Good afternoon,

As a native to Tucson I am asking that you do not impose mask mandates for the businesses in Tucson. Please allow everyone to make their own free will choices. Also No mandates on vaccine cards please. Please understand our concerns and allow us to continue these freedoms.

Thank you-

Amy

It has been over 700 days since “two weeks to flatten the curve.” You have consistently ignored data, moved goalposts, are forcing and coercing people to “vaccinate” with an EUA product where there is no liability or recourse if an adverse event happens, masks have clearly not done anything (maybe a 1% difference) to slow this down, no therapeutics before hospitalization have been discussed to mitigate poor outcomes, critical staff are being fired, nobody has mentioned actually getting healthy by eating right and exercising. This is a complete farse. Besides the fact that natural immunity is indeed the gold standard. Protect the vulnerable, and everyone else who can tolerate it should have gotten it to actually create herd immunity.

You are city officials. Stop messing with our lives and freedoms. No masks. No vaccine passports. It's trash government policies making this a never ending hamster wheel. This is still a 99.5% survival rate. Knock it off.

Pima county,

I urge you to not mandate masks for businesses it's unnecessary and above all unconstitutional. Also there is no science whatsoever to backup masks for protection if there was real science we would be able to read it for our Selves. Mask wearing is fake science, It's been proven in the state of Florida.

Thank you,

Hello,

It is very unconstitutional to impose any mandate that relates to the health of MY body.
Please vote NO on any mask mandate or vaccine passport.

This is my body, my choice to decide what medical procedures I do, or what I inject in my body.

Please be kind with your power.
Merry Christmas

Trisha Panka

Council,

I am a Survivor of Covid 19 and a survivor of the cruelty of hospital Covid -19 protocols and spent 6 weeks [REDACTED]. I spent three months in the hospital. My recovery has been a form of brutality that I didn't think existed in reality. I suffered and continue to endure the very worst of what this pandemic and hospital protocols have to offer.

While I survived, two people on either side of my room, who were fully vaccinated and fully boosted died on the ventilator.

My entire family got the virus and have had our antibodies tested and have full immunity against all of the spike proteins of Covid-19 - six months after having COVID-19.

I have been a lawyer for 26 years and am licensed in WA and AZ.

All this is to say that I'm very experienced in Covid matters and have a more than average intelligence.

The idea of mandating masks at this stage is as helpful as whistling passed a graveyard. Masks will not protect anyone from getting COVID-19 or any variant thereof.

What masks will do is cultivate a very acute and divisive fear in people, which is simply cruel. I could endure some cruelty if the benefits outweighed the cruelty. In this case, none of you can prove the benefits of a vaccinated person has with no mask versus a healthy unvaccinated person with the a mask. Further, you make no exception for those of us with proven natural immunity, who may have our health severely compromised by reintroducing the Covid 19 virus back into our system. Studies suggest that we might have super immunity or we may be reinfected because of it. No one really knows. One thing that is certain is that I have the best immunity now because I survived the virus.

Masks cannot and will not prevent people from spreading or becoming infected by Covid-19. This begs the question as to why you are doing this now when we all now know better.

Further, before you flirt with vaccine passports you need to study whether a healthy unvaccinated person with no symptoms of Covid can somehow infect others before you exclude that person from their community.

Council also needs to study the immune response of all the vaccines and natural immunity. All of the vaccines are intended to produce a controlled immunity response by our bodies with the very specific goal of producing antibodies to fight against the virus. Antibodies are antibodies and if I have antibodies from surviving the virus how is that inferior to the antibodies created in my body in response to a vaccine? My body experienced the full series of Covid 19 spike

proteins vs a single spike protein introduced to the body by all three of the vaccines? On its face, a broad and long lasting response to the complete virus is at least equal to if not superior to a response to a single spike protein.

Dismissing people with natural immunity clearly evidences that the council's actions are not rooted in the best outcome for humans but out of unfounded fear. Immunity is immunity and forcing a survivor like me to inject an artificial strain of Covid into my body might just kill me and many others. Why would you do this? What or who are you trying to protect? If you want folks to be immune and kept safe, look to the antibody responses in all cases and proceed from there. Don't make policy decisions on half of the information.

