Dear Pima County Supervisors,

To: Clerk of the Board of Supervisors  
130 W Congress, 5th floor  
Tucson AZ 85701

Dear Pima County Supervisors,

I am in favor of the proposed Bike Ranch bicycling and training resort at the corner of Escalante and Old Spanish Trail. This project complements Pima County's large investment in bicycling infrastructure, and its image as a cycling destination.

The fact that the Bike Ranch will use the highest standards of sustainable design, land preservation, and energy and water conservation is a big plus, and will set a high bar for future developments in our fragile desert landscape.

I believe that Saguaro National Park will directly benefit from introducing new riders and hikers to this beautiful desert while insuring a continual revenue stream. The Bike Ranch will have positive benefits for our whole community.

Sincerely,

--

**Date:** Saturday, November 08, 2014 9:08:15 AM

---

Re: Tucson's Guest Ranch for Cyclists

I am asking you to support the conditional use request submitted for the Bike Ranch near the entrance of Saguaro National Park East. The business plan along with the related environmental impact studies for the proposed use of this property outline a very environmentally responsible use of this land including preservation of open space beyond what could be achieved if the parcels were developed as 3.3 acre residential.

The Bike Ranch serves multiple purposes including much needed employment opportunities and attracting international tourist trade. This proposal is an excellent example of innovation balanced with preserving our natural resources in the desert.

As a neighbor, I highly endorse this land use.

**Dear Pima County Supervisors,**

To: Clerk of the Board of Supervisors  
130 W Congress, 5th floor  
Tucson AZ 85701

Dear Pima County Supervisors,

Dear Supervisors,

I am writing to support the proposed bicycle ranch on Escalante. I have read the studies on their website. There are well done reports from reputable sources. It's clear that open space is optimized with their proposed project as compared to having just house lots. House lots would likely have more impact on water use and no guarantee of conservation efforts as in the ranch project. Creating more jobs, especially in tourism is important for the county and city of Tucson. An added benefit is that it's a clean and quiet business. Cyclists tend to be too tired to make noise in the evening, so is neighborhood friendly. Non riding spouses may take advantage of local hiking or bird watching. There are so many reports and statistics from other cities showing the benefits of promoting cycling. So many other businesses in the area would benefit also. It seems like a no brainer to me.

Sincerely,  
Sylvia Schick Young

As a Pima County resident, and one who enjoys the area's national parks, am VERY MUCH IN FAVOR of the bike ranch.

Tucson desperately needs more progressive development to improve its economic growth. We need places like this ranch to bring jobs and business to our city, that continues to suffer from the country's recession.

As an employee of Raytheon, I believe we need more attractions to bring businesses to Tucson. I am confident that guests who stay at the bike ranch will fall in love with our weather and scenic beauty and it will entice those who are looking for a place to land their business. Tucson needs more than Raytheon, the University and some hospitals to sustain and build economic growth.

I have reviewed the bike ranch plans and think they are fabulous. I am also a horse owner and looking forward to the biker education this facility will provide to help horseback riders to be more safe.

I sincerely hope that the Pima County Supervisors will stand tall and recognize the true benefits that this Ranch will provide to our city.

Thank you,  
Suzanne

Dear Clerk of the Board of Pima County Commissioners:

We urge the commissioners to side with east-county residents who support locally generated, environmentally thoughtful and forward-thinking development such as Bike Ranch.

When we consider what legally could occupy the site of the proposed resort that is on the leading edge of the trend toward active and ecologically sensitive tourism, we are even more convinced that Bike Ranch will attract visitors who share our desire to preserve the natural appeal of this area, infuse local businesses and county government with much-needed dollars, and embody the cultural shift toward adventure travel that is replacing the financially flailing golf-and-fancy-resort vacation in Arizona and across the country.

Please vote for the Bike Ranch conditional use permit and encourage good-neighbor development.

Thank you.

Sincerely,

Dr. John Waldburger

Dear Pima County Supervisors,

To: Clerk of the Board of Supervisors  
130 W Congress, 5th floor  
Tucson AZ 85701

Dear Pima County Supervisors,

I am in favor of the proposed Bike Ranch bicycling and training resort at the corner of Escalante and Old Spanish Trail. This project complements Pima County's large investment in bicycling infrastructure, and its image as a cycling destination.

The fact that the Bike Ranch will use the highest standards of sustainable design, land preservation, and energy and water conservation is a big plus, and will set a high bar for future developments in our fragile desert landscape.

I believe that Saguaro National Park will directly benefit from introducing new riders and hikers to this beautiful desert while insuring a continual revenue stream. The Bike Ranch will have positive benefits for our whole community.

Sincerely,

--

Dear Pima County Supervisors,

I am in favor of the proposed Bike Ranch bicycling and training resort at the corner of Escalante and Old Spanish Trail. This project complements Pima County's large investment in bicycling infrastructure, and its image as an international cycling destination.

The fact that the Bike Ranch will use the highest standards of sustainable design, land preservation, and energy and water conservation is a big plus, and will set a high bar for future developments in our fragile desert landscape.

I believe that Saguaro National Park will directly benefit from introducing new riders and hikers to this beautiful desert while insuring a continual revenue stream. The Bike Ranch will have positive benefits for the entire Tucson community.

Sincerely,

--

Dear Pima County Supervisors,

To: Clerk of the Board of Supervisors  
130 W Congress, 5th floor  
Tucson AZ 85701

Dear Pima County Supervisors,

I am in favor of the proposed Bike Ranch bicycling and training resort at the corner of Escalante and Old Spanish Trail. This project complements Pima County's large investment in bicycling infrastructure, and its image as an international cycling destination.

