

BOARD OF SUPERVISORS AGENDA ITEM REPORT

Requested Board Meeting Date: 10-04-2022

Title: FY23 Courts Fill the Gap Application

Introduction/Background:

Request for continued funding from the state aid to the courts fund and the local set-aside. The state aid to the courts fund is also referred to as the Fill the Gap fund.

Discussion:

The state aid to the courts fund consists of monies appropriated to the fund and monies allocated pursuant to ARS 41-2421. The purpose of the fund, established in ARS 12-102.02, is to provide state aid to the superior court, including the clerk of the superior court, and justice courts for the processing of criminal cases.

Conclusion:

This annual funding from the state and local funds covers the salaries of pro tem judges and staff for the superior court criminal division, salaries of probation officers and other staff, and operating expenses which enhance criminal case processing for the Superior and Justice Courts in Pima County.

Recommendation:

Endorsement of the FY23 FTG plan by the Chair of the Board of Supervisors is requested pursuant to ARS 12-102.02.02, section C.

Fiscal Impact:

Without the continued Fill the Gap funding, timely criminal case processing would be compromised. Funds are used to supplement, not supplant other funds.

C. PROJECT INFORMATION - SUPERIOR COURT IN PIMA COUNTY

PROJECT # 1: PRO TEMPORE DIVISION - SUPERIOR COURT

13. Description of Project Plan.

This is a continuing project. This project funds a judge pro tempore and JAA for a criminal division.

14. Describe the need for this project and how the expenditure of these monies will address the need.

This project fills a vital need to dispose of criminal cases. Without this division, the average number of cases per judicial officer would rise and cases would be delayed.

Funding for this judicial position is integral for continued efficient felony case processing. In FY21/22 criminal case filings were 5,238, an increase of 6% over FY20/21. The division's felony case dispositions in FY21/22 increased 23% from 366 in FY20/21 to 449 in FY21/22.

The trial rate increased from .59% in FY20/21 to 1.83% in FY21/22. This rate is projected to decrease in FY22/23 to 1.49%. (The Arizona trial rate is 2% and the national rate is 3%).

Funding of \$265,422 is requested to cover one full time judge pro tempore and one judicial administrative assistant.

15. List the project's performance measures.

We project that this division will dispose of 8.53% of the Criminal Bench workload in FY22/23.

PROJECT # 2: PRO TEMPORE DIVISION - SUPERIOR COURT

13. Description of Project Plan.

This is a continuing project. Fill the Gap (FTG) will provide partial funding of a felony pro tempore division.

14. Describe the need for this project and how the expenditure of these monies will address the need.

This project fills a vital need to dispose of criminal cases. Without this division, the average number of cases per judicial officer would rise and cases would be delayed.

Funding for this judicial position is integral for continued efficient felony case processing. In FY21/22 criminal case filings were 5,238, an increase of 6% over FY20/21. The division's felony case dispositions in FY21/22 increased 9% from 527 in FY20/21 to 576 in FY21/22.

The trial rate increased from .59% in FY20/21 to 1.83% in FY21/22. This rate is projected to decrease in FY22/23 to 1.49%. (The Arizona trial rate is 2% and nationally, the rate is 3%).

Funding of \$136,328 will cover a portion of the salary for a judge pro tempore at .64 FTE.

15. List the project's performance measures.

We project that this division will dispose of 9.84% of the Criminal Bench workload in FY22/23.

PROJECT # 3: PRETRIAL INTAKE UNIT - SUPERIOR COURT

13. Description of Project Plan.

The pretrial services intake unit provides services to support two daily first appearance calendars. This funding supports 2.06 FTE case analysts who screen detainees and prepare pre-release reports for submission to judges.

