Subject: Comments To Be Read During the Call to the Public for Board of Supervisors Mtg 8/10/21

(Please read these comments during the Call to Public for the Board of Supervisors Meeting on 8/10/21)

Mr. Heinz,

As a constituent of District 2, I want to make it known that I do not support vaccine mandates for healthcare workers or anyone for that matter, or mask mandates for K-12 students. Employees and parents must be able to make their own decisions for medical procedures for themselves and their children. Otherwise, this is government overreach.

Thank you-
Christian Cain

Subject: [SUSPECT]K-12 Schools within Pima county mask mandate

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Those of us older than age 12 have the luxury to choose to be vaccinated against COVID-19 and protected against the virus. Whether or not we protect ourselves and our society is entirely up to us. So what about the kids under 12? Who's protecting them since they are ineligible for the vaccine and can't protect themselves?

More and more young people are ending up hospitalized and since some schools have started (including public charters) without masks, the variant is spreading fast and creating an environment for the next variant to wipe out what is left of our vaccine shield. We have already had outbreaks in the county that are shutting classes down.

I implore you, enforce a mask mandate and make all public schools including public charter schools to enforce a mask mandate. And do it now before more children and put in risk from the careless actions of our Governor and state legislature in order to score political points but risk lives, children's lives.

Concerned Parent of Two Elementary-Aged Kids,
Dan Hunt

Members of the Board,

I am the parent of three children in Tucson area schools (two in Amphitheater, one in TUSD). One is old enough to be vaccinated, and he is. The other two are not yet old enough to be vaccinated.

Due to rising CoVID infection numbers, the fact that vaccines are not available to all age groups, and that the county has not reached 70% of the total population vaccinated, I strongly encourage the Board to require masks in public schools. My younger children will be receiving the vaccine as soon as they are able, which is projected to be this autumn. With vaccines only a few months away, I ask you to take the simple, effective step of requiring masks in their schools. I fully support dropping a mandate once everyone who wants a vaccine has has the time to receive one.

Thank you
Michael Herman

Subject: Re: 8-10 meeting, proposed k-12 Mask Mandate

[REDACTED]

To the Board of Supervisors,

In the interest of brevity, I am going to assume that we're all on the same page in understanding that;

1. Covid is a real, airborne virus that has killed over 18,000 Arizonans and left countless others with long haul illness
2. masks work to reduce some of the spread of the illness,
3. children can suffer illness and death from covid, and can also spread the virus, and
4. most major medical and public health organizations are now recommending indoor mask wearing in schools.

If we want to reduce the spread of Covid and avoid a new, pediatric pandemic, then Pima County must mandate masks in schools. Without a requirement from the state or county, some school districts will not institute any mitigation measures. Kids who are ineligible for the vaccine will be especially at risk, and community spread will affect all of us. Please allow my experience as described below to be an example of a school district not instituting any meaningful covid mitigation protocol without a county mandate.

My 11-year-old son and I attended 6th grade orientation at Cross Middle School, in Amphitheater School District, on July 30th. I was disheartened to see that the principal and most staff and children were not wearing masks, even though most 6th graders are ineligible for the vaccine. They also did not make any effort to distance the kids. I wrote a letter to the principal, superintendent, and school board, asking them to consider wearing/enforcing masks to protect the 6th graders.

On August 4th, the day before school started, Superintendent Jaeger sent out a letter acknowledging that covid is spreading and encouraging masks because they work, but also stating that we can choose not to wear masks and everyone's choices will be supported. Later that day, I received a call from the principal to advise that a kid in my son's tour group at orientation had come down with covid. We hadn't even made it to the first day of school, and my son was already being notified of exposure.

The principal advised that the purpose of his call was just an FYI to watch out for symptoms. He said that they do not require exposed kids to be quarantined or tested, and I was free to send my son to the first day of school without a mask should I so desire. He noted that a couple of the parents said they might get their kids tested, but the rest weren't really concerned.

What is the point of tracking exposures if we're not going to take any corresponding mitigation actions? This is essentially the same as doing nothing. Amphi's lack of meaningful covid protocol is highly irresponsible in my opinion.

20210809143930
COB_MAIL
20210809143930

I ran to Walgreens and purchased some instant covid tests. My son was fortunately negative, and experiencing no symptoms, so I did send him (masked) to his first day of school. Despite the superintendent's letter encouraging masks, my son noted that his teachers and most classmates were still not wearing masks. On Friday, my son counted 3 other kids wearing masks, and no teachers.

Please institute a mask mandate for Pima County schools. I understand that there are some parents who don't want their children to have to wear a mask. But the risk of illness, death, community spread and overtaxed hospitals heavily outweighs this concern. The likely consequence of not enforcing masks in schools is just far too great.

Sincerely,

Sherri Brean

Pima County resident and parent of an Amphitheater SD 6th grader

Subject: Mask Resolution and Vaccine Policy

[REDACTED]

To the Board of Supervisors,

According to the data provided on the PIMA COUNTY website, we've had a total of 121,281 cases and 2,466 deaths. That's a SURVIVAL rate of 97.1% and LESS than HALF A PERCENT of Pima County's total population! There is NO need to re-establish an emergency in Pima County. We do not need another mask mandate. We do not need to close our schools. We do not need to close our businesses. We need to allow our community members the freedoms this country, this state, and this county are supposed to provide its citizens; the right to choose for themselves.

Vaccine mandates and mask mandates are clearly in VIOLATION OF STATE LAW.

PLEASE reject the move to re-establish an emergency in Pima County.

Sincerely,
Leigha Vela

Please stop the mask and vaccine mandates!! This is a violation of State Law. Healthcare is our free choice. If people choose to wear masks and get vaccinated for their health, that is fine as their choice. But many of us do not believe either is helpful and actually is more harmful, so we should have the free choice to make that decision, too.

Subject: Government Overreach - Mask Resolution and Vaccine Policy
Importance: High

[REDACTED]

Dear Pima County Board of Supervisors.

As a concerned citizen of Pima County I respectfully request the board take no further action on any kind of mandate or emergency measure. No masks mandate, no vaccine mandate, no vaccine passport, no shaming of businesses.

There is no evidence that an emergency exists, people are just now getting their lives back together from the last lockdown. Serious illness from Covid is down, the hospitals are not over crowded, kids do not seem to be effected seriously, therapeutic treatments are available as are vaccines for those wanting them.

Should government intervention continue into the freedom of American citizens, nobody will ever take the risk of opening a business ever again out of fear all they worked for can be destroyed by temporary politicians.

Studies conclude that masks are of little to no benefit against the virus. Those who want to wear them certainly can. Parents who want their kids to wear them can take care of their own families. Quit treating us like a big ant farm where you are in charge. People have enough information to make their own responsible decisions.

If you were serious about reducing the spread of Covid, secure the border and quit importing infected people. To say we are not impressed with the actions taken by this Board of Supervisors over the last 18 months is an understatement. "Two Weeks to Flatten the Curve" is looking more like "Two Years to Destroy a Nation".

Remember, politicians are elected to govern, not to rule.

Thanks for your time.

Respectfully,

Louis Mindes

August 9th, 2021

Dear Pima County Supervisors:

I am writing to you as a concerned parent, community member and constituent, to thank you for adding Resolution of the Pima County Board of Supervisors Mandating the Use of Face Coverings in All K-12 Schools Within the County, as an Effective Mitigation Strategy to Keep our Children Safe from COVID-19; Effective Immediately to the Pima County Addendum Agenda for 8/10/21. **I urge Pima County Supervisors to vote in favor of the County Resolution requiring a universal mask requirement in K-12 schools.**

Arizona is currently experiencing another COVID-19 surge, with cases having tripled over the past month, coinciding with the arrival of the highly contagious SARS-CoV-2 delta variant in the state. States all over the country are seeing an increase in cases among the unvaccinated, and this includes a drastic increase in child hospitalizations, many of whom are not yet eligible for vaccination. The Academy of Pediatrics recently reported that cases among US children and teens jumped 84% in a week.

According to Banner Health Chief Clinical Officer, Dr. Marjorie Bessel hospitals have seen a 95% increase in Covid-19 patients since July 1 and 300% increase in ventilators and there is substantial spread in the vast majority of Arizona counties. Arizona is also second in the nation for pediatric deaths related to COVID-19, according to data published recently by the American Academy of Pediatrics.

Schools began welcoming back students to campus late last month and are already experiencing outbreaks across the state. Many are being forced back to online learning because they are not able to use simple mitigation tools like universal masking. The science around masking is settled. Masks work to prevent disease transmission. All recent public health agencies, both national and local, have issued statements recommending universal masks for K-12 students in schools.^[1] Arizonans have a right to safe schools for Arizona kids. Governor Ducey is attempting to prevent school officials from implementing any public health mitigation strategies in line with leading public health agencies, including the CDC and Arizona Department of Health Services (ADHS) to help protect students, all while COVID19 cases are again rising in our communities and more contagious variants are becoming more widespread.

The law passed by the state. banning schools from implementing such policies is likely unconstitutional,^[2] doesn't take effect until Sept. 29 and poses a serious risk to life and health.

Please choose to stand with our children and Arizona communities in supporting a safe return to the classroom by adopting the Resolution requiring masks in K-12 schools.

Thank you,

Jenelle Montijo

[REDACTED]

Hello,

As a citizen and lover of Pima County, I request that you DO NOT mandate masks or vaccinations on our community!

This is a private decision and should not be forced upon the people. ESPECIALLY the vaccine mandate. Masks are mostly harmless, whereas there are thousands upon thousands of adverse and negative reactions and deaths happening that are both reported and not (publicly in the media) post vaccine.

If the Covid-19 vaccine becomes mandatory, our right to choose healthcare/voluntary procedures are stripped away and we will start to mirror that of a socialist society - and that is NOT AMERICA, and definitely NOT ARIZONA. If you mandate ANY of the Covid-19 vaccines, you are stripping away people's rights to CHOOSE. Let the lawful and good citizens of Tucson/Pima County CHOOSE if they want to subject themselves in this highly unreliable and undetermined experiment. The vaccine is not FDA approved, and yet being forced in other counties - how SCARY. It is a violation of state law to mandate masks or any Covid-19 / not FDA approved "vaccines".

Let the people choose. That is true freedom. And we the people of Pima County, will greatly, GREATLY appreciate it.

Sincerely,
Lori Mitchell

Subject: Comments for Meeting

[REDACTED]

Dear Board Members,

We have been through this before. We just went through a year of lockdowns, mandates, and harm created by these lockdowns and mandates. This great American Country was founded on beliefs of freedom from tyranny. We find ourselves fighting again for those same freedoms. As a Nurse Practitioner who has worked through the past year, I have been awakened to the lies and harms caused by mandates and masks. I have seen firsthand the fear caused by the liberal media and the CDC and FDA who have not based their decisions on sound science, but because they choose to push a narrative that would force the American people to give up their freedoms. If the past year has taught us anything, masks do not work. They have NOT stopped the spread of COVID and would not be expected to since both OSHA and multiple studies have shown that masks do not stop viral respiratory infections. They do however cause both physiological and psychological problems and harm. As it stands now, we have given the right to the people to decide if they want to wear a mask or not. That is how it should be. Let people choose, that is the American way. The same goes for the vaccine mandates you would impose. That is unconstitutional and goes directly against the Nuremberg Code which states "The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision." Do not force people to take something that is showing harm to people across the globe. Where is our freedom to choose? Forcing these mandates goes against the American way. Neither masks or the vaccine should be forced, they have not been shown to be effective. I urge you to keep Pima County Free of mandates that go against what it means to be Free and to choose.

Thank you,

Heidi G.

[REDACTED]

An August 9, 2021 article by Dr Marty Makary, professor at Johns Hopkins School of Medicine, and Dr. Cody Meissner, chief of pediatric infectious diseases at Tufts Children's Hospital; bring real science to the question of masks for children. Published in the Wall Street Journal, the crux of the paper is that science does not support mask requirements for school children.

They pointed out that the CDC decree that school children should be masked is based on the theory that masks can't do any harm. The authors point out numerous reasons why the masks can in fact do harm. They also point out the obvious, that is masks can be vectors for pathogens when breathed into over a period of time.

Also pointed out was a research project at Johns Hopkins that found of the \$42 Billion the NIH spent on research last year, less than 2% went to Covid clinical research and not a single grant was dedicated to studying masks in children.

In fact the Doctors articulated a number of reasons why the masks are contraindicated. You should consider this information carefully. That is, you can opt to go with the real science, or with a divisive political decision.

To Whom It May Concern,

I'm **opposed** to the mask mandate for K-12.

You are all in violation of our parental rights under ARS 1-601 and 1-602. Take a stand against child abuse!

ARS 8-201:

This establishes the legal definition of "abuse" in state law. It reads:

"Abuse" means the infliction or allowing of physical injury, IMPAIRMENT OF BODILY FUNCTION or disfigurement or the infliction of or allowing another person to CAUSE SERIOUS EMOTIONAL DAMAGE as evidenced by severe anxiety, depression, withdrawal or untoward aggressive behavior and which emotional damage is diagnosed by a medical doctor or psychologist and is caused by the acts or omissions of an individual who has the care, custody and control of a child.

