How can car sales be essentially necessary places to be open? I understand the service department's being open for essential vehicles. But it is not essential to sell cars. They are a breeding ground for this virus. People getting in and out of vehicles for test drives. Not a good idea in my mind.

Thank you

Pat

Subject: For April 2nd meeting- County Employees at risk

This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Good morning-

I recently read through the Pima county facebook page that many employees are being sent home due to COVID19 concerns. However, it appears that the safety and health of our community as well as county employees are not fully being taken care of. Many Pima County Employees are still required to work in the office, without proper protection and safety, when their duties can be done from home. For example, employees in the Financial and Risk assessment department work on laptops and are working in close quarters. There is no reason why they cannot perform their job from the safety of their home (as recommended by the CDC). This is not acceptable. Why is there nothing being addressed for these employees who continue to go into the office? They are putting themselves and all of Tucson at risk for no valid reason.

Thank you,
Natalia Storie

Subject: Fw: Submit email comments for April 2 Pima County Board of Supervisors meeting

This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Would the board consider delaying the property tax payment due 5/1 given that many of us are no longer working full time?

thank you

Laura Malone

Subject: Protective gear

This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Most protective gear is now earmarked for government or hospital use.
Has the Board CONSIDERED purchase and then redistributing to the people who need them most. Seniors with underlying health conditions. Like me, 69 years, diabetic with heart problems.
I would pay for masks and gloves IF I had the chance in getting any that performed to minimum guidelines.

Please continue to limit social contact. Ignore Governor Ducey inexplicable exceptions and make recommendations using facts and figures from reliable sources. Religious gatherings carry the virus out to the community. They should be banned. They have a duty to their community outside their church. While I utilize salon services I will make any sacrifices to keep them safe from the virus, including gray roots. Why does Ducey care about this. Heard that his wife owns a number of salons. If true, she should be fined twice for abuse of power and lack of common sense. Thanks

Subject: Questions from Constituents for background for Item 4 of April 2, 2020 Agenda

Julie, Could you please add the following to the background material for Discussion on Item 4 on the agenda for April 2, 2020 meeting:

1. Several constituents have contacted me asking if Pima County will be extending the deadline for property taxes in the same way income tax filings have been extended?
2. Constituent who owns a construction company which is deemed essential contacted me to ask if employees on their way to work in their personal vehicles are required to carry any type of documentation showing they work for that company?

Subject: COVID-19

In the spirit of complying with the stay at home executive order, it should be made clear to all department heads that if an employee who is deemed to be "Essential," has the ability to perform their service duties from home, using county equipment and technology, they should be asked to stay home and telework. This could be either on an intermittent basis or for the entire 12 week protected period depending on the need to do field work as part of their duties and the length of the stay at home order.
