I support Vote Centers, and respectfully ask your consideration of these facts:

- 1) Any registered voter could vote at ANY Vote Center,
- 2) No more confusion over being at the wrong voting place,
- 3) Much easier for rural voters to access a Vote Center,
- 4) Vote Centers ALREADY work in 11 of 15 counties in Arizona. It's time for Pima County to catch up with the times.

Thank you,
Lynn M. Price

Pima County Supervisors ,

Reference: The proposal to make a major change to the way we vote in Pima county. I say NO to the Members of the Board of Pima County Supervisors who are considering jumping on the Socialist Band Wagon to change our voting practices in Pima County four months before voting season starts July 6, 2022 at the request of our Newly elected Recorder of barely 2 years with no past experience, and her Pima County Elections Office. Why would we even consider a change while Maricopa County's 2020 election remains under investigation as fraudulent and there are 37 Election Integrity Bills currently in our State Legislature! Our vote remains our most precious stronghold of freedom from creeping socialism that's starting to surface in all parts of our Blessed U.S.A. Especially right here in Pima County close to our southern Open Border with the City of Tucson trending as a Sanctuary City. I don't want my vote handed over to Apple by way of Federally –uncertified Election Pollbooks that are then connected to the internet as well as wireless printing devices ending up with 3rd party vendors like Amazon Web Services, Cisco and Tenex Software Solutions as described in the proposed change. I say NO to reducing our voting precincts by 57% from 232 to 100. **Voting is not to be taken lightly nor is it's demand of ID, Signature, and Timely Counted by our trusted system hopefully still in place!!!!**

Thank you,
Nancy Newman

Pima County Supervisors,

Please include my comments into the official proceedings of the meeting on February 16, 2022.

Precinct voting locations are much more voter-friendly than their counterpart, Voting Centers. As a 25-year resident of the Catalina Foothills area, my precinct voting location is just down the street, minutes away. In several past years I have walked with family and/or friends to our precinct voting location to cast our ballots. We receive excellent service from the Poll Workers who sometimes know me or recognize me from previous years.

I ask you to reject the proposal from the County to implement large Voting Centers. These centers are miles away from my home and those of my neighbors. We will have to drive to the center in order to vote in person. We prefer to vote in person because we can observe our ballot being put into the lock box, making us more confident that our vote has been received and will be counted.

The price of gas has risen at least 50 percent, so our cost to vote is more expensive than walking to our Precinct voting location. Both our pocketbook and health will suffer.

It will take us more time to vote, as the line will be much longer. Longer lines are a deterrent to voters.

Please reject the proposal from the County for Voting Centers for the above reasons as well as many more. Now is not the time to change voting locations or to implement electronic poll books.

Please vote no.

Thank you,

Lee Nichols

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Dear Pima County Board of Supervisors,

My name is Joseph Cox and I live in Tucson, Arizona.

As your constituent, I highly urge you to vote "yes" on vote centers on February 15th. Vote centers would enable any registered voter to cast their ballot at ANY Vote Center in Pima County on Election Day! Voting locations would stay the same for rural communities PLUS any registered voter would be able to cast their ballot at ANY of the 100 locations! No more being told you're in the wrong place! Pima County is behind on the technology 11 of the 15 counties in Arizona are already using Vote Centers! Also, it'll increase the number of valid ballots counted! Every vote counts!

Thank you for your time, and I hope you vote "Yes" tomorrow, February 15th!

Sincerely,

-Joseph Cox

LITIGATION HOLD

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Pima County Supervisors,

Precinct voting locations are much more voter-friendly than their counterpart, Voting Centers. As a 25-year resident of the Catalina Foothills area, my precinct voting location is just down the street, minutes away. In several past years I have walked with family and/or friends to our precinct voting location to cast our ballots. We receive excellent service from the Poll Workers who sometimes know me or recognize me from previous years.

This rapid change just 6 months prior to the primary elections with little or no notice or comments is not conducive to building a working understanding of the issues and operations of these proposals. We need more involved in our elections from the public to the government to provide confidence in all elections. Currently, there are many Arizona State legislative proposals that would eliminate these proposals or alter them completely. This is another reason to delay this rapid implication.

I ask you to reject the proposal from the County to implement large Voting Centers. These centers are miles away from my home and those of my neighbors. We will have to drive to the center in order to vote in person. We prefer to vote in person because we can observe our ballot being put into the lock box, making us more confident that our vote has been received and will be counted.

We would all like to save money. The price of gas has risen at least 50 percent, so our cost to vote is more expensive than walking to our Precinct voting location. Both our pocketbook and health will suffer.

Perhaps a realignment of budget items would provide a more secure environment for our elections as well as the citizens.

It will take us more time to vote, as the line will be much longer.
Longer lines are a deterrent to voters.

Please reject the proposal from the County for Voting Centers for the above reasons as well as many more. Now is not the time to change voting locations or to implement electronic poll books.

Please vote no.

Thank you,

Alan Nichols

I strongly support the use of voting centers for elections.

I worked at the polls on election days for several years. Many people were confused as to which precinct they should vote in, especially if they had recently moved. We poll workers tried to help figure out their correct precincts, but sometimes had to resort to provisional ballots. In some cases, we knew a voter had come to the wrong precinct, but when the voter could not get to the polls until after work, there often was not enough time to get to the right precinct to vote. Both poll workers and voters were frustrated by this disenfranchisement, which was largely beyond our control.

