Following are my comments for the Board of Supervisors' meeting May 17, 2022

Addendum 1 Item #10 Vote Center Implementation Plan. YES we need a Vote Center Model demonstration. This should be a basic requirement by the Board of Supervisors since the entire voting model is new to everyone and has the potential to disrupt our opportunity to VOTE. If all goes well then great. If there are glitches then let's figure out if they can have a perfect remedy before voting day.

Election integrity is vital for this country, state, and county. Please demonstrate this new electronic voting process and clearly identify your implementation concerns and listen to the public's concerns. Ensure this new election process is secure and allow for a thorough audit post-election to prove this new process is working as promised.

Sincerely,

Grace Stambaugh
