Proclamation:

Glaz-Tech Industries 35 Years of Innovation and Impact. (District 5)

Thank you.

# PROCLAMATION

**WHEREAS**, in 1990, two Tucson natives — Alex Miramontez and Pete Fazlollah — took a leap of faith and launched Glaz-Tech Industries in a modest 1,500-square-foot room, laying the foundation for what would become a nationally recognized leader in the glass fabrication and distribution industry; and

**WHEREAS**, from that single Tucson facility, Glaz-Tech has grown into a regional powerhouse with nine factories across six states, including Arizona, New Mexico, Colorado, Utah, Idaho, and Louisiana — representing over 450,000 square feet of workspace and a spirit of ambition born right here in Southern Arizona; and

**WHEREAS**, for 35 years, Glaz-Tech has delivered energy-efficient, performance-driven glass solutions for commercial, architectural, and residential projects — supplying over 1,000 licensed glaziers and supporting the design and building community with unmatched technical expertise and craftsmanship; and

**WHEREAS**, Glaz-Tech's story is not just one of growth, but of resilience and reinvestment — continuously upgrading technologies, expanding capabilities, and creating good-paying jobs for more than 270 employees across the Southwest, all while nurturing a workplace culture built on pride, care, and respect; and

**WHEREAS**, the company remains deeply rooted in Tucson and continues to reflect the values we hold dear — innovation, hard work, and the power of local leadership with a national impact.

**NOW, THEREFORE, BE IT RESOLVED** that the Pima County Board of Supervisors proudly recognizes:

## **“GLAZ-TECH INDUSTRIES: 35 YEARS OF INNOVATION AND IMPACT”**

for 35 Years of Excellence in Manufacturing, Job Creation, and Community Investment, and honors the founders, employees, and extended Glaz-Tech family for their dedication to Tucson's legacy of industrial leadership and for making a lasting impact on our region and far beyond.

**PASSED AND ADOPTED** this 21st day of October 2025.
