

BOARD OF SUPERVISORS AGENDA ITEM REPORT
CONTRACTS / AWARDS / GRANTS

Requested Board Meeting Date: 08/15/2016

or Procurement Director Award

Contractor/Vendor Name (DBA): CGI Technologies and Solutions Inc.

Project Title/Description:

Software and Implementation Services for ERP System.

Purpose:

Amendment of Award: Master Agreement No. MA-PO-B507308-BC, Amendment No. 4, to revise the scope of work, extend the contract term to 7/31/2017, allow for two (2) one-year extensions, and increase the contract by a not-to-exceed amount of \$600,000.00 to a cumulative not-to-exceed contract amount of \$14,927,546.35. Additionally, the Board of Supervisors authorizes the Procurement Director to execute the amendment within the dollar and term limits awarded by this action once the amended scope and cost is finalized and agreed to by both parties. Any additional amendments outside of the Procurement Director's authority will be presented to the Board.

Administering Department: Information Technology.

Procurement Method:

Pursuant to Pima County Procurement Code 11.12.020, Competitive Sealed Proposal, Solicitation No. 0901706 was conducted. This software and implementation services contract was awarded by the Board of Supervisors to CGI Technologies and Solutions, Inc. on 1/12/2010 for \$12,606,717.00. Two other contracts were awarded from the solicitation: one for software purchases and one for software maintenance services.

Amendment 1 (7/10/2012): Extended the term to 2/23/2015; reduced the scope of contract by removing several items; reduced the contract amount by \$2,569,100.65 for payments associated with removed items; renegotiated payment for contract deliverables contingent upon resolution of open system warranty issues; and amended Article V, "System Acceptance" provision.

Amendment 2 (1/13/2015): Extended the term to 12/15/2016; added Statement of Work No. 2, to provide upgrade services; increased the contract amount by \$4,089,930.00 for payment of additional services; and modified Payment Terms, Order of Precedence - Conflicting Documents, and Limitation of Liability provisions.

Amendment 3 (4/5/2016): Added Statement of Work No. 3, to provide for the addition of new activities and deliverables dealing with the Meridian Learning Management System; and increased the contract amount by \$200,000.00 to cover payments for the addition of Scope of Work No. 3.

This Amendment, No. 4, is required to amend Statement of Work No. 2 and to increase the contract award to a not-to-exceed amount of \$600,000.00. The new cumulative award amount is \$14,927,546.35.

Note: The attached MA-B507308-BC document reflects a "NTE Amount" of \$9,897,754.00. \$5,029,792.35 was expended in a prior financial system, which accounts for a cumulative award amount of \$14,927,546.35.

Attachments: Master Agreement and Amendment No. Four (4).

Program Goals/Predicted Outcomes:

ERP version will be upgraded to within two releases of the current vendor released software. The upgrades will remove unsupported components, provide better and more granular project tracking, improve budgeting process, improve AMS & Maximo interface, clarify the amount of and type of training and replace Adobe Central Pro Licensing/Forms with BIRT/JBoss.

Public Benefit:

Enhanced functionality, training, forms and system integration to improve budgeting and expense tracking and transparency, forms maintenance, staff efficiency and productivity.

Metrics Available to Measure Performance:

Over 300 additional standard reports and improved functionality will improve the budgeting processes.

Retroactive:

No

CONTRACT AMENDMENT

WHEREAS, COUNTY and CONTRACTOR entered into a Professional Services Contract as referenced above; and

WHEREAS, COUNTY and CONTRACTOR desire to enter into this Amendment No. 4 in order to modify certain terms as set forth in Statement of Work No. 2 under the Contract; and

WHEREAS, COUNTY and CONTRACTOR have agreed to increase the Contract amount to allow payment for additional funds for increase in hours and travel dollars as described in this Amendment.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree to further amend the Agreement as follows:

CHANGE: Statement of Work No. 2

Strike the following language from 8.C.3.: "Travel expenses for the project shall not exceed Two Hundred Seventy-Four Thousand Eight Hundred Eighty Three Dollars (\$274,883.00) for the entire project."

In order to capture the parties' agreement to i) upgrade IBM Maximo to IBM Maximo 7.6 rather than IBM Maximo 7.5.0.3; ii) establish the parties obligations around support for Maximo 7.6; iii) make certain clarifications around hours of training; and iv) replace Adobe Central Pro Licensing/Forms with BIRT/JBoss Licensing/Forms, the parties have agreed to amend and restate Statement of Work No. 2.

The previously executed version of Statement of Work No. 2 is hereby replaced in its entirety by the attached Statement of Work No. 2. (Revision 1).

A. Governing Document

This Amendment No. 4 (“Amendment”) is authorized pursuant to the Contract as previously amended. Except as previously modified here, the terms and conditions of the Contract remain in full force and effect.

B. Article I - Term and Extension! Renewals! Changes

The first paragraph of Article I is replaced in its entirety with the following:

“The Contract awarded by the Board of Supervisors shall commence on February 24, 2010 and terminate on July 31, 2017 unless sooner terminated or further extended pursuant to the provisions of this Contract. The parties may renew this Contract for up to two (2) additional one year periods or any portion thereof.”

C. Effective Date of Amendment No. 4

This Amendment shall be effective as of mutual execution by both parties (“Effective Date”).

1. Exhibit D - Compensation Table

Exhibit D Item C. of the Contract is replaced in its entirety with the attached Exhibit D to account for the following changes:

- Utilize billing rate of \$185 for Project Manager for duration of this Amendment

Time and Materials Activities – Notwithstanding Article XIV of the Contract, invoices for time and materials Services will be submitted monthly, plus reimbursable expenses, based on actual hours expended during the prior period at the following rates:

Labor Category	Hourly Rate
Project Manager	\$185.00
Subject Matter Expert	\$185.00
Technical/Functional Expert	\$185.00
Work Order Lead	\$235.00

CGI will report hours by Individual and by Activity on a monthly basis. All hourly rates are exclusive of local taxes and travel expenses. Any reimbursement for expenses, as allowed in the Contract and that are included in the invoice(s), must be supported with billings for such expenses. The receipts are not required to be attached but are subject to auditing by County if requested.