Dear Pima Board of Supervisors:

Please vote no on mask mandates and vaccine passports in Pima County.

Allow individuals to make their own choices for themselves and their children without being alienated or discriminated against.

Trust individuals to use common sense:

- Stay home when they are sick or not feeling well
- Wash hands regularly
- Eat well, exercise regularly and get plenty of sleep

Thank you for voting to support freedom of choice.

Best regards,
Toby and Natasha Iland

hello it is brought to my attention that you are having a meeting and will be discussing mask mandates . Need I remind you that the Governor has made it law that there will be no mandates made from the local government of the city or the county. So there for it will be illegal to follow thru with this. You can strongly suggest it recommend but not mandate. when you took office you took an oath to uphold the law so there for I would suggest you reconsider you plans for a mask mandate inside public places. We have all been doing the for awhile I do not need guidance from you as a board or the mayor to take care of myself and do my job. I have contacted the Governor about this . You are overstepping your bounds . So please stop doing this . Citizen of Tucson are growing tired of this. I look forward to hearing your response thank you and have a wonderful holiday

Hello,

It has been brought to my attention that you're voting to impose a mandatory mask mandate and possible vaccine passport. As a small business owner this is just a move backwards and would continue destroying small businesses.

This is also a gross overreach on the part of the government. There is insufficient data to support that mask requirements effectively prevent the spread of coronavirus. As such, the requirement to wear a face mask is overbroad and violates fundamental rights of both the United States Constitution.

Mask requirements and vaccine passports are a slippery slope and will lead to more government mandates, bureaucracy, and regulations. Once a governmental program is in place it is next to impossible to remove. The incremental losses of freedom begin to erode.

Accepting invasive rules that affect personal behavior in a low-risk environment conditions people to accept that kind of intrusion into their lives. This is one reason people are particularly against masking their children, who are especially prone to manipulation. If we do this, what kind of human are we helping to produce?

Our cities primary push right now should be equitable vaccine distribution that gets as many people as possible vaccinated and reaching herd immunity. If we can do so, epidemiologists say, we'll reach a point where COVID no longer has enough vulnerable hosts to circulate within our communities. This means that most people most of the time — even those who can't get vaccinated — won't have to worry about the disease.

When that happens and COVID comes to resemble other dangerous diseases where there are occasional flareups but little spread, such as measles, the need for a COVID passport will seem much less urgent. Nobody is demanding we provide proof of measles vaccination everywhere we go. And in the limited circumstances where such proof is required (school enrollment, some medical jobs, and some overseas travel), it's far from clear that the existing system of paper documents is somehow deeply broken and in need of fixing. That's especially true given that creating a passport system would be a herculean task.

By instilling these measures you will further divide our city. We need to come together and join forces to combat this now endemic. I'm not anti-vax, but I am anti-mandate.

I believe we have a sensible city government that takes the citizens as a whole into account and not a small minority.

Thanks for your time.

As a Pima County tax payer and resident, I would like to voice my strong opposition to mandating masks in businesses and vaccine passports. Health care should be assessed individually in a discussion between a patient and their provider NOT a one size fits all policy imposed by public agencies overstepping their authority and boundaries. Mandates like these do not save lives, they disable the economy, promote fear, and divide our community.

Thank you kindly for your consideration.

We are writing to say NO to vaccine mandates and passports!! We believe in freedom and choice. This is America and we will not give up our rights quietly.

People are free to get boosters and wear a mask! This overreach of power has to stop!!

Freedom, common sense, logic, and science must win the day.

No to ALL MANDATES, NO TO ANY SORT OF PASS/PASSPORT/SEGREGATION!!!! My medical history is my business. We will not end this virus, it is here to stay! Learn to live with it. Live freely, make our own choices.

