Subject: agenda item 14

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Pima County needs to make reparations to employees they harmed because the employee exercised the right to decline informed consent to experimental injections. The ultimate long-term adverse effects cannot be known yet, but there are many serious safety signals about the COVID injections, which have never been shown to prevent disease transmission and should never have been mandated.
