I live at 7010 N Mercer Spring Pl and am a Pima County resident.

The voting age population is mobile and frequently moves. Americans are famous for their geographic mobility. Americans are equally famous for not being politically engaged. Our voting record compares unfavorably with other advanced democracies. If we reach 60 percent of eligible voter turnout in a presidential election that's viewed as a major success. Anything that helps improve this miserable record should be encouraged.

If a potential voter decides to exercise his or her right to vote, but doesn't realize they have moved to a new precinct, vote centers will permit such voters to cast their ballots by reducing travel time between precincts. Such voters will no longer have to travel long distances to vote in their correct precinct. Also, well distributed vote centers will encourage all voters to cast their ballots by reducing the time away from work. That encourages low income voters to vote.

Finally, establishing vote centers will move Pima County into the forefront of governments encouraging voter turnout. Voter participation is the point of democratic elections.

Dear Clerk of the Board,  
Please share with Board members my grateful thanks for their hard work on behalf of us, the citizens of Pima County.  
Please also ask them on my behalf to approve at the upcoming vote 2/15/22 measure or measures to expand maximally opportunities for the us to cast a ballot. Democracy wins when we all participate. Barriers to ballot-casting serve only to disenfranchise. Greater availability and flexibility of polling means and locations does not meaningfully increase fraud. Rather, it increases justice. Vote in favor, for all of us.

Yours,  
Jeffrey Rein

Respected Supervisors:

As far as I can tell, voting centers are a no brainer. Pima County is way behind on adopting them. They would ensure that no voter ever has their ballot turned away because they are in the wrong voting place. This will improve voter turnout and give elected officials more of a mandate. The electronic technology they would use leaves less room for error.  
Please vote yes on voting centers!  
Thank you,  
Kathleen Dubbs

**Subject:** Vote centers and automated pollbooks

**CAUTION:** This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

I am writing to support vote centers and automating pollbooks as proposed by the Pima County Recorder's Office and the Elections Department.

Voting centers will make voting easier for everyone, since we will not have to worry about going to the wrong voting place. I consider myself well informed about voting, but my voting place has been moved at least once since I registered in Pima County, and this was confusing. People should be able to cast their ballot wherever it is more convenient for them, whether is be near home or work. There should no longer be a "wrong" voting place for anyone registered in Pima County.

Why is Pima County the only county that does not yet have an electronic pollbook system? Such a system will be faster and decrease the burden on elections staff and volunteers. It will also be more secure since it will have its own secure network.

Please vote in favor of these initiatives.

**CAUTION:** This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

I call on the Pima County Board of Supervisors to vote in favor of establishing vote centers and automating pollbooks at the Tuesday, February 15th meeting. As an already well-established practice in 11 other counties, voting centers are inherently more accessible.

- Vote Centers are more secure
- Pima County voters can cast their ballot at any Vote Center
- Convenient for rural and urban voters alike
- No more disqualifying "out of precinct" votes

If a voter makes a "mistake" by going to a location outside their precinct, they can still cast their ballot without having to drive an hour out of their way to the next closest polling place.

Thank you for your consideration.

I support the establishment of Voting Centers in Pima County. They will be more secure and convenient for ALL voters. Redistricting makes voting confusing enough - who knows where their precinct is this year? - and having Voting Centers will allow every registered and eligible voter to exercise their RIGHT to have a voice. I urge you to APPROVE this measure.

I am a voting resident of Tucson. I am currently mailed a ballot for each election- thank you so much , however I want to voice approval for proposed vote centers. As presented, it will make it much easier for workers, young people, and rural voters; As long as the centers provided are adequate in number and placed in the most geographically convenient place for voters. I see it as a win, win, win. Voters can choose to vote at the most convenient place for them. Voting will be more secure. Potentially, less need for election worker volunteers.

Please debate this bill in good faith and on it's true merits. Your goal should be to broaden the electorate, not make it more difficult for ANYONE to vote in AZ.

Thank you

To the Pima County Board of Supervisors,

I urge you to vote in favor of establishing vote centers. The process of voting should be accessible to everyone and should not keep someone from voting because they went to the "wrong" voting location. This common occurrence is especially harmful to rural, indigenous, and low-income communities who cannot afford the time to drive to an alternative location.

A democracy depends on voter participation. Some countries, like Australia, feel it is an obligation of citizenship so require citizens to vote. I say just make it easier. Ironically, those with the most to gain....or lose...are working one or more jobs, raising a family and struggling. This is the demographic that will either prosper or suffer in the coming decades. They need to have it easy to vote. That doesn't mean they will, but at least Pima County will have done its part, like much of AZ, to remove the barrier of location. If there is a vote center close to where you work, why not allow that to be used. Precincts are a relic of the past, like the Model T, that predate the ability of computers to more efficiently and accurately check registration (which should be automatic), signature, etc. than humans could.

Bring Pima County into the 21st Century through the use of voting centers.

Thank you.

I'm writing to share that I support Vote Centers. It's important to assist people to get to the polls. After all, our process is for people to have a say in their government, correct? Then why not make it easy for them to vote, to get to the polls. To restrict voter access doesn't make sense in a democracy. Restrictions by requiring a certain polling station makes it more difficult in people's lives.

I've traveled into other countries, and found that some other democracies expect, and some even require their citizens to vote. They want participation, so that all their citizens have their representational say. Then it really is "government of the people, by the people, and for the people" as allegedly ours is purported to be.

To institute Vote Centers would be a step forward toward that principle.

Thank you.

All-

I have worked elections at the polls.

I have supported voters young, old, new to the state and working parents.

I have seen the struggle across party lines - GOP, DEM, IND - to find 'the right voting place'. Some just come off work (all day construction for example) and are exhausted having to pick up kids or make another shift or even a class. These individuals arrive at times at the wrong precinct and get bounced back and forth. They deserve to have the option as registered, legal voting citizens to vote and we should support this ASAP. Regardless of party you should be able to vote and a YES on Voting Centers will do just that - legally registered voters enabled to vote and ALL legal ballots counted.

