

BOARD OF SUPERVISORS AGENDA ITEM REPORT AWARDS / CONTRACTS / GRANTS

C Award C Contract @ Grant

Requested Board Meeting Date: August 2, 2022

* = Mondatory, information must be provided

or Procurement Director Award:

*Contractor/Vendor Name/Grantor (DBA):

Arizona Department of Education

*Project Title/Description:

Elementary and Secondary Education - Title II

*Purpose:

Funds from this grant will be used to assist Pima Vocational High School (PHVS) in completing the steps and professional development outlined in the Integrated Action Plan (IAP). Title II pays for the funding of the afformentioned professional development delineated in the PVHS Integrated Action Plan. Along with professional learning support in Implementation of Multi-Tiered System of Supports (MTSS) alignment with the IAP.

The Indirect Cost Rate is: 5.16% and the Indirect Cost Amount is \$129.00. Attachment: Approved Request for Waiver of Indirect Costs

*Procurement Method:

Not applicable.

*Program Goals/Predicted Outcomes:

To provide training for PVHS staff to determine the most effective schoolwide best practices and assist students in overcoming their barriers to success.

*Public Benefit:

Title II gives PVHS staff the tools necessary to support PVHS students and assist them in reaching their goal of obtaining a high school diploma.

*Metrics Available to Measure Performance:

Employee evaluations completed by the PVHS program coordinator, employee time and duty sheets submitted bi-weekly, standardized and benchmark test scores, and end of session class completion data. Data exported and notes entered into Multi-Tiered System of Supports (MTSS) data system, Panorama, documenting services and interventions for PVHS students.

*Retroactive:

Yes. Turnaround time for this grant was fast and due by 5/15/22, guidance documents and Arizona Department of Education director approval were not received until June 10, 2022. The box marked "no" does not refer to the award status.

Program Narrative Questions

Pima County (108601000) Charter District - FY 2023 - Medium Risk - ESEA Consolidated - Rev 0 - Title II Improving Teacher Quality

* 1. Describe the activities to be carried out by the LEA and how these activities will be aligned with challenging State academic standards.

Our student population is made up of 16-21 year olds returning to school in order to complete the requirements for a high school diploma. On average, our students have attended 3-5 other high schools and enter our school with skill sets of 6-7 grade reading and 4-5 grade math. All students are given diagnostic tests during our 2-day orientation. We then have a base line to begin an academic program. Students are assigned a prescriptive path designed specifically at their level. Students then work with their advisor to determine a goal to achieve within our 6- week class sessions. Advisors monitor each advisee's program and meets individually with their students 2 times within the 6 weeks. The Prescriptive program can be monitored/adjusted according to the academic growth achieved. Our 15-1 student/teacher ratio allows for constant differentiated instruction in order to assist students in filling in the "gaps" of knowledge in order to increase their base level which then increases their academic achievement. Tutors are available every day to work with students that require one-to-one support. Although our students come to us with low skill sets, our evidence shows an average increase of 2-3 years within a full academic year.

* 2. Describe the LEA's system of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

We have a very structured professional development program stemming from the prior year's data results and analysis. Specifically, the data is collected and analyzed twice a year by the entire staff. At the end of the school year, a determination is made, based on the data analysis, as to where we need to see growth. All teachers, staff, and administrators are responsible for setting the school-wide goals, which are then implemented the following year. W e conduct monthly, three-hour staff developments and training to ensure that goals are being implemented and that growth is evident. Curriculum maps are being updated, and lesson plans are checked on a weekly basis for goal implementation in the classroom. Feedback and directives are given for lesson plans that need to implement any goals that have been set for student academic achievement. Student-focused classroom observations are conducted both formally and informally to ensure that differentiated instruction is truly being implemented in every class so that all students have an equal opportunity to learn the subject material. All staff, including teachers, are on an improvement plan based on classroom observations, peer coaching feedback, and demonstrated leadership throughout the year. Based on the performance evaluation of teachers, administration works with them individually on their improvement

plans, which become another portion of our year-long staff development. We utilize our master teachers to work with developing teachers in the areas of engaging learning strategies in the classroom, as well as student interventions both inside and outside the classroom. Teachers are asked to lead various parts of the staff development throughout the year in an effort to create a community of teachers and staff whose goals are the same and are in the best interests of our students. In addition to the monthly staff developments that we provide all staff, new teachers are given year-long training on our school's best practices that include strategies that work in the classroom to help our population of students achieve academically