Voting centers are a common sense solution to a longstanding problem. They will allow voter access and faster ballot counting.

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Please read my comments into the official record. Voting Centers cause confusion on where to go, and it will force voters to put their health and safety at risk by standing in long lines and in crowded unsafe conditions. Voting Centers disenfranchise all in-person voters but hurts minority and low-income voters the most. These groups often have limited transportation options, and less time or flexibility to vote. There are many problems with E-Pollbooks: they're connected to the internet, have no uniform standards and are easily hackable. E-Pollbooks have contributed to chaos in multiple states with their malfunctions, which has caused excessive delays, preventing people from voting. Voting Centers and E-Pollbooks separately or together equal the definition of Voter Suppression.

Thank you,
Karyn Ross

Hi. My name is Ricky Sage, I am a resident of Tucson. I was brought up to believe that voting is a civic duty, that government "of the people, by the people, and for the people" has been consecrated by the sacrifice of patriots as described by Lincoln at the Gettysburg address. So, while I have never missed a major vote, I have on occasion waited in lines that lasted for hours. I have missed work. I have had to drive a long distance from work to my local precinct polling location, and barely made it before the polls closed. A system of voting centers is such a good idea that the majority of Arizona counties have already adopted such a system.

Convenient voting is not fraudulent voting, in spite of what some claim.

Government has a responsibility to make voting accessible to all eligible voters.

There is no partisan advantage to efficient voting. The current early voting system is utilized by nearly 90% of voters in Arizona according to news reports.

Those who speak against efficient voting are attempting to sow distrust about our democratic systems. There are existing checks in the system to prevent fraudulent votes, and to hold uncertain ballots in "escrow" until the validity can be ensured. There is no reason to be afraid of using widely available and proven technology to make voting easier for the masses, and in particular for those who have to work on voting day, and may not have access to transportation to get to their local home polling center before the

polls close. But in general it makes voting more accessible to all voters regardless of economic, employment, or transportation status.

I give my full support this common sense proposal, and hope that you as well support making civic participation more open!

Ricky Sage

Dear County Supervisors,

I've been a Tucson and Pima County resident for almost 40 years! I vote in every election, and I feel it's one of the most important responsibilities of citizenship.

I'm asking you to **please vote in favor of Vote Centers**, which will enable any registered voter to vote at any Voting Center--this allows workers to vote near their place of employment as well as their neighborhoods, for instance.

I was very surprised to learn that Pima County is one of only 4 counties out of 15 in Arizona that DOESN'T use Voting Centers! Please modernize our system by making use of this technology.

It will increase the number of valid ballots counted and will send the message loud and clear--**EVERY VOTE COUNTS!**

Thank you for listening!

"This Comment is requested to be read into the RECORD at your next Pima County Board of Supervisors Meeting"

Dear Board of Supervisors:

I have 20 years experience working in the polls during various kinds of Elections. In 2020 I was an Inspector for the Primary and General Elections in Pima County. I am very concerned about the Pima County Elections Department's and Recorder's Office's proposal to implement Voting Centers, Electronic Pollbooks and Ballot Printers starting July 6, 2022.

Our Mission as Election Officials is to implement a free and fair election in which the citizens of Pima County can believe and can accept the results.

I am concerned this mission is in serious jeopardy. Roughly four months before the 2022 voting season begins, the Elections Department and the Recorder's Office want to:

1. Create Voting Centers by reducing the number of Voting Locations by 57%, from 232 to 100. This does not take into account the 30 new precincts that were recently proposed during the last BOS meeting. This would also REVERSE THE DECISION THAT THE BOARD OF SUPERVISORS TOOK LAST SEPTEMBER TO KEEP THE NUMBER OF PRECINCTS AT 249.
2. Install new voting equipment in the Voting Centers including Federally uncertified Electronic Pollbooks (tablets with Voter Rolls) from Apple that are connected to Amazon Web Services as well as ballot printing devices. They want to turn over the security of Pima County elections to 3rd party vendors AWS, Cisco and Tenex Software Solutions.
3. Change the rules of operation for voters and poll workers.

ALL AT ONCE! BY JULY 6, 2022!

VOTERS' CONFIDENCE IS AT STAKE AT A TIME WHEN WE NEED THEM TO BELIEVE THAT WE ARE COMPETENT AND FOLLOWING THE LAW.

Here are my reasons for concern:

1. This Proposal does almost nothing to increase Pima County Voters' confidence in our Elections. If anything it DECREASES it. Voters are skeptical about any device that can be remotely connected to other systems. ANY SYSTEM CAN FAIL OR BE HACKED. No vendor can guarantee 100%

uptime. Pima County will need paper ballots and paper rosters as back up to keep the Election going if something fails.