14. Describe the need for this project and how the expenditure of these monies will address the need.

Without this funding, the court would experience difficulty in making sound decisions regarding whether an accused should be released. This would likely lead to jail overcrowding and could compromise public safety. The court calendar, already overburdened, would experience more stress since those incarcerated defendants are assigned a higher priority on the docket. Funds totaling \$127,581 are requested for 2.06 FTE pretrial services case analysts.

15. List the project's performance measures.

The pretrial services program goal is to screen and make reports for 99.5% of felony arrestees. In FY21/22, 99.5% were screened, with reports submitted. We expect to achieve this same percentage of screenings and reports in FY22/23.

C. PROJECT INFORMATION - CLERK OF THE SUPERIOR COURT IN PIMA COUNTY

PROJECT # 4: MINUTE ENTRY DISTRIBUTION PROJECT - CLERK OF SUPERIOR COURT

13. Description of Project Plan.

This Fill the Gap project allows for the maintenance of our high-speed copier/printer. In order to meet the timeliness and delivery demands of minute entry distributions within acceptable timeframes, the maintenance of our high-speed copier/printer is critical to the process.

14. Describe the need for this project and how the expenditure of these monies will address the need.

Although electronic distribution of minute entries will be utilized for attorneys and some parties, for the most part minute entries to criminal defendants are distributed by mail. The increase in the numbers of minute entries, as well as the decrease in personnel to perform these functions, has inspired this project.

The management and maintenance of the court order distribution process is one of the keys to success for this project. Quality control measures such as maintaining and updating physical and email addresses, screening of minute entries for completeness and ensuring updates are made for active and inactive entities are keys in maintaining accurate information and ensuring an efficient process. There are 4-5 people working to process and mail these minute entries. Funding for this project is \$159,916 of which \$156,806 covers 2.35 FTE's and \$3,110 for operating expenses.

15. List the project's performance measures.

The performance of this program can be measured in timeliness, efficiency and effectiveness, and delivery of minute entries.

Timeliness and delivery are measured as follows. Minute entries are received for distribution via electronic format or paper format through manual pickup or electronic batch processing. Process and distribution are performed at various times throughout the workday to ensure that minute entries are distributed on the day they are received and delivered either electronically (email) or by paper (US Mail).

Efficiency is measured by monitoring and maintenance of the email inbox for mail bounce-back notifications for electronically distributed minute entries. The quality control verification of a mailing address on minute entries distributed by mail is done to avoid return mail and prevent the loss of bulk mailing postage rates.

Effectiveness is measured by a no-backlog status of minute entries awaiting distribution. Minute entries are distributed on the day they are received.

PROJECT #5: DOCUMENT PROCESSING/IMAGING - CLERK OF SUPERIOR COURT

13. Description of Project Plan.

This project allows for the timely distribution of criminal filings and minute entries due to the prioritization of these cases. It also enables us to back scan older active cases and pre-sentence reports. This allows the probation department and the Court timely access to case information and enhances case processing.

14. Describe the need for this project and how the expenditure of these monies will address the need.

We have seen a more efficient and timely electronic distribution of minute entries and information on hearings in the past year. The document processing center is key in handling automated distribution as well as folding, stuffing, and mailing of minute entries and notices. The imaging center continues to prioritize criminal case filings, minute entries and notices that provide much needed information for defendants and other criminal justice agencies dependent on this information. In addition, the imaging center is responsible for back scanning of cases and pre-sentence reports. Funding for this project is \$21,984 and covers \$13,678 for .20 FTE's and \$8,306 for office supplies.

15. List the project's performance measures.

The performance measures used for the document processing center will be the amount of time it takes to efficiently distribute court documents from creation to delivery via electronic methods, courier, or U.S. Postal Service.

