**Subject:** Voter suppression

**CAUTION:** This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

I am dismayed at the proposal to reduce Pima County polling places and use E-pollbooks. These moves seem designed to keep voters from voting. E-pollbooks are a security disaster. They connect to the internet, can easily be hacked, and they frequently malfunction. These policies are the definition of voter suppression. Please do not approve this! Please read my comments into the official record.

Thank You,  
Helen Moulton

**Subject:** Proposal by PCElectionsDept., PCRecorder'sOffice Feb15 Agenda: Voting changes

Dear PC Supervisors,  
This is sheer madness. It is not to enhance but in fact will REDUCE...1)confidence, 2)access, 3)locations!

In a time when MAJORITY NUMBERS of Voters DISTRUST that we have FAIR/HONEST Elections, these minority of persons wish to CHANGE our established systems. Making them more vulnerable through electronic breaches, placement for access to vote issues, and increase wait times to vote□

I observed this new proposed system as a Poll Watcher at Vail, last School Board election. A place designated for Ballot drop off, did also entertain drop IN voting.

The printers, clearly showed up on my WiFi-scan and I heard the poll-workers discuss when they were "connected" to the internet. Then, pretty much every person walked in, with any reason for their not casting their DELIVERED MAIL IN BALLOT, had one issued at a printer, after a check on the voter rolls. These became 'provisional' ballots. Not counted on site but sent on to a counting center where WHO KNOWS if properly reconciled. Such an invitation for more errors. Also, Ballots were CLEARLY issued to addresses for not current or reconciled voter lists, and some of these were voted illegally. This is shown in the Pima County canvas.

Do you have the data FROM the Pima canvas.

Shameful.

Please reject these attempts. Truly, rushing knowingly, self-servingly or blindly ignorant, each is wrong! PLEASE do not collaborate in the destruction of our Arizona way of life. Honest, fair, hardworking, open, caring and STRONG.

DO NOT FORWARD

Do not vote for these obviously, poorly thought out and LATE measures.

Sincerely,

Martha Bloch

With the 2020 election fraud fiasco in Arizona and elsewhere, you want to open the doors further to fraud? How can you even propose these changes to the way that we vote? An outside agency in charge of our vote? No, this cannot happen. We need to find out who is really behind this proposal, we don't want any part of this. We want our votes to count, every legal vote, and we did not have this with the last election. This is wrong, we can't let this happen. See you on the 15th.

Kellie Hurdel

A legal vote.

**Subject:** No suppressing Pima County's vote!

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Please read my comments into the official record at the next Pima County Board of Supervisors Meeting.

Please do not disenfranchise Pima County voters by adopting E-Pollbooks and "Voting Centers."

Research shows consolidating polling places suppresses voter turnout, particularly among minority and low-income voters.

E-pollbooks will make elections less trustworthy since they are connected to the internet and thus hackable.

We need to stick with paper pollbooks and paper ballots. Paper is secure, doesn't malfunction, does not require batteries, and is not hackable as electronic devices are.

We need to keep our election process decentralized, accessible, and accountable, as the writers of the Constitution of the United States intended.

Supervisors,  
We need more secure voting not less and more access to voting sites not less.  
Many people do not trust electronic ballots to be free from hacking.

Now is the time to build trust with voters not to spread concern. Do not implement new rules that lose the public trust.

Please read my comments into the official record. Voting Centers cause confusion on where to go, and it will force voters to stand in long lines and in crowded conditions. Voting Centers disenfranchise all in-person voters but hurts minority and low-income voters the most. These groups often have limited transportation options, and less time or flexibility to vote. There are many problems with E-Pollbooks: they're connected to the internet, have no uniform standards and are easily hackable. E-Pollbooks have contributed to chaos in multiple states with their malfunctions, which has caused excessive delays, preventing people from voting. Voting Centers and E-Pollbooks separately or together equal the definition of Voter Suppression.

This comment is requested to be read into the record at the next Pima County Board of Supervisors Meeting

Dear Board of Supervisors,

Free and fair elections are the heart and soul of our Republic. Anything that makes it more difficult to vote is one more step down the road to totalitarianism and loss of freedom.

I implore you to not change our current system of voting at this time. With the redistricting, it will just make it harder for citizens of Pima County to find the right place to vote.

Regards,

Paul Fitch

As a resident in Pima County, I ask each of you to defeat this proposal to consolidate our voting into voting centers. This will suppress the opportunity to vote! We need a polling place in every precinct. Many elderly people love to vote in person, but, in many cases will not vote at all, if they are required to drive a distance to a voting center. I know that many senior citizens did not vote in my community when the polling place was taken from our community in 2020. You defeated a proposal to reduce the number of precincts in 2021. Please give more access to voters, not less.

I also respectfully request that you reject Electronic Poll Books. Connection to the internet with our voting registration records is an open invitation to illegal intrusion. I request that my comments be officially entered into county records. Thanks to each of you.

I request that my email be read into the official record.

The changes you are being asked to approve will not improve voting in Pima County. Reducing voting locations and utilizing technology will only raise concerns for those that already have concerns that our voting officials don't have a clue. Our elections are intended to be as local as possible. Paper ballots managed properly at a precinct level with proper oversight will get us where we need to be.

When you ask a group that has already failed us to fix something, you get an answer that is good for them, not voters.

Please vote "no" on their proposal and come up with solutions that help us!!

**Subject:** NO on E-Poll Books in Pima County

 CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution.  
Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Please read my comments into the official record. I ask you to NOT disenfranchise Pima County voters with centralized Voting Centers and E-Pollbooks.

Consolidating polling places suppresses voter turnout. Is that what you are looking for? This is particularly true for minority and low-income voters. E-Pollbooks are a disaster: they're connected to the internet, easily hackable, and frequently malfunction. Did we not have enough questions about the validity of our last elections? Do you want us questioning all of our future elections?

Some of us might wonder if you are trying to control our elections and not let our voices and votes be heard! This is the United States of America. Just because I live in Pima County, it does not mean that I want the government or any other entity taking my right to vote and be heard away from me.

Elections in the United States were purposely structured to be decentralized, accessible, and accountable. Pima County needs to earn back the trust of voters by ensuring our local precinct voting locations aren't consolidated, and there's no change to our paper Pollbooks

Let's work together to make America Strong,

Dr. Sandra Gibson

Dear Board,

This is not the time to decrease voting locations by 57%!

This would cause serious voter suppression!

This is not the time to overhaul and turn our election over to a 3rd Party!

This comment is requested to be read into the record at the next Pima County Board of Supervisors Meeting."