2. Exhibit E - High Level Project Schedule and Staffing

Exhibit E – High Level Project Schedule and Staffing is replaced in its entirety with the attached Exhibit E to account for the following changes:

- Reallocate FTEs of CGI team to provide coverage for extension period

STATEMENT OF WORK No. 2 (Revision 1)

This Amended and Restated Statement of Work Number 2 ("Statement of Work" or "SOW") is issued pursuant to the Professional Services Contract 07-14C-142785-0210 (MA-PO-B507308-BC) dated February 24, 2010 between Pima County (the "County"), and CGI Technologies and Solutions Inc. ("CGI").

1. **Effective Date of this Statement of Work**

This Statement of Work is effective as of January 15, 2015 through December 15, 2016.

2. **Project Title**

CGI Advantage® ERP System Upgrade

3. **CGI Solution Components**

This Project includes the upgrade of the following CGI Advantage Products and the related Bundled Software Products licensed to County per the Proprietary Software License Agreement number: 11-14-C-142784-0210 dated February 24, 2010. This project will address the following major components of the CGI Advantage products; please refer to Exhibit A for a full list of Bundled Software Products:

- CGI Advantage® Financial System
- CGI Advantage® Vendor Self Service
- CGI Advantage® Performance Budgeting
- CGI infoAdvantage
- IBM® Maximo® Asset Management

Notations:

- Pima County has implemented SymPro Debt Management v2.4.2.557. An upgrade to this product version is not required and has not been included in the scope of this effort.
- Pima County has licensed SymPro Investment v7.3.2. County has chosen not to implement this product. SymPro Investment is not included in the scope of this effort.

4. **Services to be Performed.**

CGI will provide the Services described herein to lead and work jointly with Pima County in upgrading certain CGI Advantage Products licensed to and installed as a system at Pima County ("Pima County ERP System"), as set forth in Section 3, from CGI Advantage release 3.8.0.2 to CGI Advantage release 3.10.0.1 and IBM Maximo 7.1.1.7 to IBM Maximo 7.6. "Jointly" is defined as County and CGI each being primarily responsible for its own set of project tasks. Responsibility for some tasks will be shared equally. For the project to be successful, knowledge and information from County's and CGI's project staff will need to be shared, regardless of who is ultimately responsible for a project task. Reallocation of assigned responsibilities will require the mutual

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

agreement of the parties in writing via an amendment to this SOW signed by both parties.

The scope of work for this project will be limited to the upgrade of the CGI Advantage products listed in Section 3 above. Any additional products (outside of what County already has licensed for Advantage 3.8), or services, as well as any new customizations or modifications to the products (other than those specified under "Customizations/Patching" below), will be addressed under a separate contract.

CGI will provide County with a custom upgrade to CGI Advantage release 3.10.0.1 using the CGI Accelerate® service. Accelerate Services will include the following:

- CGI Advantage release 3.10.0.1 upgrade components for CGI Advantage Administration, Financial, Vendor Self Service, Performance Budgeting, infoAdvantage, and Integration (ABI).
- On-site installation and upgrade support for covered CGI Advantage components, as defined in Section 3 above during scheduled delivery timeframe.
- Delivery of one client-defined patch set including resolutions for up to 20 CGI Advantage software related issues, as confirmed through CSG, to support UAT. Selected issues for patch set must be reported and confirmed as valid by CSG within 60 days of the initial CGI Accelerate delivery. Issues related to Performance Budgeting, ABI Integration or infoAdvantage are not eligible for inclusion in the patch set.

CGI will also provide County with the following custom solutions using the CGI Accelerate service:

- CGI will perform Maximo 7.6 validation testing and support the County on Maximo 7.6 for CGI Advantage 3.10.0.1. While initial testing activities will be performed as part of the CGI Accelerate scope, the validation and coverage will not result in additional software being provided or delivered as part of the CGI Accelerate effort. All post-delivery support for Maximo 7.6 and associated Integration issues will be provided via the CGI Customer Support Group (CSG).
- CGI validation testing of Maximo 7.6 will be performed in parallel with ongoing upgrade activities; however, the timeline to complete these activities is estimated to be 2-3 months after the initial CGI Accelerate delivery timeline, which was delivered the week of June 8, 2015.
- CGI will document issues identified during validation testing of Maximo 7.6, should any issues be identified. CGI will look to address any Severity = Critical issues identified with the CGI Advantage 3.10.0.1 software, impacting current baseline Integration functionality with Maximo 7.6; all non-Critical issues will be documented for further review by the County to be covered under CSG support agreement. Support for issues related directly to the Maximo 7.6 software are not included in this CGI Accelerate effort.
- CGI will provide a Patch Set for the resolution of Severity = Critical issues and support of Maximo 7.6, if applicable, once all validation testing activities have been completed, and identified issues have been resolved. If additional code

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

changes are not required to support Maximo 7.6, no further software updates will be provided.

- CGI will provide updated CGI Advantage baseline documentation related to the support of Maximo 7.6 for CGI Advantage 3.10.0.1, should documentation changes be required for Integration related installation and configuration.
- Migration of pre-defined County customizations; as defined in Exhibit C).
- Validation of CGI Advantage release 3.10.0.1 baseline software integrated with supported release versions of Maximo and SymPro; installed and configured for CGI Accelerate test verification. Note – Meridian integration is not covered under this Contract as the Human Resource Management component is not included.
- Application and testing coverage, as well as delivery, of those CGI Advantage Performance Budgeting Extensions identified for upgrade to CGI Advantage release 3.10.0.1. The effort to identify these Extensions will be addressed separate from this Contract – see Section 6.D Project Assumptions below.

5. Planning and Ongoing Project Management.

Project Management will take place over the course of the project. Under the guidance of CGI and County management, the CGI Project Manager will work jointly with County Project Manager to develop the project plans, manage project activities, monitor and resolve issues, enforce quality control, monitor level of effort expenditures, and mitigate risks that threaten the completion of the project.