2. Most Pima County Voters are aware that Maricopa County conducted an election in 2020 with questionable results. Maricopa implemented Voting Centers as described above. Real vulnerabilities in Election processes were discovered as a result of the Maricopa County Audit in 2021. There are **37 Election Integrity Bills** currently in the State Legislature to fix these problems. Among them are bills mandating, statewide, MORE PRECINCTS, LESS TECHNOLOGY, BETTER VOTER ROLL MAINTENANCE, AND MORE SCRUTINY BY ELECTION OFFICIALS. Why would Pima County recommend the same implementation as Maricopa's if it caused this much legislative attention? Obviously, if some of these measures become law, Pima County will be out of step.

3. How does reducing voting locations by 57% engender trust from voters in our elected and appointed officials? On its face, the reduction in Voting Locations is making it less convenient for people to vote or to drop off their Early Ballots on Election Day.

4. The Recorders Office has new leadership. The Elections Director has just left and the assistant director is leaving in April. Will this team be able to deliver?

For example:

a. Can we trust that the training of all involved will be detailed and grounded in ARS- 16 Election Laws? In the 2020 Primary and General Elections, Poll Worker training was delivered in person to Inspectors and Marshals in 20 minutes. The training for Clerks and Judges was on-line. If we have inconsistent practices across voting areas it makes voters skeptical and creates a liability for the county.

b. Can we trust that the Voter Rolls will be 100% accurate? The most serious issue we dealt with in my location were numerous voters who were marked in the Roster as having received an Early Ballot when they NEVER requested one and ALWAYS vote in person. They voted Provisionally. They were devastated. They didn't believe their votes would be counted. **This problem would NOT have been eliminated by an Electronic Poll Book.**

c. Which Election Official will be accountable for this project involving voters, poll workers, vendors, new poll locations and new technology? Where is the plan? Will it fall to Apple, Amazon, Cisco and Tenex? What about deliveries?

d. If the results of the Elections are challenged, how will it be determined which part failed? The Voter Rolls? The EPollBooks? The Poll Workers?, The Ballot Printers? The New Locations? The Network?

In sum, in a time very much like the Bush v. Gore Era -- the era of the HAVA Act, ironically -- I believe there is tremendous risk in a complete redesign of our Election Day operation. Pima County right now is the envy of the Arizona State House with our small precincts, paper ballots and hands on attention. There are many other ways to make improvements. Just ask.

Please don't THROW THE BABY OUT WITH THE BATHWATER!

Respectfully submitted,
Sarah Ramsey, P239, Precinct Inspector

(Read only if there is time: **AN INTERESTING LITTLE FACTOID:** One of the proposed conveniences of Voting Centers is that voters will be able to vote in ANY one of the 100 polling locations. The Proposal states that "thousands" of voters voted out of precinct and their votes didn't count. By their own admission, the Elections Department reported that in the 2020 General Election out of 665K registered voters, only 653 voters didn't vote in the correct precinct. Which Poll Worker let them vote? Were they told their vote probably wouldn't count?)

TO: Supervisors Scott, Heinz, Bronson, Christy, Grijalva

Pima County Board of Supervisors,

Please read my comments into the official record. I request that you vote against voting centers and electronic pollbooks in Pima County. Please do not disenfranchise voters by eliminating 57% of our local precincts. Maricopa County uses this type of voting centers and every election I've seen news stories of people waiting hours to vote. I was a poll watcher in a Southern Tucson precinct in the 2020 election. There was a steady stream of voters all day. The lines were no more than a few minutes long. People had their ID checked and were efficiently given a pre-printed ballot, voted, and left. Most were in the polling place no more than 20 minutes start to finish. By eliminating over half of the precinct polling places, you guarantee much longer lines with hour or more waits. We need to make it easier to vote not harder. The electronic system will need to be connected to the internet to prevent people from voting twice. This opens the system up to hacking and denial of service attacks. If the system goes down on election day no one will be able to vote. This cannot happen with the current system which is why it is more reliable and trusted. The voting center system will also make it more difficult for groups with limited transportation from easily accessing the polls. The poling centers will suppress the vote. Please do not remove the vital touch point to our communities. Voting in our local communities with people that we know is vital retain confidence in the electoral system.

FEB 15 2022 MCRC KOT BK

Please vote again centralized Voting Centers and Electronics Pollbooks.

Respectfully,

Brian K. McComas

In a functioning democratic government, we ought to make it easier for every citizen to vote, not harder. We need more vote centers, not fewer. We need greater access for everyone, not less. Monitored "harvesting" ought to be legal, for the elderly for example, or the incapacitated, or for those in remote locations, or for those without transportation. Election Day should be a holiday, for workers who might not otherwise get to vote, if for example fewer polling places have made it necessary to stand in line for hours. Vote-by-mail should be made easier, not restricted further. Etc.

Thank you for your time,

Elizabeth Camus

SF
FEB 15 2022 PIMA COUNTY

Supervisors,

We all remember the images of women in full body coverings holding up ink-stained fingers. You didn't need to be supporter of the Iraq or Afghanistan Wars to be moved by those images... Images that spoke of the most basic of human needs... the need to be heard... that my voice matters!

We speak about the Right to Vote but in a free, self-governing society. We forget there is another component that goes with that Right... The Responsibility to Vote. In the US, voting has evolved over the last 246 years, but one thing has remained constant. In casting our ballots, we are reaffirming our process of voting. A process of choosing who will represent us in governing. The systems we use are supposed to be designed to maintain the Checks and Balances inherent in our Constitutional Republic. In the State of Arizona, the system is designed to maintain the Separation of Powers by having the Election process be shared by different Election officials.

