Professional Pipe Services, Inc.

***Project Title/Description:**

Conveyance System Closed Circuit Television Inspection Services

***Purpose:**

Amendment: Contract No. CT-WW-21-396, Amendment No. Two (2). This amendment increases the contract by \$91,650.00 for a cumulative not-to-exceed amount of \$3,208,350.00 for the current term and increases the annual award amount from \$1,558,350.00 to \$1,650,000.00 for any subsequent renewal terms due to an increase need for these services, and adds the Forced Labor of Ethnic Uyghurs clause.

Administering Department: Regional Wastewater Reclamation.

***Procurement Method:**

Pursuant to Invitation for Bid No. IFB-PO-2100079, on 05/18/21, the Board of Supervisors awarded a contract for this project in the amount of \$1,558,350.00 for a contract term of 07/01/22 to 06/30/22.

Amendment No. One (1) was approved by the Procurement Director, on 06/15/22, to extend the term of the contract to 6/30/2023 and add the annual award amount of \$1,558,350.00 for a cumulative not-to-exceed amount of \$3,116,700.00.

Attachment: Amendment No. Two (2).

***Program Goals/Predicted Outcomes:**

The program goal for this contract is to achieve the ADEQ mandated sanitary sewer pipeline inspection and assessment requirements as defined in the PCRWRD CMOM plan. Achieving compliance with the ADEQ mandated system wide inspection and assessment program goal, is the projected outcome.

***Public Benefit:**

Performance of CCTV inspection and assessment under this contract, enables a real benefit to the community by promoting active awareness of infrastructure condition thus enabling preemptive and controlled response measures, as opposed to conducting reactive and often costly response to system failures.

***Metrics Available to Measure Performance:**

Metrics available for performance measurement are obtained through the continuous monitoring of CCTV deliverables which are meticulously inspected by in-house staff during pipeline assessment. Tabulation and comparison with production goal milestones provides an ongoing and continuous status of the work. By nature of this ongoing and continuous status check, quality controls can be implemented and production quotas can be modified to ensure successful accomplishment of all program goals is achieved.

***Retroactive:**

No.
