

I hope you will use the strongest language possible to oppose Interstate 11 through Avra Valley and Picture Rocks.

If you would like to see additional pictures of what would be lost if Interstate 11 is built away from the existing interstates go to: <https://www.frankstaub.com/Folders/Here-Today-Projects-I-11-Bike-Ranch-Villages-at-Vigneto/Interstate-11-What-Would-be-Lost>

Thanks for your attention and thanks for this opportunity to express my opinion.

Dear Pima County Board of Supervisors,

Please oppose the proposed alignment of Interstate 11 that goes west of the Tucson Mountains and north through Avra Valley.

Many people in our region, including members of the Board of Supervisors and County Administrator Chuck Huckelberry, worked long and hard to enact the Sonoran Desert Conservation Plan that helps preserve our regional landscape and plants and animals. It's an effort you should all be proud of – and one that the proposed western alignment of I-11 will grievously harm.

The proposed western route would cross the Tucson Wildlife Mitigation Corridor and the mitigation lands purchased and protected under Pima County's Sonoran Desert Conservation Plan and Section 10 Habitat Conservation Plan, all of which were established strictly for protecting wildlife corridors and mitigating impacts to wildlife species and habitats. Building the proposed western alignment of the interstate here is in direct conflict with the purpose of these mitigation projects. And building such an interstate would mean even more wild animals killed on the roads.

The proposed western alignment will parallel and damage federal and county lands including Saguaro National Park West, Ironwood Forest National Monument, and Tucson Mountain Park, as well as the lands of the Pascua Yaqui Tribe and the Tohono O'odham Nation.

And the proposed western alignment will harm our tourism industry – the region's beautiful and rugged desert and mountain landscapes, wildlife, dark skies and our national and county parks and other natural areas are a big draw for tourists from near and far. That's one of the economic engines for Pima County – and one that a western alignment of I-11 would irrevocably harm. For just one example -- people come to our world-class Arizona-Sonora Desert Museum for its astounding feeling of being embedded in a natural landscape – not to hear the constant rumbling of trucks along an interstate.

Please OPPOSE the proposed western alignment of I-11.

Sincerely yours,  
Mari Jensen

I very much oppose the west option

For I 11 through Avra Valley. It would have a adverse impact on the many animals that live in and cross the Tucson Mountain area. I am opposed to the adverse impact it would have on the beautiful pristine desert in the Tucson mountain. Save our animals and our desert.

Vote YES on the the resolution to go east on the I 11 by pass.

We who live on the west side of the Tucson Mountains are quite aware that our area is the second biggest tourist attraction in Arizona. You can't put a freeway through that! Please ABANDON the idea! There are better options. What a disaster that would be.

Dear Pima County Board of Supervisors,

Building a highway through Avra Valley is a terrible idea. Sure, Pima County and Maricopa County have seen a lot of growth, but we must invest in sustainable, forward-thinking solutions rather than plans that will destroy some of the most pristine Sonoran Desert in our area. Pima County has created very good open space protection plans, and I'm grateful to them. Please continue to preserve the desert, and listen to community voices.

I understand that the Board of Supervisors will be considering a resolution opposing the proposed West route for the (Unnecessary!) route I-11. Short of opposing the route altogether anywhere, I support the opposition to the West route going through pristine desert and endangering homes and habitat, as well as the Desert Museum and the Ironwood Forest National Monument.

Please join the City in opposing the West route,