C. PROJECT INFORMATION - PIMA COUNTY CONSOLIDATED JUSTICE COURT (PCCJC)

PROJECT # 6: PROBATION SUPERVISION - PIMA COUNTY CONSOLIDATED JUSTICE COURT- PCCJC

13. Description of Project Plan.

Superior Court provides two full-time probation officers to Pima County Consolidated Justice Court to conduct pre-sentence investigations, prepare pre-sentence reports, ensure defendant compliance with conditions of supervised probation, and prepare petitions to revoke and/or arrest warrants when required. Each officer carries a caseload of approximately 51 defendants, a majority of which have been convicted of DUI and domestic violence non-intimate charges, a limited number of misdemeanor charges, as well as defendants convicted in the animal welfare specialty court. The salary and benefits costs for these two officers will be covered by Fill the Gap funds, allocated between the two courts. PCCJC will allocate funding for 1.50 FTE equivalent in costs, and the remaining .50 FTE will be included in the Superior Court Fees.

14. Describe the need for this project and how the expenditure of these monies will address the need.

The availability of probation officers is an essential service to the Court. Adjudicating these cases in a timely manner requires officers of the Court to conduct pre-sentence investigations and provide reports on the results of those investigations to the judicial officer overseeing each case. Funding for this project is \$121,010 which covers 1.50 FTEs.

15. List the project's performance measures.

Probation officers assigned to PCCJC supervised 124 cases in FY20/21, and 306 cases in FY21/22. The Court projects supervised probation officer's caseload to be 197 cases in FY22/23. The caseload is expected to increase due to COVID-19 restriction are slowly being lifted.

PROJECT # 7: APPEARANCE BOND EXPENSE - PIMA COUNTY CONSOLIDATED JUSTICE COURT- PCCJC

13. Description of Project Plan.

The Pima County Sheriff's Department accepts cash and surety bail bonds for individuals incarcerated in the Pima County Adult Detention Complex twenty-four (24) hours per day, seven (7) days per week for all courts in Pima County.

14. Describe the need for this project and how the expenditure of these monies will address the need.

Having a centralized location for the acceptance of bonds for all Pima County courts is a service that is provided and the court does not need to provide staffing after hours. The estimated cost for this service in FY23 for the Consolidated Justice Court will be \$29,895.

15. List the project's performance measures.

Bonds will be collected and managed more efficiently by having a centralized location.

PROJECT # 8: POSTAGE & NOTICE SERVICES - PIMA COUNTY CONSOLIDATED JUSTICE COURT- PCCJC

16. Description of Project Plan.

The court has seen an increased number of notices being mailed out to parties due to the pandemic and is requesting \$5,000 in postage and \$2,000 to cover additional supply needs and envelopes. In addition, \$3,000 to cover expenses related to electronic notices/postcards in criminal cases for court date and payment reminders to parties in criminal cases.

17. Describe the need for this project and how the expenditure of these monies will address the need.

The court is requesting the additional funding in FY23 to comply with mandated noticing to parties in criminal matters and to ensure parties are informed of their future court dates and payment reminders.

18. List the project's performance measures.

The court will have adequate funding to ensure compliance with mandated noticing to parties on criminal cases.

PROJECT # 9: CONTROL ROOM SECURITY CAMERAS - PIMA COUNTY CONSOLIDATED JUSTICE COURT- PCCJC

19. Description of Project Plan.

The Control Room Security Officer monitors all courtrooms for the Consolidated Justice Court. The court has a total of 200 cameras that can be viewed at one time. Currently the court has one computer that is not functioning, and the control room security officer is only able to view 100 cameras at one time. This is an expense the court did not anticipate, and no budget funding was allocated in FY23. The computer needs to be replaced, software needs to be upgraded to windows 10 and a new client needs to be downloaded onto the new computer to make all security cameras viewable at one time.

20. Describe the need for this project and how the expenditure of these monies will address the need.

The court needs to replace the computer and software to be able to view all courtrooms. Not having all cameras functioning creates a safety and security issue for staff, public, and attorneys. If an incident were to occur, the control room security officer may not notice the situation due to the current limitations of the equipment. The court is requesting \$15,895.