A YES push Pima County to the 21 Century voting aligning with 11 other counties in AZ.

There is no reasonable justification to vote NO.

It is government's role is to remove barriers for citizens NOT overburden and tax legal voters (ie: poll tax) to get their ballot counted. Please VOTE YES and do not prevent a remedy for its legally voting citizens based on conspiracy theories or ignorance.

Those of us who know elections, have experienced working with the community (non-partisan) understand ALL voters struggle. Voting Centers remove a huge barrier for your community you represent.

Thank you for your YES vote on Voting Centers.

Supervisor Scott,

With regard to the proposal to change the way we vote in Pima County, please read my comments into the official record.

As a new Pima County resident I feel it is important for you to know my view on the proposed changes to the number and location of Voting Centers in Pima County. An action to reduce the number of center will cause confusion and it will force voters to put their health and safety at risk by standing in long lines and in crowded unsafe conditions.

Voting Centers not only disenfranchise all in-person voters but they also hurt minority and low-income voters as these groups often have limited transportation and less time or flexibility to vote.

In addition, there are proven problems with E-Pollbooks as they're connected to the internet, have no uniform standards and are easily hackable. We have all been witness to the chaos E-Pollbooks have caused in multiple states due to their malfunctions, which has caused excessive delays, preventing people from voting.

**Voting Centers and E-Pollbooks separately or together equal the definition of Voter Suppression. Please vote NO on this proposal.**

Sincerely,  
Linda Parker Magellan

Dear Pima County Supervisors,

I am writing to urge you to vote in favor of establishing vote centers and automating pollbooks in Pima County.

Eleven other counties already have vote centers and have proven their value in being more accessible to everyone, especially those in underserved or rural communities, and for people who would otherwise be voting in the "wrong" precinct.

Pima County is the only county in Arizona that does not have an electronic pollbook system--now is the time to create one.

Thank you for your time, and thank you for all that you do.

Sincerely,

Julian P. Donahue

Dear Pima County Board of Supervisors,

I am a constituent of yours in Tucson and am asking that the Board vote yes on approving Voting Centers in Pima County.

When I was younger and not as knowledgeable about how voting works, I was turned away at a polling station for being at the wrong one. A poll worker checked my voter ID card and told me the correct one to go to. At this time I did not have a smart phone and wasn't sure how to get to where I needed to be. It was already late in the afternoon (I had worked in the morning) and had to go home, look up the directions, and then drive to where I needed to be. I was fortunate to make it to the station before closing, but for many other working people, I'm sure it's not so easy and can lead to people not voting. This is why the Vote Centers are a great idea--it saves people time and leads to less frustrated voters as they can simply go and vote and be done with it.

I urge you to vote yes on supporting Vote Centers in Pima County.

Thank you,  
Clarice Bales

Dear County Board of Supervisors,

I reside at 4407 E Elmwood St, Tucson, AZ 85711. I am writing in support of Recorder Cazarés Kelly's proposal to create voting centers. Many counties in Arizona use these systems whatever their partisan makeup is. These centers would help disabled voters like me more easily cast a ballot in person because I could find a center that has the accessibility features that I need. This proposal makes sense to and will benefit people in rural areas, people who don't work close to their precinct, and people who need to be able to vote close to their bus routes.

Thanks for your consideration!

Zach Coble

Hello,

This message is for voting members of the Pima County Board of Supervisors.

Please vote NO on electronic poll books and NO on electronic voting machines and do not waste time and money researching these things.

I have zero confidence in electronics and computers maintaining and properly counting and reporting my votes. This needs to be done on a physical medai like paper.

We can physically see writing and marks on paper. We cannot see 0s and 1s in tiny electronic circuits.

Thank you,

Mr. Bill Bothe

Living in Pima County district 4.

Vote Centers are a great idea for Pima County. After a record turnout and one of the cleanest elections in history in 2020, we need to continue that progress. I've listed several of the many reasons they should be instituted. I've worked at polling locations many times and I can personally see how every one of these reasons is legitimate.

- There will be no more sending people to a different polling location because they aren't at the right place.
- Check in time will go from 3 minutes to 30 seconds
- It eliminates the possibility that someone could vote twice
  - Voter is automatically checked in and cannot vote again
  - Human error of marking the wrong line for a voter is eliminated
- Ballots are only printed as someone checks in. Someone being able to print a stack of ballots and stuff the box is impossible.
- Eliminates the need to print ballots for each voting location ahead of time. The ballot style is printed for each voter, therefore there are no blank ballots at the polls or unvoted ballots after the election.
- Poll workers will be able to tell if a person voted their early ballot and will only issue a provisional if the record shows that the voter's ballot was already returned and verified
- Check-in as outlined above is automated
- System will bring up the exact voter
- Eliminates people signing on the wrong line
- Voters less agitated by outdated processes that take time and are inconvenient
- Voter confidence is increased by automated processes
- Saves time
- Half the amount of logistics on Election Day with less locations & automated processes
- 83% less provisional ballot processing. Processing time after the election is over will be significantly shorter due to 83% decrease in provisional ballots. In most years, processing provisional ballots takes close to or at the deadline of 10 days after each general election. Due to the amount of time it takes to process provisional ballots, Pima County is almost always the last county to finalize results and one of the only counties to go right to the deadline.

I strongly encourage you to approve Vote Centers for Pima County! Lynda Hanna

To Whom It May Concern,

I want the Pima County Board of Supervisors to vote in favor of establishing vote centers and automating pollbooks. The process of voting should be accessible to everyone, and should not keep someone from casting a ballot because they went to the wrong location. This is a long over due change and one that should be a priority of the Board of Supervisors.

Sincerely,  
Faith Suaso, PhD

Pima County Board of Supervisors,

Electronic machines like e-poll books are prone to security breaches as exposed in multiple State elections. E-poll books contain voter registration databases and software that necessitate additional security protocols often dismissed by careless employees as seen in prior elections. Are e-poll books approved by our legislators? Why start a new process without proper voter in-put right before another election? E-poll books, wireless printers and tabulators are hackable. Having printers at the polling centers to print ballots does not provide secure chain of custody nor accurate accountability. How do you compare the number of registered voters to the number of printed ballots? You do NOT have my consent for e-poll books, unsecure paper, wireless printers, nor tabulator devices!

