Subject: Action for Board Agenda Sept 6

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Please tell each supervisor that we want the county to stop trying to bypass state legislation that protects Pima County residents, including county employees, from COVID-19 vaccine mandates. Ask them to stop the disincentives they currently have in place for all the county employees that made a personal health decision to not take the COVID-19 vaccines. Let them know that if this Board does not take action to stop all COVID-19 mandates and disincentives for its employees, we will contact the Arizona Attorney General (also email: AGInfo@azag.gov) and ask him to file a lawsuit against Pima County like the lawsuit the Attorney General filed against the City of Tucson.

Let freedom of choice be protected in this state and in America.

Thank you,
Susan Knittel
13597 E Fire Dancer Rd, Vail AZ

My name is Ranee Eldridge. I live in McNeal AZ. I am writing today to encourage you to stop all vaccine mandate in Pima County and schools. Multiple report have been release in the last 2 years stating SICENIFIC FACTS that not only is this mRNA gene theory not effective against covid, but ARE deadly. The healthcare of our children is the parents responsibility, not the governments.

Thank you for your time and please feel free to contact me at [REDACTED] or [REDACTED].

Subject: 9/6/2022 Pima BOS meeting - Addendum 1, 2. COVID-19 Employee Mandates

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Please add my comment to the 9/6/2022 Pima BOS meeting

Re Addendum 1, 2. COVID-19 Employee Mandates

Discussion/Direction/Action regarding the current COVID-19 vaccination mandates for Pima County employees.

Also, it's time to eliminate your March 12, 2022 masking requirements. Ridiculous!

Why are you still talking about this? Is it because you still have grant monies to be dispersed until 2023?

Have you not learned from the disaster caused by these dangerous shots? How many people must die of clots,

myocarditis, and other crippling diseases before you relent?

No thanks to Matt Heinz and his Political Science, you should be aware by now that COVID-19 shots are more

dangerous than no shots at all. A quick search in the VAERS data bank reveals more people have died from the

vaccine shots than world population in the entire vaccination history combined. We have witnessed that double

and quadruple vaccinated like Dr. Fauci and Joe Biden, have not been spared from the CCP-induced virus.

This is not a true vaccine of the past, rather a gene manipulating therapy. These shots are useless at best, dangerous at worst.

SEP 06 22 AM 07:58 PM CLK OF BD

Also, there are no human trials, unless you count the entire world population as a clinical trial. We only know

of some limited mouse trials. Please spare humanity from these poisonous injections.

Suspended all vaccine harassments at once.

The unvaccinated are indeed better off, having acquired immunity against current and future virus variants.

And, due to the amount of people who have recovered from COVID-19 variants, vaccinated or not, we should

have reached herd immunity by now.

Pima county's discrimination against current and former employees is retaliatory. Stop it immediately or deal

with the Governor and Attorney General's lawsuit against you.

Therefore, instead of discriminating against unvaccinated employees by assessing them with higher insurance penalties,

you should instead consider rewarding them with health bonuses!

Thank you.
