Hello!

I am a Life member of the Tucson Conquistadores, and currently the VP of the First Tee of Tucson, and I am 100% in favor of the Board of Supervisors support of the Mosaic Quarter. Our community severely lacks sports complexes, and amenities, for Youth Sports and, IMO, the Mosaic Quarter would fill a large void for Tucson! Please consider this email as strong local support of the project!

Dear Board of Supervisors and County Administrator Jan Leshner,

I urge you to approve the final plan for the Mosaic tomorrow. This is an important economic driver for our community as well as opportunity to expand youth sports in Pima County.

I am a girl hockey mom! I started my daughter in roller hockey because at the time, the availability of ice in Tucson was difficult for the Junior Roadrunners to schedule. Practice times were provided at the last minute and often late at night. However, after two years of roller she wanted to switch to ice and we did with the caveat we were not driving to Phoenix to be on a team there. She played for the Junior Roadrunners for 3 seasons and was one of two girls who played on the varsity team for two years. At this time, they are the only two girls who have played at that level in Tucson.

Last year, she decided she wanted to play more competitively, and she went to the Kachinas in Phoenix. They are the only AAA girls program and are part of the Coyotes organization. All practices are in Phoenix and we drive up at least 3-days a week for her to practice and this does not include any games. I share this story because it is the same one shared by many ice parents in Tucson who are able to afford both the financial and time commitment to drive to Phoenix to give their kids this opportunity. There are many other players who are just as competitive of players but can't play at a higher level because of the commitment. Having dedicated ice in Tucson will be a game changer. While it seems there are not many hockey players in Tucson, there are and I believe this sport will explode.

As for my daughter, she has committed to the University of Arizona Women's hockey team and will be the first "home town girl" to play for the team!

Beyond the ice, the other athletic opportunities with the Field House will drive increased tourism for the region as tournaments start to pop up for the different sports bringing families from all over to stay and compete.

Youth athletics are game changer for kids. I firmly believe kids who are involved in sport will stay out of trouble. Sports provide guidance, discipline and self-motivation for kids. Skills we can't teach.

In addition, this project will provide opportunities for low-income youth to learn and play sports they otherwise might not have the opportunity to play. There are also the jobs that will follow, providing economic opportunities for the surrounding neighborhoods.

While my story is the same as many other hockey parents, I hope it provides a solid foundation for why this project is so important to Pima County.

RM

Thanks,

Molly

To whom it may concern:

I'm writing to you today in support of the Mosaic Quarter Ice hockey complex. I moved to Tucson in 2020 from the state of Connecticut for a job opportunity. I've met a lot of people out here who have moved from cold weather states and have the same love for hockey as myself. As the restrictions during the pandemic eased up, I signed up for the Tucson Adult Hockey League and have been playing with them ever since. Over the last few years, I've found that the vast majority of the players I've met in the league have at least one child enrolled in youth hockey.

Growing up playing hockey on the east coast on multiple travel teams, I'm all too familiar with the dedication and commitment required from season to season. Everyone I know here with kids playing in a youth league have to travel to the Phoenix area at least 3 times a week for practices and games. Even the U of A athletes have to travel in the off season for ice time. Bringing a rink back to Tucson, especially after the housing boom the last few years in which many cold state residents moved out here, would benefit the city and the community as well as the college, collectively.

Between the "beer league" players, the college and high school and youth leagues games and practices, a new facility would invigorate an already over abundant hockey community here in Tucson. Having a state of the art facility would also attract outside organizations to bring their teams and tournaments here. I recall fond memories of my youth teams traveling to Newport, Vermont annually for a tournament at their new arena. Over a decade later, my youngest brother and his organization travelled to the same rink for their regional tournaments. The Mosaic Quarter project would bring those long term opportunities to the area.

The love for the game has grown exponentially since the last arena shut down in 2007. The hockey community is rooting for this project's success and supports it every step of the way. With a local rink, hundreds of kids would have an opportunity to grow their love for the game, cementing it's foundation as a long standing establishment in the community for generations to come. The job opportunities to support it, in addition to the TCC savings with no longer having to maintain an ice surface, would also aid the city. With a new rink, the Roadrunners, U of A, adult and youth leagues would all have a new place to call home.

We are a passionate community and truly, deeply hope that this project moves forward as soon as possible. We are eager to see ground breaking and construction begin so that Tucson, not Phoenix, can be the home of hockey here in Arizona.

Regards,

Gregg Donahue

To Whom It May Concern,

I encourage you to consider the Mosaic Quarter Project. As a Native Tucsonan, I grew up with very few options in my rural community. To have access to several sporting events and athletic activities is a game changer for kids. Let's give our kids a healthy outlet and bring opportunity to our community.

Thank you,
Kimberly Rodriguez

Hello,

I wanted to write to the Pima County Board of Supervisors in support of the Mosaic Quarter project. As a parent of two kids who play hockey, this project is incredibly exciting. As we now have to jostle for ice with many organizations in Tucson, it makes it difficult to grow my kids skills. More consistent ice time will be incredibly helpful.

As well, this project opens a lot more opportunities for kids and adults looking to play all sorts of sports. As a person who coached soccer and was on a club board, space in Tucson is at a premium for any sport. Providing more space and high end facilities will greatly benefit this town. With the estimated \$12.5 billion impact on our community, I can't imagine how we can say no to this.

Finally, I know that the Mosaic Quarter also has a foundation that will provide access to a program within their offerings for approximately 8,600 children. This is amazing considering the ever increasing costs of youth sports.

Please, support this project.

Best,

Joe Embacher
Pima County Resident

Hi,

As a constituent of Pima county, I am writing to urge you to support the Mosaic Quarter project. My family and I are ice hockey enthusiasts and we are excited about the prospect of having an ice rink here in the area. I believe the project will enable new revenue streams for the community, and keep money here that would normally be spent in the Phoenix metro (e.g. hockey tournaments, stick time, etc).

Sincerely,

Michael A. Milazzo

Good Morning,

I am writing this email to you asking that this Mosaic Project be completed as soon as possible. My daughter plays hockey. She loves it and is good at it. She has missed one entire month of hockey practice because she shares the ice rink and her practice is not the top of the priority line and that sucks. I would also like to remind everyone that this could be a huge money maker for Tucson. The fun options are like nothing else in Tucson. This cannot go wrong, more jobs, more money, more fun, and more hockey practice.

Thank you for your time,
Lyn Van Buskirk.

Hello,

My name is David Austin, I am a resident of Pima County and a member of the Tucson Adult Hockey League. I am writing to express my support for the Mosaic Quarter project that is to be voted on this Tuesday, March 5th. I believe that the value this facility would provide for the university, the youth programs, and our broader community here in Pima County would be immense, and I sincerely hope that the Board will vote in favor of the project. Thank you!

Kind regards,
David Austin

Dear Supervisors,

My name is Brett Wrons. I was born in Tucson and currently reside in Marana. I have been playing ice hockey since I was in my late 20s, and I urge you to approve the project to build a new ice rink in Tucson. Over the last 25 years, I have seen the population of Tucson grow almost as quickly as the population of hockey players. We currently use one sheet of ice at the TCC and it is simply insufficient for the number of people who want to use the facility. A multi-sheet facility will make Tucson more desirable to residents and visitors.