Regarding centralized polling centers, why would voters give up their neighborhood voting places where election workers would notice inconsistencies? Why reduce nearly 60% of polling locations to only 100? Why this mad dash to change things quickly? It will suppress voters. I cannot give my consent. We witnessed mass chaos and irregularities in the last presidential election that we cannot ever let happen again. I urge you to defeat these progressive recommendations that will forever change our country! We are witnessing illegals intentionally being brought into our country to change future voting outcomes. We are also seeing intentional obstructing of any Voter Integrity measures such as one election day, mail ballots for Military or invalids by request only, smaller but more precincts, voter roll maintenance, more oversight by observers, less technology and higher security, chain of custody, and no ballot harvesting. What are you doing to protect US?

Lastly, countries such as UK, Ireland, Denmark, Sweden, Norway, Switzerland, and Spain have no more COVID restrictions. It's time to end mask and vaccine harassments. End the State of Emergency because we have effective medicines now. Politicians caused this economic crisis with endless lockdowns and lawless mandates. Mandates are not laws. You do not have my consent to ever do this again.

Michael Aaron, Voter in Rita Ranch

11071031680M27111

action can only occur when voting happens in your local neighborhood precinct. It cannot be done by community wide Mail-in Voting nor by large Vote Centers.

We vote according to our individual thoughts and ideas about the ballot contests in the privacy of the voting booth. When we are done, we insert the ballot in the ballot box because this simple, public act does remind both the citizen and the government officials present that it is the citizen that is in charge. This action endorses our system of voting for our representatives and helps to maintain our civic culture. It reaffirms why it is necessary to come together as a local community to vote for OUR representatives... and that voting is publicly witnessed by our neighbors.

The use of a Vote Centers denies the citizens the opportunity to have their public affirmation of the voting process remain at the local level. While a Vote Center may be more efficient, it distances both the neighbors in a community from one another and dilutes the power of the public affirmation at the local level. In the end the only true beneficiary would seem to be the bureaucracy.

In your rush to make speed or convenience the goal, you will sacrifice the very personal reminder to our neighbors that we are voting for our local representatives. You will be further distancing the citizens from the government. This is a recipe for disaster.

Your job as the Board of Supervisors is to maintain not just the machinery of our elections but to guard against any loss of the strength of our voting systems. The first duty of government is to protect the Rights of the Citizens. This is enshrined in both the Arizona and US Constitutions. Like those burka clad women, the citizens of Pima County need their voices to be heard. Not just in this November's election... but in every election. But your haste would seem to make voting in Pima County more of a bureaucratic function and less a Right... You would in fact be saying our voices don't matter.

Do not vote to initiate Voting Centers in Pima County.

Respectfully,

Bill Beard

Pima County Election Integrity Commission member (2013-2019)

I urge the Pima County Board of Supervisors to vote in favor of establishing vote centers and automating pollbooks. Voting should be accessible to all and people should not be kept from voting because of a wrong location. Doing so is especially harmful to rural, indigenous and low income communities. It's highly unfortunate that Pima County is the only county in Arizona that doesn't have an electronic pollbook system. Doing so will make elections safer and faster. I have every confidence in the Pima County's Recorder's Office to carry out this new system and educate voters about it.

I urge the Pima County Board of Commissioners to vote in favor of establishing vote centers and automating poll books. As a volunteer poll observer for many elections, I have seen first-hand that far too often a voter shows up at the wrong polling location or does not have the luxury of lots of time to wait to vote. They have the best intentions to vote but are on a tight schedule: Need to get to work, get kids to school, return home to be a caretaker. Or, as creatures of habit, they show up at an old polling place. When they make the honest mistake of showing up at the wrong polling location, the voter may reluctantly vote a provisional ballot (which won't be counted if submitted in the wrong polling place) or they may have run out of time to head to the proper polling place. I often wondered if they ever made it to the correct polling place. Everyone's vote should count. It is time for Pima County to catch up with other Arizona counties as to vote centers and automated poll books.

A follow-on to Bill Beard's letter to you which speaks to why Bill Beard's letter is such a dangerous policy idea.

" Bill Beard , sorry but you and your group (PCEIC) seem to be ignoring the science of viral transmission. This issue has nothing to do with "intellectual and spiritual aspects of our civic culture" but everything to do with Public Safety. You and your group seem to be quite fine with putting an entire population of voters at significant health risk by turning a fundamental right of all Americans into a Super Spreader event. Bill, that mindset is really quite delusional. It is also dangerous, cruel and violates what the Pima Board of Supervisors should be doing which is protecting us against policies that put us at risk like what you are proposing in all of your flowery language.

Following is my comment for the Board of Supervisors Meeting 2-15-22 Agenda/Addendum

**AGENDA ITEM #15 AUTHORIZATION OF VOTE CENTERS**

Reducing the number of voting locations causes restriction of votes, does not make voting smoother and quicker. Do not do this for either the Primary or General Election. This reduction does not eliminate voter waiting time, or ease of access, it appears to establish voter suppression. Vote NO to Voting Centers.

To : Pima County Supervisors

I want the Pima county supervisors to vote in favor of establishing vote centers and automating poll books. As an already established practice in 11 other counties, voting centers are inherently more accessible than traditional polling places because how you can vote at any center. I believe this will especially benefit people in rural communities and make it easier for disabled voters who will not have to change where they vote. It also makes voting more accessible to voters by eliminating the possibility of a voter mistakenly going to a location outside their precinct and having to drive an hour out of their way to eat next closest polling place. I am confident that our Pima County Records office and elections department can execute a public information campaign on the new system and carry out a successful and secure midterm election this fall.

Just do it, please.

February 13, 2022

Dear Supervisors,

As someone who has monitored elections in the county, I can attest to the frustration felt by citizens who have discovered on voting day that their vote will either be invalid or "conditional" due to a change in address.