School districts across Arizona are being permitted to violate state statute and abuse our children with impunity.

Unlike violations of the parents rights statutes, there are real and serious consequences for committing the crime of child abuse.

ARS 13-3623:

Under circumstances other than those likely to produce death or serious physical injury to a child, any person who causes a child to suffer physical injury or ABUSE or, having the care or custody of a child, who causes or permits the person or health of the child to be injured or who causes or permits a child to be placed in a situation where the person or health of the child is endangered is guilty of an offense as follows:

- 1. If done intentionally or knowingly, the offense is a class 4 felony.**
- 2. If done recklessly, the offense is a class 5 felony.**
- 3. If done with criminal negligence, the offense is a class 6 felony.**

It goes on to state that, "Abuse", when used in reference to a child, means abuse as defined in section 8-201.

FYI: BREATHING IS A CRITICAL BODILY FUNCTION AND MASKS COVERING THE NOSE AND MOUTH IMPAIRS IT!!

Officials in our state have turned a blind eye to this and allowed our children to literally be abused in the name of "protecting others." We cannot continue to allow children to be sacrificed to provide a false sense of security to adults that refuse to accept scientific data and evidence. Abusing children so that some people can "feel better" is not acceptable... EVER. Not even in a "pandemic".

The school district governing board members that vote to continue mask requirement policies and district staff that enforce mask wearing by children must be charged accordingly, TO THE LETTER OF THE LAW. As will you! We need immediate action on this as there are districts are and have been making decisions about masks for the start and remainder of the school year.

This is to inform you of this statute because your knowledge of it increases your penalty from a class 4 felony to a class 6 felony.

Any supervisor who puts their name to pass this document will be dealt with!! You are hereby warned!

I also request that you face us in person and not hide behind virtual meetings! You should have made arrangements as per Open Meeting Law of the State of Arizona to accommodate the public to face you IN PERSON at a different venue! You violated that as well!

We have a right to face you all and be heard!

Regards,
Mr. F. Tainatongo

Pima County Board of Supervisors,

I write this in hopes that it will not fall on deaf ears. Do not try to force masks on our children. As Board of Supervisors, I am aware that you feel it your duty to keep the community safe. However, instituting a mask mandate on the children of this county in order to attend in-person schooling is abhorrent. The only reason my children are back in school is because the mask orders were lifted in our district. It was not conducive to the health of my 4 children to force them to sit in a classroom 6+ hours a day with an improperly fitted, cloth mask that will do nothing but bring bacteria closer to their faces. It is not a positive experience for their mental health to see masked peers and teachers and become fearful of getting sick or that any human contact is wrong. The messaging of fear is abundant in kindergarten: My 5 year old said just today that it was not okay to hug people because of germs. What are we doing to our children?? If a mandate is forced upon the children of this county, many parents will be pulling their children from districts all over, further bringing down the enrollment numbers.

Parents of Arizona have a Parental Bill of Rights that is being stomped on with measures some want to take. Parents get to decide what is best for their children in and outside of school. Parents that want their kids to wear a mask are completely free to do so. My children NOT wearing one will not negate their choice. Forcing a mask for in-person learning is an ultimatum that will not stand according to our law. Do not try to force masks on our children.

Good Evening,

As a public school teacher and resident of Pima County, I strongly urge the board to allow parents to make decisions regarding what is best for their own children. Attempting to pass or enforce a mask mandate that violates state law is not only a terrible example for our children, it is a direct violation of a parent's right to decide what is best for their child. It is also putting school districts in an unimaginable position, having to choose between following a local mandate and a state law, and opening themselves up for more criticism and litigation.

Thank you for your time,

Caitlin Velasco

AUG 10 10:21 AM 07/08 PCC CLK CF BD

Good evening -

This email may be too late, but I'll write in anyway.

I'm writing to ask that the Pima County Board of Supervisors approve a mask mandate in Pima County public schools.

I am a vaccinated certified staff member at a K-5 elementary school and am one of the few staff members wearing my mask all day.

I experienced the last quarter remote schooling in the 2019-20 school year and the remote, hybrid, remote, hybrid, in-person schooling from last year, and am THRILLED to be back on campus with our students this school year. HOWEVER, I firmly believe that for this to be able to continue, students and staff MUST be wearing masks, practicing good hygiene, and cleaning protocols while on campus. In my position, during the first couple weeks of school, I provide support for parent drop off and pick up and mainly focus my time in getting kindergarten students acclimated to school. With this, I've been supporting their teachers by working with these students individually to assess the skills they have coming into kindergarten.

These are my observations from the past few school days.

- 1 - Morning drop-off - about 30% of students exiting cars and entering school with their mask on
- 2 - Afternoon pick-up - about 10% of students exiting school with their mask on
- 3 - Kindergarten classrooms - about 15% of students are wearing masks
- 4 - Kindergarten students I've assessed one:one, sitting at a small table- I'm masked, most students not masked, many students with fingers in mouth, eyes, face, touching my materials, etc. etc.. When I worked with kinder students in-person last year, they had to wear masks. This made the fingers in mouth/nose much less frequent. Students coughing or sneezing in classrooms - some into their arms (YAY!!!), and many not.
- 5 - Kids interactions with each other - often have to remind them to give each other space as they are in each other's faces often...right up in each other's faces

So much of the behavior noted above is expected and normal for our children, but all I know after what I experienced working with students remotely (reading interventions are so hard to do this way), is that we CANNOT go back to remote schooling. We have to do whatever we can to keep our students and staff healthy and safe and IN SCHOOL in our buildings.

I am so disheartened that we are here. I am doing everything I can to help keep students safe and healthy at my school, but I know it is not enough. There are not enough of us doing what we need to be doing. The limited amount of "do righters" can't keep this up when they are outnumbered by the "do wrongers". If we don't get masks mandated in schools, we will be back to remote, and we just can't go there again. We can't. The majority of students do not thrive with this type of learning. They need to be at school, in-person, in the building, wearing masks.

Thank you for your time.

- Kimberly Snyder

Subject: Vote NO on vax mandate for healthcare workers and mask mandate for K-12

[REDACTED]

Dear Board of Supervisors:

I urge you to vote NO on the proposed mandate to vaccinate health care workers and vote NO on the proposed mandate to mask K-12 children.

Statements calling for these measures rely on unfounded fears fostered through false reports. What is "science" if not the careful consideration of evidence? In this case, evidence, if even cited, is insufficient to warrant these extreme measures.

Ask yourself: who benefits?

Answer: pharmaceutical companies and technology behemoths.

The shot and masks don't protect people from illness. There is vast evidence, though heavily censored, that they actually cause harm.

Thank you for using your God-given reasoning abilities to resist pressures to support these unfounded measures.

Sincerely,
Elise Love

I am longtime citizen of Pima County (over 39 years) and I am writing to you to request that you allow all citizens of Pima County to have the freedom to make their own medical decisions in regards to the COVID-19 vaccine, and mask mandates.

Any person who has spent any time in any medical profession is competent to make their own decision to receive (or not receive) the vaccine. It is a violation of government, and in fact tyranny, to force a vaccine on someone. The vaccine should be encouraged, but never forced or mandated.

Furthermore, I ask that you discontinue seeking to force masks on the community... Mainly, our children in school. The state has already ruled on this. Covid-19 spread rampantly in communities where masks and lockdowns were strictly enforced. Our children don't need to be muzzled in their classes when their health risk is extremely low, and the adults they will be around have had plenty of time to accept the vaccine.

Please stop the COVID-19 hysteria. Please stop the tyranny. Please allow citizens to make their own choices.

-Matt Kennedy
Pima County Resident

To Whom It May Concern:

I am a local doctor in Tucson writing to express my great concern regarding the impending vote on county vaccine mandates, as well as for masks for children in schools. First of all, neither vote should not even be under consideration, as it has already been deemed illegal at the state level. Article 4.2, Section 36-681 of SB1824 states, "NOTWITHSTANDING ANY OTHER LAW, THIS STATE AND ANY CITY, TOWN OR COUNTY OF THIS STATE ARE PROHIBITED FROM ESTABLISHING A COVID-19 VACCINE PASSPORT OR REQUIRING EITHER OF THE FOLLOWING: 1. ANY PERSON TO BE VACCINATED FOR COVID-19. 2. A BUSINESS TO OBTAIN PROOF OF THE COVID-19 VACCINATION STATUS OF 2 ANY PATRON ENTERING THE BUSINESS ESTABLISHMENT. 3 B. ANY LAW OR ORDINANCE ESTABLISHING A COVID-19 VACCINE PASSPORT IS VOID AND IS NOT ENFORCEABLE AGAINST ANY PERSON OR BUSINESS LOCATED IN THIS STATE."

Additionally, HB2898 states, "NOTWITHSTANDING ANY OTHER LAW OR ORDER, A COUNTY, CITY, TOWN, 5 SCHOOL DISTRICT GOVERNING BOARD OR CHARTER SCHOOL GOVERNING BODY MAY NOT 6 REQUIRE THE USE OF FACE COVERINGS BY STUDENTS OR STAFF DURING SCHOOL HOURS 7 AND ON SCHOOL PROPERTY."

Beyond the legal arguments, however, the vaccine mandates do not make scientific sense. While I understand that the mainstream media says differently, the Delta COVID variant is almost entirely driven by the vaccinated, not the unvaccinated, according to the CDC's own data (https://www.cdc.gov/mmwr/volumes/70/wr/mm7031e2.htm?s_cid=mm7031e2_w) as well as Public Health England (https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/1009243/Technical_Briefing_20.pdf) and data from Israel as well (<https://www.deseret.com/coronavirus/2021/7/20/22584134/whats-going-on-in-israels-outbreak-among-vaccinated-people>). This was also predicted by Dr Robert Malone, inventor of the mRNA technology, and it made perfect sense: the vaccine was designed to create antibodies to the spike protein only. This is exactly the concept behind how antibiotic resistance occurs: a single mechanism of action allows an organism to evolve resistance, after which the monotherapy is no longer valuable. The push for increased vaccination in the face of the variant is therefore misguided at best.

Additionally, those with a past history of COVID infections absolutely should not be required to get the vaccine. There have been only 169 cases in the entire world of reinfection since C19 began (<https://bnonews.com/index.php/2020/08/covid-19-reinfection-tracker/>), and studies show long, broad immunity in COVID survivors ([https://www.cell.com/cell-reports-medicine/fulltext/S2666-3791\(21\)00203-](https://www.cell.com/cell-reports-medicine/fulltext/S2666-3791(21)00203-2)

2? returnURL=https%3A%2F%2Flinkinghub.elsevier.com%2Fretrieve%2Fpii%2FS266637912100203

AUG 10 21 40 07 37 PC CLK OF ED

2%3Fshowall%3Dtrue). Again, this makes sense: immunity to all portions of the virus will be far more flexible to variants than immunity to the spike protein alone. Those with a past history of infection may be at risk for Antibody Dependent Enhancement (ADE), a well known phenomenon with vaccinations: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7642463/>, <https://www.nature.com/scitable/topicpage/host-response-to-the-dengue-virus-22402106/>, <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7642463/>.

I'd invite you to do your own search for COVID adverse reactions on <https://wonder.cdc.gov/vaers.html>. If you do so, please include all of the COVID vaccines in your search available in the US. A search for all severe reactions encompassing death, severe disability, birth defects, and hospitalization reported as of 8-9 returned 36,082 events.

Kids are not at risk for C19 morbidity (<https://www.nature.com/articles/d41586-021-01897-w>) and (despite the political disclaimers) the evidence shows that masks do physical and psychological damage to children (<https://www.researchsquare.com/article/rs-124394/v2>).

Please reconsider your mandate in the interest of the health and safety of your constituents.

Thank you for your time.

I and my husband (Richard) are very upset with these mandates. We feel that you are taking away the rights of individuals to choose. You are not allowing individuals to make their own decisions about their health care. We are pro vaccines and anxiously await the release of the new one being tested currently. My children that work in the medical field have the right to disagree with the vaccine without losing their livelihood.

Why are we not talking about therapeutic ways to protect ourselves or what doctors have learned over the last year to treat the virus, instead of taking away freedoms so some can feel safer, like they do by wearing a mask. These mandates don't take in the risk the vaccine presents to those that have had the virus. I encourage everyone who wants to wear a mask and get a vaccine to do so. If that is what gives them the peace of mind to live everyday life they should get the vaccine and wear a mask. That is their choice. Let others have their own personal choice.

Thank you for your time.

Hello,

My name is Kirsten Tobin and I am a kindergarten teacher in the Catalina Foothills School District 16. We know that masks decrease the risk of transmission of Covid as well as other viruses. We know that in-person school continues to be the gold standard for our children. We also know that vaccines decrease illness severity and Covid hospitalizations. **Please support a mask mandate for children in schools. Please support a mandatory vaccination policy for all teachers and staff of county schools.** They will keep our kids in-person for the school year. And more importantly, they will save lives. Thank you for your time.