To help enable issues to be resolved expeditiously, CGI will use an issue-tracking tool. CGI will track and manage issues as part of the CGI weekly project management process. To provide ready access to project team members, CGI will maintain an online Issues Database, in which open issues are logged and tracked to allow for prompt resolution and participation by the appropriate project team members and County decision makers.

The CGI and County Project Managers will jointly be responsible for the management of the project-wide tasks. They will also be responsible for controlling scope and keeping the project within the timeline and budget.

The following are project-wide management tasks for the project, which will be done jointly between CGI and County Project Managers:

- Manage objectives of the project;
- Manage the scope of the project to stay on schedule and within budget; and
- Apply project management and issue resolution strategies.

Other Project Management and Planning activities to be done jointly by both the CGI and County Project Managers, including the following;

- Finalize/Refine Project Schedule;
- Provide Regular Project Status Updates to the joint County/CGI Executive Steering Committee;
- Assign Staff and Project Roles and Responsibilities;

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

- Establish Project Standards and Procedures;
- Deliver Status Reports;
- Establish Team Communication;
- Determine Meeting Schedules;
- Oversee Project Staffing; and
- Conduct Ongoing Project Management.

To support project governance and the delivery of the project, an Executive Steering Committee ("ESC") will be formed. The ESC will meet on an as-needed basis at the request of either County or CGI Project Managers to resolve critical issues, address potential changes in scope or schedule, and provide guidance for project vision and roadmap planning.

The ESC will be comprised on the part of County by:

- Pima County CIO – Jesse Rodriguez
- Finance Director – Keith Dommer
- Finance Deputy – Ellen Moulton
- Finance Deputy – Michelle Campagne
- Project Manager – Scott Zufelt

The ESC will be comprised on the part of CGI by:

- Engagement Manager – Anees Kadir
- Project Manager – Karen Hansen
- Area Account Manager – Karen Hansen

6. **Roles and Responsibilities.**

During the upgrade of the CGI Advantage products described herein, the roles and responsibilities of both CGI and County staff will vary depending on the task. In the tables below, the Project tasks and milestones are listed with applicable acceptance criteria as well as an indication of the lead resource proposed for each task. A high level project schedule is provided in Exhibit E. Within 60 days of the project start, the detailed project schedule will be finalized, with specific assignments made to both CGI and County resources.

A. **Responsibility of CGI.**

CGI will provide the following resources and has the following responsibilities:

- CGI will provide a Project Manager responsible for general project management support, and managing/coordinating CGI tasks defined in this Section 6. This

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

includes handling Advantage upgrade issues, attending status meetings, issue/risk management, and preparing monthly status reports.

- During the analysis Phase, CGI will work with County Project Manager on the initial base project plan and a preliminary project schedule, for this CGI Advantage ERP System Upgrade project. The plan will include functional and technical project tasks, schedule for tasks, and assigned staff from both County and CGI, dependencies, and status meetings to support the upgrade.
- CGI will provide an appropriate number of staff required to support the tasks as identified herein and within the mutually agreed schedule.
- CGI will provide services described in this SOW both on-site and from remote locations. To help minimize costs, County and CGI Project Managers will work together to coordinate when it is appropriate for CGI staff to be on-site.
- CGI will take the lead in executing the Go Live technical production cutover based on the Production Cutover plan developed during the project.
- CGI will provide Post-Implementation support and assistance as further described below to County Project Team.
- CGI will assist County in adjusting system operational procedures.
- CGI will supervise the hand-off of operations to CGI County Support Staff and make sure that training on the support process is provided.

B. Responsibility of County.

County will provide the following resources and has the following responsibilities:

- County will participate, and will include CGI, in Executive Steering Committee (ESC) meetings to ensure the engagement meets overall County objectives and ensure effective risk management and decision making on the engagement.
- County will provide a dedicated Project Manager for the duration of the project to lead the CGI Advantage 3.10.0.1 Upgrade Project. CGI will coordinate its project activities (including project issues, contract and/or amendments, invoicing, status reports, etc.) through County Project Manager.
- County will provide the staff required for the completion of County's responsibilities on the project in accordance with the project schedule. This will include, without limitation, project sponsors and executives (Executive Steering Committee), subject matter experts familiar with existing County procedures and associated decision makers who are empowered to make design and implementation decisions in support of upgrade activities, technical experts, trainers, end users, managers, IT staff, and the operations staff who will maintain the new system upon implementation. These resources need not be dedicated full-time to the project, but must be available to complete their assigned tasks per the mutually agreed upon detailed project schedule.
- County will be responsible for purchasing and participating in the installation and configuration of any third party 3.10.0.1 software components outside of those that have previously been licensed through CGI (e.g. MS/SQL Server, etc.).
- County will be responsible for actively participating in verifying the initial data upgrade conversion on the 3.10.0.1 release version. County is responsible for

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

subsequent database conversions and verification, but may draw upon project hours for CGI assistance. County is responsible for any data cleanup required.

- County will be responsible for updating user procedures and providing End-user Training, including training materials.
- Issues arising from the project will be recorded in the CGI SharePoint® repository, prioritized, managed and resolved in an appropriate timeframe to support the project schedule. County will review the available options for the project issues and make prompt decisions to resolve them.
- Facilities and Equipment – County is responsible for supplying:
 - Dedicated office space to support four (4) CGI staff members. This office space must contain at least one telephone with outside access and internet access beyond any County firewall, subject to County access policies.
 - Access to on-site printing, copying, and conference rooms for team meetings are also required.
 - VPN access to County 'Upgrade' related applications and databases in a non-Production environment to facilitate remote assistance needed throughout the duration of the project.
 - Ability to utilize CGI VPN for continuous access to CGI databases.
 - County will provide online access to 'Upgrade' applications (i.e., user IDs, etc.).
 - County will provide security badges for site access (for onsite assigned CGI staff).