I believe this is legal vote tampering by the system. Democracy is difficult enough without having needless tripwires for unsuspecting citizen-voters.

Pima County must embrace the Voter Center system, as so many other forward-thinking jurisdictions have.

I believe the new county recorder and her staff will be ready to make it work on Day One.

**I urge you to vote Aye when you are called to vote!**

Thank you.

The Pima County Board of Supervisors should vote to approve Vote Centers. This would allow ALL registered voters to vote, conveniently, safely and confidentially. IN addition it would go far to make sure that those who live in rural areas, have a disability, or a transportation challenge would have fair access and opportunity to vote.

Many other counties in Arizona have done this successfully; it is time to bring Pima County into the fold.

Voting rights are essential to a vibrant democracy.

**I copied this list from an email I received (my comments in bold after each):**

### **The Supervisors need to hear from you!**

- Vote Centers would enable any registered voter to cast their ballot at ANY Vote Center in Pima County on Election Day! **In today's environment we need this capability!**
- Voting locations would stay the same for rural communities PLUS any registered voter would be able to cast their ballot at ANY of the 100 locations! No more being told you're in the wrong place! **As I stated above we need this capability - in today's world, what with covid, people working remotely, and just our mobile society, voting should be available so that we ALL can access voting sites!**
- Pima is behind on the technology 11 of the 15 counties in Arizona are already using Vote Centers! **WTF! Let's get on this!**
- It'll increase the number of valid ballots counted! Every vote counts! **Amen!**

**Thank you!**

Dear Supervisors:

As you know, our democracy is stronger at all levels when more eligible voters participate in an election. Thus it is appropriate to make it convenient for eligible voters to cast their votes. VOTE CENTERS are an excellent way to achieve this.

I am 65 and have always been a regular voter. When I was younger, my polling place stayed the same for years and years and only changed when I moved. More recently, polling places seem to change regularly. It makes sense to simplify the process, for the sake of both citizens and administrators, and changing to VOTE CENTERS is the best way to do this.

Please do all you can to change Pima County to a VOTE CENTER system.

Thank you.

I am strongly urging you to vote in favor of VOTE CENTERS!

Pima County is **behind** on this compared to the rest of the state. Eleven of AZ's 15 counties **already use VOTE CENTERS!**

It makes no sense for people to have to vote in only one place. **This is the 21st century, and it's time we started acting like it with regard to our elections!**

Any registered voter should be able to cast their ballot at **any** of the 100 rural voting locations. **Everyone's vote should count**, yet up until now, if a voter turns up in the wrong polling place, unless they have the ability and time to go to the right place, their vote is **NOT** counted.

**END THE CONFUSION....  
NO MORE HAVING TO GO TO ONLY ONE SPECIFIC PLACE TO VOTE!  
VOTE FOR VOTE CENTERS IN PIMA COUNTY!!!**

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Let it be known that I am a registered voter in Pima County Arizona and I'm not in favor of changing the Election structure in Pima County.

We don't need to do a cost-benefit analysis of the voting systems. We don't need to model the voter system; wait time, service time and deliver a queueing analysis. We don't need to tell you how disenfranchised voters will feel after the disinformation that will surround the change of polling places. We just need you to look at what your team—Presidents Obama and Biden—have already said. Listen to your team.

Do NOT set Pima County up for a cyberattack or a breach of our VOTER DATA. President Obama warned you; the CIA warned you; the FBI warned you and the NSA warned you.

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

I sincerely request that the Pima County Board of Supervisors vote in favor of establishing vote centers and automating poll books. The process of voting should be accessible to everyone, and should not keep someone who casted a ballot because they inadvertently went to the wrong voting location. Very often this happens to rural, indigenous and low income communities who cannot afford the time to drive to an alternative location. In addition, automating the check in system for voters in lo g overdue.

Pima County is the only county in Arizona that does not have an electronic poll book system! Automating this system will not only make elections safer, since they will use their own secure networks, but it will also be faster and decrease the burden of all elections staff and volunteers.

I am confident in the ability of our Pima County Recorder's office and Elections department to execute a public information campaign on a new system and to carry out the most successful, secure midterm election in Pima County history this fall.

Thank you.

Please read my comments into the official record. I ask you to NOT disenfranchise Pima County voters with centralized Voting Centers and E-Pollbooks. Research shows consolidating polling places suppresses voter turnout. This is particularly true for minority and low-income voters. E-Pollbooks are a disaster: they're connected to the internet, easily hackable, and frequently malfunction. Elections in the United States were purposely structured to be decentralized, accessible, and accountable. Pima County needs to earn back the trust of voters by ensuring our local precinct voting locations aren't consolidated, and there's no change to our paper Pollbooks.

We need to keep the integrity of our elections....and the faith of the people in their vote!

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Dear Clerk Gabriella Cázares-Kelly,

I encourage you to vote against the recent push to "modernize" voting in Pima County. My faith in fair elections here is at an all time low, how does outsourcing democracy to mega-corporation Amazon Web Services (which is politically biased) increase that faith? How does consolidating 240 precinct polling places into 100 voting centers and discontinuing paper voter lists make any aspect of Pima elections better?

The pandemic is over and we are way past due on getting back to basics. We need residents dipping their thumbs in blue ink like Afghanistan, not more electronic garbage that can't be properly audited. We need registered voters to vote in person, with identification, once.

Let's stop pretending that our elections don't need multiple audits and more paper trails to determine any bad actors and fraud in 2022 instead of electronic nonsense that can be manipulated with the push of a button via the internet.

Regards,

Jason Gerepka

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

I strongly urge the Pima County Board of Supervisors to vote yes in favor of establishing vote centers along public transit routes and automatic poll-books. The process of voting should be accessible to everyone with residency in the County (thinking about voters with disability), and should not keep anyone from casting her/his ballot because they went to the "wrong" voting location. This quite often occurs that is especially harmful to rural, indigenous, and low-income communities who cannot afford to go to another location or plainly because of the time needed, for job requirements, to do it.