Pima County Board of Supervisors,
My name is Todd Sepp I live at 4851 E Paseo Del Bac, 85718. My phone number is [REDACTED] I, like many other Pima county residents, believe that this is completely unnecessary and illegal. People are always able to mask up or to get vaccinated and that is their choice. However people should ALSO have the choice NOT to get vaccinated or wear masks. Particularly now that we know that vaccinated people are not only getting COVID 19 but spreading it. Why would I inject myself with something that is not FDA approved and barely at 15 months of clinical trials, when I might get COVID anyway. We also know that the particles of the virus are way too small for masks to be effective. There is so much incorrect information that is being circulated in order to control the people of this country. It is time to stop this. It is causing great strife, anxiety and fear amongst the citizens of this country. The government of this country works for its citizens, not the other way around. It is time that governing officials do the RIGHT thing and stand up for the people of this FREE country and continue to keep this country FREE. I do not insert myself into your medical treatments and decisions, or anyone else's for that matter. It is not ok for YOU to insert yourself into medical decisions. Again I urge you to do the right thing, lead the way in this country and leave the citizens of this country to decide for themselves to wear masks/get vaccinated.

To the Board of Pima County Supervisors,

We request the our voice be heard and this email be read into the record by the clerk during the Pima County Board of Supervisors meeting on August 10th 2021.

Our child attends Vail Unified School District. After attending last night school board meeting, we very displeased with the actions being taken and your involvement with Covid mitigation in our school district. You do not have the right to unilaterally decide to turn over our medical rights for our children to the Pima County CDC. Our Governor has already decided that mask mandates are not required and you should heed the words and wisdom of our elected official and not the recommendations of non-elected bureaucrats. We also appose mandatory vaccinations and the indoctrination being attempted by advertisements being sent on our child's computer shaming them into complying with getting the shot and wearing masks. This is all detrimental to the well being of our child and we do not consent.

All of this is violation of Arizona law A.R.S. 15-342.05 which states

A. Notwithstanding any other law or order a county, city, town, school district governing board or charter school governing body may not require the use of face coverings by students or staff during school hours and on school property.

B. A school district or charter school may not require a student or teacher to receive a vaccine for COVID-19 or to wear a face covering to participate in in person instruction.

Also, are your familiar with the Nirenberg code of 1947? Maybe you should read what it says. Here is the link so you don't have to look it up. [The Nuremberg Code \(cirp.org\)](http://TheNurembergCode.cirp.org)

With Respect,

Kenneth Sanders and Sue Sanders

Subject: K-12 Pima County Mask Mandate

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Dear Pima County Board of Supervisors:

I am a parent of two elementary-aged children in Pima County, and I respectfully submit this plea for universal masking in K-12 schools.

A few simple facts.

- Schools are critical safe havens for children, where parents put their trust in teachers and administrators to care for & protect their loved ones.
- Earlier in April/May 2021, many schools around the country including our schools across Tucson had a dual offering of remote or in-person classes. For in-person classes, schools rigorously enforced mask mandates of all personnel and students to protect them from COVID 19, and there was very low incidence of community spread or the need to quarantine. Some kids were able to finish off the school year with just a little bit of normalcy, in large part due to a fully supported & required masking policy. Just as the CDC & NIH research had suggested, masks did their vital part in the fight against COVID and proved that they indeed work to protect our children/teachers/administrators in schools.
- The nearby Vail school district and many schools across the country in States where the Governor & Legislatures recently passed unsafe laws that prohibit schools from making mask mandates, in the span of just a few days found themselves with Delta COVID outbreaks and the immediate need to quarantine and send kids home. Masks would have greatly reduced the risks of both contracting the virus as well as the spread. This was completely avoidable.
- At least 8 Arizona school districts have taken the risk averse & safety first stance to rebuke Governor Ducey's unsafe law and are requiring masks in schools. Unfortunately my children attend a school in the CFSD district who are currently playing a very risky game of "wait & see", so I am calling on this Board to make quick and swift action to protect my children by requiring a mask mandate in all schools that reside in Pima county.

It's clear now that we aren't anywhere near out of the woods in relation to COVID; please help protect our children in schools whose administrators are currently not up to the challenge of keeping their promises to do just that and also remember one simple fact....Schools are a critical safe haven for children.

Sincerely,

AUG 10 10:21 AM 0737 PC CLK OF BD

Subject: Agenda Addendum Item #6

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Clerk Castaneda,

I am writing in support of the mandatory masking for K-12 agenda item up for consideration tomorrow morning.

As a parent of two children in schools in Pima County, I am extremely concerned about the Delta variant and how it is impacting children. This variant is stronger and has led to an increase in the number of pediatric admissions, something that wasn't seen with the previous COVID variants. Multiple members of the health community are concerned about this trend, especially since the majority of children are unable to be vaccinated at this point. More than 18% of the new cases in Pima County since July 1 are in people 16 and younger. Just today, the American Academy of Pediatrics wrote a letter to the FDA urging them to approve the vaccine for 5-12 year olds due to the pressing risk the Delta variant carries. Until this happens though, masking is the easiest thing we can do to protect our children.

We have seen, in multiple school districts across the state, that a "recommended" policy simply does not work. Ellsworth Elementary has already moved 5th & 6th graders to online learning due to an outbreak. Also, reviewing the Maricopa County COVID-19 School dashboard, most areas are experiencing substantial transmission. This is just after two weeks of being in school. With the start of school today, we have the opportunity to not put our students at the same risk with the passage of a mask mandate.

Tucson Unified District has already passed a mask mandate, along with several other districts throughout the state, including Phoenix Union and Madison School District. They decided that the health and safety of our children supersedes a law based in politics -- as a way to secure Republican passage of an unnecessary tax cut -- and not science. I implore that you decide to choose the same.

Thank you,

Subject: Mask Mandate for K-12

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

To Whom It May Concern,

I'm opposed to the mask mandate for K-12. I ask that you review my attached documents and that you remove the masks from all schools. You are all in violation of our parental rights under ARS 1-601 and 1-602. Take a stand against child abuse.

ARS 8-201, establishes the legal definition of "abuse" in state law. It reads; "Abuse" means the infliction or allowing of physical injury, IMPAIRMENT OF BODILY FUNCTION or disfigurement or the infliction of or allowing another person to CAUSE SERIOUS EMOTIONAL DAMAGE as evidenced by severe anxiety, depression, withdrawal or untoward aggressive behavior and which emotional damage is diagnosed by a medical doctor or psychologist and is caused by the acts or omissions of an individual who has the care, custody and control of a child.

School districts across Arizona are being permitted to violate state statute and abuse our children with impunity. Unlike violations of the parents rights statutes, there are real and serious consequences for committing the crime of child abuse.

ARS 13-3623

Under circumstances other than those likely to produce death or serious physical injury to a child, any person who causes a child to suffer physical injury or ABUSE or, having the care or custody of a child, who causes or permits the person or health of the child to be injured or who causes or permits a child to be placed in a situation where the person or health of the child is endangered is guilty of an offense as follows:

1. If done intentionally or knowingly, the offense is a class 4 felony.
2. If done recklessly, the offense is a class 5 felony.
3. If done with criminal negligence, the offense is a class 6 felony.

It goes on to state that,

"Abuse", when used in reference to a child, means abuse as defined in section 8-201.

FYI: BREATHING IS A BODILY FUNCTION AND MASKS COVERING THE NOSE AND MOUTH IMPAIRS IT Officials in our state have turned a blind eye to this and allowed our children to literally be abused in the name of "protecting others." We cannot continue to allow children to be sacrificed to provide a false sense of security to adults that refuse to accept scientific data and evidence. Abusing children so that some people can "feel better" is not acceptable... EVER. Not even in a "pandemic".

The school district governing board members that vote to continue mask requirement policies and district staff that enforce mask wearing by children must be charged accordingly, TO THE LETTER OF THE LAW. We need immediate action on this as there are districts making decisions about masks for the remainder of the school year and the upcoming summer school session now.

This is to inform you of this statute because your knowledge of it increases your penalty from a class 4 felony to a class 6 felony.

I also request that you face us in person and not hide behind virtual meetings! We have a right to meet and be heard!

August 9, 2021

Dear Pima County Supervisors:

I am writing to you as a concerned parent asking that you adopt a County Resolution requiring universal masking in K-12 schools within county boundaries.

On Tuesday, August 10, 2021 Pima County is considering a Resolution of the Pima County Board of Supervisors Mandating the Use of Face Coverings in All K-12 Schools Within the County, as an Effective Mitigation Strategy to Keep our Children Safe from COVID-19; Effective Immediately.

I urge Pima County Supervisors to vote in favor of the County Resolution requiring a universal mask requirement in K-12 schools.

Arizona is currently experiencing another COVID-19 surge, with cases having tripled over the past month, coinciding with the arrival of the highly contagious SARS-CoV-2 delta variant in the state. States all over the country are seeing an increase in cases among the unvaccinated, and this includes a drastic increase in child hospitalizations, many of whom are not yet eligible for vaccination. The Academy of Pediatrics recently reported that cases among US children and teens jumped 84% in a week.

According to Banner Health Chief Clinical Officer, Dr. Marjorie Bessel hospitals have seen a 95% increase in Covid-19 patients since July 1 and 300% increase in ventilators and there is substantial spread in the vast majority of Arizona counties. Arizona is also second in the nation for pediatric deaths related to COVID-19, according to data published recently by the American Academy of Pediatrics.

Schools began welcoming back students to campus late last month and are already experiencing outbreaks across the state. Many are being forced back to online learning because they are not able to use simple mitigation tools like universal masking. The science around masking is settled. Masks work to prevent disease transmission. All recent public health agencies, both national and local, have issued statements recommending universal masks for K-12 students in schools.

REC'D 10/21/21 10:06 PM COB_MAIL

Arizonans have a right to safe schools for Arizona kids. Governor Ducey is attempting to prevent school officials from implementing any public health mitigation strategies in line with leading public health agencies, including the CDC and Arizona Department of Health Services (ADHS) to help protect students, all while COVID19 cases are again rising in our communities and more contagious variants are becoming more widespread.

The law passed by the state removing local control and banning schools from implementing such policies is likely unconstitutional, doesn't take effect until Sept. 29 and poses a serious risk to life and health.

Please choose to stand with our children and Arizona communities in supporting a safe return to the classroom by adopting a County Resolution requiring masks in K-12 schools as soon as possible.

Thank you,

Amber Zacarias

Dear sir or madams:

I am kindly requesting that you please keep a mask mandate and listen to our scientists and the CDC. Please protect our children and community.

Our politicians have turned this into a political debate and have taught people to forget about science and about what is in the best interests of our children and community.

Please enforce mask mandates and stop the spread of COVID-19 in our children. It is our responsibility to protect them, our community and the more vulnerable.

Thank you kindly.

-Rebecca

RE: K-12 Schools Within Pima County Mask Mandate RESOLUTION NO. 2021 - 49

To my Pima County Board of Supervisors,

Please pass Resolution No 2021-49 and mandate masks in K-12 schools in Pima County. I nearly wept with relief when I saw that you were considering mask mandates in our county schools - thank you. I beg that you pass this important resolution with immediate effect.

In light of the information summarized by Dr. Katelyn Jetelina attached below, the CDC's recent guidance update and endorsement by the American Academy of Pediatrics that everyone should wear masks indoors, and the importance of providing a safe learning environment for students and teachers, please mandate masks in our schools. We must take back our authority to make science-informed decisions for the safety of our students, in accordance with changing conditions and CDC guidelines.

I am a parent but I am also an experienced biologist who understands the science. Masks work, are a simple but effective measure, and are absolutely required right now. As a community, we must all work together to protect our neighbors and especially our unvaccinated children. My daughter is a bright and energetic girl who attended remote kindergarten for a full year last year in the Marana Unified School District, and I have been thus far impressed and comforted by the excellent handling of this unprecedented situation by the school and its teachers. But when I dropped her off for the first day of in-person school last week, my heart sank to see so many people unmasked, including her new teacher. I have no way of knowing if her teacher is even vaccinated - and even if so, we are now learning that the Delta variant can still be carried and passed on by vaccinated people. With the majority of kids and teachers maskless, the peer pressure my daughter will feel to take hers off will be greater. So far, she loves wearing her masks and enjoys matching them to her outfits - proof that kids can learn and normalize wearing masks the same as they learn to wear socks with their shoes. But that is not enough protection if others fail to do their part.

