My name is Sarah Price and I am a legal resident and voter here in Pima County
Following are my comments to the Board of Supervisors
[REDACTED]

ADDENDUM 1 ITEM 5 - PIMA COUNTY HEALTH DEPARTMENT ROLE IN SCHOOLS

This has gotten entirely out of control. Trying to enforce all the rules put in place. Schools should be able to handle the situation. Seems like they are overwhelmed. If they need more help, how about hiring a few special Covid workers to take care of contacting parents, etc. The schools seem to be getting their share of dollars for Covid. There are too many rules around the Covid issue.

I cannot believe the harassment families of school children are facing. It's beyond ridiculous. I have taken the time to read the letters sent in to the BOS by concerned and affected parents. Health Department hiring a Constable to enforce mandates and post Quarantine Orders is OVER THE TOP. The parents cannot even get return calls. This is definitely and extreme overreach of power (reminds me of Europe in 1939-). The Health Department should pay for the Constable, and the Board of Supervisors should not get involved.

To All on the Board of Supervisors,

As a retired teacher I want to know why are the school children continuing to be masked and quarantined? What is the Board of Supervisors and the Pima County Health Department's "proper" role in K-12 schools? Currently the Health Department is quarantining students who have had close contacts with others who have tested positive; however, according to ARS 36-789, parents are afforded the right to due process at State's expense. Pima County has yet, to our knowledge, given parents this due process. Our children have been masked in school for two years! Enough is enough. There is no good, or any science that points to wearing a mask is effective.

My fellow voters want to know why their children are being masked when so many schools in other communities are not?

We will watching for your answers,

Amanda Fischer
