Contractor/Vendor Name (DBA): Achen-Gardner Construction, Inc.; B & F Contracting, Inc.; KE&G Construction, Inc.

Project Title/Description:

Job Order Master Agreement For Pima County Wastewater Conveyance and Related Facilities Maintenance, Repair, Rehabilitation and Construction Services.

Purpose:

Amendment of Award: Master Agreement No. MA-WW-13-303, Amendment No. Five (5). This amendment increases the master agreement authorized amount by \$4,000,000.00. The new authorized amount for this master agreement will be \$80,500,000.00.

This is an indefinite quantity, job order master agreement under which the contractor will provide all labor, materials, management, supervision, services, and coordination required to provide a full range of conveyance system maintenance, repair, rehabilitation, and construction services. For projects less than \$200,000.00, County may select a contractor based on availability, specialty, or other such basis. For projects of \$200,000.00 or more, the contractors will compete on the basis of price or price and schedule through a request for quotation.

Administering Department: Regional Wastewater Reclamation.

Procurement Method:

Pursuant to Solicitation for Qualifications No. SFQ 60517 this master agreement was originally awarded by the Board of Supervisors on December 18, 2012 in the amount of \$15,000,000.00 for a one-year term from 01/01/2013 to 12/31/2013. The award included four optional one-year renewals.

The following amendments were previously approved by the Board of Supervisors:

Amendment No. One (1) extended the termination date from 12/31/2013 to 06/30/2014 and increased the master agreement authorized amount by \$12,500,000.00 to \$27,500,000.00.

Amendment No. Two (2) extended the termination date from 06/30/2014 to 06/30/2015 and increased the master agreement authorized amount by \$25,000,000.00 to \$52,500,000.00.

Amendment No. Three (3) extended the termination date from 06/30/2015 to 06/30/2016 and increased the master agreement authorized amount by \$20,000,000.00 to \$72,500,000.00.

Amendment No. Four (4) extended the termination date from 06/30/2016 to 06/30/2017 and increased the master agreement authorized amount by \$4,000,000.00 to \$76,500,000.00.

Attachment: Amendment No. Five (5).

Program Goals/Predicted Outcomes:

This job order master agreement provides Regional Wastewater Reclamation Department the resources to provide construction related services for the repair, rehabilitation, re-construction and emergency responses to critical components within the public sewer conveyance system.

Public Benefit:

The resources provided address critical issues derived from the Conveyance System Assessment Program per requirements from Arizona Department of Environmental Quality (ADEQ) through compliance with the Capacity, Management, Operation & Maintenance (CMOM) plan. The Arizona Aquifer Protection Permit (APP) established the CMOM requirements for Arizona. Through CMOM, Regional Wastewater Reclamation Department is required to provide a system condition assessment of the entire conveyance system every 10 years. This assessment identifies structural and operational issues within the conveyance system. As structural conditions are discovered they are to be repaired or, at a minimum, identified and monitored until further degradation elevates to a point requiring repair. Regional Wastewater Reclamation Department operates the assessment program based on National Association of Sewer Service Companies (NASSCO) standards for condition ratings, i.e.; 1 - being good through 5 - being imminent failure.

Metrics Available to Measure Performance:

1. Monthly review of the contractor progress schedule of ongoing job orders with each job order contractor.
2. Maintenance of a job order management spreadsheet to track monthly and annual number of pipeline point repairs, pipeline Cured In Place Pipe (CIPP) liner installation, manhole repairs and miscellaneous job orders.
3. Monthly review of invoicing status per job order.