C. Environments.

County will be responsible for the setup, operation/administration, and maintenance of all infrastructures such as but not limited to hardware, and system software such as servers, databases, networking, etc. for production, test, training, user acceptance test, and development environments. County will be responsible for installing the upgraded SW onto the non-production environments: test, training, user acceptance test, and development environments.

CGI will be responsible for installing the upgraded SW onto the production environment. CGI will also work with County to establish a process and set of essential shakedown tests to use in validating an application environment.

County will be responsible for all file, library, and database backups. County will also prepare, load and maintain production batch scripts, check off sheets, system schedules and procedures, run books, file backup and archiving schedules.

D. Project Assumptions.

The project assumptions ("Project Assumptions") are set forth below. The following Project Assumptions are included in order to facilitate a successful implementation:

- The maximum amounts payable are based on the schedule of compensation listed in Exhibit D. CGI is not authorized to exceed the level of effort described in

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

Section 6.E.1 without the prior written consent of County pursuant to an amendment to this Statement of Work.

- CGI will coordinate its project activities (including project issues, contract and/or amendments, invoicing, status reports, etc.) through County Project Manager.
- Issues arising from the project will be resolved in a timely manner to comply with the project schedule. County will review the available options for the project issues and make prompt decisions to resolve them.
- The upgrade will be limited to the Advantage modules set forth in Section 3, whether fully implemented or not, and will not include addition of modules or subsystems not currently licensed as part of County's Advantage system unless mutually agreed to by both parties through an amendment to the Contract.
- Both County and CGI agree that any add-on work for customizations will be mutually agreed to by both parties and addressed through an amendment to the Contract.
- During post implementation support, County will continue to use the Service Desk facilities (with assistance from CGI) and resolve issues where possible prior to reporting items to the CGI Help Desk, as in accordance with the maintenance agreement.
- CGI will take the lead, with County support to develop the test plan that defines the process for user acceptance testing and performance testing.
- CGI's Accelerate tests the following products in conjunction with the upgrade: ABI, SymPro, 1099-Convey
- CGI's Accelerate tests extract, transfer and load ("ETL") and a sampling of infoAdv baseline reports, but will not test custom universes and custom reports. CGI will run all baseline ETL's against County's source data sets.
- CGI provides full transparency to ETL results as executed against the client's cut of data used within the CGI Accelerate process. The CGI Accelerate team will tune the ETL such that the run time is optimized against the client source data set, providing tuning changes/recommendations to the client along with the final delivery results. Additionally, CGI will provide defect fixes for critical issues uncovered during the CGI's internal testing processes.
- CGI's Accelerate tests a sampling of loads of XML into 3.10.0.1, but not all Interfaces. To support CGI's validation process, County will provide at least one (1) XML ready sample from each document type; for example, if County processes twenty (20) different type of GAX interface files for various payments, CGI requires one (1) of those files be provided to test for any upgrade impact to the GAX process.
- CGI will install & configure baseline 3.10.0.1 ABI against a copy of IBM Maximo 7.6. CGI will test baseline Maximo data integration scenarios, along with the test scenarios County provides as inputs that are not dependent on client-specific Maximo data.

CGI has reviewed County reported Advantage Support issues in the area of Maximo. For those Maximo issues that are reported to be resolved in Advantage

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

3.10.0.1 and IBM Maximo 7.6, CGI will test those areas of functionality that are reported to be resolved in the implemented release. CGI will report the test outcome, pass / fail, for those issues documented in CGI Advantage Financial and Procurement 3.10.0.1 Release Notes, Release 3.10.0.1, Resolved Issues, Maximo (page 37).

- An important component of the implementation project is the collaborative delivery of reporting and interfaces. Both County and CGI agree that the timely completion of these tasks is important for successful training, testing and production cutover. It is critical that the project team have timely access to both functional and technical County resources.
- County agrees to take the lead, with CGI knowledge transfer and assistance, in developing and migrating reports that are not delivered with CGI infoAdvantage.
- County agrees to be responsible for executing the user acceptance test. CGI will work jointly with County staff to resolve material Defects preventing go-live of the upgraded software and answer questions during the test.
- Any increase in current third-party software licensing fees that may occur in conjunction with this upgrade project are outside of the scope of this SOW.
- County will provide an updated production dataset copy, current copy of production code (source and runtime), and County-specific test scenarios to the CGI Accelerate team prior to the start of the project, for all covered CGI Advantage products.
- County is not upgrading CGI Advantage's ABI engine for release 3.10.0.1 from the previous production release version through CGI's Accelerate services. A separate implementation effort will be required to setup and configure the release 3.10.0.1 ABI component. As part of the CGI Accelerate process, CGI will test the release 3.10.0.1 baseline ABI and baseline Integration components with the 3.10.0.1 supported version of Maximo.
- County will rebuild their infoAdvantage Data Warehouse at the 3.10.0.1 release level; not upgrade from the current release level. County is responsible for the upgrade of all custom infoAdvantage universes, reports, views, and dashboards; not covered under CGI Accelerate.
- As part of the CGI Accelerate process, validation of Maximo 7.6 will include only current CGI Advantage 3.10.0.1 Integration (ABI) baseline functionality. Further customization of the Integration related to new features of Maximo 7.6 is not included in this certification process; all such requests would be treated as CGI Advantage Enhancement Requests submitted to the Customer Support Group (CSG).
- As part of the CGI Accelerate process, CGI is not validating the County's current production setup/configuration related to Maximo. CGI will focus on ensuring data will integrate between CGI Advantage 3.10.0.1 and Maximo 7.6, in a similar fashion as Maximo 7.5.x, using baseline configurations; the validation of this integrated data through upstream/downstream functional processing is not included in the scope of the Accelerate effort.

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

- County is responsible for all third party installations and configurations, including, but not limited to WebSphere, Versata, BIRT/JBoss, Business Objects, Pervasive, PatternStream, and any DBMS related software. CGI will support County's efforts as part of Activity 02, as defined below.

