Deanne Johnson

Why are Pima County taxpayers funding this contract to target Latina/Hispanic women to take the COVID-19 vaccine that is neither safe nor effective. I, as a Pima County resident do not want any more of my tax dollars to be used for funding for COVID-19 vaccine programs like this and to target ANY group is unconscionable!

Re: Agenda item #21 (Behavioral Insights Team Contract) scheduled for tomorrow

I strongly urge each board member to truly consider the consequences of this agenda item. You will be targeting a specific race and gender (Latina/Hispanic women) to manipulate them and find coercive ways to make them take the COVID "vaccine".

Please take into consideration that if someone has not gotten the COVID "vaccine" by now, then they are not interested.

Have not the news headlines over the last few months proven that these "vaccines" are NOT "safe and effective"? The CDC and FDA are now warning they cause heart issues. And you want to manipulate a minority population into taking something that will damage their hearts? NBC News recently came out with an article stating that natural immunity from a COVID infection is just as good as the "vaccine". So again, I ask why are you pushing to do this? Why are you pursuing wasting taxpayer dollars on this frivolous pursuit?

I cannot believe that you are heartless and cruel. Misguided, yes. But what is your motivation behind this agenda item? The only answer that makes sense is sadly, money. You are putting money before the safety of Pima County Residents.

I urge each one of you to vote NO on agenda item #21.

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Why are Pima County taxpayers funding this contract to target Hispanic and Latina woman to take the Covid-19 vaccine that is neither safe nor effective? As a tax payer, I do not want any more funding for Covid-19 vaccine programs such as this. I urge all Supervisors to reject efforts of this type in the future and to terminate any existing contracts if possible to save this money for truly legitimate Pima County needs.

Agenda 2/21/23 addendum item# 21

It is despicable that you spy on poor people about their vaccination status. Spending \$50,000 to "improve the Up-take of COVID vaccines." Same racist decision as the contact tracers mentioned below. Shame on you! Disgusting!

Recently a study found Natural Immunity is superior to double vaccinated. Why are you tracing healthy people? What's the ICD-10 code for the unvaccinated? What purpose that this have? You are violating peoples' civil rights and freedoms!

Shame on you!

Re Addendum Item #4: COVID-19 Contact Tracers

Greetings,

Read my comment into records.

Pima County has illegally (In my opinion) contracted with Maximus Health Services, Inc. for \$28,000,000 of contact tracing and spying on its citizens!
Now you want to allocate another \$5 million to extend this contract through January 2023 and add the option for FIVE more six-month renewals!
It would allow extension of the contract through 2025! Enough is enough! COVID IS OVER!

How does contact tracing contain the spread of COVID-19? Prove to me that this data will NOT be used against citizens in the future!
We do NOT TRUST YOU! Stop spending millions of dollars on spying!