In addition, automating the check-in system for voters is a must for Pima County; it is the only County in Arizona that doesn't have an electronic poll-book system. The automatization not only will make elections safer, but it will be faster and importantly reduce the burden to all election staff and volunteers. I am confident in the ability and expertise of the Pima County Recorder's office and Election department to carry out a public information campaign on the new system and flawlessly execute a secure midterm election this fall.

Pima county has been a bastion of open easy safe elections since we moved to Tucson in 1980. There's never been an issue with illegal voting. Do the right thing and don't disenfranchise voters...either Republican democrats or independents.

Dear Board of Supervisors,

I am writing to urge you to vote for Vote Centers in Pima County.  
11 of the 15 counties in Arizona are already successfully using Vote Centers.

Vote Centers make good sense: they allow any registered voter to cast their ballot at any Vote Center in Pima County on Election Day. No more being told you're in the wrong place.

We should be making it easier for people to vote, not harder.  
Every registered voter should have their vote count.

Sincerely,

Celeste Rogers

My wife and I are county Residents. We are both strongly in favor of Voting centers. Our Democracy is an example to the World showing we citizens can vote to select the candidates we want.

Voting Centers support and encourage citizens to vote and enhance our rights in a Democracy.

Why would anyone be against our Constitutional rights to vote in any manner thats legal?

Please support voting centers in Pima county!

**CAUTION:** This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Please vote in favor of establishing vote centers and automating pollbooks. No one should be prevented from exercising their right to cast a vote because they went to “the wrong voting location.” There are many rural, indigenous and low-income voters in Pima County whose transportation arrangements need to be carefully done, and who have the right to cast their ballots. Moving polling places and making various exclusionary rules about who can vote where will be an extra burden on these voters. Pima County needs to automate its check-in system for voters also. These systems use their own secure networks and assist in keeping voting and voter information organized for everyone concerned. I trust the Pima County Recorder’s office and Elections Department to run a competent public information campaign about the new system and to carry out a completely successful and secure midterm election in Pima County this fall.

Thank you.

Supervisor Scott:

**Please read my comments into the official record.**

I cannot believe that with just 4 months before the Primary voting starts on July 6, 2022, Pima County Elections and Recorder want to change the number of voting locations, and the technology and rules of operations of the polling locations. I am asking you to NOT disenfranchise Pima County voters with centralized Voting Centers and E-Pollbooks. There is a plethora of research that shows consolidating polling places suppresses voter turnout not increase it. This is especially true for minority and low-income voters. E-Pollbooks are a disaster as they are connected to the internet, which makes them easy to hack, and they malfunction frequently.

Elections in our Country were purposely structured to be decentralized, accessible, and transparent. Pima County needs to gain the trust of the voters by ensuring that our local precinct voting locations are not consolidated, and above all, there's no change to our paper Pollbooks.

In advance I thank you for giving this serious consideration and vote NO to Decreasing Voting Locations and completely redesigning the Technology platform in existence.

Regards,

Jim McFadzean

Please get MORE voting centers set up all over the State! It is crazy to make this process more difficult - if any of you, Democrat or Republican, make voting difficult then no one gets voted in which means a major recall which then costs everyone more time, money and headaches.  
As a Democracy - voting is a right and an obligation and it needs to be 100% easy for all. I'd say make it all mail in voting which is even easier!! And cheaper. No more places to be staffed etc.

Thanks, a concerned and voting Democrat!

I urge the Pima County Supervisors to vote YES on the establishment of Voting Centers and automating pollbooks. Voting Centers will make voting in Pima County easier especially for rural, indigenous and low-income communities. Additionally, automating the poolbooks is long overdue. Pima is the only county in Arizona without an electronic pollbook system. Automating this system will increase election integrity. Voting YES on Voting Centers and automating the pollbook system is a win-win for the voters of Pima County, helping to increase access to voting in a secure, safe manner.

Thank You,  
Karl Schaeffer

Dear Supervisors,

Voter confidence in AZ (including Pima County) is at an all-time low. As you are likely aware, Maricopa County used Voting Centers, Electronic poll books and ballot printers that cast doubt on the accuracy of the 2020 elections. Now is NOT the time to change voting procedures in Pima County.

Citizens are demanding more scrutiny by election officials & observers that must include representation of both parties. There are numerous bills mandating statewide changes that could require additional precincts, higher security, less technology & improved voter roll maintenance.

Should you vote to reduce voting locations, you will make it less convenient for people to vote on Election Day & drop off early ballots, not to mention the waiting lines you will cause. You will disenfranchise the very people who you are supposed to represent.

It is unfathomable that you would consider these changes now! Please vote NO.

Sincerely,

Shirl Lamonna  
Oro Valley resident

I urge the Pima County Board of Supervisors to vote in favor of voting centers and automatic pollbooks. Everyone should have access to vote, and not be sent home or to another location because they are at the "wrong" voting place. Every vote counts.

This in particular is harmful for rural, indigenous, and low income communities who cannot travel between locations. Pima County is the only county in the state of Arizona that does not have an electronic pollbook system, how embarrassing it is to say that.

Hello Supervisors,

I Live in district 3, and I feel very strongly in support of the use of voting centers. Why would we not enable our neighbors and all citizens to have their vote counted, no matter where they've dropped off their ballot? Is the location where a vote is cast the most important thing, or free and fair democracy?

Please vote in favor of this common sense proposal.

Thank you,

Emily Rockey

I am contacting you to NOT reverse the September 2021 vote to reject the proposal to reduce the number of precincts to 205. The reduction in polling places and using federally uncertified Electronic Pollbooks will only add to a decrease in voter confidence and potential fraud. It will also add confusion for voters and make it harder for them to find new locations to drop off early ballots. The reduction in polling places will also lead to unsafe conditions due to overcrowded polling places with long lines. During a pandemic the last thing we should be doing forcing more people into less places. We should be making it easier for people to vote not harder.

Sincerely,

Valerie Anthony

I completely support the implementation of vote centers in Pima County. Whether someone is traveling from work, home, or out running errands, it is an efficient way of allowing all of us to carry out a great civic duty. This allows people to travel shorter distances depending on their location on voting day and their scheduled activities.