E. Tasking by and Activities and Deliverables.

For Time and Materials tasks in Section 6.E.1, the activities for CGI are expressed as the delivery of hours that are estimated for that task. County and CGI agree that these hours can be managed and reallocated across tasks by the Project Managers during the execution of the project (including the exchange of hours to travel and vice versa); however, CGI is not authorized to perform services that would cause it to exceed the total number of fourteen thousand seven hundred fifty-seven (14,757) Time and Materials hours under this Statement of Work unless mutually agreed through a written amendment to this Statement of Work.

“Lead” shall mean the party who is to perform the defined role and/ or function required by the activity.

“Support” shall mean the party who is to watch, assist and/ or provide guidance as necessary for the activity.

“Joint” shall mean when both parties are working together to perform the defined role and/ or function required by the activity.

CGI will provide the deliverables set forth in Section 6.E.2.

1. Description of Activities

Project Tasks by Activity	CGI Responsibility	County Responsibility	Level of Effort
<p>Activity 01: Project planning, guidance, and management</p> <p>CGI and County will work jointly on efforts project planning, guidance, and management. The scope will consist of:</p> <ul style="list-style-type: none"> o Providing project plans for task planning and project management efforts o Providing high-level work breakdown structure and project task schedules o Promoting application of Advantage Upgrade best practices/approaches. o Managing project tasks to project schedules o Providing project status reports and participating in regular Project Management and Executive Steering Committee meetings o Providing resource coordination planning and scheduling o Providing status tracking/reporting, issue escalation/resolution o Providing production cutover planning/support 	<p>Lead</p> <p>Lead</p> <p>Lead</p> <p>Joint</p> <p>Joint</p> <p>Joint</p> <p>Joint</p> <p>Joint</p>	<p>Support/Review/ Participate</p> <p>Support/Review/ Participate</p> <p>Support/Review/ Participate</p> <p>Joint</p> <p>Joint</p> <p>Joint</p> <p>Joint</p> <p>Joint</p>	<p>CGI provides a total of 2,900 hours of Support in this scoped Time and Materials tasking. Progress on these hours to be provided in Monthly Status Reports.</p>

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

Project Tasks by Activity	CGI Responsibility	County Responsibility	Level of Effort
<p>Activity 02: Installation Support of Pima County Infrastructure Stand Up Prior to Accelerate Delivery</p> <ul style="list-style-type: none"> o CGI will provide hardware sizing recommendations and work cooperatively with County to arrive at a mutually acceptable technical configuration for the Upgrade environments. o County will purchase the hardware per the Hardware Sizing Recommendation o County will install the hardware, operating system, database applications, and Advantage-related third-party applications per the Accelerate Pre-requisites for the Production and Non-Production environments. o CGI will support and assist County in installing Advantage-related third-party applications, including Build machine installations. o CGI will provide support for establishing the BIRT/JBoss server environment, and for migrating the current set of Adobe Central Pro forms listed in Exhibit B into BIRT forms under this Activity 02. 	<p>Lead</p> <p>Support/Review/Participate</p> <p>Support/Review/Participate</p> <p>Support/Review/Participate</p>	<p>Support/Review/Participate</p> <p>Lead</p> <p>Lead</p> <p>Lead</p>	<p>CGI provides a total of 480 hours of Support in this scoped Time and Materials tasking. Progress on these hours to be provided in Monthly Status Reports.</p>
<p>Activity 03: Envision Prototyping and Analysis</p> <ul style="list-style-type: none"> o CGI will provide Subject Matter Experts (SMEs) over a three month period in the identified functional areas to lead County staff through prototyping and analysis sessions to review existing functionality in comparison to the identified new and modified functionality available in Advantage 3.10.0.1. o Analysis and Prototyping will be conducted in County Non-Prod environment populated with County data. o County will add additional test data to the Prototype environment as needed. o CGI will provide prototype scripts and execute prototype scripts pertaining to the identified new and modified functionality. o CGI will provide guidance to County Procurement Department in determining how the Advantage applications can be used to meet County's needs. 	<p>Lead</p> <p>Joint</p> <p>Support/Review/Participate</p> <p>Lead</p> <p>Lead</p>	<p>Support/Review/Participate</p> <p>Joint</p> <p>Lead</p> <p>Support/Review/Participate</p> <p>Support/Review/Participate</p> <p>Support/Review/Participate</p>	<p>CGI provides a total of 800 hours of Support in this scoped Time and Materials tasking. Progress on these hours to be provided in Monthly Status Reports.</p>

STATEMENT OF WORK No. 2 (Revision 1)

2. Description of Deliverables

Project Tasks by Deliverable	CGI Responsibility	County Responsibility	Deliverable Acceptance Criteria
<p>Deliv 01: Environment Setup at CGI Location</p> <ul style="list-style-type: none"> o Establish baseline 3.10.0.1 Test Environment at CGI location to support County's upgrade to CGI Advantage 3.10.0.1 o Install baseline (GA) 3.10.0.1 software o Create ClearCase streams for code management 	Lead	Support	CGI reports in weekly status meetings that baseline 3.10.0.1 environment setup is complete
<p>Deliv 02: Code Merge and Initial Data Upgrade</p> <ul style="list-style-type: none"> o Merge County code and existing, pre-defined customizations with 3.10.0.1 baseline code base; including CSG-issued mandatory patches available at the start of the project. o Analyze, execute, and test data upgrade in CGI's environment; including issue analysis o Develop and test consolidated data upgrade scripts (3.8.0.2 to 3.10.0.1) for County to reuse to perform subsequent upgrades 	Lead	Support	<ul style="list-style-type: none"> • Delivered (emailed) status report detailing status of the code merge; including the outstanding issues with proposed resolution date
<p>Deliv 03: Test Execution Effort</p> <ul style="list-style-type: none"> o Analyze functional test scenarios provided by County o Define and confirm scope of automated test effort o Develop custom automated test scripts based on County's current business operations o Perform automated and ad hoc test executions o Provide resolution of all major (defined as Severity Critical) issues, repeat tests to validate fixes prior to delivery of the upgrade package 	Lead	Support	<ul style="list-style-type: none"> • Delivered (emailed) status report detailing status of the testing; including the outstanding Severity Critical issues with proposed resolution date
<p>Deliv 04: Packaging and Delivery of Upgrade Package</p> <ul style="list-style-type: none"> o CGI will complete mock installation in CGI's environment to support creation of customized installation components and instructions o Prepare packaging (Production and Developer Installers and consolidated data upgrade scripts, including documentation) to support County during installation activities in County's production environment o CGI will support County with initial Production environment installation activities during dedicated on-site delivery week; additional environment stack installations and initial ETL execution are not included in the CGI Accelerate delivery scope. 	Lead	Support	<ul style="list-style-type: none"> • Delivered CDs/DVD/Electronic Download of materials. • Initial installation of said materials to contain no Critical or Serious issues, as defined under the Proprietary Software License Agreement number: 11-14-C-142783 142783-0210 dated February 24, 2010, for theCGI Advantage 3.10.0.1 suite (less Maximo)

