Please read our concern into record.

Re Addendum #3: Voter Registration Cards

Greetings,

Thanks to Supervisor Christy we found out that there's a problem with the new Pima County voter registration cards.

The new election system looks up voter registration information on-line to determine which of the 1,500 different ballots for Pima County will be printed for each voter at the reduced number of voting centers. If a voter's registration information is incorrect in the voter registration system, how will the election staff handle the upcoming election in August?

Problems must be fixed right away. Please provide a plan for this occurrence.

More than 80 letters were sent to you about polling centers and e-poll books. Yet you did not address our concerns

about e-polling books being on-line, the very real treat of hacking and other worries. You did not reassure us at all.

We provided more than 110 articles and examples of bi-partisan concerns about this. We do not trust this new system,

We do not trust that the new employees will be properly trained, and we are worried about another botched election.

We would prefer to use paper ballots and go back to precinct voting for safe and accurate voting. Please reconsider. It's not too late.

Thank you.

Michael & Gisela Aaron
