Richard,  
As a homeowner in your district, I ask you to vote against any project proposed by Monsanto. Their views are not the views of the people concerned about their own food health and safety. They refuse to let their products be clearly labeled as GMO products. Every customer should know what the food they buy contains. Their products have been banned by most European countries.

They're corporation's products are unhealthy for farmers, for consumers and for the earth. I view them as the health hazard of this century as the tobacco companies were in the last century.

Please join with all the other concerned citizens in Tucson and vote no against Monsanto's Greenhouse and crop growing plans. They would be an very unhealthy addition to Tucson.

**Subject:** Please vote "NO" on "Project Corn".

Dear Supervisors and Clerk of the Board,

I am an anxious citizen who is gravely concerned about the prospects of Monsanto establishing a greenhouse facility in Pima County. Monsanto's track record of managing known carcinogens from leaching into the environment is extremely poor. As a lifelong Tucsonan of nearly 48 years, I want my family to enjoy safe, healthy communities in and around Pima County. I oppose any tax breaks for Monsanto, and I strongly urge you to vote "NO" on "Project Corn".

Very kind regards,

John Peterson
