ITEM NO. ADD4

Pima County board

Dear Board

Tuesday's vote breakdown was:

Rex Scott -- No

Matt Heinz -- Yes

Sharon Bronson -- Yes

Steve Christy -- No

Adelita Grijalva -- Yes

I have just see your decision to impose a "mask mandate" in Pima County. Your reason as stated to the news is "The public should view today's vote as a rally cry for everyone in our community to take a simple and benign action that will go a long way to protect themselves and their community from the spread of a **deadly disease**". The Omicron variant, You make this sound like this is the version that is going to **kill** off the entire population of Pima County. Have you even bothered to do the research yourself on the Omicron variant? Do you know what **MOST** common symptoms are based on data from people that have had it?

You people are doing nothing put trying to instill FEAR into the people of Pima County. This is NOT what your job. Your job is to keep the public calm and reassure them that this mess will be alright.

Next, You stated that you fear that if the mask mandate is not put back into effect, which you fear local business would suffer and business will drop because people will not go out unless everyone is wearing a mask. What a crock of BS this is. Have you all been out in stores lately? How about restaurants, there are line of people waiting to get in. You imposing this mask mandate will do nothing but slow the progress of business. Remember, the less business in Pima County, the less business income. The less business income, the less taxes the City, County and State get to collect. Therefore you all a wrong in your statement.

Since you stated the following

"Businesses and other establishments that wish to post signage requiring masks for entry can download them from Health Department's website."

"**According to state law**, businesses are not being required to enforce the mandate."

According to HB 2770 that was signed into law in April 2021, "a business in this state is not required to enforce on its premises a mask mandate that is established by this state, a city, a town or county or any other jurisdiction of this state."

12 OCT 21 PM 09:00 PCLKCTD

VP

"The mandate passed Tuesday morning will not have an enforcement mechanism and there are no penalties for those who violate the mandate."

Based on this information publically posted by all you, this is nothing but BS, this is a total scam on the public. You are using people and a "scare Tactic" as a weapon to strike fear into people. Governor Ducey stood up and has backed up the State LAW that says there is no "mask mandate" in Arizona and you cannot make one. Do you realize how stupid this makes you all look?

People here in Pima County are fed up with all this political crap of the "government" trying to control and use "scare tactics" to control people. You all are NOT doing anything productive to resolve this issue. Since you all are not solving the problem. Therefore you all are PART OF THE PROBLEM. Just remember that the people of Pima County will remember this at the next election, and we the people of Pima County will do everything within our power to vote each and every one of you out of office. You people are the sorriest excuse for leaders of the county that the public has seen on over 30 years. No one in the County believes anything you say and we do not TRUST you at all, You lie.

Signed

People of Pima County.
