Greetings all,

Agenda Item #13

Homelessness and Public Safety can perhaps be better addressed by stopping the flow of illegals and cutting off all aid, thus stopping the incentive invade and exploit us.

Agenda item #14

Please stick to the budget and to vote **NO**.

Agenda item #15

Please get back to basic budget items for the benefit of all Pima County Tax payers. **NO** new commissions about repairs.

Agenda item #20

Smells like bad science and kickbacks. **NO** to any type of communist agendas, including attempts to bring a 15-minute city to reality.

Agenda item #28

Another disaster waiting to happen. Please vote **NO**

Agenda items #29, #30 and #31

Reeks of very bad science and kickbacks. Please do not be part of the problem and vote **NO**.

Agenda item #34

Please provide highly detailed information how this will be implemented to insure this will not become a government control of health services.

Agenda item #35

I have read several reports and studies of the dangers of fluoride and how we must backtrack from this travesty. Vote **NO**.

PAR 0424M122FCOKDFBD

Rm

Agenda item #36

Pima County has a large population of people who would likely qualify as being in need. This will quickly become an expensive money pit that Pima County will not be able to sustain, for very long. **NO**

Agenda item #37

Fix the root cause problem rather than whitewashing it with a Band-Aid. This is not the answer. **NO**

Agenda item #39

Vacines for animals. Sure, everyone wants a pet with possible autism and or an early death by a vax, right?

Agenda item #40

Yes, we appreciate having these facilities remain online during an off-grid situation.

Agenda item #41

NO to amending the **Pima County Code, Title 9.** (District 1). We will not comply with your attempt to ignore state law and the 2nd Amendment regarding gun ownership.

Addendum Item #2

Another boondoggle. **NO**

Sincerely,

Philip Kortesis, PC

For the record please note my comments:

Agenda Item 41) Mr. Scott, please be advised that your actions to try to remove our gun rights will fail in Arizona. I advise you to look over the Constitution:

Second Amendment

Second Amendment Explained

A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.

Not you nor anybody else is going to be successful coming after the Constitution. Who is behind this? Remember you work for the people, Mr. Scott. We will not comply with your attempts to ignore our Constitutional rights. I would advise you to remember you work for the people.

Agenda #14: Stop the spending for "affordable" housing. If you have already spent \$9.5 million on 1038 units of affordable housing and now need an additional million? Perhaps it is not so affordable. No on 14.

Health Agenda Items 34-36:

My first question here is how much oversight into health for low income do we need? Is there a cap? Looking at these programs they all reflect governmental oversight of "health services", which is concerning. #35, the "cavity free program" - has any one of you done any research into the harms of flouride? Please refer to flouridealert.org Many dental products contain dangerously high levels of fluoride. For years, manufacturers and dentists failed to warn consumers about the risks from ingesting these products. Although the FDA now requires manufacturers to warn consumers that fluoride products are poisonous when swallowed, manufacturers and dentists are still using these products in ways that expose consumers and patients to potentially toxic levels of fluoride.

No on 35!!

#37 This is funding for STD "investigations" and calls for "infection surveillance"... how do you intend to surveil this? This program has been in place since 2014, and yet now you are looking to "expand

new interventions". With all the people coming over the border, are we becoming a social service-dependent welfare state? Is the goal to provide free medical treatments as a gateway for government-controlled medical care? This stinks like a surveillance program and has my attention.

Thank you for your time and attention.