Given the epidemic of obesity in the United States, giving our local population another athletic activity, whether it's hockey, figure skating or recreational skating makes a lot of sense. I would note that Phoenix has about 20 sheets of ice in facilities that are financially successful. That should serve as a good model for Tucson. Please consider supporting this project.

Respectfully,

Brett Wrons

Development: A Milestone for Tucson Sports and Community

I hope this email finds you well. As a passionate advocate for the enrichment of our community and the advancement of sports in Tucson, I am writing to express my wholehearted support for the Mosaic Quarter project. This initiative presents great opportunity to elevate our local sports landscape while fostering substantial economic benefits for Pima County and beyond.

The Mosaic Quarter is poised to be a transformative athletics and entertainment-focused lifestyle district, particularly designed to cater to a wide array of activities and events. The inclusion of the MQ Iceplex and MQ Field House, the project promises to offer indoor sports and recreational facilities. The prospect of housing three ice rinks, and many other courts not only highlights the diversity of the project but also its potential to become a central hub for athletes and sports enthusiasts across Southern Arizona.

What excites me most about the Mosaic Quarter is its financial model and the economic impact it will have on our community. The project is a testament to innovative and sustainable development, being 100% privately financed with an investment of \$400 million. This approach not only alleviates the financial burden on County funds but also turns the project into a lucrative venture for the County, expecting to earn over \$673 million from the lease of its land. This strategic investment underscores the project's viability and its promise of a \$12.5 billion impact on our community, underscoring significant economic benefits that include job creation, tourism, and the enhancement of local businesses.

I advocate for the approval of the lease agreement on Tuesday, March 5th! Supporting this project is not merely an investment in a physical infrastructure but a profound commitment to the vitality and future prosperity of our community.

Thank you for your time and consideration. I am looking forward to seeing our community thrive through initiatives like the Mosaic Quarter.

Warm regards,

Daniel Lopez

Dear Pima County Board of Supervisors,

I am writing to express my enthusiastic support for the Mosaic Quarter project, which promises to be a transformative addition to our community. As a resident and business owner in Pima County, I believe that initiatives like Mosaic Quarter not only enhance our quality of life but also contribute significantly to our local economy and social well-being.

This project demonstrates a mutually beneficial partnership between the private sector and the County, where economic gains can be realized without burdening taxpayers. The infusion of economic activity will create jobs, stimulate local businesses, and generate revenue for essential public services. Moreover, the project aligns with our community's values by prioritizing accessibility and inclusion. This project stands to be a win-win for all parties involved including the County, patrons of the project, local businesses, and those who live here.

The Mosaic Foundation is icing on the cake. By ensuring that underserved children have access to Mosaic Quarter programs, regardless of economic standing, the project demonstrates a commitment to equity and social responsibility. The Foundation underscores Mosaic Quarter's commitment to making a positive difference in the lives of our community's youth.

In conclusion, I urge the County to fully support the Mosaic Quarter project. Not only does it promise substantial economic benefits, but it also aligns with our community's values of accessibility, inclusivity, and social responsibility. By endorsing this project, the County has the opportunity to catalyze positive change and ensure a vibrant future for generations to come.

Thank you for considering my input.

Sincerely,
Lani Baker

Dear Pima County Supervisors et al:

I am writing to register my support for this long-anticipated project you are scheduled for final decision-making on Tuesday.

I am a lifelong citizen of Pima County, and mother of three and grandmother of two living here. My daughter and son-in-law travel several times per week on I-10 to Phoenix to support their son's club ice hockey practices, games and tournaments. We anxiously await the chance for him to play in his hometown. My granddaughter is a newborn and her parents are fully vested in this community as well.

My son and his girlfriend play league soccer and are excited about playing in another indoor venue, particularly during our blazing summers.

Please vote YES to support the Mosaic Quarter our community needs to move forward.

Thank you.

Hello -

I am writing to urge your support for final approval of the Mosaic Project. As a Tucson native who has played ice hockey here for over 40 years, I cannot overstate my belief that this will be an extremely meaningful step forward for the area.

Over my lifetime, Tucson has taken many steps backwards when it comes to sports facilities. The Mosaic Project will provide resources that our citizens deserve and have been lacking. We need facilities like this to strengthen our community bonds, provide business income and promote healthy activities.

Please vote yes for the Mosaic Project to show our community that we care, and to continue Tucson's development as a premier destination in the Southwest.

Sincerely,
Kevin Greenwood

Please approve the lease of land to Mosaic Quarter to build their athletic/entertainment district. Tucson, Pima County, and the surrounding communities will benefit tremendously from this project. Having indoor sports facilities would provide state of the art amenities in our community for youth and adults. The Jr. Roadrunners Youth Hockey and the U of A Hockey team would finally have year around ice. It seems to me this is a win-win project since there is no cost to the county. Please stop the stalling and lease this property ASAP! Thank you,

Frank Torres

Dear Board of Supervisors,

Please quit stalling and approve the lease of land to Mosaic Quarter to begin building their indoor sports and recreation facility. Tucson is behind times in providing this type of facility for its residents and surrounding communities! Not only will this create new jobs, but the organization will provide grants for underserved children.

Tucson has not had a public ice rink in years, and this new facility will provide 3! The U of A needs permanent ice for their hockey team, as well as the Junior Roadrunners Youth Hockey League. The ice would also provide lessons for skating and hockey. Let's open up some new opportunities for the youth of our community and surrounding areas! Children need to get off their phones and tablets and get some physical activity. Please support the Mosaic Quarter in providing these services to the community! Vote "yes" today!

Respectfully,

Wendy Torres

Good afternoon,

I am writing to offer our support for the development in the I-10 Kino Parkway area for the hockey rink and other associated development in the area. I think in order for Tucson to be considered an upper echelon city all major sports need to be represented in our area, and hockey is definitely a major sport. The leading goal scorer in the NHL this year, Austin Matthews, is a product of Phoenix and there is no reason Tucson can't produce the next NHL superstar. This project, along with the development of the Marketplace at the Bridges will be a showpiece for guests arriving in Tucson as they make their way from the airport to I-10. This project is a must!!!

Thanks,
Jay Moulton

Please vote yes for the lease of the land at kino for the Mosaic Quarter iceplex. This is an exciting opportunity for the children and adults of sports in Tucson. I understand there will also be a grant provided by the Iceplex group to provide money to under privileged children and adults to be able to play sports there as well. Not to mention the millions pumped into the Pima county community with jobs and construction! Thank you for your support!