As the Pima County Board of Supervisors your responsibility is clear. You are the folks designated to maintain the basic mechanics of the election process in Pima County. Through the Elections Department you administer the balloting process from end to end... from the printing of the ballot right on through final tabulation and publishing a canvas of the results. Your duty is to maintain the systems to allow for the full expression of the Right to Vote... but in your haste to be more efficient and speedier you are sacrificing your responsibilities and endangering the civic health of our community.

When a citizen votes, they don't just fill in the bubbles on the ballot. Able bodied citizens have a responsibility to publicly affirm the process. This does not mean we do away with the traditional reasons for casting an absentee ballot. If you are unable to get to a polling location in your neighborhood the law allows you to cast an absentee ballot. What we cannot forget is the reason why casting a ballot in person is so critical to the maintenance of our civic culture.

What other Right do citizens have that has a regular appointment to exercise their Constitutional Rights as when they vote? The public affirmation of voting is done in front of your neighbors and fellow citizens at the local, neighborhood level. In a representative form of government this means that the citizens of a given area come together and vote for the person that votes for laws on their behalf. They are voting for their neighborhood community representation.

Doing so in their local precinct... together and witnessed by their fellow citizens is a necessity and has a healthy and reinforcing action to our civic culture. This community action can only occur when voting happens in your local neighborhood precinct. It cannot be done by community wide Mail-in Voting nor by large Vote Centers.

We vote according to our individual thoughts and ideas about the ballot contests in the privacy of the voting booth. When we are done, we insert the ballot in the ballot box because this simple, public act does remind both the citizen and the government officials present that it is the citizen that is in charge. This action endorses our system of voting for our representatives and helps to maintain our civic culture. It reaffirms why it is necessary to come together as a local community to vote for OUR representatives... and that voting is publicly witnessed by our neighbors.

The use of a Vote Centers denies the citizens the opportunity to have their public affirmation of the voting process remain at the local level. While a Vote Center may be more efficient, it distances both the neighbors in a community

from one another and dilutes the power of the public affirmation at the local level. In the end the only true beneficiary would seem to be the bureaucracy.

In your rush to make speed or convenience the goal, you will sacrifice the very personal reminder to our neighbors that we are voting for our local representatives. You will be further distancing the citizens from the government. This is a recipe for disaster.

Your job as the Board of Supervisors is to maintain not just the machinery of our elections but to guard against any loss of the strength of our voting systems. The first duty of government is to protect the Rights of the Citizens. This is enshrined in both the Arizona and US Constitutions. Like those burka clad women, the citizens of Pima County need their voices to be heard. Not just in this November's election... but in every election. But your haste would seem to make voting in Pima County more of a bureaucratic function and less a Right... You would in fact be saying our voices don't matter.

Do not vote to initiate Voting Centers in Pima County.

Respectfully,

Colleen Lienhard

Pima County Election Integrity Commission member (2013-2019)

Good Day!

My name is Elizabeth Caraballo, Legislative Dist 9, Congressional Dist 2. I have lived, voted and paid taxes in Arizona since 1996.

Arizona has always done a good job with voting centers and elections. I support voting centers, please do everything you can to keep them. Much of Arizona is not up to date to make a sudden change to no centers. Every vote counts and we can guarantee that by keeping these centers.

Thank you for your help,

Liz Caraballo

I have been a voter in Pima County since moving here ten years ago. I am a member of the Threshold Foundation Fair Elections Committee that funds organizations that assure elections are fair and accessible, and I urge you to vote in favor of Vote Centers in Pima County.

It makes sense to use the automation now available to make casting your ballot easier. At my polling place when I lived farther north in the county, I twice witnessed people being turned away at a polling place on Election Day, and one being told they could cast a provisional ballot, but they were not told that their ballot would not count since they were not at their polling place.

Let's make it easier for everyone to vote, and trust our election officials to speak up when they don't have the technology to implement measures that increase accessibility. And let's provide the funding needed to allow election officials to do their jobs properly.

Thank you,

Dear Pima County Supervisors:

As a civics teacher, I am appalled that you are considering the use of Voting Centers. This may be an efficient process for your bureaucracy, but that belies the true purpose of voting. Voting is an expression of the people's consent because it is the people who are the sovereign in a constitutional republic. People need to go vote in their precinct, in their neighborhood, where they demonstrate to others in their area that they are expressing their consent and, by doing so, encouraging others in their neighborhood to do likewise. Furthermore, you should be encouraging people to vote in person as an expression of their sacred duty and responsibility. Absentee voting should only be done for those who honestly cannot go to their neighborhood polling place.

Pima County needs to provide opportunities to vote conveniently and safely, and from what I have read, these voting centers are in use in many cities and operate even more effectively than precinct polling places as they are placed near convenient rapid transit and are spread out all over the county to provide access for those who don't have cars. Some precinct polling stations are not easily accessible to those who need to take busses to reach them. Please be aware that voter suppression bills are flying around in the state legislature to limit who can vote and how they can vote. Pima County has a proud record of working with voters and Voting Centers would facilitate even more access. Thank you for ensuring Pima County residents have ample opportunity to get to conveniently located polls. Elizabeth Packard, Oro Valley

Clerk of The Pima County BOS

I would very much appreciate that you read my remarks into the official record.

