AUG 01 12:28:08 2022 PCC CLK OF ED

Gun control measures such as taxing and having an inventory of the weapons law-abiding citizens possess will NOT stop gun violence/injuries.

Gun control does NOT work because only law-abiding citizens follow the law. All you have to do is look at cities in America, like Chicago or Detroit, that have strict gun laws and you will see the effect it has had, high violent/gun related crime rates. That should speak for itself. Criminals know that their intended victims won't have guns and can barely defend themselves. It makes them brazen. When criminals know their targets can defend themselves, they think twice. This keeps violence in check.

Criminals, the mentally ill and anyone with malicious intent can get their hands on guns. They do not care about the law. What you need to be reminded of is the importance of your constituents' safety. You will be handicapping their ability to protect themselves, their loved ones and their neighbors by going full tilt against their right to bare arms and protect themselves. WE WILL NOT FORGET THIS!

The mass shooting recently that have everyone up in arms are not about gun control, they are about mental health issues. How many billions of weapons are owned by Americans? And how many of them are being used in mass shooting? The numbers speak for themselves. It's not the guns, it's the mentally ill and criminals that cause the majority of gun related violence/injuries.

You can NOT legislate morality. Stop this foolishness. We The People of Pima County and Arizona will NOT stand for it!

The Second Amendment to the United States Bill of Rights protects an individual's right to possess firearms, and that right is protected at the state and local level through selective incorporation of the Fourteenth Amendment.

Owning a firearm is not a public health issue. Rather, public health is the science and art of preventing disease, prolonging life, and promoting health through the organized efforts of society. The CDC has NO legal authority to dictate ANYTHING related to firearms! Stop your overreaching and let the second amendments and A.R.S § 13-3108 stand!!!!

Standing with the second amendment, Terra Radliff

***SHALL NOT BE INFRINGED!***

The CDC is completely spinning data to lie about how guns affect people's health. Look at the actual numbers. How many times is a gun used to stop a crime? Firearms are not a "serious health problem." Not prosecuting criminals is the problem. Not admitting what a crime is, is the problem. Law abiding citizens owning guns is not a health problem, and our guns are not your concern. If you need to take someone's guns away, start with the criminals.

I do not support BOS Rex Scott's outrageous attempt to infringe on my right to protect myself. Stop promoting actions from the county government that are beyond your legislative authority. If you want to stop firearm crime, start locking up criminals.

Law abiding citizens are not the problem. Quit trying to take away our guns.

BOS Rex Scott, what you are proposing is so offensive. Why do you think the CDC should have any authority in this matter? You are not an effective representative of our district and you need to step down.

Sincerely,

Elizabeth McGwire

Comment by Sharon Fickes for Board of Supervisors Meeting 08-02-22  
I am a legal resident of Pima County, contact [REDACTED]

**ADDENDUM 1 Item 2 Resolution 44 Repeal of A.R.S. Sec 13-3108 Restrictions on Guns Plus**

I know the Board of Supervisors have been busy but maybe you should read the U.S. Constitution, Second Amendment of the Bill of Rights, The Right to Keep and Bear Arms. Your assumption that you can make laws and rules that all people will respect and abide by is not valid. Only the law-abiding will obey the rules and that leaves us with people who hold laws in disrespect for any reason. Do you really think the bad guys will stop and think ooh no I can't do this because Pima County said NO? Who are you kidding. We need a County Prosecutor willing to prosecute the bad guys and Judges who will enforce the rules, restrictions, fines and penalties in place. Fund our police force and allow them to protect Pima County. You reference your broad authority to protect the public health and safety of Pima County's inhabitants. When are you going to do something about our southern border. You are part of the problem allowing and funding illegals to violate Pima County. You have plenty of money and now you even admit it is your authority. So go do something about our border issues. **VOTE NO**

God Bless America

**Subject:** Addendum Item #2: Repeal of A.R.S. § 13-3108 RESOLUTION NO. 2022 – 44 - Firearms regulated by state

**CAUTION:** This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Did you forget about the Second Amendment right to bear arms in the Bill of Rights? The Supreme Court Second Amendment cases that relate to an individual's right to firearm ownership held that:

- The Second Amendment protects an individual right to possess firearms for the purpose of self-defense, unrelated to military or militia activity.
- Second Amendment rights are protected at the state and local levels (through "selective incorporation" of the Fourteenth Amendment).

