***Project Title/Description:**

WIC and BFPC Services. This IGA grant is for the Women, Infants, and Children (WIC) and the Breastfeeding Peer Counseling (BFPC) programs.

***Purpose:**

The Arizona Supplemental Nutrition Program for Women, Infants, and Children (WIC) provides nutrition education and breastfeeding support services, supplemental nutritious foods, and referrals to health and social services. WIC serves pregnant, breastfeeding, and postpartum women, infants, and children under the age of five who are determined to be at nutritional risk.

Pregnant and breastfeeding WIC participants may also participate in the Breastfeeding Peer Counseling program. This program offers additional peer-to-peer breastfeeding support aimed at increasing initiation and duration of breastfeeding.

Amendment #6 reduces the Pima County Health Department's WIC caseload for FY 23 from 10,500 to 10,250 based on actual program participation numbers during FY 22. However, due to a 3% increase in the funding formula to help with inflation and two performance awards WIC received this year, the WIC program funding will increase by \$26,520 to a total of \$2,084,020. There is no change to the Breastfeeding Peer Counseling portion of the program, with funding remaining at \$105,998.

***Procurement Method:**

This grant IGA is a non-Procurement agreement and not subject to Procurement rules.

***Program Goals/Predicted Outcomes:**

The goal of this program is to improve the health of pregnant, postpartum and breastfeeding mothers, as well as their infants and children up to age five, by: 1) providing nutritious foods to supplement the diet of low-income participants; 2) providing breastfeeding education and support to increase the number of babies that are breastfed and to increase the duration of breastfeeding; 3) providing nutrition education; and 4) reducing malnutrition.

***Public Benefit:**

These programs benefit qualifying low income pregnant, postpartum and breastfeeding mothers and their infants and children up to age five in Pima County by improving their nutrition.

***Metrics Available to Measure Performance:**

ADHS conducts annual Financial Audits to review cost allowance, financial control improvement and improved Local Agency service. In addition, ADHS conducts biennial Management Evaluations to review management processes, client certification, food package determination, and nutrition education. ADHS also measures monthly and yearly caseload, indicated by the number of clients issued monthly supplemental food benefits.

***Retroactive:**

No. Although the period funded by this Amendment begins 10/01/2022, the IGA term goes through 9/30/2023.

SCOPE OF WORK

1. BACKGROUND

The Arizona Department of Health Services (ADHS) Bureau of Nutrition and Physical Activity (BNPA) administers funds provided by the United States Department of Agriculture (USDA) for the operation of the Special Supplemental Nutrition Program for Women, Infants and Children (WIC) and Breastfeeding Peer Counseling Program (BFPC) for the State of Arizona. The USDA nutrition programs are discretionary, and each provides a specific service to women, infants, and children who are low income and at nutrition risk. The overall goal of all the USDA Nutrition Programs is to increase food security and reduce hunger by providing eligible participants access to nourishing food and supportive nutrition education.

1.1. WIC Nutrition Services

1.1.1. The WIC Program accomplishes this goal by providing participant-centered services (PCS) including nutrition and breastfeeding information and support, specific supplemental healthy foods through the issuance of food benefits that can be used at ADHS-approved grocery stores, and referrals to other health and human services as an adjunct to good health care during critical times of growth and development. Service population eligibility for the WIC Program is based upon federal regulations such as participant category (pregnant and breastfeeding women, postpartum women, and infants or children under five years of age), a household income at or below 185% of federal poverty guidelines, residence within the service area, and nutrition risks.

1.1.2. To be considered as a WIC Local Agency, the organization must be a local public or private non-profit organization, County health department, or tribal entity under contract with ADHS to provide WIC services according to the WIC Program federal regulations and state policies and procedures. The State awards a WIC Contract based on the ability of the organization to provide WIC services, potentially eligible population, need, response to the Scope of Work, information technology capacity, and available funds. The State determines and awards the WIC contract amount based on a funding formula using several factors such as a base level for a program to function, the amount of caseload negotiated with each Local Agency, and quality of performance.

1.1.1.1 Specific objectives for nutrition services (based on [Healthy People 2030 goals](#)) are:

- 1.1.1.1.1 To increase the incidence of women initiating breastfeeding,
- 1.1.1.1.2 To increase the duration of women breastfeeding for the first six (6) months of their baby's life,
- 1.1.1.1.3 To increase the duration of breastfeeding women breastfeeding for the first year of their baby's life,
- 1.1.1.1.4 To increase the rate infants are exclusively breastfed at three (3) months and at six months,
- 1.1.1.1.5 To reduce the proportion of adults who are considered obese,
- 1.1.1.1.6 To reduce the proportion of children ages two (2) to five (5) who are considered obese,
- 1.1.1.1.7 To increase the consumption and variety of fruits and vegetables by those two (2) and older,
- 1.1.1.1.8 To increase the consumption of whole grains by those two (2) and older; **and**

1.1.1.1.9 To reduce household food insecurity and hunger.

1.2. Breastfeeding Peer Counseling (BFPC)

1.2.1. Breastfeeding peer counselors add a critical dimension to WIC's efforts to help women initiate and continue breastfeeding. WIC breastfeeding peer counselors provide a valuable service to their communities, addressing barriers to breastfeeding by offering breastfeeding education, support, and role modeling. They are familiar with the resources available to WIC participants and the questions a new breastfeeding mother may ask, and recognize when to refer mothers to other resources when issues outside their scope of practice arise. In 2020 the USDA Food and Nutrition Service (FNS) released their new national breastfeeding campaign titled: *WIC Breastfeeding Support: Learn Together. Grow Together.* As a part of this, FNS has developed training and technical assistance to equip WIC Programs with a framework for designing and maintaining peer counseling programs. Developing this training included formative research to understand barriers and motivators to implementing and sustaining peer counseling programs and develop training curricula. This Peer Counseling Training for WIC Managers, which is a training and technical assistance project that will be used as a model to aid WIC in designing, building, maintaining, and sustaining peer counseling programs that will improve breastfeeding initiation and duration rates. Arizona will be using this program to guide and develop the state peer counseling program.

1.2.2. The discretionary peer counseling services are considered an adjunct support to WIC breastfeeding services to help achieve the WIC Nutrition Services objectives regarding breastfeeding.

1.2.3. Peer counseling has been a significant factor in improving initiation and duration rates of breastfeeding among women in a variety of settings, including disadvantaged and WIC populations representing diverse cultural backgrounds and geographical locations. Peer counselors are especially effective in communities where role models for breastfeeding behaviors, knowledgeable health care providers, and cultural practices that include breastfeeding as the norm, are scarce. Combining peer counseling with the ongoing WIC breastfeeding promotion and support efforts has the potential to significantly impact breastfeeding rates among WIC participants, and most significantly, increase the harder to achieve breastfeeding duration rates. WIC Local Agencies are strongly encouraged to provide peer counseling services in addition to the ongoing breastfeeding support to their WIC participants. Contractors must provide a breastfeeding friendly environment and have policies to accommodate participants and staff who are breastfeeding.

2. OBJECTIVE

At a minimum, to provide WIC services while allowing each Local Agency to provide, at their discretion, Breastfeeding Peer Counseling Services.