Sincerely,

Tracy Scerbo

Dear Pima Board of Supervisors,

I'm writing to urge you to mandate an indoor mask policy for Pima County for the next month or two to help reduce transmission of the highly contagious strains of the coronavirus. My family and I are all vaccinated and eager to get back to as close as normal as possible. We know by now that masks are highly effective at reducing transmission. This is a simple effort akin to wearing a seat belt that helps keep our community safe and will help us get back to life. Without mask wearing we are hesitant to go places.

Science does not support the use of masks in the prevention of COVID-19's spread. N95 masks' filtration capability allows the spread of the virus since its size is smaller than and transmits through the N95's fabric pores.

Mandated mask wearing will increase acute and chronic respiratory illnesses. Please employ common sense and say no to mandatory mask wear in Pima County.

Afternoon. Forcing masks (that don't work anyways) and or vaccine passports is so very unconstitutional besides being a communist play to take away our freedoms. For Gods sake look at real Peer reviewed scientific truths!! We are not a communist country So stop trying to push the agenda to turn us into one. If you don't like our free country and feel the need to be in control like other tyrannical governments please move to one of the a already established communist countries. What happened to freedom of choice, HIPPA violations and so much more. The only thing you're going to accomplish is destroying more businesses, causing more mental illness, bring law suits and lose the trust of your constituents and their votes. Please listen to the people. We do not need government telling us how to handle our health. You take care of you and yours and we will take care of us and ours. God bless merry Christmas and happy new year!

Thank you!

Hello,

I am contacting you today to urge you to vote against any mandate that would force citizens of Pima County to wear masks or provide proof of vaccination in order to enter local businesses. It is clear now that the type of masks people use, and the way they handle them, render them completely ineffective. Not to mention, most people wear masks below their noses. Masks offer nothing but a false sense of security.

I encourage you to leave the mask mandates in the past- they clearly didn't work. Instead, you should initiate voluntary programs in the community to help individuals understand their unique risk factors to covid-19 and help them reduce their risk factors by losing weight, exercising, eating healthy, etc. Incentivize THESE programs instead of incentivizing people to subject themselves to an experimental vaccine. Help them assess what prophylactic treatments they may benefit from and help them understand what their treatment options are if they get sick with it.

Thank you for your time and consideration.

Sincerely,

Kerri Williams

Based on the complete lack of longitudinal proof of efficacy and the constant "breakthrough" cases on vaccinated people (delta, omicron, yada yada yada).

While I accept vaccination as a choice, I vehemently oppose mask mandates and WILL ENGAGE AGAINST ANY EFFORTS TO IMPOSE A VACCINATION PASSPORT in concept or in practice.

Thank you for considering my comments.

I am writing this in response to the revisiting of the a mask mandate. On behalf of my family and I, I ask that you allow the wearing of masks be left to the individual. Science has shown that the masks are not preventing the spread. They were mandated previously and it was less than effective. If an individual wants to wear a mask, then by all means, please do. For those of us who have natural antibodies that are higher than most vaccinated individuals, we should have the right to breathe the wonderful air of freedom that our nation was founded on. Our children are extremely negatively effected by the masks. Socially, mentally and emotionally. This hinders their communication, their concentration and more over causes them to touch their faces significantly more than they would without a mask on. We have to restore our country back to normalcy. We can longer allow this political craziness to dictate our lives. Please consider the reality that we've all done this before and it didn't work. Let's not do that again. Thank you.

Pima County board of supervisors,

I am writing as a life long citizen of this county to say you must not enforce mandatory masks, vaccines or vaccine passports. This is based on not only science but the civil liberties we have under the constitution.

The injection DOES NOT provide immunity, prevent infection or transmission. And stating it prevents "severe Covid" has also been proven false. An mRNA vaxx has never worked.

It is not safe or effective! The VAERS database demonstrates the lethality of the jab.

Masks do not block viral particle size period. The viral size is too small even if attached to spit it goes through. I assume you know all this and don't care to follow the true science.

Almost two years into this plan it is clear safety is not your true agenda.

Now is your chance, if someone reading this actually has a heart, to step up and do the right thing!

Did You Know?

