Dear Pima County Board of Supervisors, Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley. This route would cause wildlife corridors vital to Saguaro National Park to be cut. The highway and associated development would also result in noise and lights that would devastate the twin attractions vital to our area - the Arizona-Sonoran Desert Museum and Saguaro NP. I support this resolution and encourage you to please vote YES on this resolution at your upcoming meeting.

Dear Pima County Board of Supervisors, I am a native Tucsonan who worked at the Desert Museum back in the 1950s. The thought of a freeway with its associated gas stations, fast food joints, and then motels in the Avra Valley sickens me.

Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley. I support this resolution and encourage you to *please* vote YES on this resolution at your upcoming meeting on August 10.

Sincerely, Roger Carpenter

Dear Pima County Board of Supervisors,

Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley.

Damage to the desert environment, rural lifestyle, and Tucson area tourism cannot be justified. Tucson Mountain Park, Saguaro National Park West, the Desert Museum, and Ironwood National Monument have many values that would be compromised. Peace and quiet, wildlife corridors, countless views filled with saguaros are things that we and visitors hold dear. Plus, a bypass around Tucson would decimate business located on I-10 and lead to strip malls, fast food, and gas stations along the I-11 corridor. Yikes! High density housing would follow, leaving people who need affordable housing displaced in areas like Picture Rocks. More water would have to be supplied in remote areas and demand would increase over time.

I support this resolution and encourage you to please vote YES at your upcoming meeting.

Dear Pima County Board of Supervisors, Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley. I support this resolution and encourage you to please vote YES on this resolution at your upcoming meeting.

The Sonoran desert doesn't need another interstate consuming precious land and resources. And neither do the residents of Tucson or the citizens of Arizona. There are ways to successfully manage traffic by upgrading our current infrastructure, and doing so helps preserve the land we all cherish. If anything, let's establish rail service between Tucson and Phoenix to decrease congestion on the existing freeway. A rail route will take less land and resources and it will significantly help fight climate change. Another freeway on the west side of Tucson the just adds to LA-like sprawl of metropolitan areas, and no one supports that anymore. I hope we can find smart, healthy, and environmentally protective solutions to our transportation issues.

Thank you opposing the West Option for I-11.

For some many (far too many) months, the issue of the possible construction of an additional/alternative interstate freeway, identified as the I-11 {"Aye-yi-yi..."} corridor has been bandied about. This potential scar through the landscape is a ridiculous idea that has no merit whatsoever! Native American communities are adamantly opposed to it. Many other populations of people~~far beyond the nearby N.I.M.B.Y.s~~believe it to be the atrocity it is [too far from any city]. The natural world which doesn't speak in a language most humans are capable of comprehending would be most detrimentally impacted by this plan.

Hear this important message! The economics of the country and the various states through which this division would be passing cannot bear the extensive costs that would be incurred by trying to construct this monstrous embarrassment--->the nation seemingly can't maintain the current infrastructure across the country, there is no way your institutions can take on this additional expenditure and make it valid. **Oh, yes, and don't forget the National Debt now exceeds 28 trillion dollars and is growing by the second!!!** *Why should the rest of the country have to pay for this?* There is no rational way that I-11 can be built!! **Make sure to do all you can to kill this I-11 concept!**

Dear Pima County Board of Supervisors, Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley. I support this resolution and encourage you to please vote YES on this resolution at your upcoming meeting. The County has been forward thinking in the past about preserving our natural environment with the Sonoran Desert Protection Plan. Here is another time when it is needed to work hard to prevent this highway from happening to decrease pollution and preserve sensitive desert habitat. It is also makes economic sense, since tourists are attracted to this area.

Thank you,

Dear Pima County Supervisors,

I am writing to support your resolution opposing the West Option for I-11 that would run through Avra Valley. Please vote YES on this resolution at your upcoming meeting, which I believe is on August 16.