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

<p>Deliv 05: Post Installation Patch Set</p> <ul style="list-style-type: none"> o CGI's Accelerate team will provide a patch set containing up to 20 client-selected issues after the initial CGI Accelerate delivery/installation; additional issues can be negotiated during this timeframe o Any patches needed to resolve Severity Critical issues identified with the CGI Advantage 3.10.0.1 software during validation testing of Maximo 7.6 will be included in this Post Installation Patch Set o CGI will provide updated CGI Advantage baseline documentation related to the support of Maximo 7.6 for CGI Advantage 3.10.0.1, should documentation changes be required for Integration related installation and configuration o The client-selected issues must be valid CGI Advantage software defects (as reported to and confirmed by CSG) o Issues related to CGI Advantage Integration (ABI), Performance Budgeting and InfoAdvantage are not eligible for this patch set o The client-selected issues must be reported within 60 days after the initial CGI Accelerate delivery; extensions to this timeline may be discussed at an additional cost o County must validate all client-selected patch set issues within 10 days of patch set delivery 	<p>Lead</p>	<p>Support</p>	<ul style="list-style-type: none"> • Delivered CDs/DVD/Electronic Download of materials. • Initial installation of said materials shall not contain any new Defects introduced as a result of the delivered Patch Set
<p>Deliv 06: Core Team Familiarization Training on Advantage 3.10.0.1</p> <ul style="list-style-type: none"> o CGI will provide familiarization training on Advantage 3.10.0.1 to County's core project team. The training will be delivered virtually by remote CGI trainers, lecture and demonstration only, with topics selected from documents provided to County: <ul style="list-style-type: none"> o PimaCounty_ADV_3x Familiarization Inventory Topics updated through 3.10.xls o 3 10 CGI Advantage Course Catalog.docx 	<p>Lead</p>	<p>Support/Review/Participate</p>	<p>CGI delivers 160 hours of remote/virtual training from CGI's Advantage 3.10 course catalog to County's core project team, with up to 15 participants in each class.</p> <ul style="list-style-type: none"> • Training class completed, delivered by CGI instructors and confirmed delivery by the Pima County Core project team.

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

7. Acceptance.

Acceptance of deliverables shall be in accordance with the timeframes set forth in Article V of the Contract, and in conjunction with the criteria set forth in Section 6.E.2. Conditional Acceptance and Final Acceptance as set forth in Article V shall not apply to this SOW. Upon County's completion of user acceptance testing, County will provide to CGI a Punch List of outstanding Level 1 and Level 2 Defects (as defined in Section 2 of the Proprietary Software maintenance Agreement). Issues reported by County which do not represent Defects are outside the scope of this SOW and shall be handled as part of the changes process under Article XIX of the Agreement. The decision to use the software in live production operations ("Go-Live") following user acceptance will be by mutual agreement of the parties if there are any remaining Level 1 and Level 2 Defects. The software will be deemed accepted upon Go-Live.

8. Compensation.

Compensation for Services performed under this Statement of Work No. 2 is set forth in Exhibit D. Invoices for fixed price deliverables will be paid in accordance with the payment schedule; invoices for time and materials Services will be submitted every other week, plus reimbursable expenses, based on actual hours expended during the prior period.

A. Payment for Firm Fixed Price Deliverables

- The schedule for completion of each required deliverable will be as mutually agreed by CGI and County in the Project Plan. Timely performance by CGI of its obligations may depend upon the timely delivery of certain deliverables from County, and vice versa.
- For purposes of determining the invoicing of Implementation Fees based on the Deliverables outlined in the table above in Section 6.E.2 (each a "Deliverable") that payment shall be due, once County has accepted the Deliverable in accordance with Section 7.
- CGI shall take commercially reasonable steps to notify County promptly whenever CGI knows that there has been a failure that might materially adversely affect CGI's ability to meet a completion date and resulting Deliverable. Both parties shall reasonably cooperate to seek to minimize any impact upon the schedule in the master project plan.
- In the case that a delay is reasonably determined by both parties to be unavoidable, CGI and County shall extend the impacted deadline through adjustment of the Project Plan by the period of time that is reasonably required for CGI to deliver its required deliverables or complete its tasks or meet its other obligations and permit CGI's completion of the Deliverable.

B. Payment for Time and Materials

- Time and Materials shall be billed at the agreed upon rate, and invoiced on a monthly basis.

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

- Invoicing shall clearly indicate Activity number as outlined in Section 6.E.1 above, total allocated hours, employee name, hours charged, and remaining hours per Activity.

C. Payment for Travel

- Prior authorization from the Pima County Project Manager or delegate is required for travel authorization to County site, unless CGI staff is local to Pima County in which case County shall not pay additional travel costs.
- Copies of airfare invoices shall be submitted to County. Per Diem shall be paid per the US Government standards for Tucson, Arizona per seasonal rates.
- Travel shall be invoiced as a separate line item, total allocated amount, employee name, airfare, per diem and car rental charged, and remaining travel expense amount.

9. Key Personnel.

Notwithstanding Article VI, Key Personnel, for purposes of this Statement of Work No. 2, the following CGI roles are designated as Key Personnel: Project Manager and Maximo Technical Lead.