I am EXTREMELY concerned that the Pima County BOS is proposing to reduce the number of polling places in the upcoming Election cycle. Reducing the number of polling places will create a real hardship on many voters in Pima County. Especially those minority and low income voters. This will absolutely disenfranchise many voters in Pima County. Forcing voters to have to vote by mail which is RIFE with corruption and possible fraud. Most Americans are very concerned about voter integrity issues. I have voted at my polling place for over 25 years. Having to figure out where a new polling place and being forced to stand in a long line is unacceptable. I have always voted in person on Election Day. I feel voting a serious and solemn responsibility. I have always felt it is my civic duty as well as my Constitutional right. You seem to have all kinds of money when it comes to spending millions of dollars on the care and placement of illegal immigrants into our Country and communities but you don't want to spend sufficient funds to insure our elections are completely above board. The Optics of this proposal is very infuriating. I am totally against the creation of voting centers. I believe it's important for you to earn the trust of your voting constituents.

Additionally the implementation of E- Pollbooks is a hackers DREAM and a voters NIGHTMARE. Any tech savvy individual could easily corrupt the election process and potentially Change voting numbers. Anything that is connected to the internet is at risk for compromise. There was a reason that our elections are decentralized. Again this will disenfranchise may voters. The paper Poll Books can not be counterfeited. This process has worked and a vast amount of voters have confidence in them.

This is why I strongly urge you vote NO on Voting Centers and E- Pollbooks. I thank you and appreciate your time and consideration on these serious matters.

Respectfully submitted

Subject: Pima County elections proposed changes

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Dear Supervisors,

I am vehemently opposed to modifying the Pima County elections process as is being proposed at the 15 February 2022 meeting.

The changes being proposed would enable more opportunity for voter fraud. The results of the Maricopa audit show this to be the case.

The list of proposed changes is exactly the opposite of the intent of various Bills currently working their way through the State Legislator.

Among these bills are the statewide of mandating of **MORE PRECINCTS, LESS TECHNOLOGY, HIGHER SECURITY, BETTER VOTER ROLL MAINTENANCE, and MORE SCRUTINY BY ELECTION OFFICIALS AND OBSERVERS.**

It is NOT the time to implement such sweeping changes in Pima County when we are only a few months away from the very important 2022 Mid-Term Primaries.

Dramatically reducing the number of Precinct Polling places seems to be a form of **VOTER SUPPRESSION. Reducing access to polling places is especially impactful on the lower income portion of our population and could result in them just not voting.** I find it hard to believe you want your name associated with such a hot button issue.

Please read my comments into the official record. I ask you to NOT disenfranchise Pima County voters with centralized Voting Centers and E-Pollbooks.

Thank you for the serious consideration of these concerns. Election Integrity is key to the success of our Republic.

Please, vote to allow Pima County to have voter centers. A person who makes the effort to vote should not be told they are at the wrong voting location and that they need to go somewhere else. Our democracy depends on people being able to vote and it should be made as easy as possible for every qualified voter to cast their ballot. Many other counties already do this and Pima County needs to step up and facilitate voting by having voter centers where any qualified voter can vote.

I am very much in favor of the vote center. The idea that you could go to any location to vote makes voting much easier. You don't have to be in your neighborhood, and if you have recently moved you don't have to worry about where you should go. Voting should be made easier for everyone; not harder.

Dear Supervisors,

It is imperative that there be a yes vote on Feb. 15.

Across this country, groups of people who desire to decrease availability of voting rights, particularly to black and brown people are challenging a true, democratic system. Please do NOT be a party to this. Improving Voting Centers and access to this RIGHT is imperative at this time.

Vote Yes for this most significant issue.

Thank you.

Dear District Supervisors,

Please know that many people now know that the 2020 election was fraught with corruption and that a lot of cheating was done. **You need to do everything in your power to make our elections more secure.** We definitely want things like watermarks on ballots, in-person voting for the majority and very few excuses for not going to the poles in person to vote. We also want a Republican and Democrat present during all counting of votes and checking of ballots so there is double verification which is fair to both parties. **Anything less is not acceptable to most Americans any longer.** We also want the 2020 election decertified since many votes were obviously fraudulent and cannot be verified. We will accept nothing less as voters and anyone who does not want these things will be voted out in November of 2022. **I know I speak for many people, whether Republican or Democrat, since this is the talk of Pima County and also elsewhere in the country.** We the people are watching everything closely.

**On February 15th and on any future Bills coming down the pike,
please know the people will accept nothing less than making
our elections more safe and secure!!!**

Thank you to any of you who take the time to read this email.

Respectfully,

Debbie Foster

To the Pima County Supervisors

As a resident of Pima County who has always voted, I am in strong support of Vote Centers. I can remember driving across Atlanta, Georgia for more than an hour to vote a challenge vote not long after I moved there in 1970. No one should have to do that. I had to borrow a car, pay for gas on a very small salary and so on. Thus I think as a registered voter I should be able to vote at any appropriate voting center.