Our children need in-person school for their own mental health, and working parents are also trapped by the inability to provide homeschooling. Virtual schooling is not even an option at her school right now, and as difficult as it was for us last year to accomplish at least it was safe. We need safe learning environments for our kids at school. Vaccination for my 6-year-old, and her 3-year-old brother, will not happen before we see another wave as the Delta variant has already started to take hold in Pima County. The measures of MUSD's Health Mitigation Plan are excellent, but fall critically short by not mandating masks - a stance they have told me they will not change thanks to Gov. Ducey's harmful and unconstitutional legislation. I recognize that this has become a politicized issue, and you all are able to cover your inaction by saying your hands are tied. But I desperately hope you will take a braver and more ethical stand for our children and community. In the end, mask and vaccination mandates may be

AUG 10 21 AM 07:35 PM CCLK OF BD

the only thing that will finally allow us to beat this pandemic. I hope we don't learn that too late. I hope that my child doesn't pay the price. No one's freedom to go maskless during a pandemic is worth my baby's life.

Please mandate masks in our K-12 schools.

Thank you for your time,
Jessica Moreno

KEEPING KIDS SAFE

An evidence-based approach to protecting kids during the school year

The Centers for Disease Control and Prevention and the American Academy of Pediatrics strongly recommend that order for schools to remain open, which is of critical importance to the education and wellbeing of children and families, certain public health measures must be instituted and adhered to, like universal mask wearing.

Why now?

Kids don't have an immunity wall.

We can do it safely during a pandemic.

We need to do it for our kids' health.

We need to do it for our community.

A collective approach is far more effective.

Delta has changed the game

- Delta is 200% more transmissible and results in up to 1000x higher viral load compared to previous variants.
- This translates into a $R(0)=6-10$. Meaning, on average, one person infects 6-10 people. This is similar to the $R(0)$ for chickenpox and higher than the $R(0)$ for smallpox.
- Vaccinated individuals who become infected can spread the Delta variant to others.

Not enough kids are protected for an effective immunity wall

- For example, only 30% of children have SARS-CoV-2 antibodies in Texas, meaning a majority of kids have yet to be exposed to COVID-19 (Messiah et al., 2021).
- Many children haven't had the opportunity to be protected by the COVID-19 vaccine
 - Only 12+ are eligible
- Not enough eligible adolescents are vaccinated.
 - Only 39% of 16-17 year-olds and 27% of 12-15 year-olds are fully vaccinated in United States (AAP, July 28, 2021)

Study after study shows the effectiveness of a layered approach in K-12 schools

- In **Missouri**, schools that implemented masks, physical distancing, and increased ventilation had much lower transmission than in the community (Dawson et al., 2021).
- In **Utah**, despite high community incidence and an inability to space students' classroom seats ≥ 6 ft apart, high student mask use resulted in low transmission and no school-related outbreaks in 20 Salt Lake County elementary schools (Hershow et al., 2021).
- In rural **Wisconsin**, masking requirements and student cohorting within schools allowed transmission risk to remain low (Falk et al., 2021).
- A study in **Florida** found a layered approach is especially needed when community spread is high (Doyle et al., 2021).

COVID-19 in kids can range from mild to severe illness

- As of July 22, 2021, over 4.1 million COVID-19 pediatric cases have been reported. The CDC estimates that the "true" burden is 26,838,244 pediatric cases in the U.S.
- In 23 states, 16,878 pediatric hospitalizations have been reported. The CDC estimates 209,264 cumulative pediatric hospitalizations in the U.S. as a whole.
 - Hospitalization rates for COVID-19 are higher than for the 2009-10 H1N1 pandemic.
- As of May 2021, 3,742 MIS-C cases have been linked to COVID-19.
- Over 400 pediatric deaths have been reported since the beginning of the pandemic. Although this seems low compared to adults, **COVID-19 is now a top 10 cause of death for adolescents in the United States.**
- Mortality is not the only negative outcome. Long COVID-19 (or Post-acute Sequelae COVID-19 [PASC]) has been reported among kids.
 - The British National Health Service is reporting that 7-8% of kids experience long COVID-19 and is opening new pediatric clinics for long COVID-19 around the country.

We need to stop transmission among kids to stop spread in the community.

- Kids spread SARS-CoV-2 as efficiently as adults. Several outbreak investigations have demonstrated transmission among children, adolescents, and young adults, including transmission to older household members.
- Living with a child engaged with in-person school without public health mitigation measures increases the odds of COVID-19 for the household (Lessler et al., 2021).
- Children who got COVID-19 at two Utah daycares spread it to household members (Schwartz et al., 2020).

A collective approach is far more effective than an individualistic approach

- While masks provide protection to the wearer, they primarily serve as source control and the greatest benefits occur if everyone wears them.
- Kids are highly influenced by peers and teachers. If all peers are required to wear masks, social desirability will play a factor into compliance.
- Using vaccination status to determine who should wear a mask in schools will be a huge burden on teachers and staff and nearly impossible to enforce.

Masking Children: Tragic, Unscientific, and Damaging

Children do not readily acquire SARS-CoV-2 (very low risk), spread it to other children or teachers, or endanger parents or others at home. This is the settled science. In the rare cases where a child contracts Covid virus it is very unusual for the child to get severely ill or die. Masking can do positive harm to children – as it can to some adults. But the cost benefit analysis is entirely different for adults and children – particularly younger children. Whatever arguments there may be for consenting adults – children should not be required to wear masks to prevent the spread of Covid-19. Of course, zero risk is not attainable – with or without masks, vaccines, therapeutics, distancing or anything else medicine may develop or government agencies may impose.

For the below reasons there is absolutely NO reason children should receive the covid shot. Based on studies done by Professor John PA Ioannidis of Stanford University, we know that we are dealing with a virus that has an infection fatality rate (IFR) of 0.05 in persons 70 years old and under (range: 0.00% to 0.57% with a median of 0.05% across the different global locations; with a corrected median of 0.04%). This compares quite well to the IFR of most influenza viruses (and even lower), and yet the draconian and massive reactions to SARS- CoV-2 have never been employed during influenza season.

Thanks,
Breanna

Dear Board Members:

I urge you to VOTE NO on

Mandatory Vaccination of Pima County Employees and NO worries on Mandatory Masking of Students in Schools.

These mandates have interrupted the normal development of children and are a leading cause of depression with increases in suicides.

Consider a Senior year student has had 1 full year of a typical educational experience without interruption and mandates. 1 year out of 4 if you encroach into the current school year with closures of classrooms and masking. The school IDs in VUSD now have a suicide hotline. No more mandates! Freedom of choice!

Sincerely,
Cheryl Caswell

Good Evening,

It is my understanding that the board is considering a vote to implement a mask mandate within the schools despite the recently passed state law that prohibits any such mandate. I wanted to write to express my displeasure that the board is even considering this action.

Before this action is brought before the board I wanted to call your attention to a couple of items.

1. The AZDHS website shows a 99.98% survivability rate for those under 20 years old. As has been the case through the whole pandemic this virus does not impact children in near the same way as it does adults.
 2. For the entirety of the last school year we all bought into making our kids wear masks, not because they were at risk but because they might spread it to someone more vulnerable. Now everyone who wants a vaccine (that's 93% effective btw) has had the chance to get it. There is no logical reason to put kids in masks, the mortality rate is insignificant for them and they don't need to bear the burden of protecting others now that vaccination is available.
- No matter which way your vote sways, my two children will not be wearing a mask. State law supersedes any perceived local authority and you have no right to enforce such a mandate.

Thank you for taking the time to read my email.

Respectfully,

We are not totalitarians and we are not lawless, Matt Heinz proposals are both, so vote them down.

State law leaves masks wearing to the individual not allowing gov mandates. That is the correct position. If you violate state law you are encouraging lawlessness including lawlessness against your orders, do not cross this rubicon.

Repulsive governments in history have a history of using government power to force experimental medicine on their population. That is not us, that is not America, and that is not who you want to be. Vote No and use your votes to rebuke these horrible degradation of freedom my supervisor Matt Heinz is proposing.

My name is Jennifer Rawson. I reside at 9581 E Ozark St, in Tucson. I am taking the time this morning to present my view on the resolution for mask mandates and vaccination requirements. It Is NOT the duty nor within your authority to DICTATE the choices of the citizens of this county. The rights of the individual are protected in a free republic. They are ignored or trampled on in a totalitarian form of government. In this country the government serves the will of the PEOPLE not the other way around. STOP your overreach. The Vaccine has been approved for experimental use. It has caused death in some and the consequences of taking it has NOT been tested for long term side effects. It should be my choice to take the risks this presents, or to refuse and take the risks that COVID presents. Yes I am in the most vulnerable group. Yet I would NEVER ask the government to take away the rights of others to protect me. Nor should there be any mandate by law or resolution to do that to me either.

NO to mask mandate, NO to vaccine mandates. There is no law that allows a Board Of Supervisors to consent to medical procedure on behalf of someone else.
Consent is not given if acceptance is coerced.

Masks on children are harmful.

They cause anxiety and have led to serious depression ending in suicide.

By increasing airway resistance during exhalation, masks can lead to increased levels of carbon dioxide in the blood.

Some children compensate for such difficulties by breathing through their mouths. Chronic and prolonged mouth breathing can alter facial development. It is well-documented that children who mouth-breathe can develop a mouth deformity and elongated face. It is not your position to decide that any perceived benefit outweighs this risk.

Masks can be vectors for pathogens if they become moist or are used for too long.

Masks pose a significant distraction, cause difficulty seeing, and skin problems.

Children *need* to see facial expressions. Covering a child's face mutes these nonverbal forms of communication and can result in robotic and emotionless interactions, anxiety and depression. Seeing people speak is a building block of phonetic development. It is especially important for children with disabilities such as hearing impairment.

The efficacy of masks on children has never been proven in any scientific literature, but we see mounting evidence for the harm caused.

"Any child who wants to wear a mask should be free to do so. But forcing them to make personal, health and developmental sacrifices for the sake of adults... is abusive. Before we order the masking of... Americans who are too young to vote and don't have a lobby, let's see data showing the benefits and weigh them against the long-term harm." -Dr. Makary professor at Johns Hopkins School of Medicine

"Let them go forth in Freedom" -Rudolf Steiner

Hello to the Board of Supervisors,

I plead with you to institute a mask mandate for public school students under the age of 12. These students aren't yet eligible to be vaccinated, and it's too much of a risk to them, to their younger siblings at home.

My 6-year-old son is a 1st grader year in the Vail School District. He walks in the door from school every day still wearing his mask, because he forgets that it's on, even in 100+degree heat! Children are resilient, and they trust the adults in their lives to protect them- and equally as important, to teach them how to care about others in their community. Masks are a wonderfully simple object lesson for this, as well as an effective tool to curb the spread of the virus. We are starting our 4th week of school in Vail, and already case numbers are exceptionally higher than they ever were last year when masks were in place, not to mention students in quarantine. Although students don't have the vaccination available to them yet, please help us to protect them by utilizing the tools that we DO have: a simple mask.

I recognize that this is a very dicey subject politically. Please remember that most parents are not nearly as loud as disruptive as those that show up to our local school board meetings to protest masks. Most of us will quietly comply, because we want to take this opportunity to teach our children how to be thoughtful, respectful members of our community while also protecting themselves and their neighbors.

Thank you,

Allison Minch

My name is Barney Holtzman and I am the parent of a student in public school in Pima County. I am writing to support a mandatory mask policy for all students and a requirement that all teachers be vaccinated against Covid. The science is clear that masks help contain the spread of Covid, even among the unvaccinated. There are many students who are unable to get the vaccine simply because of their age. Additionally, the science is clear that the vaccine helps prevent the spread of Covid but also limits the sickness suffered by those vaccinated.

Our recent experience has confirmed what science has already shown, that in person schooling is important not only for our students' learning but for their emotional and mental well-being.

In order to continue in person schooling, it is important the County take whatever emergency measures available to it to limit the spread and damage done by Covid. This requires a mandatory mask policy and A requirement that teachers be vaccinated. I encourage you to consider these measures that will allow in person schooling to have a chance of success.

Please announce not only an enforceable mask mandate in schools but in **all** public places. The damage of diminishing the importance of our 12 and under population will remain with them in irreparable ways which will affect their long term health and emotional states. If Governor Ducey is unable to learn from history and recent events, like the regret in Arkansas, it is incumbent upon you, the Board of Supervisors, to step in and teach him. Science illiteracy has no place in politics.

Please also consider empowering the Pima County Health Department to use its power granted under the US Supreme Court's decision in Jacobson v Massachusetts supporting **mandatory** vaccines to those eligible (<https://www.oyez.org/cases/1900-1940/197us11>).

Ignoring virology 101 will perpetuate pandemic conditions in the Old Pueblo which will cause avoidable economic strife and continuing death.

Hello all, first of all let me start by telling you that I am fully vaccinated, but I also believe that as American citizens we all have the right to make our own choices, I was born in Mexico, I spend years dreaming of the American dream, dreaming about the rights and freedoms that Americans have. That is one of the things that most people who immigrated here is looking for.

