

Date May 18, 2015

To: Pima County Development Services,
Att. Jonathan Crowe
Re; Pima County Major Streets and Scenic Routes Plan

Palo Verde Road specifically

This is a road that has needed some tender loving care for some time, especially from Benson Highway to Valencia part.

Palo Verde Road is in pretty good shape from Benson Hwy to I-10. A good sealer would keep it this way for years to come.

I am objecting to giving up the additional amount of footage that Development Services is suggesting. The road from Benson Highway to I-10 is wider than any road currently being used as a gateway to the airport or from the airport to any part of the city.

This is a four-lane road, two in each direction that has a large center divider from Benson Hwy to I-10, The pictures that are attached show the street both ways, in front of my property at 5400 S Palo Verde.

There is a wide pull off, or Berm as I call it, from Benson Highway, until you get to the 1-10 interchange.

I agree that Palo Verde road needs improvements, after years of neglect, but I **strongly object to the amount of footage that is specified for the project. It is not necessary.**

Respectfully:

Robert Hannon