To All the Board of Supervisors,

We here in Precinct 162 LD9 are very upset at the thought of reducing polling places! Our voter confidence and election Integrity is a big problem. This proposal does nothing to increase Pima County's voter confidence in elections. I have made those that still were unaware in my precinct, and of course the many other Pima County voters are aware that Maricopa County conducted an election in 2020 with highly questionable results. They used Voting Centers, Electronic Poll Books, and Ballot Printers. Real problems were discovered as a result of the Maricopa County Audit in 2021. Reducing voting locations by 57% would make it less convenient for people to vote on Election Day or to drop off their Early Ballots. The majority of voters know where their own polling place is and to find a new location and managing the logistics for at least half of our voters will becomes a further problem. This is, in essence, would be voter supression to the highest degree!

Our voters will be watching how you handle this matter.

Amanda Fischer

Dear Count Board of Supervisor Members:

Please support and vote for Voting Centers! All citizens registered to vote deserves to be able to cast their ballot easily, simply with few or no obstacles.

All voters deserve to be able to cast their ballot at any vote center in Pima County on Election Day. As you well know, any registered voter would be able to cast their ballot on any of the 100 locations. No citizen registered to vote will be told they are in the wrong place! Voting enters will increase the number of ballots cast by all who choose to have a voice.

Every vote counts!

Thank you for caring, for you time and for supporting voting centers.

Please read my comments into the official record. Apparently there are many changes being considered for voting procedures. Over complicated procedures hamper the process. Voting is a right and privilege of a legal citizen. Voter identification that proves citizenship should be a must for in person or mail in or absentee voters. If you have proof, not opinion, that present procedures are in need of overhaul and fail the citizens then publish that information in a public manner ( TV, newspapers, radio, letter to voters) before spending time and voters money.

Dear Board of Supervisors,

I am writing to you regarding the vote tomorrow to reduce our 232 voting precincts to 100 vote centers and switching to a “print on demand” service. I would like to express concern that reducing polling places by more than 50% would actually make it harder for registered voters to locate a “new” location and significantly increase wait times, thus discouraging some voters to exercise their fundamental right to vote.

I would like you to address how a “print on demand” service is compliant with Arizona Revised Statutes (ARS) 16-508 and 16-509. I have typed them below for your reference.

16-508. Number of ballots furnished each polling place - *There shall be furnished for each precinct in which an election is to be held a number of early ballots and printed ballots exceeding by at least one per cent the number of registered voters whose names appear on the precinct register of the precinct, city, town or district for which the ballots are printed.*

16-509. Delivery of ballots to election officers - *The board of supervisors, city or town clerk or governing body of a special district shall deliver, by mail or other reliable method, to each voting precinct or to the inspector of each election board as determined by the officer in charge of elections one package containing the required number of ballots, at least forty-eight hours before the hour for opening the polls on election day, unless prevented by some unavoidable delay or accident which shall be established by affidavit of election officers or bearers of ballots. The official ballots shall be sent in sealed packages with marks on the outside of the package clearly designating the polling place for which they are intended and the number of ballots enclosed. Upon delivery of the package to him, the inspector shall return receipts therefor to the person from whom received.*

In summary, ARS 16-508 and 16-509 state that there must be enough ballots printed that exceed by at least one percent of the number of registered voters and delivered to each voting precinct at least 48 hours before the opening hour on election day. Therefore, wouldn't a “print on demand” service be in violation of ARS 16-508 and 16-509 due to actual ballots not being printed and delivered at least 48 hours before any election?

We the People of Pima County have a right to a secure and certifiable election, and we are watching to make sure our voting process remains secure, accessible, and compliant with our AZ laws.

Sincerely,

Amanda Gomulka

This comment to the board of supervisors is requested to be read into the record at the next Pima County Board of Supervisors Meeting.

Please vote against changing our polling places. No every time on central Voting Centers or E-Poll-books. There is no good reason to make these changes to our system. This proposal does nothing to increase Pima County voter confidence in elections, in fact, it will erode confidence. There are also plenty of volunteers to work the polling places. There are many changes to our voting system coming soon from the state legislature, that will be enough confusion alone. Please don't add to it.

A large percentage of us regular Pima County voters prefer to go to our local polling place to vote in person, on a paper ballot, on election day. Mail-in ballots are an invitation to fraud and must be minimized. Electronics can easily be changed and are harder to verify.

Please note that if it becomes obvious to voters that our Pima County election system is not completely secure and above board, we will stop participating in the system of self governance that is actually Pima County. Without voters, you and me are lost.

Regards,  
Rick in Picture Rocks

Please read my comments into the official record.  
I ask you to NOT disenfranchise Pima County voters with centralized Voting Centers and E-Pollbooks. Research has shown that consolidating polling places results in the suppression of voter turnout. This is particularly true for minority and low-income voters. E-Pollbooks are connected to the internet which makes them easily hackable, and they frequently malfunction.

Elections in the United States were purposely structured to be decentralized to make them accessible and accountable. Voters in Pima County need to have their trust re-established by ensuring our local precinct voting locations aren't consolidated, and there's no change to our paper Pollbooks.

Thank you,  
Greg Heule

Dear Sir or Madam,

My wife and I live at 3750 E Via Palomita Avenue in Tucson with a zip code of 85718. We have been Pima County residents for over 20 years now.

I am writing to express our very strong support for voting centers. When we first arrived in Tucson we volunteered for about 5 years to work at our precinct center on election nights. We found the experience rewarding, and educational.

But we also came away from our experience questioning the wisdom of the geographical restriction posed by the requirement that voting in your specific precinct imposes. The inflexibility imposed by this requirement is inconsistent with the daily realities of many citizens, and may result in needless hardship or even nonvoting. Moreover, such a requirement appears more and more to be a relic of an older, non-electronic age.

It did not take us long to value highly the opportunity to use mail-in ballots, and we have used them unflinching for virtually the entire time we have been here.