Voting locations should remain the same. Having lived in six (6) states over my voting life (Indiana, Georgia, Alaska, Illinois, Delaware and Arizona), I have shown up at what I thought was the appropriate place to vote, only to find it had been moved. I was able to resolve it, and I was able to take the time. Not everyone has the time available or the resources to find their new appropriate voting station. We can register to vote in a variety of places and to the degree possible, voting locations should remain consistent and should not be moved arbitrarily.

Why is Pima County behind on technology to vote? That is not acceptable. This is one of the largest and wealthiest counties in the state. We should maintain our technology.

Good technology and easy access to voting strengthens our democracy. This is a time to expand voting rights. Every citizen has the right to vote. Government should be supporting voting, promoting voting, and making voting more accessible to working people and others who may not have the time or the transportation or the health to tolerate long lines, hot or cold weather, and all the other impediments to voting. This is our right to vote, our responsibility to vote, and it's your responsibility to make voting accessible.

Thank you for this opportunity to write.

Sincerely,

Theda M. Ellis

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

I urge you and the Pima County Board of Supervisors to VOTE in FAVOR OF ESTABLISHING VOTE CENTERS AND AUTOMATING POLLBOOKS. The process of voting must be accessible to everyone, and should not keep anyone from casting their ballot because they went to the "wrong" voting location. This is already a well-established practice in 11 other counties. Having more voting centers especially helps our rural, indigenous, low-income, and disabled voters, who require easier access to fully participate in our democracy. Having more vote centers and automating this system will make elections safer, since they will use their own secure networks; it will also be faster and decrease the burden on all elections staff and volunteers. I am confident in the ability of the Pima County Recorder's office and Elections department to execute a public information campaign on the new system and to carry out the most successful, secure, and highest voter turnout in the midterm election in Pima County this fall. Please vote yes and support a full participation democracy.

Dear Supervisors,

I think voting centers are a great idea! We should make voting as easy as possible. Since many people work during the day, it might be easier to go to a voting center near work or near schools or child care centers or near elderly homes or facilities rather than one near one's own residence. Time is critically important, and transportation and traffic can be additional barriers.

Voting centers would also eliminate careless mistakes of going to the wrong voting place. There is no "wrong" in voting—as long as you only vote once. We should be encouraging voting—showing people that government works for them!

The technology exists to do this, with no problems. The Pima County voting system is excellent!

So why not?

Thank you for your consideration.

Pima County AZ Supervisors,

Please STOP the PIMA, ARIZONA and the US GOP's UN-AMERICAN shameless and ongoing efforts to limit our access and attempts to VOTE in our local, state and federal elections.

The AZ GOP unfortunately continues to have a spineless allegiance to former US Presidential loser Donald J Trump, who was twice impeached, was a "bone spurs" draft dodger and is currently under multiple state investigations for financial fraud. I and many other US Veterans and US voters see Donald J Trump as a Putin Puppet, who continues to bellow "his big lie of the steal."

The GOP also continues to minimize the seriousness of the Jan 6 2021 Insurrection/ Coup of our US Capitol. This was a traitorous dark day for our US Democracy and US Constitution.

The Jan 6 Insurrection is still under investigation by the US Congress. These treasonous criminals, who have hijacked our US flag us for Alt Right violent activities, erroneously and disrespectfully call themselves US Patriots. These misguided individuals refused/refuse to accept the valid vote counting, or the results and we're spurred on by Trump's own words to "fight like Hell" and from his partisan associates on the Capitol Mall on Jan 6th, 2021.

Sadly individuals have died, Capitol Police and many law enforcement have and continue to suffer, have resigned and/or have committed suicide. Some of the GOP initially condemned the Jan 6 Insurrection, but many GOP now minimize the Jan 6 Coup and are passing state legislation to make our voting access and casting our votes harder as opposed to more just and equitable.

The Arizona GOP and the GOP's in other GOP majority States are spiteful in passing state legislation that limits access and attempts to vote. The GOP are still making it harder to cast our votes out of politics and meanness.

My father and family elders fought bravely in the Army, in the Pacific and in Europe during WWII fighting against Japanese imperialism and Germany's anti-semitism, White Supremacy and Fascism. I am a Vietnam Era Veteran and a 3rd Generation Tucson Native who still believes in fighting against fear and hate. I also votes in all of our elections.

I urge you to restore and maintain our VOTING FREEDOMS and stop the GOP's ongoing obstruction of our US CONSTITUTIONAL RIGHTS in voting, access, mail in ballots and voting centers.

Thank you, sincerely

Mark E Rodriguez

Please put my comments in the record.

I am asking you to not disenfranchise any Pima County voters.

We have found that consolidating our polling places, suppresses voter turnout, not increase it. This is especially true for minorities and low income voters.

The E-Polibooks are pathetic. They connect to the internet and are very easily hackable and often do not work.

Our elections were instituted to be decentralized and accessible and to have Accountability.

Pima County needs to earn back the voters' trust, by seeing to it that our locations are not consolidated.

Also, please make no change to our paper Polibooks.

