Re: Comprehensive Plan Amendment of the 1.34 acres at corner of Bopp Road and San Joaquin Road, P19CA00003, GEORGELOS REVOCABLE TRUST - S. SAN JOAQUIN ROAD PLAN AMENDMENT, Item #28 of October 15, 2019 Agenda

I oppose this Comprehensive Plan Amendment to rezone this parcel #212-34-1720 at Bopp and San Joaquin from Medium Intensity Rural to Rural Crossroads. I live at 3764 S. Connell Dr. which is on the NE corner of this intersection and I have lived here for 22 years. This is a rural residential neighborhood with most everyone on an acre of land. I do not want any kind of convenience store or any other type of business that close to my home. There is already a Dollar General Store, a Family Dollar, a Circle K and a family market on Kinney Road, along with a hardware store, a laundromat, several restaurants and Bratz bar, not to mention the Circle K, McDonalds, Dairy Queen, Domino's at Ajo and Kinney and the Giant gas/convenience store on Ajo at Tucson Estates Prkw. All this within 4 miles of Bopp and San Joaquin.

This is the WRONG PLACE to put a store. The applicant stated at the Planning and Zoning Commission hearing that it's mainly for the residents who will be living in the housing units west of this location that are intended to be built. If the store wants to appeal to these new residents west of our neighborhood, it should be built in that neighborhood. However, I feel that Ajo Rd is the best place for any type of store, then it will be more accessible for others traveling East from Three Points or those that live just south of Ajo as well as the new residences that will built on West Bopp Rd.

There are many reasons why this store would be a problem:

- Deter or harm our natural wildlife (deer, javelina, rabbit, quail, roadrunners, coyote, fox)
- Dumpsters and trash
- Additional traffic
- Additional noise in a quiet peaceful neighborhood
- Large trucks coming into the neighborhood
- There would be additional lighting in the neighborhood, several families out here like to stargaze and the street and store lights will interfere with that
- Safety issues for horse back and bicycle riders (There are a lot of residents out here that have horses and enjoy riding alongside the road)
- This area is also a major school bus stop, having a convenience store there will afford the children more of an opportunity to get into mischief
- Vagrants hanging around

Please vote "NO" on this Comprehensive Plan Amendment!!

Please do not take away our Peaceful Neighborhood!!

Thank you!

Teresa Nielsen

RE: COMP PLAN FOR LAND USE OF CORNER OF SAN JOAQUIN RD & BOPP RD 85735

October 2019

We, the property owners/residents living within the 300 foot notification boundary area, hereby sign below to oppose the proposed Comp Plan for approval of change of land use currently being requested for the land located at the intersection of South San Joaquin Rd. and West Bopp Rd. in Tucson, Arizona 85735. We do hereby oppose any change of the Land Development Code from a Medium Intensity Residential (MRI) category to a Rural Crossroads (RX) that would allow re-zoning of the above mentioned property.

We, the residents in this area have raised a number of concerns, including we do not feel the proposed change in land use to allow a discount store is what we need or want in our quiet established neighborhood. We feel this kind of discount store would be best suited for a major intersection or street. The change in land use that will allow this discount store to be built, will not add any value to our neighborhood and will bring unwanted traffic & crime associated with this kind of store. We already have two discount stores located at or near Kinney Rd. and Western Way; 4 miles away from the proposed site in question. The neighborhood demand for this discount store is not there so therefore, the proposed discount store is not appropriate at this time.

If the Pima County Supervisors cannot take our request to oppose this Comp Plan to allow this discount store, we respectfully request that this store must keep at a minimum; 10% fresh food & vegetables in order to operate at this location. At no time may they get rid of this stipulation to operate in the neighborhood. Otherwise, they will be selling the same junk food that we can already get 4 miles down the road. We do not feel this discount store will be serving the community needs.