I don't think that mandating vaccines and masks is going to do any good when all the politicians keep sending the wrong message. What do you have to say about the Obama party? I think it's great that he had it! He's an American and has the right to do whatever he feels like, THATS HIS RIGHT. We were talking about the delta variant and how it doesn't matter if you are or not vaccinated everyone has to wear a mask... I didn't see many masks on that party, and again it was everyone's right to choose to wear it or not, to social distance or not. So why are we tampering with the rights of the rest of the people? Aren't we Americans too? Don't we have rights too?

I think the time has come to really UNITE and you as OUR representatives need to drop the politics and stop spreading fear among our people YOUR PEOPLE!

How can you tell us that this is serious when all we see is lies? Border is closed? No is not... then is not that serious, and I'm not talking about illegal immigration, I'm talking about legal border crossing if his was super serious our borders would be SUPER CLOSED not only for illegal but for legal crossing as well.

If we are dreading the delta variant or whatever variant is coming is going to overcome our hospitals, how come we are so willing to let our staff go? Nurses, cnas and medical personnel does not grow in trees!

Do they realized how difficult is right now getting people to go work at health places? You can't even get a dishwasher and you want to get rid of half your personnel because they don't want a vaccine that is not approve, that has been politicized for months with no end on sight?

You guys should spend your time trying to get the pharmaceutical companies to get liability for this vaccines that would give at least peace of mind to people knowing that the company has confidence in their product. You are asking to make mandatory to put something in your body that the creator of are not confident enough to back it out.

Again, I'm fully vaccinated, but still, this should always be a personal choice. Masks should too. Do not mandate either the vaccine nor the mask. Pima county deserves better than that. Do better, stop the lies

AUG 10 21 AM 07:46 PST CLK OF BD

and the fear. Do it for your citizens we all deserve to live free of fear and we all deserve to make our own choices.

Thank you for your time.
Vote no to mask/vaccine mandates

Hello, Board of Supervisors:

I appreciate your concern for the safety and health of your Pima County constituents...I am one. However, I object strongly to further erosion of our individual rights for managing our own health and that of our children.

1. Myself and many of your constituents notice that you have not expressed the same health concern about the uninvited people who are escorted past our unguarded border into Pima County, unmasked, unvaccinated, and ill with Covid.
2. Apparently Ms. Grijalva thinks she and the Board are better qualified to protect "children who cannot advocate for themselves." How did she decide that parents cannot advocate for their children? So is your vote going to further erode parental rights?
3. History will doubtless record the significant harm, physically and psychologically, to children from school closures, mask wearing, and adult fear-mongering that will be much more significant than having a case of Covid, already known to be much less dangerous to children. Have you even thought about the further harm that another mask mandate will do?
4. No one should be penalized for not getting a vaccine, especially one that does not prevent getting Covid (apparently) and also allows Covid transmission (apparently). It may reduce the seriousness of the illness, but it is each person's responsibility to accept that risk.

Abandon your hysterical, hypocritical tyranny. Respect us, your constituents. We can take care of ourselves!

See you at the polls....

Sincerely,

Marilyn Malone (FYI-vaccinated!)

Good morning!!

I write today out of disappointment! I saw that today you will be discussing mask mandates in k-12 schools and mandatory vaccines for all pima co medical employees and city workers will be mandated to take an experimental vaccine. Clearly you elected officials who are paid with our tax payer money want to extend/ over reach your political powers as a public Servants as if you have some kind of personal conservatorship over people who reside work and study in our county which you do not!!! Clearly our constitution and bill of rights state we the people have freedoms that are clearly being infringed upon right at this moment in many ways! May I remind you you are in the business of public community service and not medicine! We the people along with our primary care doctors are to decide what's best for our own personal being and health not elected tyrannical politicians! Stop with the hypocrisly lies and stop with the fear mongering of the delta variant! after calling to verify at a local pharmacy testing procedures for such covid mutation the pharmacist stated that there was no such test for this variant at this time! I also see PCHD is willing to close down classrooms with two or more students that have symptoms of covid... I would like to know what law statue gives PHCD the authority to do this! Children have been hurt enough in the name of public health for a sickness that has a 99.95 survival rate for children! Clearly many corporations in the Tucson area believe they have unlimited personal powers over people and children with in the city! Absolutely ridiculous! You state we are in a pandemic! The real pandemic here is the amount of drug use that has gone up in school aged children and suicides during these lock downs which I can assure you is more than what covid has killed! Not to mention the amount of drug using homeless with in our community, which I've seen with my own eyes are lurking around various Family establishments and school Premises with in city limits! I also see a substantial rise in murders and armed robberies with in Tucson that's the true pandemic here and how you do not see it as that as the true pandemic is beyond me! Tucson has turned into a disgusting dump cesspool of homeless junkies and trash! Stop with the covid fear! There are medial remedy's available for this disease who affects many with underlying health conditions and old age and a vaccine is also available widely for those who wish to take it! I also have to disagree with these on-site vaccine clinics with in school grounds! There are enough medical facilities and areas with in the Tucson area where these vaccines can be administered! school grounds is not the place for such health care needs to be taking place at especially when our children are in school. This fear mongering and overreach of personal liberties has to stop now and it will stop now! I would also advise you to please stop with this tyranny and start tending to the true pandemic that's affecting our community which is as I stated above the vast amounts of trash throughout the city, homeless, drugs crime and immigration issues that are absolutely growing Out of controll! May I also suggest you start respecting our law enforcement and fist responders which you also blatantly have disregarded and disrespected in the past! We should all be respectful of those who go out each and every day to save life's in our community! The people of this city and county do not co parent with elected officials! And we also do not let elected officials make medical decisions for us! We are free citizens and it will continue as such!

Regards,

Lissette Arballo

To the Pima County Board of Supervisors:

I asking you NOT to pass another mask mandate for anyone! Children in school, government workers, citizens of our County.

This is a personal choice and as adults we have the right to choose what is best for us and our children. Those that don't agree are free to wear the mask as they feel led.

We are sick and tired of government officials who think they are smarter than we are telling us what to do. This is unconstitutional and we will not stand for it any longer.

Our schools, businesses and lives have been impacted enough and we are just returning to normal activities and cannot go back to 2020. The science shows that that the only way to beat these viruses is by NOT wearing masks and building our own immune systems. There will continue to be new viruses and we cannot hide behind masks any longer. We need to get back to living in community and all that goes with that.

We will remember how you voted when at the next election.

I for 1 will NOT WEAR A MASK AGAIN!!! No one is going to STEAL my God given, and constitutional rights again.

Born & Raised in Tucson & local business owner

Respectfully submitted,

Carleen Lundquist

RE: Tuesday Meeting.

Supervisors,

I am expressing my deepest concern for what I see developing in our community right now. There is a huge movement, thousands (perhaps tens of thousands), that have been sitting for the most part relatively quite so far, waiting to see your wisdom in dealing with any mandates relative to Covid-19; whether it be mask mandates, vaccine mandates, distancing mandates, etc.

These are people that fear your potential overreach concerning your proposed mandates relative to covid, because there is a wealth of scientific information out there, that for the most part has either been suppressed or censored, yet these folks are finding that information. And that wealth of information, is being provided by very educated, credible, scientific professionals, researchers, and doctors; and scores of them. These medical experts are presenting scientific data and studies that completely contradict the information and direction that the CDC, the NIH, and the NIAID are presenting.

Even the federal agencies (CDC, NIH, NIAID) have contradicted themselves through out this time. Here is just one example of the contradictions as it relates to masking. I would hope you are all aware of several studies that were FUNDED by the NIH relative to the transmission of respiratory viruses, because your constituents are becoming acutely aware of them now.

Those studies CONCLUDE that respiratory viruses, covid included, are spread by aerosol, and MASKS are USELESS. So what your constituents see, is you choosing to blindly follow the CDC and NIH, who have chosen to ignore the very science that they paid to have done.

There is an ever-growing list of medical experts and researchers that are providing research, studies, papers and video type documentaries that contradict the current narrative of covid-19. You have a responsibility to your constituents, without agenda or outside influence, to openly and honestly study, evaluate, and take into serious consideration all of that scientific information.

AUG 10 21 PM 07:46 PC CLK OF ED

AF3

I am requesting that any decisions relative to mandating masking or vaccines in Pima county be delayed until there is ample time for the board to review other data that may be conflicting, and even interview other medical and scientific experts and professionals that have conflicting research, studies and data. I would be more than willing to help you arrange those expert interviews.

Here is just one example of what your constituents are watching now:

Mayo Clinic Trained, Ryan N.Cole, MD, FCAP, AP/CP/DP

<https://davidicke.com/2021/08/09/a-pathologist-describes-what-the-fake-vaccine-clot-shot-does-to-the-brain-and-other-organs-an-absolutely-must-watch-please-share/>

It is only 17 minutes, and he is not a quack, and he is definitely not a one off.

A fast-growing number of Pima county residents are beginning to despise people who tell them to follow the science, and yet do not follow it themselves.

I hope and pray your wisdom exceeds that of a politician.

Pima County Board of Supervisors,

My name is Caroline Sepp I live at 4851 E Paseo Del Bac, 85718. My phone number is [REDACTED]

[REDACTED] I, like many other Pima county residents, believe that this is completely unnecessary and illegal. People are always able to mask up or to get vaccinated and that is their choice. However people should ALSO have the choice NOT to get vaccinated or wear masks. Particularly now that we know that vaccinated people are not only getting COVID 19 but spreading it. Why would I inject myself with something that is not FDA approved and barely at 15 months of clinical trials, when I might get COVID anyway. We also know that the particles of the virus are way too small for masks to be effective. There is so much incorrect information that is being circulated in order to control the people of this country. It is time to stop this. It is causing great strife, anxiety and fear amongst the citizens of this country. The government of this country works for its citizens, not the other way around. It is time that governing officials do the RIGHT thing and stand up for the people of this FREE country and continue to keep this country FREE. I do not insert myself into your medical treatments and decisions, or anyone else's for that matter. Why should it be ok for YOU to insert yourself into mine. Again I urge you to do the right thing, lead the way in this country and leave the citizens of this country to decide for themselves to wear masks/get vaccinated.

Thank you for your time.

I strongly oppose any mask mandates or vaccine mandates. This is America. Students should NOT be forced to wear a mask. Parents should make their own mask choice about their child based on their individual situation. No one should be forced to get a vaccine. Again, this is an individual's choice based on their own situation.

Please stand for basic American principals. No mask mandates. No vaccine mandates.

Dear Sirs:

I oppose the mandate to residents of Pima County to Mask Up and Get Vaccinated. There is NO SCIENTIFIC evidence that Masks work, except for N95 Masks only. Also, we have already reached herd immunity with 50% or more of the population vaccinated and the rest of the people infected who have recovered from Covid. The new variant is most likely caused by illegal aliens crossing the Border, which should be your main concern. We need to Control our Borders. That should be your number 1 priority. Finally, the VACCINES are experimental and have not been approved by the CDC for general use. There have been too many ADVERSE EFFECTS reported by the CDC. My cousin, for example, had [REDACTED] following his vaccination and over half of his body [REDACTED]. I think we should use caution, especially, now that we know that we have many prophylactic drugs available to prevent hospitalization. Covid will become like the FLU. We will need to learn how to live with it and treat those people infected to avoid complications.

NOTE: I am a resident of PIMA COUNTY and have lived here since 1986. I was born and raised in Phoenix, Arizona.

Yours truly,

Robert N. Carter

Members of the Board of Supervisors,

I am writing this letter to you in the extreme hope that you will greatly consider your moves and motives regarding further masking and vaccine policies. It is becoming more clear every day that masking has close to zero effect on the spread of ANY virus, Covid19 included. This is old science that has had a blind eye turned toward it. In the same light the vaccines that are being touted now are fighting the virus in the wrong way, that is to say they are not a cure in any sense of the word and they won't necessarily stop or slow any spread. This is a virus like every virus on the planet and the way we have been fighting it has proved ineffective. Understand that we have in recent years fought mutated and changed versions of the 1918 Spanish flu virus! It is still here and changing and there is nothing that we can do to stop it. Those might be ugly and scary words but they are the truth.

My point to all of this is to ask you in the most firm way to NOT put in place any more masking policies anywhere in the county or to adopt and put in place a vaccine mandate for any individual in this county. As citizens of this county we want success of our leaders, not failures and mandating masks and vaccines would certainly not be successes. Do the right thing for this community and vote no on these issues.

Kind regards,
Phil Bryson

I fully disagree with your memorandum dated July 30, 2021, subject: **Ability** of Pima County through our Public Health Agency to Require Masks for Students in the K-12. We (the people) should decide what is best for us, DON'T pressure use and use fear mongering. What you are suggesting is a crime to require masks, encourage shots, next will be vaccine cards, are you really working on taking away medical decisions from the people?

You should work on stopping the illegals from entering our State; this in itself is a public health emergency and no doubt is spreading the virus.

Stop playing Politics with our freedom of choice.

NO emergency, NO mandates, No masks!

Please Honorable Chair and members of Pima County Board of Supervisors stay out of my medical decisions. They are my personal business.