Stopping this freeway option is crucially important to the ecological wellbeing of Saguaro National Park and the surrounding ecologically-sensitive areas. I also believe that a freeway in Avra Valley would be very detrimental to the tourism industry in Tucson because it would destroy the values that draw people to the beautiful areas west of Tucson.

Thank you!

Julie Rogers

Dear Pima County Board of Supervisors,

As a county resident, I appreciate your drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley.

This unnecessary and destructive plan should be abandoned. I support this resolution opposing the West Option and urge you to Vote YES to pass it at your upcoming meeting.

Thank you.

Dear Pima County Board of Supervisors, Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley. I support this resolution and encourage you to please vote YES on this resolution at your upcoming meeting. Consider the alternate route though the city. Stacking the highway from downtown to I-19, with lane widening west and east of downtown. Where the destruction, obstruction and chaos, will send humans and animals and vegetation, scrambling to survive without there homes. Thank you for your time,
Be well and safe,
Patricia Norman

To: Pima County Board of Supervisors

I support the resolution opposing the West Option for I-11 that would go through Avra Valley.

Please vote YES on this resolution at your upcoming meeting.

I feel this route would be a disaster for our internationally-respected Arizona-Sonora Desert Museum, as well as for wildlife in the Tucson Mountains and Avra Valley.

August 6, 2021

Dear Pima County Board of Supervisors:

Thank you very much for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley.

I strongly support and applaud this resolution and encourage you to please vote YES on this resolution at your upcoming meeting.

This West Option would cause significant adverse environmental and social impacts, including substantial destruction and fragmentation of fragile native desert landscapes. The West Option would also encourage unsustainable further sprawl development.

Given the increasingly serious climate and extinction crises, we need progressive and smart transportation options going forward, not a continuation through the West Option of the energy-wasteful, sprawl-inducing status quo.

I hope that my input is helpful, and I appreciate your consideration.

Sincerely,

Richard Spotts

Subject: I support the Pima County resolution opposing I-11 in Avra Valley

Dear Pima County Board of Supervisors,

Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley.

The Avra Valley and adjacent lands are an inappropriate location to build a highway "bypass". The quietude and sensitive natural resources of this area are far too valuable to disrupt and fragment with a major highway. The bypass proposal was a bad idea when the concept was rejected by the public over a decade ago, and it is still a bad idea today -- one that the majority of the public rejects.

Important lands of Saguaro National Park West, the BOR Mitigation Corridor, the Arizona Sonora Desert Museum, Tucson Water properties, tribal lands and numerous documented wildlife corridors would be permanently and negatively impacted directly and indirectly. Such a major transportation corridor would also encourage new housing and commercial development in the valley, which would degrade the valley's rural, semi-wild character and fragment vital wildlife habitat and corridors. Last, but not least, such a bypass would encourage and enable valuable commerce to bypass Tucson and its economy altogether. A

Sometimes you just can't fix a bad idea. Instead, you have to reject it altogether. Multiple times if necessary.

I support a resolution from the Board of Supervisors opposing the West Option for I-11, and I encourage you to please vote YES on this resolution at your upcoming meeting on August 10.

Sincerely,

Matt

Dear Pima County Board of Supervisors, I write in support of your draft resolution that opposes the West Option for I-11 through Avra Valley. The Avra Valley route passes through and near some highly-sensitive environmental areas, and in addition, is completely unnecessary. Traffic is never heavy through Tucson. Rarely is there ever a slow-down. It would be a huge waste of government money and also would be wrong to cut Tucson and Marana off from the commerce that derives from the interstate transit. Please vote YES on this resolution at your upcoming meeting. You guys are doing a great job! Regards, Jackie Craig, Marana

Dear Tucson City Council and the Pima County Board of Supervisors,

Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley. I support this resolution and encourage you to please vote YES on this resolution at your upcoming meeting.

I am a conservation biologist who has lived and worked in Tucson for 25 years. For the last 20 years my research has focused on the population genetics of desert tortoise and other, local reptiles and I share my comments with you from the perspective of someone who has an intimate knowledge of landscape connectivity across the desert southwest.