21. List the project's performance measures.

The replacement of security camera equipment will ensure the safety and security of staff, public, and attorneys.

C. PROJECT INFORMATION - GREEN VALLEY JUSTICE COURT

PROJECT # 10: Pro Tempore Services - Green Valley Justice Court

13. Description of Project Plan.

Pro Tempores are necessary to preside over criminal and criminal traffic cases when the presiding judge is ill, on vacation or at a judicial conference. The Court has been very conservative in utilizing pro tempores and will continue to do so.

14. Describe the need for this project and how the expenditure of these monies will address the need.

The Court is requesting \$2,000 in Fill The Gap monies to fund pro tempore service expenditures. Funding for pro tempore services is crucial to the continued efficiency of criminal case processing. If this funding is not approved, the court may have to transfer conflict cases to another court or reset cases to another date. Rescheduling creates delays and is an inconvenience to defendants.

15. List the project's performance measures.

The Court will track the number of cases handled by the pro tempore for the fiscal year.

PROJECT # 11: Twice-a-Day Initial Appearances (2XIA) Cost Distribution - Green Valley Justice Court

13. Description of Project Plan.

The Green Valley Justice Court participates in Pima County's twice daily initial appearance program, known locally as 2XIA, and pays a proportionate share of program expenses.

14. Describe the need for this project and how the expenditure of these monies will address the need.

This program was established in conjunction with a remodel of the Pima County jail many years ago. Rather than booking inmates, they are held in a central holding area for a minimum of 12 hours. The program has significantly reduced jail costs for the County. Initial appearances are held at the jail and staffed by the Superior Court, City Court and the Pima County Consolidated Justice Court. The Green Valley Justice Court shares the cost of expenses for its defendants. Costs for FY22/23 are anticipated to be no more than \$3,500.

15. List the project's performance measures.

Performance equates to cost and consistency in release conditions. It would be much more expensive if Green Valley had to provide judicial services and staff to manage this function.

PROJECT # 12: APPEARANCE BOND EXPENSE - Green Valley Justice Court

13. Description of Project Plan.

Sheriff's staff at the Pima County jail collect and process bonds for all courts in Pima County.

14. Describe the need for this project and how the expenditure of these monies will address the need.

It is estimated that the cost of performing this service in FY 22/23 for the Green Valley Justice Court will be \$1,000.

15. List the project's performance measures.

Bonds will be collected and appropriately managed.

PROJECT # 13: JUROR PAY - Green Valley Justice Court

13. Description of Project Plan.

The court must be prepared for a Jury Trial, and with that comes jury related expenses.

14. Describe the need for this project and how the expenditure of these monies will address the need.

Jury trials in the Green Valley Justice Court have decreased over the past few years, especially due to the recent Covid-19 pandemic, although the court does anticipate at least one Jury Trial to be scheduled in the very near future. The general fund appropriation for juror pay in FY22/23 is only \$600. FTG funds in the amount of \$1,000 is being requested to help defray the remaining cost.

15. List the project's performance measures.

The court will have enough funds available for juror related expenses.

PROJECT # 14: POSTAGE & SUPPLIES - GREEN VALLEY JUSTICE COURT

13. Description of Project Plan.

The Court does not have adequate funding in the general fund for postage and office supplies. Due to an increase in personnel expenses, the FY22/23 budget for supplies in the general fund have been dramatically reduced. The Court mails many notices and minute entries to defendants.

14. Describe the need for this project and how the expenditure of these monies will address the need.

The Court is requesting \$5,850 in postage and supplies in FY22/23 to comply with mandated noticing of actions taken by the Court and purchase of supplies for case processing.

15. List the project's performance measures.

The Court will be able to pay postage/supply expenses to ensure required noticing as mandated.

PROJECT # 15: INTERPRETER SERVICES - GREEN VALLEY JUSTICE COURT

13. Description of Project Plan.

The Court currently schedules an interpreter one day every 60 days but may have to add additional days to the court calendar. The Court also incurs expenses through Language Line for Defendants who appear as a walk-in and need to see the Judge.