3. If applicable, describe how the LEA will prioritize funds to schools served by the agency that are implementing comprehensive support and improvement activities and targeted support and improvement activities (school improvement) under section 1111(d) and have the highest percentage of children counted under section 1124(c). The LEA will be using all Title II funds to support the school site implementing school improvement activities. The funds will be used to support continuing professional learning support on implementation of MTSS in alignment with the LIAP and SIAP

4. In regard to the LEA Integrated Action Plan (IAP), describe how the LEA will use data and ongoing consultation described below to continually update and improve activities.

CONSULTATION - In developing the application, a local educational agency shall -

(A) meaningfully consult with teachers, principals, other school leaders, paraprofessionals (including organizations representing such individuals), specialized instructional support personnel, charter school leaders (in a local educational agency that has charter schools), parents, community partners, and other organizations or partners with relevant and demonstrated expertise in programs and activities designed to meet the purpose of this title;

(B) seek advice from the individuals and organizations described in subparagraph (A) regarding how best to improve the local educational agency's activities to meet the purpose of this title; and

(C) coordinate the local educational agency's activities under this part with other related strategies, programs, and activities being conducted in the community."

*

Our team consists of all staff working together to gather academic data . Twice a year, our week- long staff development focuses on the gathered raw data to analyze and answer the following questions: 1) what does the data tell us? 2) what can we celebrate? 3) what do we need to improve and how will that be achieved? Throughout the year, our staff meets weekly to review academic and attendance progress of students in order to determine the most

effective of our best practices to implement. We know that if our students are present, we can and do work with them to bridge the achievement gap. In order to help our students who in the past have displayed extremely poor attendance at school, we provide Youth Specialists (case manager's) who work individually with students to assist them to overcome barriers to success.

Our current low income data is 85% below the poverty level. As a part of Pima County, we collaborate with all agencies that offer assistance to older youth and their families. Administration meets regularly with an educational consultant who has an expertise in working with at-risk students in an academic environment. We are constantly striving to support/encourage our students to be successful in areas where they previously struggled to progress.

Τ	
Guidelines:	
If the LEA plans to pay recruitment stipends, there must be a con Action Plan in GME - Planning Tool.	rresponding Strategy with Action Step in the LEA Integrated
There must be a Local Governing Board approved policy for rec	ruitment stipend procedures for both teachers and principals.
The policy and procedures may be, but are not required to be the Grants Management System as part of the ESEA Consolidat	e uploaded into the Title II-A Related Documents section within ted Application.
There may be an indication that the policy and procedures w showing that it was approved.	vere approved, such as a date stamp or minutes of the meeting
The policies/procedures must define the eligibility criteria for rec	eipt of a recruitment stipend and include the following:
Teachers and/or Principals must meet Appropriately Certified	d requirements.
Charter school teachers are exempt from this requirement w	ith the exception of special education teachers.
Teachers and/or Principals must be either new hires or trans access.*	ferring within or between schools for the purpose of equitable
Directions:	
The recruitment section is to be completed within the Grants M	anagement System.
The spreadsheet must include the following:	
The list of the teachers and/or principals who will be receiving	a recruitment stipend.
The school assignment of each teacher and/or principal received	ring a recruitment stipend.
The academic subjects each teacher will be assigned to teach	based on the recruitment stipend.
The amount of the recruitment stipend being provided to each	person.
The appropriately certified requirements for each teacher and/	or principal.

FYI:

Recruitment stipends may include relocation expenses for teachers and principals.

