Hello,
Here are some comments about Agenda Item #30.
Thanks,

Agenda Item #30: Climate and Sustainability Action Planning for 2025 – 2030.

Recommended action: This is a waste of time and our tax dollars. “Data-driven science” doesn’t always mean proper science (remember how well that worked out during COVID). People who claim to want to save the planet are often only interested in enriching themselves (or they wouldn’t fly to so many climate conferences in private jets).