The fact that the Bike Ranch will use the highest standards of sustainable design, land preservation, and energy and water conservation is a big plus, and will set a high bar for future developments in our fragile desert landscape.

I believe that Saguaro National Park will directly benefit from introducing new riders and hikers to this beautiful desert while insuring a continual revenue stream. The Bike Ranch will have positive benefits for the entire Tucson community.

Sincerely,

--

Dear Pima County Supervisors,

To: Clerk of the Board of Supervisors  
130 W Congress, 5th floor  
Tucson AZ 85701

Dear Pima County Supervisors,

I am in favor of the proposed Bike Ranch bicycling and training resort at the corner of Escalante and Old Spanish Trail. This project complements Pima County's large investment in bicycling infrastructure, and its image as an international cycling destination.

The fact that the Bike Ranch will use the highest standards of sustainable design, land preservation, and energy and water conservation is a big plus, and will set a high bar for future developments in our fragile desert landscape.

I believe that Saguaro National Park will directly benefit from introducing new riders and hikers to this beautiful desert while insuring a continual revenue stream. The Bike Ranch will have positive benefits for the entire Tucson community.

Sincerely,

--

natxo martin

I am in favor of the proposed Bike Ranch bicycling and training resort at the corner of Escalante and Old Spanish Trail. This project complements Pima County's large investment in bicycling infrastructure, and its image as an international cycling destination.

The fact that the Bike Ranch will use the highest standards of sustainable design, land preservation, and energy and water conservation is a big plus, and will set a high bar for future developments in our fragile desert landscape.

I believe that Saguaro National Park will directly benefit from introducing new riders and hikers to this beautiful desert while insuring a continual revenue stream. The Bike Ranch will have positive benefits for the entire Tucson community.

Sincerely,

--

Dear District 4 Supervisor Carroll,  
You have been a recent critic of the Bike Ranch but

you have every reason approve the use permit request in your district for the Bike Ranch At Escalante and Old Spanish Trail. It meets or exceeds all the criteria that you are on record as supporting.

You have been a critic, and that criticism has made the project better. In its present form it not only meets but exceeds the criteria that you support.

In your online biography you describe your district and your role as an environmentalist: your district "(1) contains some of the most spectacular mountain and desert scenery in Arizona" and you are "(1) a nationally recognized leader in environmental protection efforts."

The revisions to the Bike Ranch plan means it now exceeds any requirements of the Buffer Overlay Zone that protect habitat, and even creates a safe bicycle path to Saguaro Park from Escalante Road.

You said in your campaign speech that: "Pima County should have a major role in working with the private sector to attract and retain business in Southern Arizona." and  
That "Public-private partnerships are the key to successful economic development".

This project will be one of Saguaro National Monument's and nearby Colossal Cave's most visible supporters, insuring a steady revenue stream, and being an active partner when help is needed.

In your campaign you stated that : (2)"Job creation is the most important issue ... I favor new high paying jobs that do not harm the environment and do not result in the loss of existing jobs for our people". This project absolutely implements that goal.

And you said in that same campaign you "supported a local preference ordinance that helps local architects and engineers compete against out of town firms, and you are working on an ordinance that would give local preference to the hundreds of small contractors in Pima County. "

This your poster child ! The LEED certification the Bike Ranch is seeking requires more than just local sourcing. When completed Tucson's bike resort will be one of only four such resorts in the country.

In advocating for change at MTCVB now Visit Tucson, you understand support Pima County's tourism as an economic driver and for each bed there is a tax. Visit Tucson's campaign is "Calling All Passionate Pedalers wether you're training for a long race, looking to take on **mountain trails**, or just like an easy, laid-back ride, Tucson is perfect for people who love to see the world on two wheels."

The Bike Ranch in district 4 is all that Tucson must be. It will be built on desert landscape across from Saguaro National Park and it is poised to take environmental causes into the 21st century.

The Bike Ranch will create jobs and promote the development of Tucson as a world class biking destination, and best of all it will be a good neighbor!

Dear Clerk of the Board of Pima County Commissioners:

We urge the commissioners to side with east-county residents who support locally generated, environmentally thoughtful and forward-thinking development such as Bike Ranch.

When we consider what legally could occupy the site of the proposed resort that is on the leading edge of the trend toward active and ecologically sensitive tourism, we are even more convinced that Bike Ranch will attract visitors who share our desire to preserve the natural appeal of this area, infuse local businesses and county government with much-needed dollars, and embody the cultural shift toward adventure travel that is replacing the financially flailing golf-and-fancy-resort vacation in Arizona and across the country.

Please vote for the Bike Ranch conditional use permit and encourage good-neighbor development.

Thank you.

Sincerely,

Dr. John Waldburger

To: Clerk of the Board

I am writing in support for the approval of the Bike Ranch Mini-Resort. I am a Tucson longtime resident and have lived midtown on the Arroyo Chico bike path for many years. I also own property on Mt. Lemmon and have been a trail volunteer at SNP park for many years both both as a mounted trail patrol and as foot patrol with a pack animal. In all these situation I have had to deal with cyclist. It is true there are some cyclist who think they own the road and the trails and are a pain in the neck and hazard to themselves and others. I have had to deal with them on hiking trails, horseback and on the Mt. Lemmon highway. But, for the most part the majority are good citizens who love to cycle and care about other users. Our state, our county and our city needs to encourage tourism, health, and private business! The Bike Ranch concept does all 3 and more. I think it is imperative as well for the Bike Ranch to join the local biking community to encourage education and safety for all cyclists using the roads, bike paths, and bike trails. They could be a prime source for education and advocacy for improving the relationship between all user groups. Please approve the Bike Ranch! I think it will be good for Tucson and Pima County.

Thank you.