Good afternoon,

My name is Les and my son Gibson plays ice hockey. Having the Mosaic quarter would be very beneficial for not only him but his team and the local community. Having the arena built gives the kids a place to skate and have more available team ice time. which in turn helps build not only they're skills but their confidence which helps then in their future. This would be great for the community to bring ice time to those who never got to ice skate before but to also give kids and adults an alternative place to utilize after work, school and over summer. We hope to see this get passed so we all enjoy it

thank you,

-les

To Whom It May Concern,

My name is John Bauschatz, and I'm a volunteer coach for the Tucson Junior Roadrunners' Learn to Skate program. I'm writing in support of the Mosaic Quarter project. I'm one of many long-suffering Tucsonans who have pined for years for the creation of a dedicated year-round ice rink, having moved here in 2007 shortly after the last one (called the IcePlex, maybe?) closed. Since that closure, various community organizations have patched together their programs via a combination of TCC ice and trips further north to secure playing surfaces. It has always been time-consuming and (often) frustrating to do so, but we have made it work.

Now, though, the promise of multiple sheets of ice—not to mention a number of other playing surfaces—offers a fantastic opportunity to grow skating and hockey in southern AZ. It also offers the people who run the programs mentioned above a flexibility and convenience we haven't had in years (if ever!). I urge you to give careful consideration to this project, as it will have a positive impact on the lives of (literally!) thousands of southern Airzonans. (It will also make *me personally* very happy, if there's a chance I'll be able to go to public skating on the regular like I did when I was a kid growing up in Maine. But *that's just me...* ;))

Thanks for your time,

John

I am writing to voice my support for the Mosaic Project.

Tucson is an up and coming city as we can already see in the improvements downtown. It is important to continue this improvement by adding a facility like the Mosaic Project.

Our children need facilities like this to keep them active and engaged and off the streets. There is a high level of interest from both children and adults for these types of activities, and having an outlet like this will add excitement and give families more options of things to do in the city.

Let's keep improving our city!

To whom it may concern,

I am writing this email to express my support for the building of the Mosaic Quarter Iceplex.

When I first heard that Tucson would be getting its own ice rink, I was beyond ecstatic. Not only will this be a positive economic impact for the city, but it would mean the world to the large hockey (and other ice sports) community here in Tucson.

Between the adult leagues, the Junior Road Runners, the University of Arizona and the AHL Roadrunners, there is simply not enough ice here in Tucson. It is also a huge disadvantage that the TCC only has seasonal ice.

On a personal level, my daughter plays competitive hockey and I have to drive to Phoenix FOUR times a week in order for her to play. That is not including all the summer camps that are only available in Phoenix. My daughter has already had colleges inquire about her so I try to give her as much opportunity as I can so that she can follow her dream of playing in college. If there was a rink in Tucson, it would provide more opportunities for her to practice or attend camps and tournaments for college exposure.

Looking on a more general level, building the rink here is a win-win for everyone. Economically it would create jobs and bring in revenue through events held at the rink. It would provide an official home for our UA Wildcats including the NEW women's team that I hope my daughter will get to play for. It would open the door for more high school hockey teams. It would bring tournaments, camps, lessons and public skates to the area. It would mean the WORLD to a great deal of people and it would put Tucson on the map as a serious hockey town.

Please help move this project forward and help Tucson grow.

Thank you for your time and consideration,

Tanya Solana

To Whom It May Concern,

I hope this email finds you well. My name is Daniel Lusher, and I am the Head Coach of the Tucson High School Roadrunners ice hockey program. I am going on 7 years of experience leading the High School varsity level team, and 13 years of total experience coaching different age levels in the Tucson ice hockey community as a whole. My hope is to give you, the reader, a quick look into the world of ice hockey in Tucson, specifically at the amateur level. And by that, I hope to impress upon you how much of a boon having the Mosaic Quarter in Tucson would be for the community.

Every Tuesday and Thursday at 8:45pm-9:45pm, we have close to 40 high school students and families show up at the Tucson Convention Center for *irregularly* scheduled practices. There are weeks where kids attempting to play in a competitive league must go without ice for a variety of reasons out of our control, such as the Gem Show, the rodeo, even one year a Janet Jackson concert kicked us out. But when we do have ice, the kids always show up. On the weekends, we usually travel to Phoenix for a majority of the 20 regular season games we play (only 4 out of 20 were held in Tucson this year). I see 40 kids come to the rink, but every one shows up for reasons entirely their own. However, they all do share a common trait – they love the game of ice hockey.

That love of hockey is contagious. It can take over a town in a few short years. Here in Tucson, that has already been seen especially with the arrival of the AHL Roadrunners. The first High School season for our organization was in 2018-2019, and we boasted a total high school athlete roster of 16 players. 6 years later, and despite the hardships of COVID where we had no ice in Tucson for just under a full year, we have nearly 250% growth in high school-aged athletes alone. That's not counting our under-14 ages that are a different section of our organization (which boasts over 200 total players).

A famous quote from Field of Dreams comes to mind: "If you build it, he will come." However for Tucson, there's one small difference. ***We're already here.*** Ice hockey might be Tucson's best kept secret, but the hockey community at large is ready for it not to be a secret anymore. From the youngest players just learning to skate in the Coyote's-supported Little Howler's program, through the 40 young adults that I coach, and up through the AHL, Tucson is ready for the growth and consistency that would be available should the Mosaic Quarter be approved. I'm very hopeful that you will make the right choice and approve the go-ahead for building the Mosaic Quarter in its entirety in this final vote.

There's always a seat in the stands during our games for proud hockey supporters, and we'd love to see you next season. Amateur hockey in Tucson is passionate, thrilling, community-driven, and ready to be shared. Just remember to bring a blanket.

Thank you for your time and please feel free to contact me should you have any questions about our high school program.

Best Regards,
Daniel Lusher
Head Coach – Tucson High School Roadrunners

As a resident of Pima County, I am writing this email in support of a full time ice facility as a part of the proposed sports facility in Pima County. We have an amazing opportunity to create more of a community with this project. With one adult child that was very active with sports, I can see what good this did for him now that he is an adult. He gives back with his time to youth and mens' leagues for baseball. His love of sports was developed as a youth and it is heart-warming to see him give back.

I am also the mother of two youth children and I see what being a part of the sports community does for them too. When sports are made available and easy for kids to take part in, they feel like they belong and they learn so much.

My husband, a Firefighter, with Northwest Fire District, plays ice hockey which is important for his physical fitness and mental health with a fun stress relieving activity. For ice time, he often plays at 10 pm. It would be nice for him to not have to stay up so late to play.

Please consider the needs of our community and make this happen.

Michelle Schloss

I am writing to urge you to vote to approve the lease of the land for the Mosaic Quarter development. I have lived in Tucson since 1996, and I have never been so embarrassed by the lack of athletic facilities in this city. It is absolutely appalling that a city the size of Tucson does not have an ice rink available to the general public, and the best we have is one (the TCC) where the management makes it abundantly clear that they do not want the residents using "their" precious ice. El Paso has an ice rink. Santa Fe, with far fewer residents, has a beautiful community center with a wonder ice rink. Tucson has ... what do we have again? How long were the lines when Tucson first put up an outdoor rink behind Hotel Congress a few years ago? That's right, it was over 4 hours that people stood there for a chance to skate. Do you not believe the interest in skating would grow if we had a welcoming facility? And they continue to fill the outdoor rink each year. You have the chance to give the residents of this city a proper facility to participate in sports. This city is basketball-crazy, but where can they play organized ball? This city is filled with college graduates who loved to play volleyball, but now have nowhere to play. I work to bring engineers to Raytheon for high paying jobs, but most candidates turn down their offers because Tucson has little to offer them. And you now have the chance to give people a reason to come to Tucson to PAY to use this wonderful new proposed facility and to tell others about their amazing experience traveling to this city and competing in this city (you know, like they do when they travel to Las Vegas for tournaments). Do something to give the residents of Tucson a facility they deserve, and non-residents a reason to come here with all of their dollars pumping into Tucson's economy.

