Comments : My Husband and I are long time active voters in our District. We were Thrilled when it was mentioned there is a possibility of a new law being passed against panhandling the NW Side. We recently lost our 30 year old Daughter in November. She was homeless for Ten years. She lived here all her life and we have intimate knowledge of ALL the resources available in this city for the homeless. Many of them DO NOT use them, they can make much more to cover their Addictions by begging and ENJOY the freedom of living on the street. We live near First avenue and Orange Grove. They walk from the Wash East of First Avenue and sit on each corner everyday at rush hour. One of them is the son of a personal friend. She asked how he can STAND to sit there for hours at a time, in the weather? It's easy mom, we are high most of the time. (Heroin)!!! Meth!!! We can earn 3000.00 a week easy! Why would they ever want to go to rehab or a shelter when this is happening??

Of course residents are mainly at fault for feeling sorry for them. You feed the habit and they will come IN DROVES. That is what is happening with the Sun Tran moving further north as well. Many ride up from Santa Rita Park and return there in the evening for the free meals. This is a safety issue that needs to be addressed. We all pay taxes to make sure our neighborhoods are free from the crime and violence and murder that comes with Homelessness and street LIVING.(RUDASILL) Please make sure to vote in FAVOR of ending the panhandling on our streets!! (We are stable parents in the community who have lived here for 50 years) Drugs have infiltrated our community and all the problems that come along with that.

Comments	<p>It is an extreme distraction to safe driving with the people begging at the intersection lights. And they are intimidating as well when they walk up & down staring into my car windows while I am trying to concentrate on the traffic light & when it will turn green. Also I have to pay taxes on any \$ I get & they don't. Please put up signs at all the intersections saying no one can loiter or panhandle there & that it is illegal to sit or stand there for any purpose. Thank you as this has become a really bad problem for safety as one of them on drugs had his feet hanging over the curb with oncoming traffic needing to swerve to miss running over his feet. This activity also makes Tucson look very bad in many ways. These people can go to the Salvation Army, ICS (Interfaith Community Services) the Food Bank, the Gospel Mission or many of the other agencies that help the homeless. At many of the intersections these young beggars are unified & are dropped off & picked up again & some make \$200 a day tax free. It's time to make rules to block this bad activity & put these rules into practice. Diane Ensign</p>

Subject: traffic safety ordinance

I wish to take this opportunity to voice my opinion in support of the proposed traffic safety ordinance. For the past several months the number of individuals on the medians have increased significantly. There is sometimes an individual on EACH of the 4 separate medians at one intersection..all trying to catch my eye. Even if I believe none of them will attempt to cross the street, this is an unnecessary distraction. Last month, on Ina between Oracle and Thornydale, I must have passed at least 20 individuals, 20 unnecessary distractions.

Ms Ally Miller: FYI I was at the Donaldson Elementary meeting addressing panhandling in our area. I have sent the following request to each person on the board of the supervisors: I am asking you to please support the Ordinance on 5/17/2016 Prohibiting the Loitering of Pedestrians on Medians. I am a 2nd generation Tucson native and have watched our intersections get bigger, busier and more dangerous over the years. Over the last couple years, I've seen several people run into traffic causing drivers to swerve or stop suddenly to avoid hitting the pedestrians who were moving into traffic to take something a motorist is handing them. This gives me a heart attack every time. Would anyone ever get over killing or severely injuring someone who darts into traffic no matter who is at fault? Probably not. Please support this Traffic Safety Ordinance on 5/17/2016 Prohibiting the Loitering of Pedestrians on Medians to help Tucson be a safe place to live. Regards, Jane Mills Haug

Subject: Homeless panhandling ordinance

Good Morning;

My Name Is John Ferri and I am a home owner in the La Cholla Ridge subdivision. I am writing in concern about the continued growing homeless situation in our area. These people have taken over our neighborhood and this needs to end. There have been dogs stolen from peoples yards, bicycle's as well Two murders attributed to there corner turf rivalries, they continue to make camps all along our wash's and even on some private property. Homeowners are charged with the cleanup by the county this of course is unacceptable. Suppose a fire starts from one of these camps and burns down a home or several homes what then? They have brought drugs, violence and fear to the area why do you think Marana, Tucson and others are passing similar ordinances? Because they have listened to the people who LIVE and WORK and pay TAX'S in these areas have spoken. I have not spoken to ONE of my neighbors who says having these vagrants around is a good idea. Just the other day I received an email from a neighbor who was going to Ole's Mexican restaurant for dinner with his wife, a homeless man was standing there peeing in the bush's, no one wants to or needs to see that! They are hurting business and they have definitely taken away from the attractiveness of our area. If these people really want help they know where to get it let's not pretend they don't. <http://pimacountyhelp.org> is a good place to go to find services and if they "don't" know about these services I'm sure the same people that bring them food can inform them. The problem is they do know about these programs but seeing as they do not want to give up the booze or drugs they want nothing to do with the programs, I am sick and tired of seeing people with signs saying "trying to make money". Sitting on a street corner all day is not trying. They impede those trying to cross the street, I'm sure if you are in a wheelchair the last thing you want to do is navigate around panhandlers. If one of these people gets hit by a car what then? The poor person that hit them has to live with that and probably has to pay this person, for what? I'm sorry but this situation has become ludicrous. I will not let my wife walk our dog up and down La Cholla anymore because these people approach you drunk or stoned and who knows what goes on in there heads. Do not wait until something terrible happens to a decent hardworking person before you react. This is not about some politically correct nonsense this is about public safety theirs and OUR'S. This issue has been dragging on for way to long pass the ordinance NOW. If I wanted to see Bum's sleeping at bus stops or in neighborhoods I would have stayed in N.Y. Pass the ordinance.

Thank you
John Ferri

Dear Member of the Board of Supervisors,

May 15, 2016

I heartily support the adoption of the Traffic Safety Ordinance that County Administrator Chuck Huckelberry has placed on the agenda for the May 17th, 2016 meeting. Scores of excuses will be made as to why this is a bad idea. We also know there will be those "advocating" for the economically-challenged that these street medians and the abutting corners of intersections are sanctuaries of upward mobility, but this is, at least, nonsense. I appreciate that personal safety appears as the primary motivation for the aforementioned ordinance; yet, I wish denial of other factors were not employed so as to obfuscate the reality of what is going on.

I'm adamantly opposed to the county {or any other level of government} setting up rehabilitation centers for every indigent individual (and any dogs they may have with them). There are facilities to provide some temporary relief to people, but there are also jobs to be had! To be sure, it is very troubling to see young individuals in their 20s-30s out and about with an air of despair seemingly engulfing them, especially if they be of the belief that panhandling is their future. We shouldn't encourage their despondency by facilitating their deleterious behavior.

Let me encourage you to please open the attachment provided below.

Thank you,

Jefferson J. Stensrud
