Subject: E-poll books and centralized voting centers

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Dear Pima County Supervisors,

Hello. I urge you to vote NO to approving the \$1.5 million contract with Tenex Software Solutions for E-poll books and establishing centralized voting centers.

Before spending taxpayers dollars to pay for this E-poll book and voting centers, I think you should hold public polls or surveys where the constituents of Pima County can provide input regarding whether there should be more or less e-voting technology.

How can voters be assured of uninterrupted connectivity on Election Day? With the uptick in grid interference, hacking and rolling blackouts, how can you justify to move from record-keeping on paper to an untrustworthy electronic system? The AZ Senate passed the Voter ID Act and it will be on the ballot, November 2022. This demonstrates how important Voter ID and secure voting procedures are to Arizonans!

Also, by reducing the number of precinct voting locations to larger, centralized centers, you are placing unnecessary hardships on people to vote in person on Election Day. This specifically impacts the elderly, physically handicapped, those who are still working and those who do not have their own personal transportation. This is especially true for our Tohono O'Odham Nation residing in District 3 (Supervisor Bronson) and our Pascua Yaqui Nation in District 5 (Supervisor Grijalva).

Vote NO and represent your constituents who elected you to steer public policy for the good of the voters of Pima County!

Clerk of Board: This comment is requested to be read into the record at the next Pima County Board of Supervisors meeting.

Respectfully,

Kimberly Metcalf