While an important part of our nation's infrastructure, roads unfortunately have a number of negative impacts on our environment; sound pollution, light pollution, air pollution, scenic views and of course direct and indirect impacts on wildlife. In addition to direct mortality, roads result in habitat fragmentation which impacts the long-term sustainability of wildlife populations. Many of the reptile species that I work most closely with, such as desert tortoise (*Gopherus morafkai*), Gila Monster (*Heloderma suspectum*) and chuckwalla (*Sauromalus atar*) are distributed across the landscape in small, disjunct patches and for which the immigration of individuals among populations is critical for the long-term maintenance of populations (through "gene flow"; the movement of individuals, and/or the genetic material they carry, from one population to another). In my population genetic study of desert tortoises in southern Arizona that was published in the journal of *Conservation Genetics* in 2004, I observed that anthropogenic barriers obstruct movements of tortoises between populations and disturb patterns of gene flow. Out of the nine populations included in my study, all but two population pairs currently have human barriers that seriously obstruct natural tortoise movements.

Habitat fragmentation through the construction of roads results in smaller populations with limited to no gene flow. Smaller populations are then more susceptible to other habitat disturbances and are negatively affected genetically through increased inbreeding and a reduction in heterozygosity, each of which can result in further reductions in population size. This negative feedback loop is referred to as an "extinction vortex". Each new road that causes further habitat fragmentation and degradation is another step toward this negative cycle. In a recent study I contributed to on Gila Monsters, we observed that the robust population of this species that remains protected in Saguaro National Park benefits from landscape connectivity without major impacts from roads.

I purposefully focus here on the smaller fauna of the desert, although it is well documented that Puma, Bighorn Sheep, Pronghorn and other mega fauna are equally as impacted by habitat fragmentation and roads. The fact that so many species face the same issues is an indication that the negative effect of roads impacts the entire ecosystem. Where roads already exist we can document this impact. Where roads do not exist or are less traveled, we should try to preserve wildlife corridors and connectivity throughout the landscape. In the context of a corridor through Avra Valley,

this is a biologically-rich part of our region with significant protected open space, wildlife linkages, and mitigation lands. Avra Valley is located between Pima County's Tucson Mountain Park and Saguaro National Park to the east and Ironwood Forest National Monument and the Tohono O'odham Nation to the west. It also contains mitigation lands managed by the Bureau of Reclamation for impacts from the Central Arizona Project canal, open space lands owned by Pima County and the Regional Flood Control District, and the Santa Cruz River. A new interstate through or adjacent to these protected lands would be devastating and irreversible.

If there is a proven need for expanded capacity of highway traffic, making improvements to the existing Interstate 10 corridor is the best alternative to manage increased traffic volumes in southern Arizona. All transportation options also need to be investigated, including an expanded rail corridor between Tucson and Phoenix and multi-modal transportation solutions generally.

Please feel free to contact me for any follow-up questions.

Sincerely,

Taylor Edwards, MSc, PhD

Herpetologist, Conservation Geneticist
Tucson, Arizona

No additional Arizona open space should be destroyed to construct new freeways. I would instead support enhancing existing corridors if volume demands it. A perfect example is I-10 narrowing to two lanes between Casa Grande and Chandler.

There is no intelligent reason that the I-11 can't follow the I-19 and I-10 except to satisfy the lobbying efforts of rich land investors. The environmental impact can't be accurately measured. The desert has already been changed so much that rain patterns have changed for good in Tucson. This freeway will be horrible for the community. The plants and animals will be irreparably harmed. Phoenix has excelled in attaching & crisscrossing one freeway over another. Please don't ruin more of our precious desert!!!

Dear Esteemed Board members -

Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley.

This is pristine desert, a wildlife corridor, and a dark sky area with clear line of sight to Kitt Peak. All of which makes Tucson a special place and a destination for tourism and new residents. A new freeway (for what???) would destroy all of that. Seems we could simply widen the hideous I-10 even more.