Thank you,

Karl Schneider

Larry Bodine recently blogged,

"The Pima County Board of Supervisors will vote on establishing vote centers and automating pollbooks at their Tuesday, February 15th meeting. As an already well-established practice in 11 other counties, voting centers are inherently more accessible." (<https://blogforarizona.net/alert-call-on-pima-supervisors-to-approve-vote-centers-on-feb-15-at-9-am/>)

I'm all in favor of enabling people to cast their ballot wherever they are in the county. This should not of course excuse reducing the number of polling places. Or the elimination of drop boxes or vote by mail opportunities.

Keep up the good work,

J

Dear Board of Supervisors,

I request you to vote in favor of vote centers. Eleven of the fifteen Counties in Arizona are already using these, and they are clearly safe, efficient, and supportive of our basic right to vote.

Thank you

I'm an old woman who has voted all my life. At 72 years of age, I have missed perhaps one election (local or general) in that time. So I can authoritatively say that for me model of centralized polling places is much better than the way I've had to vote for most of my life. In this model, virtually every election has been held in a different local center, maybe the elementary school one election, the high school another, who could say where one might be going? So each election, in addition to doing my duty as a citizen and informing myself about the issues and candidates, and taking time off somehow to vote, I must also figure where to vote. A number of well known vote centers w/ well publicized locations along major transportation lines seems to me a huge improvement for this reason and many others as well. It will be administratively simpler, and administrative simplicity leads to fewer mistakes and lower costs. Also the current system of manual poll books is slower and more cumbersome and, therefore, more expensive.

This is an idea whose time has definitely come and has already come in 11 of 16 Arizona counties. Time for Pima County to get on board!

Hi,

My name is Mike Weingarten, and I live in the Broadmoor-Broadway Village neighborhood of Tucson. I would like to register my strong support for the proposed move to Vote Centers in Pima County.

My reasons:

- 1) Efficiency. Vote Centers, coupled with the new sign-in technology proposed, would debottleneck the ballot collection process on Election Day, would make the voting experience easier and faster for voters, and would make voting tallies faster and more direct.
- 2) It would eliminate a large source of provisional ballots, and ensure more valid ballots are counted. It eliminates the issue of voters' ballots being disqualified for showing up at the "wrong" precinct, and would ensure that everyone is given the ballot that they are supposed to be voting.
- 3) Vote Centers would be tremendously helpful for voters in rural areas and in our Native American nation areas. It would make voting easier and improve voter participation in those areas.
- 4) Resourcing. The County is having an increasingly difficult time obtaining sufficient numbers of volunteer poll workers. Vote Centers would greatly decrease the number of volunteers needed, and would ensure that a quality Election Day job is done with fewer people.
- 5) Proven methods. We effectively manage vote centers already with our early voting processes. And other counties all across the state already use vote centers on Election Day. We know how to do this, and do it well.
- 6) Voting Security. Vote Centers, with the improved sign-in and voter validation technology, would ensure that only valid, legal voters are able to cast their votes.

Finally, lest opponents raise the spectre of voter fraud, follow the hard data. There is zero evidence that systemic voter fraud has taken place in our Arizona elections, and every reason to believe that our elections are fair and secure. Vote centers will be based on the proven methods that have served us well until now, but will bring about all the advantages listed above.

Please vote "yes" to approve Election Day vote centers here in Pima County.

Thank you.

Hello,

I am strongly in favor of Pima County moving to the use of Vote Centers. These centers would allow voters to cast their vote at any center location, thereby making it easier for voters to vote near their place of work or home. The technology used streamlines the check in process and makes the voting process much more efficient, as well as secure.

Please vote in favor of vote centers.

Respectfully,

Dear Supervisors,

As a native of Tucson, I am in favor of vote centers for Pima county. This is an economical, effective and practical way for Pima County to make voting available for all residents. It will make it more convenient for rural citizens to vote. As you know, it's not a democracy if you don't vote. Every vote counts!

Respectfully,
Judy Lynn Williamson

I agree a person should be able to vote at any polling station. Computers make this a lot easier. I also have a thought, President Biden has to up his fanfare when speaking to the people. It comes off as boring and dull to the Republican. They like virtual tv. I realize this isn't Biden's style... but if he wants the democrats to win be a little more showy. Thank you , Charmaine

Supervisor Scott,

I would very much appreciate that you read my remarks into the official record.

I am EXTREMELY concerned that the Pima County BOS is proposing to reduce the number of polling places in the upcoming Election cycle. Reducing the number of polling places will create a real hardship on many voters in Pima County. Especially those minority and low income voters. This will absolutely disenfranchise many voters in Pima County. Forcing voters to have to vote by mail which is RIFE with corruption and possible fraud. Most Americans are very concerned about voter integrity issues. I have voted at my polling place for over 25 years. Having to figure out where a new polling place and being forced to stand in a long line is unacceptable. I have always voted in person on Election Day. I feel voting a serious and solemn responsibility. I have always felt it is my civic duty as well as my Constitutional right. You seem to have all kinds of money when it comes to spending millions of dollars on the care and placement of illegal immigrants into our Country and communities but you don't want to spend sufficient funds to insure our elections are completely above board. The Optics of this proposal is very infuriating. I am totally against the creation of voting centers. I believe it's important for you to earn the trust of your voting constituents.

Additionally the implementation of E- Pollbooks is a hackers DREAM and a voters NIGHTMARE. Any tech savvy individual could easily corrupt the election process and potentially Change voting numbers. Anything that is connected to the internet is at risk for compromise. There was a reason that our elections are decentralized. Again this will disenfranchise may voters. The paper Poll Books can not be counterfeited. This process has worked and a vast amount of voters have confidence in them.