Hello

My name is Jonathan Torres and I am writing in strong support for the Mosaic Iceplex to move forward and be built soon as possible. Not only is it extremely profitable to Tucson and the surrounding area but it's beneficial to our local , state and out of state hockey and figure skating youth. With the ridiculous 110+ heat most of summer here in Tucson it makes an easy choice to cool off and try skating , and or ice sports.

I can personally speak for my Tucson Junior Roadrunner 12u hockey player that we could really use this ice , we normally travel to Phoenix , Glendale, Tempe, Mesa and Peoria for much needed ice time to grow his skills and chase his dream of travel hockey , and being a U of A Wildcat hockey player , we easily put 1,000 miles a week all year long for travel and only to pump money into our neighbors economy rather than our own. Time to step up and bring this opportunity to life !

Thank you for your time and our community looks forward to your passing this project and getting to work ! Let's go Tucson !

Dedicated hockey Dad Jon and Jr Roadrunner 12u Defenseman #42 Grayson Torres

I would just like you to know that myself and my wife fully support the Mosaic Quarter Project to hopefully be built in Pima County. We have resided in Pima County for 20 years now. If you have seen the interest from the public when the City of Tucson installed a public skating rink in front of TCC the last two years, you'll notice the interest the general public has for ice skating. They are lined up to participate. Then there is the Tucson Adult Hockey League (TAHL) that plays ice hockey at TCC. This is an activity that men and women enjoy. Please vote for this project to go forward so the residents of Pima County will have a sports venue they can participate in and have fun for themselves and their families. Thank you, Sincerely,

Thomas & Renee Sommerville

Hi:

I'm writing to stress the importance of the land lease going through for the Mosaic Quarter. My son has played hockey for 10 years—4 of those years with the Tucson Junior Roadrunners. He fell in love with inline hockey as there was no organized ice hockey in Tucson. Once the team at the TCC got more organized (at the time they were the Jr. Wildcats), he tried ice. After his first practice I asked him how it was. His eyes got big and he said, "It was so fast!!". He never went back to inline hockey and continued with ice.

He got to a level where he needed a different kind of coaching. The level of hockey was not available in Tucson and we started driving 3 times/week to Gilbert. He played there for 3 years. Lots of money, time on the road, traveling, and hotel rooms and food bills in Gilbert and all around. We could only dream that Tucson would someday have a bigger hockey organization and a full time rink(s) for the kids that did not have to close up each time Disney on Ice or Monster Trucks came in town.

His next level was "Juniors" and he played in South Lake Tahoe for a year.

Hockey became our life and who would have thought a native Tucsonan would fall in love just by watching his cousin play in Flagstaff. He had the best teammates, made lifelong friends, created a thousand memories, and we still have connections to our "hockey family".

What hockey did for us, ALL sports do for many kids and their families. These families live in Tucson but they also come to Tucson for tournaments. Just as we have the Ft Lowell Shootout, we can bring money to Tucson with tournaments for all sports. New hotels downtown, our great places to eat, attractions in and all around So. Arizona, these things are all here to create a great experience and support these visitors. Will some of these kids come back and go to UA? Will some of these families see how great it is here and travel on vacation to Tucson? I'm sure of it. It's a good thing for Tucson to have the exposure.

And it's an even better thing to keep kids busy, off the electronics, learning all of the wonderful lessons from sports, making friends, learning skill, etc. AND all the jobs that will be provided to kids and adults like my son. My son is not playing any more but as a young man going to PCC, he would have a perfect place to get a job at one of the rinks working with kids, helping with maintenance, or more.

I thought Mosaic Quarter was a done deal and kept wondering why there was no construction. Not sure what the concern is but from my perspective, there are so many positives including the jobs that will be created and the funds that will be brought in.

Please vote yes! for Mosaic Quarter. The UA, and the kids and families need this.

Maria DelVecchio

Hello,

My family travels to Phoenix every week 10 months out of the year for my son to play ice hockey because Tucson does not have its own dedicated rink. It seems like a no brainier to me that would approve this 100% privately funded endeavor that would not only yield Tucson a profit but also show the youth community that they are supported here.

Sincerely,

Corey Planer

Please approve the vote for the ice Plex and other facilities. I play roller hockey every single Sunday, I've been doing it the past few years after I graduated high school, unfortunately, playing at the TCC for ice is just a non-option for me. The times of games, the cost, and even the long breaks are all reasons I can't participate there.

I play roller hockey at the Tucson indoor sports center. With the new casino being built there in a few years, it's a question about how long that roller rink will be there. Without it, I won't really have an outlet to play hockey. Hockey is my number one stress relief. It's given me great bonds with many new friends and I don't know what I would do without it. My goal has been to play ice over at the new rink.

This new rink would be a great addition to Tucson, and would help bring the hockey atmosphere back, we have so many people that are living here from the Midwest and other areas that don't even have a place to ice skate. I ask for you to approve the facility so that Tucson can have a better way to play.

Hello Clerk and Board of Supervisors.
I wanted to express my strong support to approve the Mosaic Quarter Project.

As a 60+ year old there is really no option for year-round Ice Skating and Old Man Adult Hockey in Tucson.

That said, the Mosaic Quarter Project is so much more than just Hockey for Tucson. This venue is the potential to positively revitalize and increase city revenues through tourism and other business opportunities in the area. I understand most, if not all, of this project is privately funded which is a plus for this type of expansion. We need a fresh new look for the city somewhere and this affords high visibility with airport and interstate travelers. This can be a new anchor for the city and increase tourism, business, and of course what I am looking for in "Year-Round Hockey/Ice For Everyone".

Thanks for listening.
My fingers are crossed for a positive vote in favor of the Mosaic Quarter Project.

Respectfully,

Ken Ilse

To whom it may concern,
My son started ice hockey at the TCC 12 years ago. Due to the lack of consistent ice, we started taking him to Phoenix to play. We did that until he aged out last year. He currently plays with the Jr Roadrunners but they rarely have ice and makes it difficult to be competitive. It is disappointing that Tucson has not been supportive of the sport. With this facility, Tucson will finally provide the infrastructure to support hockey families and the sport in general. This endeavor is critical and I hope it is successful.