I support this resolution and encourage you to please vote YES on this resolution at your upcoming meeting.

Thank you,
Melissa Fitzgerald

Dear Pima County Board of Supervisors, Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley. I support this resolution and encourage you to please vote YES on this resolution at your upcoming meeting.

I understand the logic of building a Tucson bypass just as they have in PHX, but the rampant development occurring along the I-10 corridor between the two cities should provide the room for expansion of I-10 and all the development we will ultimately be able to accommodate here. You can see the issue of water building rapidly, and I believe that soon we will be limiting development with concomitant reductions in traffic and water needed. I really can't fathom a major highway through the Avra Valley. It breaks my heart. Thanks for offering your voice in opposition.

Dear Pima County Supervisors,

Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley. I am vehemently opposed to the building of I-11, especially the West Option proposed through Avra Valley. This will destroy the desert and will be unrecoverable and cause irreversible damage to the desert, the wildlife, and the environment. Additionally, the building of a Tucson bypass will rob Tucson and Pima County of economic benefits, including revenue and jobs that are needed to support the Tucson economy.

I encourage you to vote YES on the resolution to oppose I-11 through Avra Valley.

Sincerely,
Lois Pawlak

Dear Pima County Board of Supervisors, Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley. I support this resolution and encourage you to please vote YES on this resolution at your upcoming meeting.

Please see my reasons below:

- It will destroy pristine critical habitat and animals in the wildlife corridor.
- It would be too close to Saguaro National Park West and Ironwood Forest National Monument.
- It will negatively impact visitor/tourist experiences in the Tucson Mountains.
- It will negatively impact populations that live in this proposed corridor: especially Altar and Avra Valley.
- It will cost more.
- It violates the purpose that Bureau of Reclamation mitigation lands were originally set aside.
- It will negatively impact the Pascua Yaqui and Tohono O'odham tribes.

Dear Pima County Board of Supervisors,

Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley.

I support this resolution and encourage you to please vote YES on this resolution at your upcoming meeting.

The concerned citizens of Pima County need your voice to stop this environmental, tourism and Tucson business travesty.

A recent mailing from Pima County Flood Control shows a map that suggests I-11 would possibly be in the Brawley Wash Floodplain Area. A FEMA Flood Zone Special Flood Hazard Area would likely be affected by a highway in this area.

This option for I-11 needs to be taken off the list once and for all.

Sincerely,
Elsa Swyers

Dear Pima County Board of Supervisors, Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley. I support this resolution and encourage you to please vote YES on this resolution at your upcoming meeting.

I am still not convinced of the need for a bypass for truck traffic. The out-county options actually add miles. I think truckers will want to use the shortest route possible.

Thank you,
Catalina Hall

Dear [Tucson City Council or Pima County Board of Supervisors],
Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley. I support this resolution and encourage you to please vote YES on this resolution at your upcoming meeting. Further, 10+ years ago we fought off the bypass to go through the San Pedro Valley. That remains NOT an option. Run an elevated road over existing I'10 through Tucson for only by pass traffic.

Dear Pima County Board of Supervisors, Thank you for drafting and considering a resolution that opposes the West Option for I-11 through Avra Valley. I support this resolution and encourage you to please vote YES on this resolution at your upcoming meeting. This is a complete waste of funding that can and would be better utilized elsewhere such as upgrading/retrofitting/weatherizing Pima county citizens mobile homes and existing homes to deal with the very real and very extreme temperature and climatic extremes that will be in our very near future. A large portion of rural residents live in older mobile homes with very little to no insulation and will become literal death ovens and be a drain on the electrical grid. It is appalling to be told there is no funding for the weatherization program but there is money set aside for a Fraudulent audit in maricopa, and an interstate that is just being paved for housing developers to bulldoze the desert for limitless growth on a limited supply of water. Please dont let Dr Horton and Granite Construction divide what little community there is out here and help us save the desert from development. Vote Yes on the proposed resolution opposing the highway to nowhere I-11

Cordially,

Robert V. Byrd
