been sent to all the surrounding properties/residents within 1000' of the tower per jurisdictional requirements. These letters also included a narrative about the proposed project, which included an elevation of the proposed Monopalm tower and how it is projected to look.

II. Discussion

No residents showed up during the entire duration of the meeting except for the property landlord, Jon Weeks.

III. Departure

We departed at 6:00 p.m. No residents showed up within the meeting timespan except for the property landlord, Jon Weeks.

Re: Proposed Eco-Site/T-Mobile Site: AZ-0038 (PH35277) – 7711 W. Bopp Rd. Tucson, AZ 85735

Dear Property Owner, Resident, or Neighborhood Association President:

T-Mobile in conjunction with Eco-Site would like to improve services in your area and recognizes that cell coverage and data services are limited and in need of improvements. Because of this, T-Mobile and Eco-Site are proposing to build a wireless communications facility located at 7711 W. Bopp Rd Tucson, AZ 85735. The purpose of this letter is to share information with the residents as well as garner support for the site. Tectonic Engineering, representing Eco-Site and T-Mobile, is planning to submit a Type III Conditional Use Permit Application to Pima County to install a Wireless Communications Facility (WCF) at the above address.

Our request for a use permit is in response to advances in technology for T-Mobile's wireless services, and their commitment to providing better service throughout the area for their current and future customers alike. T-Mobile and Eco-Site are proposing to build a single 70' Monopalm tower adjacent to the existing Monopalm site on the property in an effort to blend the tower in with the surrounding area and landscape. T-Mobile would be installing six (6) antennas on the tower. The associated equipment would be directly below in an enclosed equipment area. This location was chosen to reduce the visual impact beyond what is already existing on the property and to ensure the offload of other area towers, which will increase service capabilities for those as well. We have included an elevation drawing of the tower for your reference.

If you have questions or concerns regarding this site, you may attend the meeting as scheduled below for additional communications. Feel free to distribute this notice to any interested parties. If you cannot attend the meeting but still have questions or wish to discuss this application, please contact me via phone or e-mail using the contact information below. We will be submitting a copy of this letter and meeting minutes to Thomas Drzazgowski, the Pima County Development Services Manager (520-724-6675, thomas.drzazgowski@dsd.pima.gov). Should you have any questions beyond this meeting that we cannot answer, feel free to contact Thomas Drzazgowski. Please reference the above site name and meeting date in your email to expedite a response; your email will be made part of the site file and shared with the jurisdiction.

The public meeting is as follows:

At the proposed site location:
7711 W. Bopp Rd. Tucson, AZ 85735
On July 13th, 2017 at 5:00 pm

Thank you for your time and interest in your community.

Sincerely,

Nancy Smith – Contractor for Tectonic Engineering