Thanks,
Sean Moran

To Whom it May Concern,

I am writing on behalf of the upcoming vote for the Mosaic Quarter Iceplex. I would strongly urge a vote in favor for construction of the Iceplex. My son is six years old and plays ice hockey. In addition, the rest of my family ice skates as well. Currently, we have very intermittent options for ice skating and playing ice hockey in Tucson. Ice time is only available in the winter for small periods of time. Through the rest of the year, we have to travel up to Phoenix to access ice. For a metro area the size of Tucson, there is a need for a year-round ice facility. There is a significant sized local community that is involved in ice sports, and the facility would get tremendous use from the community. Please consider voting in favor of building the iceplex.

Thank you,

Bradley P. Norris

To Whom It May Concern:

It has been brought to my attention that the Mosaic Quarter project will be going through another round of votes to gain approval to move forward. I am a coach and a father of an ice hockey player for the Junior Roadrunners. Over the past four plus years of participating in the Junior Roadrunners program I have seen the ebb and flow of its success. There are many factors that go into the success of that program, but one of the biggest factors is limited ice time and opportunities. Not only would the Mosaic Quarter provide additional opportunities for the ice hockey program, but it would also provide so much more for the community at large.

Since January 19th, we have had one practice, and our next skate will be March 10th. That is nearly two months with only one session on the ice. This makes it very challenging to continuity for growth. Our players are forced to find opportunities in the Phoenix market or may find other sports to participate in. Both of these can certainly lead to a bleeding effect. Once they get used to driving up to Phoenix, they may realize the quality of the programs in that market and may chose not to return the following season. If they find a different sport to be easier to participate in and is more consistent, we may never see those kids play ice hockey again. Having more ice time would allow for additional training in the form of camps and increased competition. I have seen our program bleed a lot of players to the Phoenix market for a multitude of reasons and other kids just quit the program altogether, but I strongly believe the major factor is the limited opportunities. While the TCC is a tremendous venue to play at, it, as you are already aware, prioritizes so many things over the Junior Roadrunners and justifiably so. Because of this, our kids are automatically at a disadvantage.

The loss of players to the Phoenix market has impacted the Junior Roadrunners program in that many times it is the more talented and obviously committed players and families that do so. Because of this we have difficulty putting together enough players to even create a full travel team which leads to a lack of competition for the players that do remain which stunts their growth as players and individuals. If we can't create competition for these players, they will almost certainly find other avenues like driving to Phoenix or finding other sports. While the leadership of the Junior Roadrunners has done a great job to build a competitive house league, it required taking players from different age groups to do so, but from my understanding they were only able to do that for the 12U program. The 10U and 14U have suffered from the lack of participation. New families and players that are currently registered in 10U or 14U may not want to return next year for because of this lack of participation - it continues to be a snake eating its own tail.

In addition to losing players, we are also losing talent each year. Wanting talented players remain in this market is not a selfish act, rather it raises the level of play for all players that participate. It challenges others to work harder, provides more opportunities to create additional teams, and builds confidence to newcomers that we have a legitimate program worth sticking around for. There is only so much we can do as coaches and program directors to build a program when you are limited by your opportunities to find ice time.

I remember when we first joined the Tucson Roadrunners. We drove to the TCC not really knowing what to expect, but when we rode down the escalator and saw kids changing in the open concourse I was stunned. As I mentioned before, the TCC is an amazing venue to play at; I don't think the kids even realize how lucky they are that they get to play and practice on the same ice as a high-level professional hockey team. I would have loved to have that opportunity as a child. But for all the good that creates, it doesn't make up for the fact they don't have locker rooms to change in. I'm not going to go into the boys and girls needing their privacy aspect of it, but I could certainly see that some families may be concerned about this especially as the kids get older and more mature. The kids and families that are participating don't seem to mind too much, but those are the ones that are there. What about the ones that aren't. Additionally, it just doesn't present

well when teams actually do travel to play in Tucson, which is obviously a little rare considering we can't even get enough ice times for our own games. This leads me to my next point.

I have spent some time traveling to El Paso, TX and in the New Mexico market to play a few travel games with those programs out there when the timing works out. During those times I have found that these other teams also have limited opportunities to compete and grow. They have to travel long distances, especially El Paso, to find teams to compete against. They would certainly travel to Tucson to play hockey, but because we do not have a venue to play at, we cannot host these teams or tournaments. As I stated before, we lose much of our talent to Phoenix the quality of our competition does not rise to the level of competition in Phoenix. Therefore, we are unable to compete against their house teams and are forced to build our own or travel all the way to New Mexico, as far as Los Alamos, or El Paso. These opportunities to travel to New Mexico and El Paso are great experiences for our kids, but I am confident that having our own venue would allow us to host teams from all markets, including Phoenix, and cultivate a high class, top-level program.

I have seen the plans for the Mosaic Quarter and every team in the southwest would love to play in such venue. It would allow Tucson to be an ice hockey destination as well as a place for other sports to begin such as figure skating and others that have no footprint right now. Lastly, and probably most importantly, for the people wanting to build the Mosaic Quarter, the developers of businesses in the surrounding area, and for the community at large it would generate revenue and tourism allowing the communities on the south side of Tucson to flourish. Building this state-of-the-art ice center will allow kids and families to fall in love with ice sports and develop youth programs that will propel them in the future all while-creating tourism and businesses to provide jobs and wealth for our community. Tucson deserves to have something this great.

Thank you for your time and consideration. Please vote "yes" to the Mosaic Quarter.

Sincerely,

Scott Hammer

Hello, I'm writing in full support of the Mosaic Quarter project.

I've played hockey my whole life, including in Tucson since '86, TCC, Kolb ice-o-plex, the old Ice Bowl- the town/area could support a rink(s) like this, hockey and skating are super popular (look at the attendance at the Christmas outdoor rink!). Great thing for kids, big draw for tourism- tournaments here in the winter with our weather will be huge. With all the other amenities planned, it'll be a real cultural hub.

Please vote yes!

Good Day COB,

As a business owner, lifelong Tucson resident, and an ice skater in a large family of skaters, of course we would love to see Tucson get a permanent sheet of ice.

We are a globally recognized business in ice hockey, yet live in the largest city in the United States and Canada without an ice rink!

I truly hope the benefit to Tucson will be recognized and realized many times over!

Thank you!

To whom it may concern,

I would like to express my interest in seeing this project come to life. As a resident of Tucson for 20 years and being a life long ice hockey fan. Living in a major metropolitan area without year round ice rink availability has been extremely disheartening. This project would be extremely beneficial to the city of Tucson as a whole, and bring many more opportunities to the area and allow a whole new generation to experience and grow in the sport. Not only that but allowing another indoor entertainment venue in an otherwise outdoor hostile environment can only benefit the city even more. It is with my sincerest hope that the vote for this project moves forward and brings much needed services to the city of Tucson.

Thank you.
Jason Pickle.

There is a vote on March 5th to approve the land lease for Mosaic Quarters sports complex. As a Pima County resident and voter I think it would be a mistake to vote against Mosaic Quarters land lease. As a hockey parent who is contemplating moving my child to a Phoenix based team this decision would certainly change my mind. My family along with many others spend thousands of dollars a year to drive to and watch our kids play hockey in the Phoenix metro area. This is domestic money the county could recoup for its businesses and its tax base. Now multiply that times 10000 if this complex was built and families came to Tucson for tournaments, camps, and to play.