Voting is **the** core democratic responsibility, and privilege, and any measure which encourages voter turnout and makes it easier and more accessible should be supported.

Gene and Violet Griffiths  
We live in Supervisor District 01

Hello Dear Board of Supervisors,

I urge you to vote in favor of vote centers. Because there are so many people voting by mail, there are fewer and fewer places people in Pima County can go to on election day to vote. Many are working and by the time they are home, the polls are closed. Not everyone works 9 to 5. With vote centers in place, voters can go anywhere to vote, perhaps on their lunch hours near their work location. We have a wonderful Recorder's Office, and voting centers would mean the dedicated staff would not have to spend days after election day verifying provincial votes. All votes would be counted on election day, increasing confidence in the election outcome. The current staff of the County Recorder's Office has the ability to educate voters when vote centers are instituted. Please vote for them!

Clerk of Board and Board of Supervisors:

Please enter my comments into the record for the Pima County Board of Supervisor's Meeting 2/15/22

Board of Supervisors and County Administrator Huckleberry:

It is not surprising that much thought has been put into the election process since the 2020 election, what is surprising is that our local election officials are considering further detrimental actions to dis-enfranchise the voters again. Reducing voting locations which extends travel to cast a ballot will result in extended wait times.

I have been a poll WORKER for Pima County Elections, in a Republican majority precinct that is always staffed with D (Democrat) and PND (party not declared) workers. In the 2020 primary & general election the only Republicans working at this polling location were myself and my friend (which I recruited for Marshall) in this majority REPUBLICAN PRECINCT staffing without proper party representation is not acceptable. I cannot imagine how you will staff these "voting centers" - PND (party not determined) is not a recognized party and as workers this class of voter should not outnumber the recognized party worker representation at the precinct polls.

I support local polling precinct voting locations for several reasons and **I urge you to Vote NO to Voting Centers and Electronic Poll Books!**

1. Local precinct polling locations offer greater voter integrity and security. The poll workers should be from and know the community.
2. Precinct polling locations offer convenience and in theory the voter can address questions or issues with trained poll workers to EMPOWER the voter.
3. Oversight, with trained poll workers from recognized parties provide transparency in election processes which is imperative.
4. Based on experience, the ipod/electronic tablets have been used with hotspots in the polling locations to update Printed Poll Books at Precincts up to the day of the Election. Many issues were not addressed and required voters to vote as Provisional Ballots, not to mention internet access to voter data via hotspot is concerning already.
5. Electronic devices to control voter data is not transparency, as a Signature Room Observer I witnessed the digital signatures for early ballots. This process compared digital signatures of the voter, several I witnessed were nothing alike. When the Provisional Ballots and Election Day ballots were observed the Records office election workers used the handwritten poll books to review signatures. The handwritten poll books usually produced clearer handwritten signatures that could be verified more easily. These records provide transparency and can be verified without electronic means.

The public has been educated and are aware of the election issues and problems we face, now more than ever. You can hide behind plastic partitions and Zoom meetings but not without the oversight from the public. At some time, you will be held accountable for your actions by the voters in Pima County. Steve Christy has been the only voice of reason and has tried to engage the board with intelligent argument for discourse, you would be wise to consider the information he has presented. The Pima County Board of Supervisors and the County Recorder should not meddle with elections in an election year ever again, the election process needs oversight and transparency from a local perspective. A friendly reminder, election of our representatives is a right of WE THE PEOPLE of Pima County, infringement and dis-enfranchisement upon that right is unacceptable and un-American.

Thank you for your consideration,

Sincerely,  
Cheryl Caswell  
Pima County Precinct Committeeman  
Precinct 11

I urge the Board and my district Supervisor, Adelita Grijalva, to support vote centers. Far too often voters just don't have time to find the precinct polling place. 100 centers should be adequate for the number of voters who need to cast a vote in person. The technical upgrade should help as well.

Thank you,

001422M025PC0K0100 CC

Dear Clerk of the Board:

I received the following information from Ms. Sarah Ramsey, Precinct Committeemen, P239 Precinct Inspector and Poll Worker Trainer. Needless to say, I appreciated getting the information and finding out what the Board of Supervisors intend to vote on tomorrow.

I, like Ms. Ramsey, disagree with the actions you wish to take regarding voting in Pima County. I too am very concerned about the Pima County Elections Department's and Recorder's Office's proposal to implement Voting Centers, Electronic Pollbooks and Ballot Printers.

I, like Ms. Ramsey, request that my comments on this email be read into RECORD at your 15 February 2022 Pima County Board of Supervisors meeting.

Ms. Ramsey's letter is as follows and again, I am in total agreement and wish to have my statement read into RECORD!

Regards,

Harriett M. Rowe, LTC (R)

13467 S. Sundown Ranch Road

Vail, AZ 85641

Dear Supervisors:

I have been an Election Board member for 20 years worth of elections in Pima County and in other states. In 2020 I was an Inspector for the Primary and General Elections. I am very concerned about the Pima County Elections Department's and Recorder's Office's proposal to implement Voting Centers, Electronic Pollbooks and Ballot Printers.

**Our Mission as Election Officials is to implement a free and fair election in which the citizens of Pima County can believe and can accept the results.**

I am concerned this mission is in serious jeopardy. Roughly four months before the 2022 voting season begins, the Elections Department and the Recorder's Office want to:

1. Create Voting Centers and reduce the number of Voting Locations from 232 to 100 in the entire county. This is a 57% reduction and does not take into account the 30 new precincts that were recently proposed during the last BOS meeting. This would also REVERSE THE DECISION THAT THE BOARD OF SUPERVISORS TOOK LAST SEPTEMBER TO KEEP THE NUMBER OF PRECINCTS AT 249.
2. Install new voting equipment in the Voting Centers including Federally uncertified Electronic Pollbooks (tablets with access to the county's Voter Rolls) from Apple that are connected to Amazon Web Services as well as ballot printing devices. They want to turn over the security of Pima County elections to 3rd party vendors AWS, Cisco and Tenex Software Solutions.
3. Change the rules of operation for voters and poll workers.