Dear Pima County Supervisors,

I work at a local public high school where masks are optional. About half the students wear them in the classroom and today I was informed that one of my students tested positive for COVID-19 over the weekend.

Now is the time when our actions will have the most impact. Please do not delay in implementing a mask requirement for K-12 schools. Not only will it save lives, but it will keep students in classrooms and prevent mass absences due to quarantining that we would see otherwise.

Please keep students learning in the classroom by passing a mask requirement. This action will save lives **and** help our students learn.

Sincerely,
Gregory Epstein

Date: 08/09/2021

Dear Pima County Supervisors:

I am writing to you as a concerned parent, community member, and physician to thank you for adding Resolution of the Pima County Board of Supervisors Mandating the Use of Face Coverings in All K-12 Schools Within the County, as an Effective Mitigation Strategy to Keep our Children Safe from COVID-19; Effective Immediately to the Pima County Addendum Agenda for 8/10/21.

I urge Pima County Supervisors to vote in favor of the County Resolution requiring a universal mask requirement in K-12 schools.

Arizona is currently experiencing another COVID-19 surge, with cases having tripled over the past month, coinciding with the arrival of the highly contagious SARS-CoV-2 delta variant in the state. States all over the country are seeing an increase in cases among the unvaccinated, and this includes a drastic increase in child hospitalizations, many of whom are not yet eligible for vaccination. The Academy of Pediatrics recently reported that cases among US children and teens jumped 84% in a week.

According to Banner Health Chief Clinical Officer, Dr. Marjorie Bessel hospitals have seen a 95% increase in Covid-19 patients since July 1 and 300% increase in ventilators and there is substantial spread in the vast majority of Arizona counties. Arizona is also second in the nation for pediatric deaths related to COVID-19, according to data published recently by the American Academy of Pediatrics.

Schools began welcoming back students to campus late last month and are already experiencing outbreaks across the state. Many are being forced back to online learning because they are not able to use simple mitigation tools like universal masking. The science around masking is settled. Masks work to prevent disease transmission. All recent public health agencies, both national and local, have issued statements recommending universal masks for K-12 students in schools.

Arizonans have a right to safe schools for Arizona kids. Governor Ducey is attempting to prevent school officials from implementing any public health mitigation strategies in line with leading public health agencies, including the CDC and Arizona Department of Health Services (ADHS) to help protect students, all while COVID19 cases are again rising in our communities and more contagious variants are becoming more widespread.

AUG 10 21 10:07 AM PCLK OF ID
AFS

The law passed by the state. banning schools from implementing such policies is likely unconstitutional, doesn't take effect until Sept. 29 and poses a serious risk to life and health.

Please choose to stand with our children and Arizona communities in supporting a safe return to the classroom by adopting the Resolution requiring masks in K-12 schools.

Thank you,

Christine S. Severance, D.O.

Hello,

I would like you to know that I fully support the mask mandate by TUSD, the district my older daughter attends. I wish that the school my younger daughter attends would implement the same regulation. Mask wearing will help insure lower rates of infection, and is especially helpful given the new variants that have evolved. In the interest of public health, we need to allow school districts to implement these mask mandates.

Thank you,
Chris Parisoff

Hello,

Please mandate masks in school and isolation for exposed kids and teachers.

My family has made the extremely difficult decision to switch my son to online school until there is a vaccine for elementary age children and/or the state of Arizona follows CDC and American Pediatrics guidelines to require masks for elementary kids and isolated children with known exposure to COVID.

I'm not going to talk increasing numbers, or more infectious variant, or the fact that elementary kids can't be vaccinated. That's OBVIOUS and is the CDC's position: unvaccinated people should be masked, period.

Personal position...

We are a multigeneration home and my mother has high high risk factors. My son can't transition well. He needs structure and not to be a political ping pong. I have the opportunity to work from home, so online we go. I am just gutted, but believe this is the right choice for us. It is a privilege that I can work from home, even though it is physically and mentally exhausting to do this while also managing his day. We are privileged that my son has excelled last year with a personalized experience, fewer distractions, and less noise. I'm not worried about his academics, but I know so many are not in that position. It is a privilege that we can afford to have my son continue to participate (for now) in outdoor socially distanced activities, but I know not everyone can do that. My heart goes out to the parents forced into hard decisions in an already difficult environment this week.

We love his school and hope to be back soon. There is no replacement to the in person school experience, and I'm so deeply sad he is losing that for now because of politics, not science.

I have every confidence that the excellent teachers at his school will do what they can to protect kids. I have ZERO confidence that the governor and the school board will not continue to play politics with education. Arizona's and the school district's position is needlessly reckless. A mask is a tiny piece of clothe, and kids are willing to wear it. This is the new jormal for now. We need to accept it to protect others and our community. Eventually, the ban on masks will change, but only after the AZ government fights to knowingly expose kids and their teachers to a pandemic. The whole situation is so much harder than it has to be.

Thank you,
Randi craig

I am the parent of a new 6th grader. I just read an email regarding 2 positive COVID-19 cases in the school within the first 5 days and of course this is a tremendous concern for us. We send our child to school with a mask as it is our only tool we have as parents to attempt and protect him as well as others around him. We have a small toddler at home as well that we are terrified to expose to any potential danger. Most of the children do not wear masks. We know that this is a very difficult situation for you to maneuver and that there are many different opinions on the manner. I just wanted to plead that we at least go back to having everyone wear a mask inside the school building. We did everything we could last year and the amount of positive COVID-19 cases was tremendously lower than what we are seeing in just 5 days of school now. Please try to keep our children safe. Have the mask mandate at least for indoors, and bring back frequent and mandatory hand washing before school starts and before and after lunch at a minimum. Thank you for listening to this concerned parent.

I am writing this to encourage Pima County to mandate masks for all schools. The cases of Covid are rising and our children need to be protected. This mandate needs to remain in effect until children ages 6 to 12 are able to receive the vaccine. If the masks can save one child from contracting covid and possibly getting seriously ill, developing long term symptoms or dying, the small inconvenience of wearing a mask will be worth it. Let's all unite for the sake of our children and our future generation. They are counting on us to do the right thing and protect them. Let's put politics aside and fight this virus together.

Thank you,

Donna Spies

Date: August 9, 2021

Dear Pima County Supervisors:

I am writing to you as a concerned teacher to thank you for adding Resolution of the Pima County Board of Supervisors Mandating the Use of Face Coverings in All K-12 Schools Within the County, as an Effective Mitigation Strategy to Keep our Children Safe from COVID-19; Effective Immediately to the Pima County Addendum Agenda for 8/10/21.

I urge Pima County Supervisors to vote in favor of the County Resolution requiring a universal mask requirement in K-12 schools.

Arizona is currently experiencing another COVID-19 surge, with cases having tripled over the past month, coinciding with the arrival of the highly contagious SARS-CoV-2 delta variant in the state. States all over the country are seeing an increase in cases among the unvaccinated, and this includes a drastic increase in child hospitalizations, many of whom are not yet eligible for vaccination. The Academy of Pediatrics recently reported that cases among US children and teens jumped 84% in a week.

According to Banner Health Chief Clinical Officer, Dr. Marjorie Bessel hospitals have seen a 95% increase in Covid-19 patients since July 1 and 300% increase in ventilators and there is substantial spread in the vast majority of Arizona counties. Arizona is also second in the nation for pediatric deaths related to COVID-19, according to data published recently by the American Academy of Pediatrics.

Schools began welcoming back students to campus late last month and are already experiencing outbreaks across the state. Many are being forced back to online learning because they are not able to use simple mitigation tools like universal masking. The science around masking is settled. Masks work to prevent disease transmission. All recent public health agencies, both national and local, have issued statements recommending universal masks for K-12 students in schools.^[1]

Arizonans have a right to safe schools for Arizona kids. Governor Ducey is attempting to prevent school officials from implementing any public health mitigation strategies in line with leading public health agencies, including the CDC and Arizona Department of Health Services (ADHS) to help protect students, all while COVID19 cases are again rising in our communities and more contagious variants are becoming more widespread.

The law passed by the state, banning schools from implementing such policies is likely unconstitutional,^[2] doesn't take effect until Sept. 29 and poses a serious risk to life and health.

Please choose to stand with our children and Arizona communities in supporting a safe return to the classroom by adopting the Resolution requiring masks in K-12 schools.

Thank you,
Shasta Payne

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Dear Pima County Board of Supervisors:

I am writing to you as a concerned community member and doctoral student studying Education Policy and Evaluation. I would like to first thank you for adding a resolution to mandate the use of face coverings within all Pima County K12 schools to be voted upon during the August 10th Pima County Board of Supervisors Meeting.

With that said, I urge you as the Pima County Board of Supervisors to vote in favor of the County Resolution requiring a universal mask requirement in K-12 schools.

As we all know, Arizona is currently experiencing another COVID-19 surge, with cases having tripled over the past month and now reaching upwards of 2000 cases a day. The uptick of cases coincides with the arrival of the highly contagious SARS-CoV-2 delta variant in the state. States all over the country are seeing an increase in cases among the unvaccinated, and this includes a drastic increase in child hospitalizations, many of whom are not yet eligible for vaccination. The Academy of Pediatrics recently reported that cases among US children and teens jumped 84% in a week.

According to Banner Health Chief Clinical Officer, Dr. Marjorie Bessel hospitals have seen a 95% increase in Covid-19 patients since July 1 and 300% increase in ventilators and there is substantial spread in the vast majority of Arizona counties. Arizona is also second in the nation for pediatric deaths related to COVID-19, according to data published recently by the American Academy of Pediatrics.

Equally concerning is that Arizona K12 schools began welcoming back students to campuses late last month and are already experiencing outbreaks across the state. Many schools and even entire districts are being forced back to online learning because they have been prevented from using simple mitigation tools like universal masking. The science around masking is settled. Masks work to prevent disease transmission. All recent public health agencies, both national and local, have issued statements recommending universal masks for K-12 students in schools.^[1]

Arizonans have a right to safe schools for Arizona kids. Through partisan policies, Governor Ducey is attempting to prevent school officials from implementing any public health mitigation strategies in line with leading public health agencies, including the CDC and Arizona Department of Health Services (ADHS), to help protect students. These partisan policies have no place within our K12 schools and districts who operate under local control precedents. COVID19 cases are again rising in our communities and more contagious variants are becoming more widespread. Schools and districts have an obligation to keep students, families, and the community safe.

The law passed by the state, banning schools from implementing such policies is likely unconstitutional,^[2] doesn't take effect until Sept. 29, and poses a serious risk to life and health.

Please choose to stand with our children, families, and Arizona communities in supporting a safe return to the classroom by adopting the resolution requiring masks in K-12 schools.

Thank you,
Tara Bartlett

To Whom it May Concern,

I am a concerned parent in Arizona and am asking you to please vote yes on the resolution requiring masks in K-12 schools. Many of these children are not able to be vaccinated yet and are at risk of catching the contagious Delta variant of Covid-19. Pediatric hospitalizations are on the rise in Arizona, which makes it difficult for other patients needing care too. Mitigation against this virus, such as masking, can help stop the spread, keep kids healthy, and in school. I won't send my unvaccinated 8 year old back to public school until there are mitigations in place. Please keep Arizona's children healthy.

Sincerely,

Jennifer Smith

Thank you for holding a meeting to discuss a mask mandate for K-12. We need to require masks as is the only thing our under 12 year old kids can do to be protected and still attend school. Going to school is so important & I just want my kids protected.

Please vote yes to mandate for all districts in the county. Help take the burden off our educators so they can focus on education.

Kind regards,
Jessi Guerrero

Dear Pima County Supervisors,

I am writing to you today as a very concerned teacher, community member, and constituent to first thank you for adding the Resolution of the Pima County Board of Supervisors mandate to use face coverings in all K-12 schools within the County. (8/10/21)

I still however want to urge you to vote in favor of the county resolution requiring universal mask requirements in K-12 schools. We know that this mitigation measure will be an effective layer of protection that our students and staff will need to help alleviate the spike of Covid cases, we are now experiencing in AZ.

Arizona is currently having triple the cases than what was experienced last month. The more contagious strain of SARS-Co-V-2 Delta is causing a catastrophic increase in our hospitals and many of those are the unvaccinated. The most recent reports from the Academy of Pediatrics identifies that cases among U.S. children and adolescents have jumped 84% in a week.

The welcome back to school this week, has already seen outbreaks across the state. Our children and teens have a right to safe schools. Governor Ducey new law is restricting school officials from implementing public health mitigation strategies and thwarting the scientific guidelines from the CDC and Arizona Department of Health Services (ADHS). These guidelines are meant to protect our children and teens and we should not, and cannot ignore the science.

The law that was passed by the state, that bans schools from implementing such protective policies is likely unconstitutional, and won't be implemented until Sept. 29th. The law poses extreme risk to our school populations and communities at large.