From a voters perspective a vote against the land lease would certainly negatively effect my home life going forward and my future voting in Pima County as well.

Vote YES for Mosaic Quarters land lease on March 5th.

Please accept this email in support of a vote in favor of establishing a full-time Ice facility arena in Pima county. This type of facility can be multi use, all year round, and provides for additional recreation and quality of life opportunities for county citizens. Further, it gives youth in the Pima county area opportunities to experience and enjoy a sport, ice hockey, which offers many developmental opportunities, both social, fitness, and community-based. Further it supports county business, in that such a facility can attract visitors to Tucson for ice hockey tournaments, and help keep our restaurants, hotels, and associated businesses busy with a related revenue stream. Lastly, it supports the long-term growth of Pima county, as it demonstrates support for a sport that has a professional presence in Tucson – the Tucson Roadrunners. While we are very proud of our University of Arizona college sports, and that of Pima community college, certainly Tucson's reputation as a destination and economic growth and sustainability is enhanced by having a pro sport team present. This adds to the diversity of experience, available to citizens, and is often useful in attracting businesses to relocate to an area in the country that offers high-quality living standards. Such a facility contributes to the quality of living standards. I asked the committee to please support this investment in the future of Pima county and the city of Tucson. Brian J. Boon, Pima county citizen, president/CEO, CARF International.

Hello,

Please note our support and excitement for the proposed Mosaic Iceplex!

My son is a 12u hockey goalie and we couldn't be happier for the possibility of more ice in Tucson. We currently play for the Tucson Jr Roadrunners house team as well as the Bucks travel team out of Mesa. If we could have more consistent ice and opportunities here in Tucson we'd absolutely take advantage of it.

Thank you,
Melissa and Joel Ford

To whom it may concern,

I vote for yes on the iceplex, my dad and I went to coyotes game, I wanted to learn how to skate and I was not able to. My daughter is 4 and started to do learn to skate with Tucson junior roadrunners and my dad started to help with coaching her and she had become interested in learning to skate and play hockey and it's very difficult to find an ice rink and driving to Phoenix is very difficult to go ice skating there as a single mom. I vote with yes to build an ice rink with roadrunners being here it's a great add on to this community, I also like this being build because this is bringing a great way to continue the bond that my dad and I had with going to hockey games, and now it has grown to my daughter learning to skate and adding the ice plex with be great and I hope that this can bring and keep families bonded.

We just want to show our support for the project as I play in the Tucson Adult Hockey league (I'm getting old but hope to have a number of years more to play).

My son, who is about to be 14 years old, is in the Junior Roadrunners house league program so he should have at least several more years of local playing time.

We would use the facility for hockey practice whenever possible and we are confident that the project will be successful with the amount of interest in hockey that continues to grow locally.

Hockey is the best sport there is. Please vote yes for the project!

Good evening,

I am writing to express my support of the Mosaic Quarter project and the much needed addition of ice sheets to the city of Tucson. We have many, many youth and adult players who have been making do with intermittent ice at the TCC. It's time to make this happen! My son is a senior in high school who is currently living in Austin TX playing juniors hockey. We have a lot of talented players who deserve to be able to continue play at a higher level without having to commute to Phoenix or move out of state. Thank you for your consideration and support of the Mosaic Quarter.

Good evening,

Please consider voting for the ice rinks!! We have two boys, 6 & 8 years old, who play hockey and we've been able to recruit several other kids at their school over the past couple of years who love it. I coach little howlers (6u) and our 8u program. We're not planning on moving ever and hope to watch our sport grow over time. The girls figure skating program needs to be brought back to life and our U of A Wildcats need a facility to themselves, like ASU.

When I moved here 20 years ago, I coached Jr. High kids at the rink on Speedway and Kolb which shut down a few years later and all there has been for ice skating is the TCC which is intermittent at best for ice availability for those who play hockey and they never offer public skating aside from the outdoor rink during Christmas, which is always filled for public skating and is about 1/3 of the size as an actual rink.

For as hot as Tucson is, we really need public skating and a place for our active youth to safely exercise during extreme heat. Our coaching staff is vast and USA Hockey certified. We have a wonderful youth program which is growing every year, too.

Please consider voting and advising others too as well. Should anyone want to talk to me, please feel free to call anytime.

Sincerely,

Brad Rutherford

Hello,

I'm writing in support of the upcoming vote to approve the mosaic quarter project which would expand the ice rink facilities in Tucson. My son, Aiden plays in the Junior Roadrunners hockey house league. We really need to have more facilities in Tucson since they are forced to practice pretty late and on an irregular schedule due to limited availability of ice since the Tucson Arena is shared with the Roadrunners professional team, U of A which leaves a small amount of time for the various age groups to split among each other. There are also special shows such as Disney on Ice which can tie up the arena for days at a time. We moved here from an area which provided a dedicated arena which allowed much more involvement for children to learn ice related activities such as learn to skate classes, recreational public skating, figure skating, and synchronized skating. I think there would be increased interest in the community for these activities if the infrastructure existed. Currently, there is not available ice time for basic learn to skate lessons, which is a gateway into all of the activities that I mentioned above. This project would be a great opportunity to broaden the recreational activities for our youth. I've personally seen in other areas where these activities can thrive even in non traditional warm weather areas of the country, such as North Carolina, where I moved from. I urge you to approve this facility.

Sincerely,
Derrick Goss

As a player with the adult hockey team I fully support more ice to continue what we enjoy. My son also plays ice hockey with the junior roadrunners. He enjoys it a great deal. It helps him lot with his adhd and how to work with others a team. He has been playing for two years now. I would like to keep the money here in Tucson. Alot of other players travel to the Phoenix area for more ice. That does nothing for Pima county. We could also bring in other teams from the other states by holding other games. That would help locate economy as well.

Thank you

Hi my name is Ana Abarca,
I am writing this email in support of the mosaic complex project. My son Liam was been playing ice hockey for the Tucson junior roadrunners since he was 4 years old (he is now 9). This project would immensely help with his development in his hockey career. Unfortunately the tcc makes other programs/ events a top priority vs the Tucson junior roadrunners therefore the ice time is very limited. Having this place would facilitate and all year season and guaranteed ice time to help with the development of these kids. Please help us support this project.
Thanks

Ana abarca

Good evening,

I would like to see opportunities for Tucson families to be able to commit to ice programs that doesn't involve either moving to Phoenix, out of state or extensive milage along with the amount of time just to be allowed a consistent schedule.

I came to Tucson in 1998 for aviation employment. I was very happy to find out there was hockey and could continue to officiate hockey games. Every since Ice-O-Plex (including all the other names) closed, there has never been consistent ice available in the area.

My son began playing hockey when he was 6 at TucsonConventionCenter (TCC). He ended up losing intrest in the sport due to inconsistency of available ice for practice and games at the only facility available. We were even paying for parking most of the time and didn't know if a locker room would be available due to facility schedules. He has since chosen to play volleyball.

