

BOARD OF SUPERVISORS AGENDA ITEM REPORT

Requested Board Meeting Date: May 19, 2020

Title: Palo Verde Road Speed Limit

Introduction/Background:

The Pima County Department of Transportation received a citizen request to review pedestrian activity on Palo Verde Road near Michigan Street. Pedestrian volume has increased in the area due to the opening of the Center of Opportunity/Gospel Rescue Mission.

Discussion:

Field observations were conducted at the location as part of a Road Safety Assessment in collaboration with the Pima Association of Governments and City of Tucson. High pedestrian volumes were observed crossing Palo Verde Road at Michigan Street to access the northbound bus stop. Pedestrians were also observed walking along the paved and unpaved shoulders of Palo Verde Road in the vicinity. There are two existing HAWK pedestrian crosswalks north of Michigan Street that serve the Tanque Verde Swap Meet. The existing speed limit for Palo Verde Road between Gas Road and Ajo Way is 40 mph. The Average Annual Daily Traffic (AADT) on Palo Verde Road at Michigan Street is 27,700 vehicles per day with a five-lane roadway cross-section.

Conclusion:

The Pima County Department of Transportation plans to install pedestrian safety corridor signage on Palo Verde Road on each approach to Michigan Street due to the field review and site conditions. As part of the establishment of the pedestrian safety corridor, the existing speed limit on Palo Verde Road between Gas Road and Ajo Way is recommended to be reduced from 40 mph to 35 mph.

Recommendation:

The Pima County Department of Transportation recommends Ordinance 2012-5 be repealed and the speed limit be reduced from 40 mph to 35 mph on Palo Verde Road from Gas Road to Ajo Way.

Fiscal Impact:

Minimal
