Subject: Firework Permit numbers

Rex,
 Here are the numbers you asked for - As I text you - La Paloma is at 14 fireworks shows this year and Caterpillar is at 8 - they are the frequent flyers compared to the other permit holders who are mostly once a year - HS graduation and Fourth of July.

Total effects is the other interesting element to look at in the chart. The number you see under total effects is a combo of aerial (seen by many) and ground (seen by those that are close). What it does not tell us from the firework vendor is how much noise they make. The primary complaint is being surprised or the sound that disrupts sleep and upsets the dogs. Of course when houses and people felt in danger from the fire - which was from the fourth of July's show at the Country Club which was not the resort (Bobby Retz's program) - this added another element about the fire danger and damage.

Kate

Day/Date	Minutes of show	Time of show	Total Effects	Location	Responsible person
Thurs. 1/19/2023	8-10 min	7:00 p.m.	703	Westin La Paloma Resort	B Retz