The CDC is nothing more than a vaccine patent agency and has no authority over the second amendment rights to bear arms. Owning a firearm is not a public health issue. Rather, public health is the science and art of preventing disease, prolonging life, and promoting health through the organized efforts of society.

The only thing standing between communism and freedom for American citizens is the Second Amendment.

**Comments for BOS meeting August 2, 2022**

**Please include these comments on the official agenda addendum for the August 2, 2022 Pima County BOS meeting. I am a United States citizen and taxpayer, a resident of Pima County, in BOS District 2.**

---

**Addendum Item #2** - RESOLUTION NO. 2022 - 44, of the Board of Supervisors, calling for the repeal of A.R.S. Section 3108 and requesting from the Pima County Attorney's Office options to challenge its legality and/or constitutionality. (District 1).

**I urge the entire BOS to reject this resolution.**

Please remember that the Second Amendment of the Bill of Rights of the United States Constitution gives the people the right to keep and bear arms. The Tenth Amendment states that powers not granted to the United States are reserved to the States or to the people. The state of Arizona has already spoken through ARS 3108. It is a good and clear law, no need for Pima County BOS to meddle.

---

**Addendum Item #4** - *Maximus Health Services, Inc., Amendment No. 4, to provide for Contact Tracers, extend contract term to 1/5/23 and amend contractual language, Health Department Ops Fund, contract amount \$5,000,000.00 (MA-PO-20-226) Health.*

**I urge the entire BOS to reject this contract.**

The stated Public Benefit of the contract is the "decreased spread of Covid 19". Various metrics to evaluate performance are referenced, however, there are no reports of the results on these metrics within the Amendment. Where is the proof of the "decreased spread of Covid 19"? The first contract set a limit of \$10M and now the limit is requested to be nearly three times the original limit, at \$28M! As a taxpayer, I believe we are not getting our money's worth.

Covid is no where near the killer it was before everyone had access to vaccines and treatments. Many experts are now saying just about everyone has had or will have Covid, even multiple times. So what is the point in spending so much time and money for continued contact tracing?

Perhaps the efforts of contact tracing Covid 19 cases could be re-imagined for contact tracing for the fentanyl supplies that are flooding across our border and killing our people in ever increasing numbers.

Thank you for your consideration of my comments.

**Subject:** Citizen rights to self protection

**CAUTION:** This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

The citizens of Pima County expect you to oversee the management of county affairs in an efficient and cost effective manner not to include efforts to prevent every conceivable harm that may arise. You are not my babysitter; I have dispensed with that requirement long, long ago.

The Pima Board of Supervisors has for too long wasted time and effort, not to mention taxpayer dollars trying to micro-manage we, the people who value liberty and freedom above oppression. Legislation should simply facilitate orderly services for a civil society rather than manipulation of said society. Too many of our citizens have become too reliant on the "government" to take care of us.

Please re-orient your efforts toward providing only essential services and spending our taxpayer dollars wisely and judiciously. Your future employment depends on it.

Sincerely,

Anne Loftfield  
Arizona native octogenarian

RE Addendum Item #2: Repeal of A.R.S. § 13-3108 RESOLUTION NO. 2022 – 44 –  
Firearms regulated by state

Greetings,

Please add my comments into record. Once again you are secretly discussing with your lawyers how to repeal our lawful guns rights, chipping away on our Constitutional rights!

In countries that have voluntarily given up their weapons, they soon regretted it, descending into tyranny aka Communism without any recourse after the fact. People know that Socialist Democrats are indeed rabid gun grabbing communists. We will NOT allow you to chip away and take away lawfully owned weapons for self-defense.

Are you aware that more people get killed with hammers or in a car accidents than with guns? Are you also wanting to ban hammers or cars? It's the person that holds the gun, hammer or drives the car that should be held accountable. Do not infringe on my Rights! The only equalizer for a petite woman such as I am, is a weapon for self-defense. You will regret this obvious political stunt and power grab.

Also, owning a firearm is not a public health issue. The CDC has no say about this! They have lost credibility when they lied for the WHO. Public Health is supposed to prevent diseases and promoting health! The CDC, FDA and NIH have colluded with the Lunatic Left, WHO, UN and WEF to topple this country in their obvious quest to take over, control the population and run US into the ground.

You shall not infringe on Constitutional Rights of the people to own and bear arms in order to defend themselves against tyrants such as you and your party, the Socialist Cancerous Communists. If you don't love our country as is, you have the option to leave for China or Russia. There the people have no more rights, nor weapons to defend themselves. Have a nice day!
