Subject: Pima County Agenda 7-1-25

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

So why is Pima County spending \$500,000.00 in taxpayer money to the chamber? Rest assured, Pima County is actively pursuing data centers and other ventures using NDAs – while leaving the public far behind. Public input is not a priority. Let's say that again – Pima County is spending our money while they keep secrets about who and what they are spending our money on. Not unlike spending money on lobbyists. I expect better transparency on everything. We should not be spending \$500K for Chamber support. You have your own economic development department that has budget deficits. You have not been transparent with business ventures such as Project Blue and additional data centers headed our way.