Please take a moral stand and side with Arizona's children and teens. Support a safer return to the new school year by adopting this Resolution requiring masks in K-12 schools

Thank you,

Judy Robbins

Pima County Board of Supervisors,

Please cite the Science behind your renewed effort to mask and vaccinate children! Governor Ducey signed this A.R.S. Section 15-345.05 Into State Law.

Arizona Law for Student Mask Mandates and COVID-19 Vaccines

A.R.S. Section 15-342.05 allows for individual freedom in regards to Face coverings; requirement prohibition!

A. Notwithstanding any other law or order, a county, city, town, school district governing board or charter school governing body may NOT require the use of face mailcoverings by students or staff during school hours and on school property.

B. A school district or charter school may NOT require a student or teacher to receive a vaccine for COVID-19 or to wear a face covering to participate in in-person instruction.

Additional Information for a potential law suit against you.

A RESOLUTION stating that the governments of the respective states shall protect its child dependents against unconstitutional and medically irresponsible COVID-19 vaccine mandates due to their relatively low risk of hospitalization and/or death as well as growing concerns over clinical testing with child subjects.

Whereas according to the American Academy of Pediatrics and the Children's Hospital Association, approximately "1.6% of children with a known case of COVID-19 have been hospitalized and 0.01% have died"; and

Whereas three out of four children who have died from COVID-19 have had some type of underlying medical complexity; and

Whereas children account for 1.7% to 2% of the diagnosed cases of COVID-19 and have milder symptoms compared to adults; and

Whereas vaccine mandates threaten the privacy and other rights of dependent children without providing an appreciable benefit to their overall health; and

PHUG 10721 0701 PCC CLK OF ID

ma

Whereas the Founders designated that a Bill of Rights was necessary to guard individual liberty against encroachments from state and federal actors, public and private; and

Whereas the 14th Amendment to the US Constitution explicitly directs states not to “deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws”; and

Whereas no COVID vaccine is fully FDA-approved but rather authorized under a temporary Emergency Use Authorization as experimental (investigational) agents only; and

Whereas emergency use products are specifically prohibited by federal law 21 U.S.C. §360bbb-3 from being mandated: “Authorization for medical products for use in emergencies ... require ...the option to accept or refuse administration of the product”; and

Whereas the CDC Advisory Committee on Immunization Practices (ACIP) affirmed in August 2020 that under an Emergency Use Authorization (EUA), experimental vaccines are not allowed to be mandatory; and

Whereas decades-old universally accepted Codes of Medical Ethics, including the Nuremberg Code and the Declaration of Helsinki unequivocally prohibit any form of coercion whatsoever for individuals to participate in a medical experiment; and

Whereas it is neither feasible nor safe to mandate experimental vaccination among minors given the low risk of children in transmitting community spread of COVID-19; and

Whereas public and private measures are nonetheless being considered to mandate experimental vaccinations in order to participate in certain public activities and functions of daily American life, including but not limited to: employment, in-person school attendance, public transportation, and concert performances; and

Whereas the medical evidence is clear and unambiguous that less than 1% of teachers and students have been infected in schools that have reopened; and

Whereas “vaccine passports,” “digital health IDs,” and other such required documentation pose substantial risks to personal privacy and equal treatment before the law for all citizens of the United States; and

Whereas administration of the experimental COVID-19 vaccines according to guidelines established by the CDC’s Advisory Committee on Immunization Practices do not provide adequate protections for average Americans concerned about potential health hazards associated with the inoculations; and

Whereas the public, including dependent children, are entitled to receive unbiased, transparent, easily accessible medical information related to all vaccines from their public health officials; and

Whereas the doctors and nurses administering the inoculation are required by law to give informed consent and they cannot do they if they themselves are not informed; and

Whereas the emergency powers assumed by the chief executives of certain states as well as municipal leaders violate certain unalienable rights guaranteed under the US Constitution and its and Bill of Rights and therefore deserve redress; and

Whereas while these legitimate grievances are pursued by the courts of various states, lawmakers at the state and federal levels must enshrine certain rights against encroachment by decrees that are not medically or scientifically indicated, such as vaccine mandates, in order to ensure the continuity of these rights; and

Whereas specifically that a COVID-19 Vaccine Bill of Rights provided by this resolution against COVID-19 vaccine mandates provides an example of adoption for other legislative bodies across the United States to be recognized and upheld by the attorneys general of those states; and

Whereas that the major principles of this Vaccine Bill of Rights will include a minimum of five (5) of the following seven (7) provisions:

- No persons will be mandated, coerced, forced or pressured to take an experimental or “investigational” medication.
- All persons reserve the right, at all times, to determine what is in their own best medical interest without threat to their livelihood, schooling, or freedom of movement.
- No physician or nurse shall be asked by an employer to promote a COVID-19 vaccine.
- All healthcare providers must attest that they are aware of the VAERS database and their professional obligation to check it regularly and share information about VAERS with each vaccine recipient. All persons will be informed of the specific vaccine they are receiving.
- All persons must be given access to independent information to help them determine what is in their own best medical interest, including the risk of death based upon age/condition from contracting the virus naturally. This must include information from sources that are independent of a conflict of interest. For example, pharmaceutical companies have an inherent conflict of interest, as do government or quasi-government institutions. Such information can be included but cannot be the sole source of information.
- The frail elderly are additionally entitled to a knowledgeable, independent advocate with medical training to help them determine their own medical interest.
- Private businesses operating within the jurisdiction have no legal authority to require or mandate or coerce medication or experimental medication for any persons; and
- All public and private entities and persons must abide federal medical privacy laws(HIPPA) which protect patients’ privacy

Whereas K-12 vaccinations cannot be required without certain clear and consistent exemptions applied, among them medical and conscience clauses, or risk forfeiting a district’s or school board’s authority to authorize such a mandate, nor can a vaccine mandate for these populations be a factor in federal and state school-aid funding; and

Whereas interstate carriers such as airlines and all forms of public transit calling for so-called “vaccine passports” as a condition of entry

We the People will hold you accountable, should you deviate from it and mandate otherwise.
We are watching you and your colleagues. Do not think you can tyrannize us!

Sincerely,

Gisela & Michael Aaron

Hello,

I have done a lot of research on masks and they will not protect us from The Sar Covid-19 or Delta Virus. OSHA has proof of this but they have been silents like the rest of Dr. from around the world. Please stop this fake and false narrative we the People of this nation are not stupid like some would like to think. Do you really want to live in a communist dictatorship? Being told you can only do this our that. Remember history repeats itself so let's say No to this act **unlawful mask-wearing and vaccines for everyone**, which by the way is not a vaccine it is a shot of garbage that may kill many people in the next few years. This is all about depopulation globally the whole world is protesting but you won't see it on our news. One last note hospitals and some companies are required to be tested for Covid well below is some info on the test that has been wrong since 7/30/21

God Bless,

Jim Baulch

Nuremberg Code: Directives for Human Experimentation

ORI Introduction to RCR: Chapter 3. The Protection of Human Subjects

[Table of Contents](#) | [Previous](#)

1. The voluntary consent of the human subject is absolutely essential.
2. The experiment should be such as to yield fruitful results for the good of society.
3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease.
4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.
5. No experiment should be conducted where there is an a priori reason to believe that death or disabling injury will occur.
6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.
7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.
8. The experiment should be conducted only by scientifically qualified persons.
9. During the course of the experiment the human subject should be at liberty to bring the experiment to an end.
10. During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgment required of him that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject. Removal Lists of Tests That Should No Longer Be Used and/or Distributed for COVID-19: FAQs on Testing for SARS-CoV-2

This page provides answers to frequently asked questions related to tests that should no longer be used and/or distributed for COVID-19.

This section includes questions and answers regarding the policies outlined in the *Immediately in Effect Guidance for Clinical Laboratories, Commercial Manufacturers, and Food and Drug Administration Staff: Policy for Coronavirus Disease-2019 Tests during the Public Health Emergency (Revised)* (</regulatory-information/search-fda-guidance-documents/policy-coronavirus-disease-2019-tests-during-public-health-emergency-revised>). In this section, this guidance is referred to as the Policy for Coronavirus Disease-2019 Tests.

For a directory of FAQs related to SARS-CoV-2 testing, see [FAQs on Testing for SARS-CoV-2](/medical-devices/coronavirus-covid-19-and-medical-devices/faqs-testing-sars-cov-2) (</medical-devices/coronavirus-covid-19-and-medical-devices/faqs-testing-sars-cov-2>).

Q: What laboratories that had previously provided notification to the FDA that they had developed and validated a diagnostic SARS-CoV-2 test under the policy outlined in Section IV.A of the Policy for Coronavirus Disease-2019 Tests have now been removed from that notification list because the FDA has determined the test should no longer be used? (Updated 7/15/21)

The laboratories in the list below provided notification to the FDA that they developed and validated a diagnostic SARS-CoV-2 test as set forth in Section IV.A of the *Policy for Coronavirus Disease-2019 Tests* (</regulatory-information/search-fda-guidance-documents/policy-coronavirus-disease-2019-tests-during-public-health-emergency-revised>). Although the FDA had previously included them on the website notification list of laboratories offering diagnostic tests under that policy, they have now been removed from that notification list and placed on the list below. As noted in the guidance, among other things, if significant problems are identified with such a test that cannot be or have not been addressed in a timely manner, the FDA intends to remove the laboratory from the notification list. The FDA has determined that there are significant problems with the tests being offered by the laboratories listed below that cannot be or have not been addressed in a timely manner. As such, these laboratories have now been removed from the notification list and placed on the removal list below. Laboratories may also voluntarily withdraw their test notification and/or their EUA, and such tests are noted with an asterisk.

The FDA expects that laboratories on this list will not offer or use their diagnostic SARS-CoV-2 laboratory developed test that was previously on the notification list. Other tests that are EUA authorized may be available for use by these laboratories, in accordance with those EUAs.

Q: What commercial manufacturers of diagnostic tests that had previously provided notification to the FDA under the policy outlined in Section IV.C of the Policy for Coronavirus Disease-2019 Tests have now been removed from that notification list and should no longer be offering that test? (Updated 7/6/21)

The commercial manufacturers in the list below provided notification to the FDA that they validated and intended to distribute a diagnostic test as set forth in Section IV.C of the [Policy for Coronavirus Disease-2019 Tests \(/regulatory-information/search-fda-guidance-documents/policy-coronavirus-disease-2019-tests-during-public-health-emergency-revised\)](#). The FDA had previously included them on the website notification list of commercial manufacturers distributing diagnostic test kits under that policy, but they have now been removed from that notification list and placed on the list below. As noted in the guidance, if an EUA request is not submitted by a commercial manufacturer of a diagnostic test within a reasonable period of time, or if significant problems are identified with such a test that cannot be or have not been addressed in a timely manner, the FDA intends to remove the manufacturer and test from the notification list. Commercial manufacturers may also voluntarily withdraw their test notification, and such tests are noted with an asterisk.

The FDA expects that the tests on this list will not be distributed unless and until an EUA is issued for the test, and the FDA may take additional actions as appropriate.

Q: What commercial manufacturers of serological tests that had previously provided notification to the FDA under the policy outlined in Section IV.D of the Policy for Coronavirus Disease-2019 Tests have now been removed from that notification list and should no longer be offering that test? (Updated 7/30/21)

The commercial manufacturers in the list below provided notification to the FDA that they validated and intended to distribute a serology test as set forth in Section IV.D of the [Policy for Coronavirus Disease-2019 Tests \(/regulatory-information/search-fda-guidance-documents/policy-coronavirus-disease-2019-tests-during-public-health-emergency-revised\)](#). The FDA had previously included them on the website notification list of commercial manufacturers distributing serology test kits under that policy, but they have now been removed from that notification list and placed on the list below. As noted in the guidance, if an EUA request is not submitted by a commercial manufacturer of a serology test within a reasonable period of time, or if significant problems are identified with such a test that cannot be or have not been addressed in a timely manner, the FDA intends to remove the manufacturer and test from the notification list. Commercial manufacturers may also voluntarily withdraw their test notification, and such tests are noted with an asterisk.

The FDA expects that the tests on this list will not be distributed unless and until an EUA is issued for the test, and the FDA may take additional actions as appropriate.

Recommendations for clinical laboratories and health care providers regarding these tests may be found in the FDA's June 19, 2020, [Letter to Clinical Laboratory Staff and Health Care Providers \(/medical-devices/letters-health-care-providers/certain-covid-19-serologyantibody-tests-should-not-be-used-letter-clinical-laboratory-staff-and\)](#).

