Do not certify this election. Elections belong to the State, so it is up to you and you must not certify this fraud. Re do the election with administrators from both parties in control especially in Maricopa.

Arizona got defrauded again with this election. The same crooks that run the 2020 election have defrauded another election. If State Senator has 400,000 fake signatures (potentially) from 2020, and there are 150,000 more registered Republicans in Arizona and on the day of the election in 2022 only 17% of the day of election voting consisted of Democrats and 53% were Republican, what kind of idiot could even believe that the Democrats won.

If they had to fake 400,000 ballots in Arizona to defeat Trump by 10,000 votes, how can expect us to believe at the Midterms that Keri Lake and the Republicans are even a close race. Time to redo the election and have an independent audit.

To Maricopa County Supervisors, we all understand that elections have consequences, however they should not result in failures as they did in Maricopa County.

Given the irregularities, equipment breakdowns, and ensuing difficulties voters experienced, if you move forward and certify this election, you will have disenfranchised my vote and those of hundreds of thousands of voters all over Arizona.

I ask that you do the right thing and delay this certification until these things are addressed and corrected.

Sincerely,
Carole Lindly
GOP LD 17 Precinct Committeeman
State Committeeman

Dear Board of Supervisors

I'm requesting a hand count to verify the voting results before their certification by the board. This is the only reasonable course to take given the many problems on election day, which I personally witnessed. I saw several people who did not vote because our voting location at the Mormon church on Woodburne Ave in Oro Valley was changed without prior notice.

I talked several people when they drove up in their car who said they did not have time to find the new location and would not take the time after work.

This is **disenfranchisement for those voters**, and tainted the results.

With various other news reports citing "irregularities" **A HAND COUNT OF THE ELECTION RESULTS IN PIMA COUNTY BEFORE CERTIFICATION NEEDS TO OCCUR.**

The only notice I saw was a 3"X5" card on the front door of my usual voting location at the Mormon Church. **To see this I had to park the car, and walk up to the door. I've had knee surgery, and that was painful.** I saw 5 cars just drive off and had no idea where the new location of voting was.

Respond to this email with the results of the hand count for a Free and Fair Election Result! **DO THE JOB WE HIRED YOU FOR.**

*Mr Herbert
Registered Voter in Oro Valley, AZ*

Subject: Please Hold Off Certification

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Please hold off certification of the canvass results until Cochise County Board of Supervisors receive satisfactory evidence and answers from the US Election Assistance Commission. We do not have to rush the process. It is better to get it right so that the public can feel confident that the outcome has been determined accurately and honestly.

Please add my comments into official records!
