Hello Pima County BOS,

I would like instructions on how to view this meeting remotely.

We The People are not going to simply allow another stolen election.

There are many irregularities in the November 8, 2022 election; not just in Maricopa county either.

It CANNOT be certified. We need a NEW election.

Thank you,

Kae Andersen

To :Pima Board of Supervisors:

Georgia Supreme Court confirmed voters have standing to sue election officials who violate law therefore Arizona also has standing.

We are being unjustly denied our equal protection and due process rights to ensure only legal votes were counted in the 2022 election (and previous elections). You have the legal duty to follow the law; a local government owes that legal duty to its citizens, residents, taxpayers, or voters, (ie; community stakeholders) and the violation of that legal duty constitutes an injury that our case law has recognized as conferring standing to those community stakeholders, even if the plaintiff suffers no individualized injury.

The adjudication process is fraudulent. Arizona still has roughly 300,000 ballots unadjudicated from the 2022 primary election which is a huge issue with the validation of that election as well as this election.

It was just proven that the World Economic Forum partnered with FTX who laundered money for the Democratic party by means of a Warfund through their exchange and then converted it to cash and sent it back as donations. This is election interference by fraud.

Mail-In ballots were stopped off at Runbeck Printing to scan the ballot envelopes without any Observers before being sent to the county.

The machines are not certified therefore unlawful and unconstitutional to be used. You have the power to sign off on the cast vote report. The only way to sign off is if you have the highest number of legal votes to send it off to the state to determine who is elected. You currently do not have legal votes and therefore cannot sign off on the cast vote report. If you do, you will be in violation of our 14 the amendment which is a criminal act and therefore, we will do everything in our power to prosecute you to the fullest extent of the law.

Respectfully,

Rob Weitzel - Tucson, AZ

Hello BOS,

Considering all the maladministration that happened in our state, particularly in Maricopa county, I'm requesting that the attached be read.

NOV 18 2022 08:44 PM CLK OF ED

A **redo election**, also known as a **revote** or **special election remedy**, is the process of voiding election results and holding a new election.^[1] The specific reasons for calling a redo election vary, but might include deliberate efforts to obscure the results such as [electoral fraud](#) or mistakes like a broken voting machine.

States or courts may call a redo election in the following cases. This list was adapted from Professor Steven Huefner's "Remedying Election Wrongs" 📄 in the *Harvard Journal on Legislation*.^[1]

- **Electoral fraud:** Electoral fraud is a deliberate, illegal interference with the process of an election. It can take different forms, including in-person voter fraud and fraudulent activity involving absentee/mail-in ballots.
- **Mistakes:** Mistakes encompass accidents that affect the outcome of an election by potentially disenfranchising voters. Types of mistakes range from mechanical errors such as a malfunctioning voting machine to election officials accidentally allowing ineligible individuals to vote. Other types of mistakes might include a polling place opening hours late, ballots that do not include a candidate's name, or errors in voting instructions that result in a large number of invalid ballots.

Thank you,
Kae Andersen