New employees to an LEA may only receive a recruitment stipend one-time. It is not to be used as a signing bonus for returning teachers or principals.

Teachers and principals who are transferred within the LEA for the purpose of equitable access may receive a recruitment stipend multiple times.

This teacher/principal must have demonstrated a record of success in academic achievement prior to the funding payment.

Recruitment stipends for in-house LEA recruitment referrals are an allowable expense.

Recruitment stipends fall under 6100 with corresponding benefits in 6200.

* ESEA 1112(b)(2) Equitable access means that "low-income students and minority students are not being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

Retention Stipends

na County (108601000) Charter District - FY 2023 - Medium Risk - ESEA Consolidated - Rev 0 - Title II Improving Incher Quality
etention Stipends
uidance on Retention Expenditures - (ESEA, Section 2103(b)(3)(B))
cal Education Agencies may utilize Title II-A funds to offer stipends for the purpose of retaining effective teachers and incipals. Teacher assignments should be completed in such a way as to improve equitable access.*
achers and principals who are identified for a retention stipend should have a record of success in helping low-achieving, conomically disadvantaged, and/or minority students improve their academic achievement.
fferential Payment Stipends are classified as a type of Retention Stipend, and will need to adhere to the same guidelines identified for Retention Stipends (outlined below).
etention

Guidelines:

Retention stipends should be tied to a larger network of support for teachers and principals that includes individualized professional development, mentoring and coaching, and must be included in the LEA Integrated Action Plan (IAP) in GME - Planning Tool.

There must be a Local Governing Board approved policy for retention stipend procedures for both teachers and principals.

The policy and procedures may be, but are not required to be uploaded into the Title II-A Related Documents section within the Grants Management System as part of the ESEA Consolidated Application prior to funding.

There may be an indication that the policy and procedures were approved, such as a date stamp or minutes of the meeting showing that it was approved.

The policies/procedures must define the eligibility criteria for receipt of a retention stipend and include the following:

Teachers and/or Principals must meet Arizona Appropriately Certified licensure requirements.

Charter school teachers are exempt from this requirement with the exception of special education teachers.

The policy must outline how the Local Education Agency will determine teacher and/or principal success in improving academic achievement.

Multiple measures are to be used to generate a teacher's or principal's record of success.

(These may include value-added or growth measures, Student Learning Objectives, curriculum-based tests, baseline/post assessments, oral presentations, performances, or artistic or other projects.)

Individuals working in substitute or paraprofessional positions are NOT eligible for a retention stipend payment utilizing Title II-A funding. Appropriately certified teachers do not include those holding Emergency Certificates or Substitute Certificates.

A Teacher or Principal's Effectiveness Classification <u>may not be the sole measure for demonstrating the "record of</u> <u>success"</u> in improving academic achievement, although the Student Academic Progress portion of the evaluation system, in addition to the some of the measures listed above, may be used.

Retention stipends will be paid <u>after the first day of the next school year</u>. The funding must be allocated and spent within the current fiscal year's ESEA Consolidated application.

For example: if the funding was allocated in FY21, then draw down for the funding must also be from FY21.

Principals must demonstrate a record of successful leadership that results in low achieving students improving the academic achievement, particularly students from economically disadvantaged families, students from racial/ethnic minority groups, and students with disabilities.

Determination of principal retention stipends must include school level data along with other multiple data sources fr student growth.

Directions:

The retention section is to be completed within the Grants Management System.

The spreadsheet must include the following:

The list of the teachers and/or principals who will be receiving a retention stipend.

The school assignment of each teacher and/or principal receiving a retention stipend. The academic subjects each teacher will be assigned to teach based on the retention stipend. The amount of the retention stipend being provided to each person. The appropriately certified requirements for each teacher and/or principal. The multiple measures used to determine a "record of success" in student achievement.

FYI:

A finalized retention section will be submitted at Completion Report.

* ESEA 1112(b)(2) Equitable access means that "low-income students and minority students are not being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

Retention stipends fall under 6100 with corresponding benefits in 6200.