- According to CDC, the death rate for children under 19 from COVID-19 is statistically 0%
<https://covid.cdc.gov/covid-data-tracker/#demographics>
 -- Therefore, children are not warranted to be vaccinated.
- According to CDC, not one healthy child has died of COVID-19 in the U.S. All children who have died with COVID-19 as of June 2021, had underlying comorbidities. <https://www.medpagetoday.com/opinion/marilyn-akam-93029>
 -- Therefore, healthy children should not be vaccinated.
- According to CDC, the COVID vaccines will not prevent infection or transmission of COVID-19.
<https://www.cnn.com/2021/08/05/health/covid-vaccine-Thursday/index.html>
<https://www.youtube.com/watch?v=TKFWGvVYIE>; <https://www.cdc.gov/coronavirus/2019-nCoV/science/science-facts/fullly-vaccinated-people.html>
 -- Therefore, the vaccines are not effective.
- According to CDC, vaccinated people are not less infectious than unvaccinated people. Vaccinated people acquire and transmit COVID-19 just as easily and as often as unvaccinated people.
<https://www.cdc.gov/coronavirus/2019-nCoV/science/science-facts/fullly-vaccinated-people.html>
 -- Therefore, the vaccines are not effective.
- According to CDC & FDA, COVID vaccines pose risks of myocarditis, blood clotting, neurological damage and death, to name a few, predominantly in adolescents. <https://www.cdc.gov/coronavirus/2019-nCoV/vaccines/safety/adverse-events.html#file:///C:/Users/pf1sh/Desktop/5.46-postmarketing-experience%2000.pdf>
 -- Therefore, the vaccines are not safe.
- According to VAERS (Vaccine Adverse Effects Reporting System), there have been at least 19,542 deaths from the COVID vaccines in America alone.
<https://openvaers.com/>; <https://vaers.hhs.gov/>
 -- Therefore, the vaccines are not safe.
- According to the WHO, there have been at least 2,457,186 adverse events world-wide. This is over 1,000,000 more cases than all adverse events reported over the last 53 years of all vaccines administered since 1968 combined to www.vigibase.org/
 -- Therefore, the vaccines are not safe.
- According to the American Heart Association, the mRNA vaccines dramatically increase inflammation of the heart.
https://www.ahajournals.org/doi/10.1161/Circ.144.suppl_1.40712
 -- Therefore, the vaccines are not safe.
- According to historical medical data, 50% of people who get myocarditis will die of a heart attack or require a heart transplant within 5 years, especially children.
<https://www.bloodmatters.gov/labs/pmc/articles/PMC4519249/>
 -- Therefore, the vaccines are not safe.

Dear Board of Supervisors,

Bringing back the mask mandate and even more so, adding a vaccine passport to Pima County is a terrible decision for everyone involved. Masks don't work, do your own due diligence and read studies on them and trying to implement a vaccine passport is absolutely un-American. They are the opposite of freedom and it is very sad and disappointing that they are even being considered. Do the right thing and stop this [REDACTED] now.

Signed,

A pissed off American

STOP! It is time to put the citizens of Tucson first. Masks do not work. If they did, we wouldn't still be fighting a virus. What is happening now is exactly what science teaches us. Viruses mutate and with each mutation they grow weaker. It is time to stop punishing our children and citizens .

Dear Board of Supervisors,

I'm a registered voter and I am not in agreement with the proposed mask mandate and the vaccination passport for Pima County, it's against the law and violates our freedoms as Americans.

Thank you in advance for your support doing what is right for the people of Pima County.
Warm Regards,
Alexis Myers

No mask mandates and NO vaccine mandates! It's already been proven beyond a shadow of a doubt that masks, nor gene therapies given in shot after shot, are effective against the flu. The Wuhan Covid, Delta variant, and the ongoing never ending flu variations, are here to stay. Time to move on with life that includes dealing with ENDEMIC flu.

I have read that the board is considering a new round of mask mandates. Please allow the citizens of this county the ability to manage and assess their individual risk when it come to illness. Please do not put another mandate on businesses that are still trying to recover from previous shutdowns and mandates.