Project manager shall have at least one year CGI project management experience and several years IT industry project management experience.

Other key personnel shall have at least one year experience with CGI ERP implementation experience.

In addition, County reserves the right to review personnel resumes prior to their assignment to the project for Time and Materials activities. In the event CGI personnel do not have the requisite skills to properly perform under this Statement of Work, County and CGI will address the resource issue, which may include, replacement of an individual.

10. Warranty.

Notwithstanding Article XX (Warranty) of the Contract, issues arising with the upgrade will either be addressed as part of Accelerate Services during the course of the project, Post-Upgrade support hours, or on-going maintenance, as applicable. For avoidance of doubt, CGI level of effort required to correct Defects in the baseline CGI Software licensed to County will be provided as part of maintenance.

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

11. Stop Work.

CGI may stop work under this SOW with three (3) days' written notice, but without penalty, if County is not able to meet, or delays meeting, its responsibilities hereunder preventing CGI from performing, including, without limitation, if County unreasonably delays or withholds acceptance of Deliverables, or fails to meet its payment obligations hereunder for undisputed invoices. In the event of a stop work, CGI and County will mutually agree to changes in the schedule of performance and available resources prior to CGI restarting work. CGI will be compensated for accepted Deliverables and all work in progress performed up through the effective date of the Stop Work on a Time and Materials basis.

- A. The Procurement Office may, at any time, by written order to CGI, require CGI to stop all, or any part, of the acquisition, construction, or installation work called for by this contract for a period of 90 days after the order is delivered to CGI, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, CGI shall, at County expense, immediately comply with its terms and take all reasonable steps to minimize the incurrence of cost allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work order is delivered to CGI, or within any extension of that period to which the parties shall have agreed, the Procurement Office shall either—
 - 1. Cancel the stop-work order; or
 - 2. Terminate the work covered by the order as provided in the Termination of Work clause of this contract.
- B. If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, CGI shall resume work. The Procurement Office shall make an equitable adjustment in the delivery completion schedule, the estimated cost, or both, and the contract shall be modified, by the parties in writing, accordingly, if—
 - 1. The stop-work order results in an increase in the time required for, or in CGI's cost properly allocable to, the performance of any part of this contract; and
 - 2. CGI asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Procurement Office decides the facts justify the action, the Procurement Office may receive and act upon a proposal submitted at any time before final payment under this contract.
- C. If a stop-work order is not canceled and the work covered by the order is terminated, the Procurement Office shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.
- D. An appropriate equitable adjustment may be made in any related contract of CGI that provides for adjustment and is affected by any stop-work order under this clause. County shall not be liable to CGI for damages or loss of profits because of a stop-work order issued under this clause.

12. Third Party Software Licenses

County is responsible for the creation of the CGI environments per Exhibit G – Proposed Server Environments. The third party licensing costs shall be based off of Exhibit G, with the exception of two additional licenses for Pervasive Data Integrator Universal Engine (2 Core) for Prod Integration Server and Non-Prod/UAT Integration Server, requested by the County, both of

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

which are not shown in Exhibit G. Internal auditing of the CGI infrastructure shall be performed quarterly by County and provided to CGI. As long as County builds the systems according to Exhibit G; County shall not incur additional charges beyond what is specified in Exhibit F – Deliverables and Activities Summary. The total agreed to cost is \$4,089,930.00.

Subject to the conditions above and through implementation of the project in this Statement of Work, CGI will manage all agreements with its third party vendors, including but not limited to IBM (Maximo* and WebSphere licensing) and SAP (Business Objects licensing). CGI is responsible for all costs associated with the licensing of CGI's proprietary software for use by County. CGI is responsible for any additional third party license fees resulting from audits, except to the extent of CGI's reliance on County-provided information, necessary for creation of Exhibit G, which changes, proves to be incorrect or incomplete, or the result of a change by the third party. With respect to IBM WebSphere Programs, in the event the use of such IBM Programs in the Development Environment is not complete within twelve (12) months of uploading them in that environment, such that following that twelve (12) month period County's use of the IBM Websphere Programs causes it to exceed the licensed amounts, CGI on behalf of County will request in writing an additional extension with regard to IBM's waiver of licensing fees for such use (Production and Development). The Twelve (12) month period shall begin after the initial system installation for the Accelerate delivery. Such extension must be pre-approved by IBM in writing.

* IBM Maximo is licensed on a per seat basis. CGI assumes no additional seats will be required by County to support this effort.

13. Limitation of Costs

CGI and County jointly estimate that performance of this Statement of Work will not cost County more than the estimated price specified in Exhibit F – Deliverables and Activities Summary. The total agreed to price is \$4,089,930. CGI agrees to use its reasonable, good faith efforts to perform the work specified in the Schedule and all obligations under this Statement of Work within the estimated price.

County is not obligated to reimburse CGI for costs incurred in excess of the estimated price specified in Exhibit F – Deliverables and Activities Summary. CGI is not obligated to continue performance under this Statement of Work (including actions under the Termination clause of the Agreement) or otherwise incur costs in excess of the estimated price specified in Exhibit F – Deliverables and Activities Summary, until the Board of Supervisors (BOS) notifies CGI in writing that the estimated price has been increased and provides a revised estimated total price of performing this Statement of Work. No notice, communication, or representation in any form other than that specified above, or from any person other than the BOS Clerk of the Board, shall affect this Statement of Work's estimated price to County. In the absence of the specified notice, County is not obligated to reimburse CGI for any costs in excess of the estimated price whether those excess costs were incurred during the course of the Statement of Work or as a result of termination.

Change orders shall not be considered an authorization to exceed the estimated price to County specified in Exhibit F – Deliverables and Activities Summary, unless they contain a statement increasing the estimated price.