This is why I strongly urge you vote NO on Voting Centers and E- Pollbooks. I thank you and appreciate your time and consideration on these serious matters.

Respectfully submitted

Dion Heimink Sr.

In a country bent upon increasing the difficulty for registered voters to cast their votes because of the myth of voter fraud, why on earth would you vote to decrease access to voting centers in Tucson, Pima County?
The Big Lie that Trump won the 2020 election and the confounding lie of massive voter fraud are the greatest threats to our democracy based on the right of the people to have access for casting their votes.

It's not a partisan issue. It's a constitutional right to vote issue.

Please consider the needs of citizens to be able to cast their votes fairly rather than to narrow their access to the polls.

Respectfully,

Kathleen Edelman

Hello,

I believe a healthy democracy is one in which everyone is able to have their vote counted and ease of voting is imperative to increasing participation in the democratic process.

Additionally, vote centers provide us a way to reduce the cost and time commitment of our elections by eliminating the need for provisional ballots—a benefit that other counties in the state have already demonstrated.

I urge you to please support the establishment of vote centers.

Thank you,

I support vote centers and urge the Board to vote YES.

Vote centers will allow any registered voter to vote at whichever center is closest to them whether from work or home. It will increase turnout by making voting more accessible and convenient.

It will lessen the need for many poll workers and volunteers who may be unavailable to man the Precinct locations which causes those locations to be unavailable.

Many Arizona counties already use the vote center model.

Make voting easier, vote YES on vote centers.

Thanks,
Brian Radford

I'm concerned that many written comments have been in opposition to vote centers. I am in SUPPORT of this proposal to switch to vote centers because it promotes the freedom to vote. Vote centers allow for easier voting for voters across Pima county to be able to vote wherever they are, whether near their home or work. There should be no concern about confusion by a switch from precincts to vote centers - voters will be able to vote anywhere they happen to be. This move would also increase election security and ease of ballot processing.

thank you,
Priya

In the past I have served as a poll watcher and have observed in person as confused people tried to vote in what they thought was their assigned voting Place, only to be turned away because it had been changed from the previous voting area!

We need voting centers where all registered voters may drop off ballots or vote in person while knowing that their vote is immediately received and processed on Election Day !

To the Pima County Board of Supervisors:

Please read my comments into the official record. Please do not use centralized Voting Centers and E-Pollbooks because consolidating polling places suppresses voter turnout and E-Pollbooks are connected to the internet, easily hackable, and frequently malfunction.

Elections in the United States were purposely structured to be decentralized, accessible, and accountable. Pima County needs to earn back the trust of voters by ensuring our local precinct voting locations aren't consolidated, and there's no change to our paper Pollbooks.

PLEASE LISTEN TO THE CITIZENS OF YOUR COUNTY! Reducing Polling locations will reduce voter turnout!!! and E-Pollbooks is not a secure method to manage our votes on. Please use Paper ballots with security paper, one day voting, a voting holiday, remove all drop boxes, and require in person voting unless there is an excused need for an absentee ballot.

Thank you,

Bonnie Roque

Vote centers are a great idea. Several Arizona counties all ready use this system. When Arizona legislatures are making it harder to vote vote centers will make it easier.

Please offer voting centers for Pima County. Confusion on where to vote is often why people don't vote. It's better election security, more accessible as people can go there while en route to work, errands, etc. For instance, my precinct, even though I'm at 110and Marana Rd, and go into town daily, we have drive 15 miles out west into nowhere desert to some fire station to vote.

Thank you,
Kathryn Kosse

I support the vote centers! It is so important that voting be made accessible to everyone! Please decide in favor of this voting plan. I am a Tucson resident, voter, and constituent.

Thank you.

My family and I live in Pima County District 3 and Vote Centers would be extremely helpful and welcome to those of us here. Some of us work a long distance away from our homes and polling places - say YES to Vote Centers throughout the County to make it easier for us to vote.

We need, here in Pima County, to join the rest of the counties of Arizona and have voting centers available to all citizens that are registered to vote.

Sent from my iPad please no more machines. Did you not learn anything over the past months. Why do you want to make it harder for people to vote by cutting the number of polling places?

1. I strongly urge you to vote YES for Vote Centers, which would enable any registered voter to cast their ballot at ANY Vote Center in Pima County on Election Day. Voting locations would stay the same for rural communities PLUS any registered voter would be able to cast their ballot at ANY of the 100 locations! Voters would NOT be told that they are in the wrong place! Pima County is behind on the technology, as 11 of the 15 counties in Arizona are already using Vote Center. This will increase the number of valid ballots counted! Every vote counts! This is how our democracy remains strong and vital, ensuring citizens can vote and have it be counted!

Thank you.

Re: Voting Centers

From: Christine Olsenius
2604 E. Josephine View Drive
Green Valley, AZ 85614

I request that the Pima County Board of Supervisors maintain the current voting centers located in Pima County. It is particularly important for the County to provide ease and flexibility for residents to access voting centers, especially as many areas serve a disproportionately older population.

Thank you.
