Information/Discussion: Requesting that staff give a presentation (with clear visuals) on the latest Sustainability Action Plan for County Operations report. This presentation should focus on the highlights of the report, specifically the goals we are making progress towards, and the goals that we are falling behind on achieving, and how far we are overall from achieving our carbon reduction goal of 50 percent below 2005 levels by 2030. Please describe how the County plans to address Wastewater Treatment emissions. The SAPCO Update (FY 2021) report says that staff is trying to determine why there was such a significant increase of solid waste emissions so please provide an update on this investigation, as well as information on sustainability measures in County landfills,