As a family, we support this facility being built. We also understand the importance or need for families and the community to have such of a facility. There are many groups that are looking for constant use of such a facility and consistent available ice times. People move here from all areas of the country and world, who knows how many would participate as a single individual, groups, families or public skate if they knew one was available.

Respectfully,

Wayne White

Dear Board of Supervisors,

I personally support the Mosaic Quarter Project. Having more ice surfaces in Tucson will certainly contribute to diversifying the opportunities for recreation in Tucson and will likely support the local economy by allowing more tournaments/competitions to choose Tucson. Additionally this will reduce the demand on ice time at the TCC and allow for more large venue shows to be hosted.

Thank you for your effort in moving this project forward.

Sincerely,
Matthew Erisman

Good evening,

My husband and I are big hockey in the desert fans (Go Icecats! Go Roadrunners!) and my 7 year old son is a junior Roadrunner. He has played all sports in his short little life, but hockey is his favorite! More ice, and more ice time would be integral in the development of his skills, sportsmanship, exercise and discipline. We are totally in favor of the iceplex and would love to see it come to fruition!

Dear County Clerk and honorable members of the Pima County Board of Supervisors,

My name is Joshua Randall and I am a Tucson native and I have been playing hockey for over 30 years. I was devastated when the Iceplex on the east side closed down several years ago but have been fortunate enough to play in the Tucson Adult Hockey League (TAHL) in their winter and spring seasons for the last couple of years. Because the ice time is very limited with the TCC sharing the surface for concerts, shows, and the gem show; it has been difficult to play on a regular basis. I, along with many other players in the league often drive to the Phoenix valley just to skate. When I heard the news about the proposed Mosaic Quarter project, I was elated. I have seen firsthand the economic impact of the ice arenas in Phoenix and I'm confident, if approved, this project would be successful, a positive impact for the community, revitalization to the south side of Tucson, and would undoubtedly put Tucson on the map, when it comes to sporting events.

I hope you all see the potential of this project and how it could positively impact Tucson and Pima County. I urge you to vote to approve the project, I know you won't regret that decision. We have the ability to make history with this project and I hope you share my vision.

Thank you for your time and consideration.

Sincerely,

Joshua Randall

Dear Pima County Board of Supervisors,

I am writing to implore you to support the final approval of the Mosaic Quarter Iceplex project. I have been involved with the Wildcat Youth Hockey Association / Tucson Junior Roadrunners for 7 years. I have watched this organization provide a place for kids to develop a love for the game of hockey. The kids learn skills that build confidence, athleticism, and competitiveness in an environment that is focused on meeting kids where they are so they can develop at their own pace and be put in a position where every player can find some success every day if they put in the effort. This is all done solely with volunteerism from the coaches to administration, and at a fraction of the cost of most hockey programs in the state. It is truly a community hockey program.

We can't offer anywhere near the amount of ice time that programs in metro Phoenix can offer their players. Our travel teams spend the same amount of time on the TCC ice as our house programs, in some seasons sharing ice with the house programs. Our house level players have the skill to compete against many out-of-town programs, but due to our ice limitations they just don't get the game action that they need to be ready for those experiences. Despite our limitations, the Junior Roadrunners program won a State Championship in the Arizona Youth Hockey League last year and has placed several players in elite travel and junior hockey programs both in and out of state. This is an indication of a program doing things the right way.

The organization has had steady growth year over year, bringing in far more kids each year than those who decide to leave for other sports or other programs, with the lone exception being the pandemic period where we had no access to the TCC for over a year. While the pandemic season set us back in terms of enrollment, it delayed us from reaching a point where the available ice for rent at the TCC was going to begin to limit the quality of our program in terms of the amount of time available on the ice for each child. Our last two sessions of Learn to Play have had the highest retention of any of the previous sessions, and we are approaching the conflict of participation and quality again. The Mosaic Quarter

Iceplex project is critical for us to continue to grow and develop Tucson's hockey community and build strong fan bases for both the Tucson Roadrunners and the University of Arizona's Wildcat Hockey program.

Last month, I was able to band together a group of girls from ages 9-14 for a trip to Santa Fe, New Mexico to play against a girls' team from that area. Every year, we bring several girls into the program and it is normal for boys and girls to play in an integrated fashion in the younger age groups. Generally speaking, we have to do that at all ages in our current environment. This is the first season I have had enough girls close enough in age to put together an all-girls team, albeit for a few isolated events with a broadened age group. As you can tell from the smiles in the photo, this was the sort of trip these girls will always remember.

The Mosaic Quarter project will ensure I can provide similar opportunities for all our players in the future, and that they will be ready for those opportunities when they come.

Sincerely,

David Honecker

Sirs : I am a relatively new resident of Tucson. I did not expect to find much in the way of hockey out here in the desert. I was very wrong. The hockey community here is small but passionate. The reason our presence seems small is because we have limited ice to play on. The tribe that is our local hockey community is, in fact, like a family. I have been welcomed into said family. I play and referee in the TAHL. I also referee youth hockey. The demand for ice is high. The potential to grow this sport is real. A new facility can satisfy these needs and wants. Let's make it happen together.

To Whom this concerns,

I am in full support of the mosaic quarter project, getting full time ice in Tucson. After being married to a professional hockey player for 9 years, I see the importance of ice in the community. Kids won't have to drive the Phoenix to play. I also think by adding ice we will attract more retired ex hockey players to Tucson. I know that's why many choose Phoenix over Tucson!

Thank you and I hope this passes!

Jeana

I just looked up the mosaic quarter project and it looks like a project that would elevate Tucson as a destination city. I would love to see it move forward.

As a long standing hockey fan and a parent of two former youth hockey players in Tucson, I strongly recommend the approval of Mosaic Quarter this coming week. I currently have three grandchildren with no place to skate in the Tucson area. Thank you in advance for your consideration

Greetings,

I was asked by a fellow hockey player to send my support for the Mosaic project to this email. I don't know all the details, but it's true we need an ice rink for community hockey, and the TCC isn't cutting it.

I've honestly been considering leaving Tucson for Phoenix simply because of the ice situation, it means that much to me.

Best,
Dr. Charles Robson

Good afternoon. I am writing this mail to express my feelings on this project. Hockey is a big part of my life and many others lives in Tucson. Voting yes to approve this project would be a great thing for our Tucson community. There are so many adults as well as young children and youth that by approving this project would have their lives impacted in a positive way. Please approve this project. Thank you for your time.

Respectfully,
Josh Rowland

To the board members,
Please support the building of the Mosaic Ice complex for the city of Tucson. This project will bring ice sports, entertainment and tax revenue. Tucson has a real need for full time ice facility in Pima County that supports youth and adult hockey.

Sincerely,
Brian Carlson

Hello,

I am writing to provide support for the mosaic quarter ice rink facilities.

I play in the adult league, and my son plays in a children's league. It is not great that the youth and adults only have ice during the winter and only have relatively short amount of time on the ice during that time because we only have one sheet between pros, college and all the rest.

Kind Regards,
Chris Sonntag

Hello,

This email is to voice my support of the proposed Mosaic Quarter sports complex. This privately financed venture will be a great thing for Tucson as a whole and a wonderful benefit to so many families of youth athletes. I wholeheartedly support this venture and encourage final approval of this by the Pima County Board of Supervisors.