Sincerely,
Emily Wolf

I am a Democrat I'm embarrassed to say. If you impose the masks again it will ruin businesses and cost us even more for things we need like food utilities and gas. Masks don't work. Vaccine passports again is another cost. People are still getting covid. Please don't limit us again. We see Obama, Romero and other politicians not wearing masks at function s but it's not ok for us not to wear them. I have always believed that Democrats would do the right thing that's why I voted Democrat don't let us down again

To whom it may concern: I heard today that your board will be deciding on whether or not to mandate mask in all businesses going forward. I urge you not to do this. The oversight on businesses should be held and driven by the business themselves. They ultimately have to answer to the customer.

I appreciate you thinking this through. It is not as simple as that sounds and causes multiple other issues.

I strongly oppose any mask mandates or vaccine passports being considered for Pima County. Vaccine passports are tyrannical and reminiscent of the beginnings of the Jewish holocaust. I certainly hope and pray you don't let your liberal ideology cloud your understanding of the US Constitution and the founder's principles of Freedom.

You will be held accountable for your vote.

Please consider a NO mask mandate.

People who are concerned can wear a mask and do what they think is necessary to protect themselves.

The Government should not be demanding mandates for masks, vaccines, vaccine passports, etc.

People should have the freedom to make their own decisions regarding their health and it should be no ones business.

Thank you,

Doris Sorensen

Hello,

Please stop this over- reach of government. Let's keep government out of people's medical choices and that includes wearing a mask. Please read government recommendations during the Spanish flu in 1819. Truth and wisdom. This hysteria needs to end. The human race has made it this far and people will get the synthetic experimental shot when it is a good product. Stop with the mandates and force. Encourage healthy diets, exercise and sleep. Build up the immune system that way. Masks doesn't work.

Best,

Amy Stahlman

To whom it may concern,

This email is in reference to an online article published in US News titled "Pima County Board Member Proposes Indoor Masking Mandate."

The article states, "A resolution proposed by Supervisor Matt Heinz has been added to Tuesday's meeting agenda. Heinz said that the pandemic is at "a critical moment" and that the lack of a masking mandate would hurt businesses because people may stop patronizing local businesses.

The omicron variant "has already been identified in Pima County, and people are looking for assurances that it remains safe to go about their lives," Heinz wrote Thursday in a memo."

Mr. Heinz is incorrect by saying people will not visit a business because of the lack of a mask mandate. Quite the opposite. If you start making masks mandatory, people like me will **not** be shopping in that business.

Masks should be optional. If you want to wear one, go ahead. But to make the rest of us wear one is ridiculous. Masks prevent sick people from coughing and sneezing on you, but that's about it. Every person at the gas station touches the same gas handle. Every person in Walmart touches the same door handle to get their milk. Everytime we go into a business and open the door, we've touched the same handle as every other customer. Masks do nothing to prevent the spread of germs. In fact, studies have shown that people who wear a mask touch their faces more often than those who do not. So once your hands are contaminated, you touch your mask, and now your mask is contaminated also.

Masks have always been optional in the past and should remain optional in the future.

I urge your council members to vote no tomorrow.

Sincerely,

Heather Pickens

Please reconsider vaccine mandates. Vaccines protect the individual but do not prevent the spread of Covid-19. Clearly there is no justification for vaccine requirements to keep one's job. Yes, it improves the risk of hospitalization and poor outcomes and I personally am vaccinated and encourage others to be vaccinated but the evidence doesn't support mandates to prevent or slow transmission of the virus after the first few weeks after vaccination.

With widespread financial distress and a general economic downturn this is especially ill-timed. It will further challenge people and potentially result in their dismissal from their jobs. The resulting pain this could cause is simply not justified at this time.

Thank you,
Joe Matthews

Good afternoon,

I'm writing this email opposing the mask mandate. This country was found on freedom. If people want to wear a mask, they should be free to do so. On the flip side, if people don't want to wear a mask, they should be free to do so as well. We, as a nation are strongly divided, which is a terrible thing. For you to consider such a thing at a local level is disheartening. People need to use their critical thinking skills and not be so close minded. If you pass this, you will not get my vote in the future.

V/R,
