Your Message	<p>I want to voice my strong support for a resolution being considered tomorrow opposing the Copper World project that will significantly impact the southern part of the Tucson Region.</p> <p>I was born and raised in AZ and the copper industry has destroyed air, land and water for over a hundred years. Please vote in support of this resolution that is consistent with Pima County's position over the past decade and protect our precious Santa Rita region.</p>
Would you like a response?	Yes

Your Message	<p>Hello esteemed Board Members,</p> <p>I would like to ask you to oppose the Hudbay Copperworld mine. How does a foreign corporation OWN our land and take our resources with no equitable exchange? The gift clause needs to be looked into and giving our resources away to be processed in another country and sold back to us with tariff is insanity. Why destroy these mountains that provide so much eco-tourism when many copper mines already established around the state are not operating to capacity? This mine will suck a minimum of 9 million gallons of water from our aquifer that citizens here need to live and pump through wells. The tailings piles 400 ft from homes and 1.6 miles from an elementary school will blow toxic metals including lead, courtesy of our Vail Gales onto vulnerable people including children. If people need jobs, let them build a Costco which will create approximately the same number of jobs with better long term incentives and less hazard for everyone involved. Thank you and please consider checking out our new website against this mine. nocopperworld.com</p> <p>Julez Buell (impacted community member)</p>