Regards,
Tina Dorsey

Good morning,

I would like to voice my enthusiasm in support of this project! This community desperately needs a project like this with ice rinks included. Our part time adult hockey league at the TCC is frequently overcrowded and our youth hockey programs operate well over capacity. This would be a fantastic improvement to the Tucson community as well considering Phoenix and surrounding areas have nearly 10 ice rinks alone! This gives support that hockey and other ice sports thrive in the desert in the right conditions. Please approve this full time ice facility along with all of the other fantastic amenities in the Mosaic Quarter Project.

Thanks,

David Sarich

Agenda Items #41: Hearing - Code Text Amendment ORDINANCE NO. 2024 - 2, of the Board of Supervisors, relating to Law Enforcement; amending the Pima County Code, Title 9. (District 1).

Rex Scott is NOT representing his constituents. You cannot circumvent our 2nd Amendment and State of Arizona rights. Who is pulling Rex's puppet strings. We will not comply with their attempt to ignore state law and the 2nd Amendment regarding gun ownership.

Agenda Item #14: Additional FY 23/24 Pima County GAP Funding for Affordable Housing Development and Preservation.

Stick to the budget and to vote NO on item 14.

Agenda Item #15: Pima County Adult Detention Center Blue Ribbon Commission Discussion/Direction/Action: Establish a new charter for a new commission.

Get back to basic budget items for the benefit of all Pima County Tax payers. No new commissions about repairs.

Agenda Item #28: DH Pace Company, Inc., to provide for WPS Upgrade & Hosted Solution, Parking Garage Enterprise Fund, contract amount \$300,000.00

Vote NO. This is another way that our personal information is being collected and aggregated in the Cloud in the name of convenience. Once in the Cloud, there is no oversight and personal data can be shared, bought and sold, and used for purposes for which it was never said to be initially collected.

- **Agenda Item #29: Mosaic Quarter Development, L.L.C., to provide for the Mosaic Quarter Master Ground Lease, contract amount \$25,513,540.00 revenue/42 year term**
- **Agenda Item #30: MQD Phase I, L.L.C., to provide for the Mosaic Quarter Phase I Lease Agreement, General Fund, contract amount \$1,628,037,732.00/32 year term**

- **Agenda Item #31: MQD Phase I Operations, L.L.C., to provide for the Mosaic Quarter Phase I Sublease Agreement, contract amount \$2,301,845,664.00 revenue/32 year term**

We are aware that Pima County's Sustainable Action Plan was written to "implement policies and programs that reduce carbon emissions from County operations in accordance with the Paris Climate Agreement" and to "install green infrastructure." Be vigilant of any way the Mosaic Quarter project might be used to further these totalitarian, technocratic goals, and if there is any doubt about this to vote NO.

Agenda Item #34: Agenda Item #35: Agenda Item #36: Agenda Item #37:

I am concerned about unsafe fluoride, not letting schools be parents, and the dangers of surveillance in every part of our lives under the guise of "safety and convenience."

Agenda Item #40:

I appreciate having these facilities remain online during an off-grid situation. Nonetheless, these events are not always a result of climate change. Is this a predictive event?

Addendum Item #2: Presentation of a proclamation to Eva Carrillo-Dong and Anakarina Rodriguez, Co-Chairs, Arizona César Chávez and Dolores Huerta Holiday Coalition, proclaiming the month of March 2024 to be: "Cesar Chavez AND Dolores Huerta Month"

Proclamations are a waste of board time. How effective was the time spent at a recent meeting debating the language for the resolution to stand with Israel – the meeting in which Matt Heinz left the room immediately when he was voted down, so that he wouldn't be on record voting against Israel? Time is better spent discussing how to address issues like homelessness and crime.

Agenda Item #13:

I applaud the board for listening to the people who pay your salaries and for working "across the aisle". We need Jan Leshner for an update to her answer to Steve Christy's question at the last board meeting on whether the soon-to-be street-released "legal" "asylum-seekers" are going to be classified as "homeless", her answer to which was basically, "That is not the plan at this time..."

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Adult detention center: It is absolutely plain that the ADC is a necessity and that it is unsafe and filthy. A blue-ribbon commission has already studied it for 11 months and produced hundreds of pages. Something needs to be done besides appointing yet another commission. The most essential repairs need to be started at once. We cannot leave incarcerated individuals in unsafe conditions while a new facility is thought about and planned and built. There is plenty in the budget allocated for more elective purposes.

Essential infrastructure: We certainly need backup generator capacity for essential utilities, in case of grid failure--an increasingly likely threat as reliable electrical generating capacity is being replaced with unreliable, weather-dependent, non-economical (subsidy-dependent), purportedly "green" facilities.

Mosaic Quarter Development: while it seems that this might be a boon to the county, we should be vigilant that it is not a front for furthering the totalitarian, technocratic goals of a "15-minute city" that would limit mobility (in a spread-out city dependent on automobiles!) to limit CO2 emissions, with the stated but impossible goal of affecting the climate of the whole planet. Please vote no on anything that might relate to the UN's "sustainability" diktats instead of the good of your constituents.

Hello,

My name is Brandy Elliott and I am writing to urge you to approve the land lease for the Mosaic Quarter development that is on the Board of Supervisors agenda this Tuesday, March 5th. As a proud Junior Roadrunners family, we stand in support of the proposal by Knott Development to bring a leading ice facility to Southern Arizona. Tucson has been without dedicated ice for years and we would prefer to keep our money local rather than having to travel to Phoenix for clinics, classes and leagues. In addition to the three ice rinks that Tucson is desperately in need of, this development will also bring NCAA basketball courts, competition and recreational volleyball courts, pickleball courts, indoor soccer fields and so much more. As Mosaic Quarter is privately financed this lease will earn the county over \$673M. I see this as a win-win for the community and the county.

On Tuesday, please vote in support of the lease for the Mosaic Quarter Development, and bring this long-overdue facility to Pima County.

Thank you for your consideration,
Brandy Elliott

Dear Clerk of the Board of Supervisors,

I wanted to send out my support for the Mosaic Quarter ice hockey complex. I've been apart of the Tucson Adult Hockey League with Danny Plattner ever since it was established. Playing hockey at the tcc is all we currently have and it is nowhere near enough to house the demand there is for ice in Tucson. Please vote in favor of the Mosaic Quarter so that Tucson can once again have a full time sheet of us for those of us that love the game and want to see future generations have something they can enjoy year round.

Thank you,
Dillon Headley

I am a parent of a couple of hockey players. We have been hearing about the mosaic quarter for some time now and have been looking forward to it. As a parent of local players I am really tired of going to Phoenix to get ice time, and the time that we do get has to be shared amongst every team and division of players. There is a lot of local talent that makes the drive to Phoenix just so that they can play. That is money that could be better spent in this area. There is the TCC but again that has to be shared. We as parents want our young athletes to be competitive but we don't get the same amount of time to become better. So I am asking you please vote to allow the building and completion of the mosaic quarter.