**ALL AT ONCE! BY JULY 6, 2022!**

In my experience, Voter Confidence in our Elections is a big serious problem.

a. This Proposal does nothing to increase Pima County's Voters' confidence in our Elections. In fact it DECREASES them. Voters are extremely concerned about any system that is remotely connected

to other systems. ANY SYSTEM CAN FAIL OR BE HACKED. No vendor can guarantee 100% uptime. Pima County will need paper ballots and paper rosters as back up to keep the Election going.

b. Most Pima County Voters are aware that Maricopa County conducted an election in 2020 with questionable results. They consolidated voting locations into Voting Centers and used Electronic Poll Books and Ballot Printers. Real problems were discovered as a result of the Maricopa County Audit in 2021. There are **37 Election Integrity Bills** currently in the State Legislature to fix many of these problems. Among them are bills mandating, statewide, MORE PRECINCTS, LESS TECHNOLOGY, HIGHER SECURITY, BETTER VOTER ROLL MAINTENANCE, AND, MORE SCRUTINY BY ELECTION OFFICIALS AND OBSERVERS.

c. There are many moving parts to an Election on the actual Election Day. My experience working in the polls has shown me that there are MANY misunderstandings among Poll Workers of Election Laws as written in ARS 16 - Arizona's Election Code.

**For example:**

- What kind of Identification is required to vote?
- Who is allowed to deliver an Early Ballot or Ballots to the polling location? (only relatives and housemates, NOT curbside "runners")
- What happens if I make a mistake on my ballot?
- Why does the Precinct Roster say that this voter was mailed an Early Ballot when they NEVER HAVE ASKED FOR ONE? EVER.
- How many Democrats and Republicans are supposed to be on the Election Board at the Poll Location?
- Why can't a voter walk into a Poll wearing a candidate hat or talk about candidates? What do the Poll Workers do?
- Why can't Poll Workers NOT talk about politics or candidates in the Polls?
- Who can a Partisan Poll Watcher talk to in a Polling Location? (The Inspector)
- Who has the authority to challenge a voter and how is that done?

**NONE OF THESE QUESTIONS ARE ADDRESSED BY TECHNOLOGY. ALL OF THEM HAVE TO DO WITH COMPETENCY AND KNOWING THE LAWS OF ARIZONA.**

This involves flawless execution and competent training. In the 2020 Primary and General Elections, the Elections Department delivered Poll Worker training to Inspectors and Marshals in 20 minutes. I'm not exaggerating. The training for Clerks and Judges was on-line, not in person.

At the current time the Director of Elections has retired and the Assistant Director is leaving in April. The Recorder is new and has very little experience running the Recorder's Office or function. Who will be accountable for the implementation of a complete overhaul of Pima County's elections? Apple, Amazon, and TENEX?

With all the moving parts, if something following the election is in question, how will it be determined which part it was? The Voter Rolls? The EPollBooks?, the Poll Workers?, The Ballot Printers? The New Locations? The Network?

Where is the Project Plan and other technical plans for roll out, implementation, timing and back up in the event the project is late or technology fails? What about delivery of all the iPads and Printers? The printers are already obsolete. What is the plan for replacement?

**And, finally,**

d. How does reducing voting locations by 57% engender trust from voters in our elected and appointed officials? On its face, the reduction in Voting Locations is making it less convenient for people to vote or to drop off their Early Ballots on Election Day. Finding the new locations and managing the logistics for at least half of our voters will be a hassle.

**AN INTERESTING LITTLE FACTOID:** One of the proposed conveniences of Voting Centers is that voters will be able to vote in ANY one of the 100 polling locations. The Proposal states that "thousands" of voters voted out of precinct and their votes didn't count. By their own admission, the Elections Department reported that in the 2020 General Election out of 665K registered voters, only 653 voters didn't vote in the correct precinct. Which Poll Worker let them vote? Were they told their vote probably wouldn't count?

**In sum,** in a time very much like the Bush v. Gore era - the era of the HAVA Act ironically - I believe there is tremendous risk in a complete redesign of our Election operation. Pima County right now is the envy of the Arizona State House with our small precincts, paper ballots and hands on attention. There are many other ways to make improvements. Just ask.

**Please don't THROW THE BABY OUT WITH THE BATHWATER!**

Respectfully submitted,

Sarah Ramsey

Precinct Committeemen, P239

Precinct Inspector and Poll Worker Trainer

# PIMA County Election Integrity\*

\*The charts found here are excerpts of the M. Lindell Presentation titled, Absolutely 9-0. These charts show the massive election fraud that occurred during the November 2020 Election in Pima County.

<https://home.frankspeech.com/tv/video/mike-lindell-presents-absolutely-9-0>

# Overview

- **These charts show that there were at least 2 Chinese organizations that attacked our Pima County, AZ machines during the 2020 Presidential Election**
  - Note: Charts 3 through 6 should be placed side by side and read from left to right
- **After you've placed Charts 3 through 6 side-by-side, look closely at lines 3 and 7 on each of the charts**
- **Lines 3 and 7 show the Chinese organizations in Beijing and Shenzhen that attacked our Pima County, AZ machines during the 2020 Election. One attack was at 8:47 PM on the 3<sup>rd</sup> of November; the other attack occurred at 11:49 AM on the 4<sup>th</sup> of November.**
  - The Chinese Internet Protocol (IP) addresses are identified as 202.112.126.88 and 202.46.50.146
  - Our Pima County machine IP Addresses are identified as 159.233.2.2 and 159.233.0.55
- **Chart 6 shows that the attackers accessed the PIMA County, AZ machines by using "credentials". This means that the attacks had the User IDs and passwords of a person authorized to access the machines.**
- **Chart 6 also shows that the 2 Chinese attacks resulted in a decrement of Trump votes in the amounts of 33,066 (on 4 November at 11:49 AM) and 14,306 (on 3 November at 8:47 PM).**
  - Note that the biggest decrement (33,066 votes) occurred on the morning after the election when the Arizona votes were still being tallied.
