My hopes are that you do hold economic security, management and owners and all those responsible accountable for these fraudulent claims. I truly hope that this is not the injustice you put the community further at risks with in the near further futures of migration as well.

These funds should be close on monitoring bases, and fully assemble in all data bases. For the city, tpd, management, owners, security services to handle the victims involved in this manner is a public health and safety issue. It is very irresponsible for what has happened here and in the past. Do not continue to further victimize and throw it under a housing crisis. This was not specifically a housing issue until the city and tpd were further involved. The decision to throw people out, deny medical, food, water, power, air, and put to confinement was all done by city, tpd, management, and security.

Denied legal aid and resources and illegally detained legal aids and mutual aids is not a good look for board of supervisors, or our city. What do you want to be said of you?

I sincerely hope that migration is not continued trafficking in this same manner. You put funds out with trafficking rings still out there running in full operation. You continue to allow the spread of phobias and racist hatred in public meetings and space.

My prayers are with you all, may you all receive and recover the correct information to further stop this injury to our community members and uproot the further exploitation of our community. Work with the community not against it.

Sons and daughters are being destroyed at the hand of greed and hate. Be sure to address more specifically were these billions of Funds towards migration they are used towards and require data. Make certain our community is not being targeted by trafficking.

Stop the inhumane punishments of victims of violence! Stop the human, sex and migration trafficking! Provide proper resources and stop dismissively and inappropriately mishandling these funds and innocent community members.

Everyone is put at risk while you continue to funnel millions in funds into the wrong, uneducated, unequipped or ill-equipped agents and agencies. Stop and end human trafficking!!!! Stop the illegal occupation of scared lands. Stop the inhumane and violent acts against migration. That's what the so called country was founded upon.

It is a news clip from fox 10

Fraudulent sober living investigation

It's been years of tusa, new direction, happy times. It's very unlikely that city, tpd, owners, and management had no knowledge about the fraudulent scheme. Also, many participants that witnessed security and management deliberately vandalized the property with super glue to obscure justice. And daily ongoing harassing of displaced Ocotillo tenants, through early today during the board meeting. Continuous brutally and threatened police violence to further prevent justice from this human/ sex trafficking ring.

INVESTIGATES

FOX 10 INVESTIGATES
FALLOUT OF THE SOBER LIVING CRISIS CONTINUES
WHAT LED TO THE DISPLACEMENT OF ROUGHLY 200 RESIDENTS IN TUCSON?

Description

The fallout of the sober living crackdown continues. The state has suspended payments to nearly a hundred more providers since August, accusing them of Medicaid fraud. FOX 10 Investigates looks into a situation at a Tucson hotel where roughly 200 tenants are on the streets because of a sober living program that stopped paying rent.

Our newsroom received several tips about the hundreds of tenants being evicted from a hotel that was used for a sober living facility.

We've learned residents did not get any services from the program and the provider that allegedly recruited them is connected to Valley. He was recently suspended by the state's Medicaid agency for allegations of fraud.
