Award Contract Grant

Requested Board Meeting Date: May 17, 2022

* = Mandatory, information must be provided

or Procurement Director Award

***Contractor/Vendor Name/Grantor (DBA):**

First Things First (FTF), Pima North & South Regional Partnership Councils

***Project Title/Description:**

Oral Health. "First Smiles Matter" is an early childhood oral health prevention and early intervention program for children, ages 0-5 years, and expectant women. The grant was originally accepted as GTAW19*13.

***Purpose:**

In collaboration with numerous community partners, children and families across all of Pima County, from Marana to Sasabe and Vail to Ajo, will have greater access to preventive oral health services. Services that will be provided include: oral health education, dental screenings, referrals, and fluoride applications as indicated.

Amendment #4 extends the grant for an additional year (July 2022 - June 2023) at the annual amount of \$760,766.

***Procurement Method:**

This grant agreement is a non-Procurement agreement and not subject to Procurement rules.

***Program Goals/Predicted Outcomes:**

Goal: To improve oral health outcomes of at-risk preschool children so they are healthy and ready to succeed in school.

Targeted outputs from implementation of the program include:

- 4,000 children, ages 0-5, received oral health screenings and fluoride varnish
- 300 expectant mothers received oral health screenings
- 75 medical clinics, dental clinics or early care and education programs receive oral health education

***Public Benefit:**

Poor dental health often leads to pain, infection and tooth loss. The child with dental decay may have difficulty eating, speaking, and concentrating, which is likely to have a profound effect on development and their ability to learn. Without the First Things First funding, many under and uninsured children at high risk for tooth decay would have limited access to preventive dental health services.

***Metrics Available to Measure Performance:**

- # of children, ages 0-5, that receive an oral health screening, referral, and/or case management for unmet dental needs
- # of expectant mothers that receive an oral health screening, referral and/or case management for unmet dental needs
- # of early care and education sites, medical and dental clinics that receive education on early childhood oral health and simple prevention strategies to share with families

***Retroactive:**

No.

Indirect costs are costs of an organization that are not readily assignable to a particular program, but are necessary to the operation of the organization and the performance of the program. The cost of operating and maintaining facilities, depreciation, and administrative salaries are examples of the types of costs that are usually treated as indirect.

Applicants must list either Option A or Option B and provide proper justification for expenses included:

X Option A - Administrative Costs: with proper justification, applicants may include an allocation for administrative costs for up to 10% of the total direct costs requested of the grant request. Administrative costs may include allocable direct charges for: costs of financial, accounting, auditing, contracting or general legal services; costs of internal evaluation, including overall management improvement costs; and costs of general liability insurance that protects the agency/organization(s) responsible for operating a program, other than insurance costs solely attributable to the program. Administrative costs may also include that portion of salaries and benefits of the program's director and other administrative staff not attributable to the time spent in support of a specific program.

OR

Option B - Federally Approved Indirect Costs: If your agency/organization has a federally approved indirect cost rate agreement in place, applicants may include an allocation for indirect costs for up to 10% of the direct costs. Applicants must provide a copy of their federally approved indirect cost rate agreement.