Mod #	Application	Custom Modification Description
1	VSS	201012_VSS06_html - Modify HRM content, customize .CSS and Image files, Java code on VSS pages
2	FA	20110322_FA08_GISADD - Make Description 1,2&3 Fields GIS Address fields on the FA DOC page FA_DOC_COMM
3	AP	20110324_AP05_1099i - Enable attachments on 1099i table to allow electronic version of W-9
4	PB	20101110_PB16_PB_Extnsn - Disable Activity, Project and Activity Dimensions. Label Changes: DIM1=Appropriation Unit, DIM2=Program Period Code. Application Label Change to "Planning and Budget." Search result expanded to 2999 from 999
5	PB	20101206_PB20_PB_Extnsn - Expand position lines date range limit to 06/30/2015 from default 12/31/2013
6	PB	20101209_PB29_PB_Extnsn - Label change: DIM3=Phase
7	PB	20110106_PB45_PB_Extnsn - Short name fields in COA table records set to 15 characters from default of 12 characters
8	PB	20110202_PB49_PB_Extnsn - CIP Exit Gate/Milestones tab designed for CIP Request form.
9	PB	20110224_PB58_PB_Extnsn - SBFS salary projection decimal setting set to .0001
10	PB	20110404_PB69_PB_Extnsn - DIM4, DIM5, DIM6, DIM7, DIM8 turned off. Write-lock release setting applied. Budget Adjustment Order function turned off
11	FIN	20110816-MA-PO - Add attachment info for Standard attachments to MA and PO document data
12	AR	AR-1 - Service date field added to accounting line of RE document. Batch report to compare service date to date of invoice.
13	FIN	PROJ-1 - Debt Authorization Table, Debt Authorization field on Funding Line, Project Milestone Dates on Program Table, Addition of new fields to infoAdvantage
14	GLM	GLM-1 - Backport of ARRA Functionality
15	FIN	NEW - Custom Summarized Invoice Check Printing
16	FIN	NEW - Task Order Increase to 12 characters
17	FIN	NEW - Funding Profile Inference Table

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

Exhibit D – Compensation Schedule

- A. Retainage from SOW No. 01 - CGI will invoice County under SOW No. 01 for the balance of the outstanding retainage (\$375,641.50) thirty (30) days after project commencement. County shall pay such invoice within thirty (30) days of receipt.

Payment Milestone	Payment Amount
Activity 01A – Release of Retainage	\$375,641.50
<i>FIN-18 – Final Acceptance</i>	<i>\$ 65,012.00</i>
<i>Final Retainage</i>	<i>\$ 609,692.00</i>
<i>Payments Received 08/14/2014</i>	<i>\$ (299,062.50)</i>

- B. Fixed-price Deliverables – The following is a listing of fixed-price Deliverables that are payable upon acceptance by County in accordance with Section 7 of this SOW:

Deliverable	Description	Amount Payable
D01	CGI Accelerate – Environment Setup at CGI Location	\$200,000.00
D02	CGI Accelerate – Code Merge and Initial Data Upgrade	\$200,000.00
D03	CGI Accelerate – Test Execution Effort	\$200,000.00
D04	CGI Accelerate – Packaging and Delivery of Upgrade Package	\$200,000.00
D05	CGI Accelerate – Post Installation Patch Set	\$40,000.00
D06	Training – Core Team Familiarization Training on Advantage 3.10.0.1	\$80,000.00

All Deliverable payable amounts are exclusive of local taxes, and CGI will add any State and City taxes to invoice amounts, as applicable.

MA-PO-B507308-BC

STATEMENT OF WORK No. 2 (Revision 1)

- C. Time and Materials Activities – Notwithstanding Article XIV of the Contract, invoices for time and materials Services will be submitted monthly, plus reimbursable expenses, based on actual hours expended during the prior period at the following rates:

Labor Category	Hourly Rate
Project Manager	\$200.00
Subject Matter Expert	\$185.00
Technical/Functional Expert	\$185.00
Work Order Lead	\$235.00

CGI will report hours by Individual and by Activity on a monthly basis. All hourly rates are exclusive of local taxes and travel expenses. Any reimbursement for expenses, as allowed in the Contract and that are included in the invoice(s), must be supported with billings for such expenses. The receipts are not required to be attached but are subject to auditing by County if requested.

- D. Software Licensing Fees – The following is a listing of software licensing fees and the amounts under “Client Price, 1st Year Price are payable following installation onto the Pima server environments:

Advantage 3.X - Third Party Cost Summary - Pima County						
Vendor Products		Client Price				
	# or type of Licenses	License Price	Maintenance Price	Subscription Cost	1st Year Price	Ongoing Maintenance Cost
IBM WebSphere App Svr Network Deployment - Sub-Capacity	590	\$ 73,738.20	\$ -		\$ 73,738.20	\$ 14,676.25
Pervasive Data Integration Universal Engine - Prod	2 Cores	\$ 12,814.29	\$ 2,803.13		\$ 15,617.41	\$ 2,803.13
Pervasive Data Integration Universal Engine-Non-Prod (UAT)	2 Cores	\$ 10,678.57	\$ 1,401.56		\$ 12,080.13	\$ 1,401.56
PDI Pro Engine Upgrade Non Prod (UAT) - 2 Core - trade in existing	1	\$ -	\$ -		\$ -	\$ -
PDI Pro Design Studio Upgrade to 2 Core	5	\$ 5,571.43	\$ 4,921.88		\$ 10,493.30	\$ 4,921.88
RedHat JBoss w/ Management - Premium - Prod	4 Cores			\$ 2,813.13	\$ 2,813.13	\$ 2,813.13
RedHat JBoss w/ Management - Premium - Non Prod	4 Cores			\$ 2,813.13	\$ 2,813.13	\$ 2,813.13
Total Third Party Costs & Prices		\$ 102,802.49	\$ 9,126.56	\$ 5,626.25	\$ 117,555.30	\$ 29,429.06

Client Moving to BIRT - No cost to the client for this change

UPGRADE: Eclipse BIRT Engine - Production	2 core					
UPGRADE: Eclipse BIRT Engine - Non Production	2 core					
UPGRADE: Eclipse BIRT Engine - UAT Non Production	2 core					

**Maintenance for Adobe Present Central Pro and Adobe Present Output Designer will be cancelled upon BIRT Go-Live.*