Manufacturer	Test	Status
Phamatech	COVID19 IgG / IgM Rapid Test	Removed - Should Not Be Distributed*
Pharmact GmbH	BeI TEST It SARS CoV-2 IgM/IgG Rapid Test (Pharmact CoV-2 Rapid Test)	Removed - Should Not Be Distributed*
Pinnacle Biolabs	SARS-CoV-2 IgG/IgM Rapid Test	Removed - Should Not Be Distributed
Plexense, Inc.	ACCEL ELISA COVID-19	Removed - Should Not Be Distributed*
Profarma, UAB	ProRapid Coronavirus Disease (SARS-CoV-2) IgG/IgM Rapid Test Cassette Single Use Kit	Removed - Should Not Be Distributed
ProGnosis Biotech SA	Bio-Shield 2019-nCoV Total Ig ELISA	Removed - Should Not Be Distributed*
Promedical	COVID-19 Rapid Test	Removed - Should Not Be Distributed
Promedical Equipment Pty Ltd	Promedical IgM/IgG Rapid Detection Kit	Removed - Should Not Be Distributed
Prometheus Bio Inc.	2019-nCoV IgG/IgM Test (Whole blood/Serum/Plasma) Colloidal Gold	Removed - Should Not Be Distributed*
ProteomeTech Inc.	KOVIcheck COVID-19 IgG/IgM	Removed - Should Not Be Distributed*

Manufacturer	Test	Status
Pure Genetic Medical Ltd. (Distributed Boson Biotech Ltd. Co)	Rapid 2019-nCoV IgG/IgM Combo Test Card	Removed - Should Not Be Distributed
Qualigen, Inc.	FastPack® SARS-CoV-2 IgG Immunoassay	Removed - Should Not Be Distributed*
RayBiotech Life, Inc.	Novel Coronavirus (SARS-CoV-2) IgM and IgG Antibody Detection Kits for Serum	Removed - Should Not Be Distributed
RayBiotech Life, Inc.	Novel Coronavirus (SARS-CoV-2) IgM and IgG Dual Combined Antibody Detection Kit for Serum	Removed - Should Not Be Distributed
Reszon Diagnostics International Sdn. Bhd.	RESZON (COVID-19) (Sars-Cov-2) IgG/IgM Antibody Test	Removed - Should Not Be Distributed*
Reszon Diagnostics International Sdn. Bhd.	Reszon COVID-19 Rapid IgG/IgM Test	Removed - Should Not Be Distributed*
Ring Biotechnology Co Ltd	COVID-19 IgM/IgG Rapid Test Kit	Removed - Should Not Be Distributed*
SA Scientific	SAS™ COVID-19 Antibody Detection test	Removed - Should Not Be Distributed*
Safecare Biotech (Hagzhou) Co., Ltd.	SAFECARE COVID-19 IgG/IgM Rapid Test Device	Removed - Should Not Be Distributed
Saladax Biomedical	COVID-19 IgG/IgM Rapid Antibody Test	Removed - Should Not Be Distributed*

Manufacturer	Test	Status
ScheBo® • Biotech AG ScheBo®	SARS-CoV-2 Quick	Removed - Should Not Be Distributed*
Sciteck Diagnostics	COVID19 Automated Antibody Assay	Removed - Should Not Be Distributed
SD Biosensor	STANDARD Q COVID-19 IgM/IgG Duo	Removed - Should Not Be Distributed
Sensing Self Pte. Ltd.	COVID-19 Rapid IgM/IgG Combined Antibody Assay Pre-Screening Kit	Removed - Should Not Be Distributed
Shandong ThinkLab Biotechnology Co., Ltd.	2019-nCoV IgM/IgG antibody Test Kit (Colloidal-gold Assay)	Removed - Should Not Be Distributed
Shanghai Eugene Biotech Co., Ltd.	SARS-CoV2 (COVID-19) IgG/IgM Rapid Test	Removed - Should Not Be Distributed
Shanghai Fosun Long March Medical Science Co., Ltd.	Fosun COVID-19 IgG/IgM Rapid Antibody Detection Kit	Removed - Should Not Be Distributed*
Shanghai Liangrun Biomedicine Technology Co., Ltd.	Liangrun COVID-19 IgM/IgG Antibody Test	Removed - Should Not Be Distributed
Shanghai Outdo Biotech Co., Ltd.	Novel Coronavirus (SARS-CoV-2) Antibody (IgM / IgG) Test	Removed - Should Not Be Distributed*
Shenzhen Landwind Medical Co., Ltd.	COVID-19 IgG/IgM Rapid Test	Removed - Should Not Be Distributed*

Manufacturer	Test	Status
Shenzhen Kingfocus Biomedical Engineering Co., Ltd.	True-Dot™ Novel Coronavirus (2019-nCoV) IgM/IgG Rapid Antibody Detection Kit (Quantum Dot Immunochromatography)	Removed - Should Not Be Distributed*
Shenzhen Lyshiyuan Biotechnology Co., Ltd	COVID-19 (2019-nCoV) Coronavirus IgG/IgM Rapid Test Kit	Removed - Should Not Be Distributed
Shijiazhuang Hipro Biotechnology Co., Ltd.	COVID-19 IgM/IgG Antibody Test Kit (Colloidal Gold)	Removed - Should Not Be Distributed
Singuway Biotech Inc.	COVID-19 IgG/IgM Detection Kit (Colloidal Gold)	Removed - Should Not Be Distributed
Sinocare, Inc.	SARS-CoV-2 Antibody Test Kit (Colloidal Gold Method)	Removed - Should Not Be Distributed
Sober Holdings, LLC	ProMed Rapid Testing - COVID-19 IgG/IgM Test Kit	Removed - Should Not Be Distributed
Sober Holdings, LLC	ProMed Rapid Test	Removed - Should Not Be Distributed
South Jersey Diagnostics, LLC	COVID-19-CHECK-1	Removed - Should Not Be Distributed*
Spartacus-Biomed	LFA COVID-19 IgG & IgM Rapid Test Device	Removed - Should Not Be Distributed
Spring Health Care AG	COVID-19 IgG/IgM Rapid Test Cassette (Whole Blood/Serum/Plasma)	Removed - Should Not Be Distributed

Manufacturer	Test	Status
Sugentech, Inc.	SGTi-flex COVID-19 IgM/IgG	Removed - Should Not Be Distributed*
Sunbeam Laboratories, LLC.	Sunbeam Laboratories Covid-19 Rapid Test Kit	Removed - Should Not Be Distributed*
Sure Bio-tech	API Covid-Rapid IgM/IgG Antibody Test Kit	Removed - Should Not Be Distributed
Sure Bio-Tech	API Pharma Covid-Rapid IgM/IgG Antibody Test	Removed - Should Not Be Distributed
SUREDIX	V-CHEK™ SARS-CoV-2 Antibody Rapid Test Kit	Removed - Should Not Be Distributed
Suzhou Kangheshun Medical Technology Co., Ltd	SARS-CoV-2 IgG/IgM Rapid Test Cassette	Removed - Should Not Be Distributed
Telepoint Medical Services	SARS-CoV-2 IgG/IgM Rapid Qualitative Test	Removed - Should Not Be Distributed
Tetracore Inc.	Tetracore FlexImmArray SARS-CoV-2 Human IgG Test	Removed - Should Not Be Distributed
TheraTest Laboratories, Inc.	EL-Anti-SARS-CoV-2 IgG	Removed - Should Not Be Distributed*
Tianjin Beroni Biotechnology Co. Ltd	SARS-CoV-2 IgG/IgM Antibody Detection Kit	Removed - Should Not Be Distributed

Manufacturer	Test	Status
Tianjin New.Bay Bioresearch Co., Ltd.	Quikpac II COVID-19 IgG/IgM	Removed - Should Not Be Distributed*
TM Testing, Inc.	TM Test Kits, CoVID-19 Rapid Antibody Serology Test	Removed - Should Not Be Distributed
Top Biotech Sdn. Bhd	TOP RAPID COVID-19 Rapid Antibody IgG/IgM Test Kit	Removed - Should Not Be Distributed
Truvian Sciences Inc.	Easy Check COVID-19 IgM/IgG™ POC Antibody Test	Removed - Should Not Be Distributed*
Universal Meditech Inc.	DiagnosUS® SARS-CoV-2 Antibody (IgG/IgM) Test	Removed - Should Not Be Distributed
Velox Biosystems	COVID-19 Microarray IgG Immunoassay	Removed - Should Not Be Distributed*
VicTorch Meditek Inc.	COVID-19 Serology IgM ELISA	Removed - Should Not Be Distributed*
VicTorch Meditek Inc.	COVID-19 Serology IgG ELISA	Removed - Should Not Be Distributed*
VicTorch Meditek Inc.	COVID-19 IgG/IgM Rapid test Cassette	Removed - Should Not Be Distributed*
Victory Square Health Canada, Inc.	Safetest-COVID19 IgG / IgM - Elisa Kit	Removed - Should Not Be Distributed*

Manufacturer	Test	Status
Victory Square Health, Inc.	Safetest Covid-19 IgG/IgM Rapid Test	Removed - Should Not Be Distributed*
VirIntel, LLC	VirIntel COVID-19 Antibody Test	Removed - Should Not Be Distributed
Virotech Diagnostics GmbH	Gold Standard Diagnostics SARS-CoV-2 IgA ELISA Test Kit	Removed - Should Not Be Distributed*
VITA Testing	COVID-19 IgM/IgG Antibody Rapid Test Kit	Removed - Should Not Be Distributed
Vitro Diagnostics	Vitro Diagnostics COVID 19 IgG/IgM Rapid Test Cassette Serology Device	Removed - Should Not Be Distributed
VivaChek Biotech (Hangzhou) Co., Ltd.	VivaDiag COVID-19 IgM/IgG Rapid Test	Removed - Should Not Be Distributed
Viverra Pharmaceuticals, Inc.	Viverra Pharma COVID-19 Rapid Test	Removed - Should Not Be Distributed*
Viverra Pharmaceuticals, Inc.	COVx-RT	Removed - Should Not Be Distributed
W.H.P.M., Inc.	COVID-19 IgM/IgG Rapid Test	Removed - Should Not Be Distributed
W.H.P.M., Inc.	COVISURE™ COVID-19 IgM/IgG Rapid Test	Removed - Should Not Be Distributed

Manufacturer	Test	Status
Wuhan EasyDiagnosis	Ediagnosis COVID-19 (SARS-CoV-2) IgM/IgG Antibody Test	Removed - Should Not Be Distributed
Wuhan UNscience Biotechnology Co., Ltd.	Coronavirus-19 (COVID-19) Antibody (IgM/IgG) Rapid Test Kit (Colloidal gold immunochromatography)	Removed - Should Not Be Distributed*
Wuhu 3H Biotechnology Co. Ltd.	COVID-19 IgG/IgM Test Kit (Colloidal Gold Method)	Removed - Should Not Be Distributed
Xiamen AmonMed Biotechnology Co., Ltd.	Helix-19 COVID-19 IgM/IgG Test Kit (Colloidal Gold)	Removed - Should Not Be Distributed
Xiamen AmonMed Biotechnology Co., Ltd.	COVID-19 IgM/IgG test kit (Colloidal Gold)	Removed - Should Not Be Distributed*
Xiamen Wiz Biotech Co., Ltd.	Diagnostic Kit (Colloidal Gold) for IgG/IgM Antibody to SARS-CoV-2	Removed - Should Not Be Distributed
Zalgen Labs, LLC.	ReSARS CoV-2 (N) IgG ELISA	Removed - Should Not Be Distributed*
Zepto Life Technology	ZepMIA20 SARS-CoV-2 IgG assay	Removed - Should Not Be Distributed*
ZEUS Scientific, Inc.	ZEUS Rapid SARS-CoV-2 IgM/IgG Test System	Removed - Should Not Be Distributed*
Zhejiang Orient Gene Biotech, Co., Ltd.	COVID-19 IgG/IgM Rapid Test Cassette	Removed - Should Not Be Distributed

Manufacturer	Test	Status
Zhengzhou Fortune Bioscience Co., Ltd.	COVID-19 Antibody Rapid Test Kit (Colloidal Gold Immunochromatography Method)	Removed - Should Not Be Distributed
Zhengzhou Fortune Bioscience Co., Ltd.	COVID-19 IgM Antibody Rapid Test Kit	Removed - Should Not Be Distributed
Zhengzhou Fortune Bioscience Co., Ltd.	COVID-19 IgG Antibody Rapid Test Kit	Removed - Should Not Be Distributed
Zhongshan Bio-Tech Co Ltd.	SARS-CoV-2 IgM/IgG (GICA)	Removed - Should Not Be Distributed*
Zhuhai Encode Medical Engineering Co., Ltd	Novel Coronavirus (COVID-19) IgG/IgM Rapid Test Device	Removed - Should Not Be Distributed*
Zhuhai Keyu Biological Engineering Co., Ltd.	SARS-CoV-2 IgG/IgM Rapid Test Kit	Removed - Should Not Be Distributed
Zhuhai Livzon Diagnostics, Inc.	Diagnostic Kit for IgM/IgG Antibody to Coronavirus (SARS-CoV-2) (Colloidal Gold)	Removed - Should Not Be Distributed*
Zybio Inc.	SARS-CoV-2 IgM/IgG Antibody Assay Kit (Colloidal Gold Method)	Removed - Should Not Be Distributed
