I urge you to vote "no" on continuing vaccination mandates as a condition for employment.

There is far too much evidence available that shows the vaccine is incapable of stopping transmission of a virus.

There is no longer an "emergency" situation, and Pima county needs to align itself with the best interests of its citizens.

The district needs to return to its citizens the right to determine what substances are safe to their bodies.

Natural immunity is the way the human race has adapted to virus and germs from the beginning of time, and no mandate will change that.

Vote NO on any extension or condition of mandates. I must remind you of our freedom to choose.

Dear Pima Co Board of Supervisors,

I have been subjected to the forcing of a vaccine I do not require or desire and have been held up in job processes and a Volunteer Opportunity with an Auxiliary Volunteer program in the County. Very disheartening. This is in DIRECT violation of my Constitutional Rights and I am looking into it with several attorneys. You all have probably been Vaccinated, Boosted and Still Got Covid! What is the point here? It is all about the Money and we will be determined to get to the bottom of this. The residents of Pima County will band together to remove all of you from your comfy seats and we will install upright, law abiding persons not Cronies.  
VOTE NO! **History will not be kind** to those who pushed this narrative and assault on the American People.

We need to wake up and get real. These requirements are exposing the taxpayers of Pima County to continued and eventually litigation. Vote NO! On these continued unnecessary regulations.

Thank you,

Please vote no on this continued ridiculous requirements. We are out of control. In the beginning, it was awful. The virus has morphed yet the powers want to keep us all tethered to what was instead of looking at what is. It is OVER. Please vote no!

To Whom It May Concern:

Please vote NO on the policy of making the Covid-19 Shot mandatory and allow Americans to heal from this terrible policy and injustice to our bodies. Many of us in my precinct are outraged at the continuation of this policy. This is not following the science. We know so much more about this disease now than we did in the beginning. There are many experts that now agree on the harmful effects of this shot and there seems to be little or no protection. Even Dr. Fauci has said that we must treat this like the flu.

Thanking you in advance,

Clerk of the Board,  
Please record my comment.  
I urge you to vote NO on vaccine requirement. The pandemic is now an endemic like the seasonal flu. It's time to stop mandatory medical requirements on citizens no matter who their employer is.  
Thank you,  
Brenda Simon
