Dear County Supervisors;

Hiring a new county administrator should be an opportunity to prove some financial responsibility. Knowing we have and have had 1 of the highest paid administrators in the county is concerning. Having a national average of about 137,000.00 a year to be a county administrator and knowing we are paying \$330,000.00 for that job makes me wonder why? Is Pima county so messed up that it takes an exceptional individual to handle this duty? If so, what are we doing wrong? Why do the 5 of you think it is ok to overpay at my expense? That was not in the best interest of taxpayers (me).

You have the opportunity to make a great choice now. It will be hard because some county employees are earning way too much and the new administrator will have to deal with not being the highest paid employee, but I am sure there are some great people out there that could do this job. Please provide a transparent and reasonable search. And make a good deal on a qualified person. The county budget could use a good trim.

Dear County Administrators,
Hiring a new county administrator should be an opportunity to prove some financial responsibility. Knowing we have and have had 1 of the highest paid administrators in the county is concerning. It's obvious Ms. Leshner is there because she was already the deputy and it was easy to pay her that huge amount because she already knew what Mr. Huckleberry was getting. That was not in the best interest of taxpayers.

You have the opportunity to make a great choice now. It will be hard because some county employees are earning way too much and the new administrator will have to deal with not being the highest paid employee, but I am sure there are some great people out there that could do this job. I ask that you please hire a person that will work to get a balanced budget and not keep asking for more of my property tax money to do it with. The county budget could use a good trim.

Thank you.
Jasmine