14. Describe the need for this project and how the expenditure of these monies will address the need.

The Court is requesting \$3,000 for certified interpreter services in FY22/23 to comply with the courts Language Access Plan.

15. List the project's performance measures.

The Court will be able to pay interpreter expenses to ensure a certified interpreter is available to defendants.

PROJECT # 16: MANDATORY TRIENNIAL OUTSIDE AUDIT - GREEN VALLEY JUSTICE COURT

13. Description of Project Plan.

The court is requesting \$1,500 to help defray the rising costs of the mandatory Administrative Office of the Court's (AOC) outside triennial audit.

14. Describe the need for this project and how the expenditure of these monies will address the need.

The AOC mandates each court submit to a triennial audit using an outside agency from a list of approximately fifteen businesses. In previous years, the cost to the court has ranged from \$2,000-\$3,500 for this service.

The previous administrator allocated \$5,000 to our budget from the general fund, but then found out the price had risen well above that after the budget submission window had already closed. Although multiple quotes were requested, the most reasonable came back at \$6,500.

The \$1,500 the Green Valley Justice Court is requesting will cover the balance to help pay for the full cost of the audit

15. List the project's performance measures.

The court will be able to pay for the \$6,500 outside audit to comply with AOC mandates.

C. PROJECT INFORMATION - AJO JUSTICE COURT

PROJECT #17: AZTEC Field Trainer - AJO JUSTICE COURT

13. Description of Project Plan.

The AZTEC field trainer is responsible for training court staff in the use of the state's standard civil, misdemeanor and traffic case management system. The training ensures that all staff receives the same initial and ongoing standardized training, thus improving the accuracy of information entered in the system countywide.

14. Describe the need for this project and how the expenditure of these monies will address the need.

The field trainer functions as the first level of support to all staff in the use of the AZTEC case management system and is also responsible for coordinating all modifications to the local AZTEC table codes due to legislative changes. Without this training and support, the risk of incorrect data entry and inaccurate calendars would cause delays in criminal case processing. Training is provided both remotely and onsite as required. The Court's share of the cost is estimated to be \$5,250.

15. List the project's performance measures.

Continued satisfaction of the Court with the services provided.

PROJECT #18: First Appearance (2XIA) Cost Distribution - AJO JUSTICE COURT

13. Description of Project Plan.

For several years, three court partners in Pima County – Superior Court, Tucson City Court, and the Consolidated Justice Court have incurred and shared the costs of maintaining a twice-daily initial arraignment program known as 2XIA. The Ajo Justice Court will continue to participate in this program and will pay a proportionate share of the total cost.

14. Describe the need for this project and how the expenditure of these monies will address the need.

The 2XIA program was designed to provide twice-daily initial appearance capabilities for all courts within Pima County. The primary benefit of this program is the ability to share the direct overhead costs of this program on a pro-rata basis for the benefit of all partners, yet meet our statutory requirements. Costs for 2XIA are estimated at \$1,650.

15. List the project's performance measures.

Funding will allow the Court to continue to meet this statutory mandate in a cost-effective manner.

PROJECT #19: ACAP Ongoing Support and Maintenance - AJO JUSTICE COURT

13. Description of Project Plan.

Each year, the Court is required to submit payment to the AOC for support and maintenance of our computer equipment. This is a statewide requirement and there is no exception.

14. Describe the need for this project and how the expenditure of these monies will address the need.

The Ajo Justice Court is required to pay the AOC an annual fee based upon the number of automation devices we own. This is a cost that is unavoidable and for which no general fund monies have been available. Costs for this project are estimated to be \$5,000.

15. List the project's performance measures.

The ability to utilize Fill the Gap funds for this expenditure will enable the Court to provide for this mandated expense without depleting other critical funding sources.
